

# 14A Children's services — attachment

Definitions for the indicators and descriptors in this attachment are in section 14.7. Unsourced information was obtained from the Commonwealth, State and Territory governments. Data in this Report are examined by the Children's Services Working Group, but have not been formally audited by the Secretariat.

This file is available in Adobe PDF format on the Review web page (<http://www.pc.gov.au/gsp/2003/index.html>). Users without Internet access can contact the Secretariat to obtain these tables (see details on the inside front cover of the Report).

(a) Figures may change daily and are updated every six weeks following a National Childcare Accreditation Council meeting.

(b) The council continues to work towards accreditation with these centres.

(c) From 1 January 2002, new QIAS standards and processes came into effect. All centres meeting these standards now receive a standard two and a half years accreditation. All centres accredited under the old system have had their status transferred to the new system.

(d) From 1 January 2002, all centres that have not met the standards for accreditation are considered 'Not accredited' rather than 'Unaccredited'.

(e) From 1 January 2002, the process known as 'review' is called 'validation'.

– Nil or rounded to zero.

(a) Data include families receiving Childcare Assistance and the Childcare Rebate for formal care and preschool services, but not for informal care services.

(b) Total recurrent expenditure minus financial support to families.

(c) Data represent Childcare Assistance and the Childcare Rebate for formal care.

(d) The increase in expenditure is as a result of the revised attribution based on Centrelink activity based costing data (collected November 1999), which reflects current resources use differently from previous attribution data.

(e) The Australia total does not equal the sum of the individual State and Territory amounts because there is a component of 'other expenditure' that belongs to the Commonwealth and cannot be disaggregated by State and Territory.

(f) Expenditure unable to be disaggregated by State and Territory.

(g) Data include families receiving Child Care Benefit for formal and registered care services.

(h) Excludes miscellaneous payments because they represent ad hoc amounts paid to child care providers independent of the regular Child Care Benefit advance/acquit cycle that cannot be reported by service type or jurisdiction.

Represents the net amount paid to child care providers in 2001-02 following variations due to over-advances of Child Care Benefit. Net amount does not include any adjustments due to recovery of debts to the Commonwealth.

na Not available.

(a) Recognition threshold for revaluation of assets is \$50 000 for assets with lives of three or more years.

(b) Services currently report under a cash-based accounting system.

(c) DRC is the depreciated replacement cost; market value is the current (net) value market selling price or exchange value; and deprival value may be either the DRC of an asset of a similar service potential or the stream of its future economic benefits.

(d) Estimated as (1/depreciation rate).

(e) Asset lives for some assets have been grouped with other classifications.

(f) For some jurisdictions, office equipment includes furniture and fittings.

(a) Average attendance hours were derived by summing hours attended within each sector and dividing by the number of children who attended in the reference week (excludes allowable absences).

(b) Estimated from August 1996 and August 1997 Commonwealth Census of Child Care Services.

(c) Average days of attendance.

(d) At May 1999.

(e) Estimated from August 2000 Centrelink administrative data for Child Care Benefit eligible children attending Child Care Benefit approved services. Not directly comparable with other years data.

(f) Reported hours paid for.

(g) Estimated from May 2001 Commonwealth Census of Child Care Services. 'Other' includes Multifunctional children's services and Multifunctional Aboriginal children's services.

(h) Estimated from preliminary data from May 2002 Commonwealth Census of Child Care Services and thus subject to change.

(i) Outside school hours care replaces before school hours care and after school hours care, because these data can no longer be disaggregated.

(j) Excludes children attending neighbourhood model services for which data were not available.

(k) Includes Aboriginal play groups, in-home care, mobile and toy libraries, multifunctional Aboriginal children's services and multifunctional children's services.

na Not available. – Nil or rounded to zero. np Not published.

(a) Excludes children attending kindergartens for four year olds, provided by the Department of Education, who would otherwise be in child care.

(b) Estimated from August 1996, August 1997 and May 1999 Commonwealth Census of Child Care Services.

(c) Includes children in vacation care, which may result in double counting as a result of an overlap with outside school hours care. Children from Aboriginal play groups were not included because ages are not collected for these children. Data include a small number of children older than 12 years.

(d) Excludes children attending neighbourhood model services because this service type was not included in the 1999 Commonwealth Census of Child Care Services. Around 15 400 children attending neighbourhood model services were included in the total for 1997.

(e) Data based on Centrelink administrative data for Child Care Benefit eligible children attending Child Care Benefit approved services and thus cannot be directly compared to data collected in the Commonwealth Census of Child Care Services. There is no double counting where children attended more than one service.

(f) Estimated from preliminary data from May 2002 Commonwealth Census of Child Care Services, and thus subject to change. There is double counting where children attended more than one service in the Census week.

(a) FTE = Full time equivalent of staff working 38 hours a week.

(b) No information was available for Indigenous playgroups, mobiles, neighbourhood model and family day care schemes. These questions were not asked in the Commonwealth Census of Child Care Services.

(c) For family day care, Full time equivalent staff was interpreted as staff working 35 hours per week. It is not possible to determine whether a carer is an employee or a contractor — the situation differs within each State and Territory and between States and Territories.

(d) Estimated from preliminary data from May 2002 Commonwealth Census of Child Care Services, and as such is subject to change.

(e) No information was available for Aboriginal playgroups, mobile and toy libraries, and in-home care.

na Not available. – Nil or rounded to zero.

Occasional care	32.6	50.0	56.3	58.3	66.7	75.0	100.0	–	47.7
Other care	11.1	20.8	19.3	14.7	14.3	75.0	–	–	16.1

(a) Estimated from August 1995 and August 1996 Commonwealth Census of Child Care Services.

(b) Based on hours open or care provided during census week.

(c) Proportion of children attending nonstandard hours of care.

(d) At June 1998.

(e) Proportion of schemes providing nonstandard hours of care.

(f) At May 1999.

(g) Estimated from August 2000 administrative data for Child Care Benefit eligible children using Child Care Benefit approved services. Data for 2000 are not directly comparable with other years data because there are differences in collection methods.

(h) Estimated from preliminary data from May 2002 Commonwealth Census of Child Care Services, and thus subject to change.

(i) Outside school hours care replaces before school hours care and after school hours care, because these data can no longer be disaggregated.

**na** Not available. .. Not applicable. – Nil or rounded to zero.

(a) Disposable income calculations are based on 1 July 2002 tax and payment parameters. Calculations are modelled on dual-income couple families (60:40 income split) with one or two dependent children aged under five years.

(b) Out-of-pocket cost calculations are based on May 2002 average fees.

(c) Care needs to be exercised when interpreting results because a variety of factors may influence fees and the level may not be fully comparable across jurisdictions.

(a) Data provided by States and Territories complement the data collected by the Commonwealth Census of Child Care Services. The Commonwealth did not conduct a full Census of Child Care Services in 2000-01. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Commonwealth was also able to provide data. Items for which the States and Territories were not asked to provide data are marked **np**.

(b) This table counts the maximum licensed places per day (not week) for funded licensed child care services.

(c) For 2001-02 family day care is a licensed but not funded service. Children accessing these services are not included in table 14A.21.

(d) For 1998-99 data, occasional care places provided at services offering centre based long day care and occasional care are reported under centre based long day care. Places provided at services offering preschool and occasional care are reported under preschool. Data may therefore underestimate the total number of occasional care places.

(e) Includes multipurpose services only.

(f) Data for 1999-2000 and 2001-02 cannot be separated into children in the year immediately prior to the commencement of full time schooling and those who are younger.

(g) Preschool for children in the year immediately prior to the commencement of full time schooling.

(h) Data for 1998-99 relate to both Department of Community Services, and Department of Education and Training preschool services.

**na** Not available. – Nil or rounded to zero. **np** Not published.

(a) For 1998-99, 1999-2000, 2000-01 and 2001-02, NSW used a revised method of calculating the number of children receiving child care and preschool services. This new method of calculation will provide clear trend data for each age group of child care and preschool.

(b) Data for 1998-99, 1999-2000, 2000-01 and 2001-02 include estimates based on the rate of survey return for each year.

(c) Data are not comparable with data for other States and Territories.

(d) Data for 1998-99, 1999-2000, 2000-01 and 2001-02 include vacation care for 6–12 year olds only.

(e) Data for 1998-99, 1999-2000, 2000-01 and 2001-02 include children using preschool services.

(f) For 1998-99, 1999-2000, 2000-01 and 2001-02 the estimate of children attending preschool the year before full time schooling is the estimate of children aged four to five years 11 months in the child care services table above. Preschool programs are provided for children older than 4 years who attend both designated preschool services and other child care services.

(g) Data for 1998-99, 1999-2000 and 2000-01 include children aged four years and under using NSW Department of Community Services preschool services. Services providing both preschool and occasional care are also included.

na Not available. .. Not applicable. – Nil or rounded to zero.

(a) Data provided by States and Territories complement the data collected by the Commonwealth Census of Child Care Services. The Commonwealth did not conduct a full Census of Child Care Services in 2000-01. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Commonwealth was also able to provide data. Items for which the States and Territories were not asked to provide data are marked **np**.

(b) FTE = full time equivalent

(c) Includes child care and preschool services but excludes family day carers employed as employees or contractors.

(d) Primary contact staff include child care workers, early childhood teachers, teaching authorised supervisor and untrained child care workers. Other staff include child development officers, cleaner/maintenance, non-teaching authorised supervisors and cooks. Preschools include mobile preschools, preschools that are funded only, preschools, and preschools and occasional care. Other child care services include all children's services other than preschool services. Data on family day carers employed as employees or contractors are not available in this collection.

(e) Data on preschools are calculated for services that are designated preschools only. This does not relate directly to the number of children receiving a preschool program as reported in table 14A.21.

(f) Data are adjusted for the survey nonresponse rate.

(g) Part time positions are calculated based on a rate of 0.5 of an FTE position.

(a) 2001-02 figures are adjusted for the survey nonresponse rate.

(b) Data provided by States and Territories complement the data collected by the Commonwealth Census of Child Care Services. The Commonwealth did not conduct a full Census of Child Care Services in 2000-01. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Commonwealth was also able to provide data. Items for which the States and Territories were not asked to provide data are marked **np**.

(c) For 1998-99 and 2000-01 data, a Monday was chosen as the reference period for determining nonstandard hours. For 2001-02, Wednesday was chosen.

(d) For 1999-2000, data are for those services that operated more than 50 hours during the sample week.

(e) For 1997-98, data are for those services that operated more than 40 hours during the sample week.

(f) For 1998-99 data, the December vacation period was the reference period.

(g) For 1997-98, data include Department of Education and Training preschool services only.

(h) For 1997-98, data relate to occasional care services only. Data for 1998-99 and 1999-2000 relate to Department of Community Service children's services only.

(i) Data relate to children aged 0–14 years and were obtained from the ABS 1999 Child Care Australia survey.

(j) Data relate to children aged 0–14 years at June 1996 and were obtained from the ABS 1996 Census of Population and Housing.

Table 14A.25 **Access and equity indicators: Service availability during nonstandard hours and participation by target groups, New South Wales (a)**

(k) Data relate to children aged 0–14 years at June 1998 and were obtained from the ABS 1998 Survey of Disability, Ageing and Carers.

- (a) Real expenditure based on ABS gross domestic product (GDP) price deflator 2001-02 = 100 — see table A.19.
- (b) Administrative expenditure cannot be split by service type because the children's services program is administered as an integrated program at both regional and central office level. The administrative expenditure for 2000-01 was \$4 million (excluding on costs), which was 4.9 per cent of the total State expenditure on children's services. The administrative expenditure for 2001-02 was \$4 343 629 (excluding on costs), which was 4.85 per cent of the total State expenditure on children's services.
- (c) Includes expenditure on two Government budget initiatives: (1) Community Maintenance and Equipment Grants for community based long day care and out of school hours care services and (2) Capital Grants to Community Based Child Care Services.
- (d) Administration expenditure for 2000-01 and 2001-02 includes funding for the Koorie early childhood field officers, which was included under 'other expenditure on preschool service provision' in previous years.
- (e) Includes recurrent payments to service providers, payments for preschool staff leave entitlements, State funding for the Commonwealth Koorie Preschool Assistants Program and Statewide preschool support services.
- (f) A preschool fee subsidy of \$250 a year is provided to the holders of a Health Care Card or a Pensioner Concession Card, and parents of triplets and quadruplets.

(a) Data provided by States and Territories complement the data collected by the Commonwealth Census of Child Care Services. The Commonwealth did not conduct a full Census of Child Care Services in 2000-01. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Commonwealth was also able to provide data. Items for which the States and Territories were not asked to provide data are marked **np**.

(b) For 1997-98, data on child care places are at 27 April 1998. Data on preschool places are at 30 June 1999.

(c) A vacation care place was defined as providing a whole day of care. In 1997-98, vacation care places included 240 State funded places and 7185 block grant places.

(d) For 1998-99, data include 235 Adult and Community Further Education (ACFE) places and 78 State funded Take a Break places.

(e) For 2000-01, data include 8515 State Government funded preschool places for children in centre based long day care services. Data for 2001-02 include 9265 State Government funded preschool places for children in centre based long day care services.

(f) Victoria does not collect data on the number of hours used by individual preschool children.

All children using preschool services	%	93.7	94.5	96.5	96.6	98.2

- (a) In 1997-98, Victoria collected data on attendances of children at some vacation care, before school hours care and after school hours care, and occasional care services, not on individual children.
- (b) Data for 1998-99 to 2001-02 refer to funded ACFE services only and are based on a low response rate (around 70 per cent for 1998-99, 75 per cent for 1999-2000 and 2000-01, and 51 per cent for 2001-02). These data do not include Take a Break services as the Commonwealth contributes 70 per cent of the funding.
- (c) Data are for the number of children who attended a State funded preschool program in a range of settings, including stand-alone preschools and centre based long day care services during the sample week. Data for 1997-98 were current at March 1998. Data for 1998-99 were current at February 1999. Data for 1999-2000 were current at February 2000. Data for 2000-01 include 8515 children and data for 2001-02 include 9265 children attending preschool programs that receive State Government preschool funding in centre-based long day care services.

(a) Data provided by States and Territories complement the data collected by the Commonwealth Census of Child Care Services. The Commonwealth did not conduct a full Census of Child Care Services in 2000-01. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Commonwealth was also able to provide data. Items for which the States and Territories were not asked to provide data are marked **np**.

(b) No relevant formal qualification but with the equivalent of three years or more full time experience in a child care service.

(c) No relevant formal qualification and with fewer than three years full time experience in a child care service.

(d) Data do not distinguish on the basis of years of experience. Includes all staff without relevant formal qualifications. Excludes staff working in centre based long day care services that receive State Government preschool funding.

**na** Not available. – Nil or rounded to zero. **np** Not published.

(a) Data provided by States and Territories complement the data collected by the Commonwealth Census of Child Care Services. The Commonwealth did not conduct a full Census of Child Care Services in 2000-01. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Commonwealth was also able to provide data. Items for which the States and Territories were not asked to provide data are marked **np**.

(b) Refers to State funded services only. Data are not available on block grant funded services.

(c) Data for 1997-98 were at 27 April 1998.

(d) Refers to funded ACFE services only. Excludes State funded Take a Break services because they cannot be accurately counted. The data are based on a response rate of around 70 per cent.

(e) Victoria does not collect data on preschool service providers in receipt of State Government funding who offer nonstandard hours of care.

(f) Data for 1998-99 to 2001-02 refer to funded ACFE services only and are based on a low response rate (around 70 per cent for 1998-99, 75 per cent for 1999-2000 and 2000-01, and 51 per cent for 2001-02). These data do not include Take a Break (TAB) services where the Commonwealth contributes 70 per cent of the funding.

(g) Data refer to the number of children attending State funded preschool services, including those operating in centre based long day care services.

**Table 14A.34 Access and equity indicators: service availability during non standard hours and participation by target groups, Victoria (a)**

---

- (h) Data relate to children aged 0–14 years and were obtained from the ABS 1999 Child Care Australia survey.
- (i) Data relate to children aged 0–14 years at June 2001 and were obtained from the ABS 2001 Census of Population and Housing.
- (j) Data for 1998-99 and 1999-2000 refer to children attending funded preschools who had a developmental delay or disability or who had parents with a disability. Data for 2000-01 and 2001-02 refer to children attending funded preschools who had a developmental delay or disability.
- (k) Data relate to children aged 0–14 years at June 1998 and were obtained from the ABS 1998 Survey of Disability, Ageing and Carers.

<b>Total expenditure on child care and preschool services</b>	<b>137 375</b>	<b>148 810</b>	<b>164 054</b>	<b>129 598</b>	<b>113 736</b>

- (a) Real expenditure based on ABS gross domestic product (GDP) price deflator 2001-02 = 100 — see table A.19.
- (b) Historical data need to be used with caution. Refer to previous reports.
- (c) Data are based on activity based costing (an accrual accounting method) whereas they were previously based on cash accounting. This inflates the expenses from previous years because this model attributes regional and corporate expenses more comprehensively.
- (d) 1998-99, 1999-2000, 2000-01 data include administration expenditure involved in licencing kindergartens and administering the Young People's Activities Program (for 13–15 year olds). 1998-99 and 1999-2000 data have been revised to reflect the definitional changes for administration expenditure (which now includes non-salary expenditure).
- (e) Includes expenditure on non-fixed assets.
- (f) 1998-99 and 1999-2000 data include expenditure on the Outside School Hours Activities for Young People Program, which targets 13–15 year olds and some expenditure on kindergartens. Data for 2001-02 excludes \$743,168 which relates to grants for a young peoples program for 13-15 year olds, but includes expenses involved in administering funding of the young peoples program and licensing kindergartens.
- (g) In 2000-01, non-State schools derived \$3.9 million from funding provided in respect of preschool enrolments. It is the average of total preschool funding in 2000 and 2001. While schools are funded in respect of their preschool enrolments, there is no clear link between the funds provided and the actual expenditure on preschool services in schools. Schools receive these funds in aggregation with funds for primary and secondary students. Also the Queensland Government includes \$2.4 million depreciation on buildings used for the delivery of preschool programs. Capital usage charge at the rate of 6 per cent or \$10.2 million has been excluded.
- (h) In 2000-01 the Queensland Government provided approximately \$24.5 million of capital assistance to non-State schools. No details are available on the level of capital funds allocated specifically to preschool services. Data for 2001-02 are underestimated as they exclude expenditure by State and non-State preschools, but include Creche and Kindergarten Association pre-school expenditure. Capital assistance from Queensland Government to non-state schools amounted to \$26.4 million during 2001-02, but no details are available on which of these capital funds have been allocated specifically to preschool services, and therefore cannot be reported. These data include a component of DECKAS capital funding contribution reported by the Creche and Kindergarten Association for major and minor capital works of \$182,000 for community preschools and kindergartens.

(a) Data provided by States and Territories complement the data collected by the Commonwealth Census of Child Care Services. The Commonwealth did not conduct a full Census of Child Care Services in 2000-01. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Commonwealth was also able to provide data. Items for which the States and Territories were not asked to provide data are marked **np**.

(b) Centre based long day care, family day care and outside school hours care are included in the Commonwealth Census of Child Care Services.

(c) Historical data need to be used with caution. Refer to previous reports. The 2001-02 data for child care services are based on the 2001 Child Care Census data with response rates as follows: occasional care 90%, vacation care 35%, and other (RAATSICC licensed and unlicensed) 89%.

(d) Data for 1999-2000 were based on an average of seven of the 32 returns received.

(e) Data for 1998-99 relate to licensed capacity.

(f) Data for 1999-2000 were based on an average of 41 of the 59 returns received.

(g) Other child care (Remote Area Aboriginal and Torres Strait Islander Child Care [RAATSICC] program) are excluded because poor response rates in the Commonwealth Child Care Census mean the data will not be representative.

(h) Data for 1997-98, 1998-99, 1999-2000 are underestimated because the number of non-State preschool places are not available.

(i) Data for 2000-01 from non-State preschools include the total number of preschool enrolments in non-State schools as defined in the Queensland non-State school February census. The data underestimate the number of children being serviced and convey no concept of places used.

(j) Data for 2000-01 for kindergartens and pre-schools affiliated with the Creche and Kindergarten Association are based on an estimate of the licensed capacity by the number of relevant units.

Table 14A.38 **Characteristics of child care and preschool services not included in the Commonwealth Census of Child Care Services, Queensland (a), (b), (c)**

	<i>Unit</i>	<i>1997-98</i>	<i>1998-99</i>	<i>1999-2000</i>	<i>2000-01</i>	<i>2001-02</i>
(k)	Excludes a small number of licensed kindergartens that are not affiliated or in contact with the Creche and Kindergarten Association and do not receive Education Queensland funding.					
(l)	Includes a proportion of children attending Creche and Kindergarten Association services in mixed age group sessions (3–5 year olds).					
(m)	Data relate to children attending community kindergartens and preschools associated with the Creche and Kindergarten Association other than those in (l).					
(n)	In 2000-01 for non-State preschools, the actual hours are unknown. The Queensland non-State school February census defines a preschool enrolment as one where the child attends a minimum of 25 hours a fortnight. The minimum figure of 25 hours has been used to extrapolate total hours (minimum hours) and is an underestimate. For State pre-schools, the total hours of attendance is 12.5 hours per week. For services affiliated with the Creche and Kindergarten Association, averages are calculated.					
(o)	Data were based on the average hours for which the service operated rather than the actual hours used in the					
(p)	Data relate to community kindergartens only, based on the average hours for which the service operated rather than the actual hours used in the sample week.

All children using preschool services	%	92.4	96.2	98.2	100.0	100.5

(a) Historical data need to be used with caution. Refer to previous reports.

(b) Excludes children and staff using unlicensed services under the RAATSICC program.

(c) Data for 1998-99 relate to occasional care services only and were based on an average calculated by using data from 40 of the 66 services.

(d) Data for 1999-2000 were based on averages calculated from returns received from 7 of 32 funded vacation care programs and 41 of 59 funded occasional care (limited hours care) centres. Data for the 35 services funded under the RAATSICC program are based on incomplete data. Data for 2001-02 are based on the 2001 Child Care Census data with response rates as follows: occasional care 90%, vacation care 35%, and other (RAATSICC licensed and unlicensed) 89%.

(e) Data for 2000-01 non-State schools are an average of the enrolment data obtained in the 2000 and 2001 State census collections undertaken on the last Friday of each year. The State census defines a preschooler as a child who is four years of age and attending a preschool program (pre-year 1) for a minimum of 25 hours a fortnight. A number of schools have children attending for less than 25 hours a fortnight and these children are not recorded on the State census. Data for State schools are for students enrolled full time (sessional) in Queensland State preschools. For the Creche and Kindergarten Association, some children attend mixed age group sessions (3–5+ year age groups as distinct from specific 3–4 and 4–5+ year age groups). A portion of those in mixed age groups — that is all five year olds and 50 per cent of four year olds are included in the numbers for the year before full time school.

(f) Relates to children attending community kindergartens and preschools associated with the Creche and Kindergarten Association other than those referred to in (d).

na Not available. – Nil or rounded to zero.

(a) Historical data needs to be used with caution. Refer to previous reports.

(b) Child care data at 16 November 1999.

(c) Child care data at 30 June 2000.

(d) Child care data at 30 September 2000.

(e) Includes not-for-profit services provided by parents.

(f) Outside School Hours Care and Other services are not currently licensed.

(g) Services funded under the RAATSICC program are included in community based long day care centres and occasional care centres.

(h) Data for 2000-01 exclude six community based licensed kindergartens that are not affiliated or in contact with the Creche and Kindergarten Association and do not receive funding from Education Queensland.

(i) Includes non-State preschools. Data for 2000-01 for non-State preschools are based on the two year average of non-State schools with one or more preschoolers enrolled according to the two most recent census returns. There is no specific information available on the number of dedicated preschool centres or early education classes in these schools.

(j) Data for 2000-01 exclude five privately owned licensed kindergartens that are not affiliated or in contact with the Creche and Kindergarten Association and do not receive funding from Education Queensland.

(k) Data for 2000-01 exclude 11 licensed kindergartens that are not affiliated or in contact with the Creche and Kindergarten Association and do not receive funding from Education Queensland.

(l) Preschools aligned with State and non-State schools are not licensed or registered.

na Not available. .. Not applicable. – Nil or rounded to zero.

(a) Services not included in the Commonwealth Census of Child Care Services.

(b) Historical data needs to be used with caution. Refer to previous reports.

(c) Data provided by States and Territories complement the data collected by the Commonwealth Census of Child Care Services. The Commonwealth did not conduct a full Census of Child Care Services in 2000-01. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Commonwealth was also able to provide data. Items for which the States and Territories were not asked to provide data are marked **np**.

(d) Data for 1999-2000 were based on averages calculated from returns received from 7 of 32 funded vacation programs and 41 of 59 funded occasional care (limited hours care) centres. Data for the 33 services funded under the RAATSICC program are incomplete.

(e) Data for 1999-2000 and 2001-02 relate to the proportion of community kindergartens and preschools associated with the Creche and Kindergarten Association offering a licensed outside kindergarten hours care program.

(f) Data for 2000-01 and 2001-02 exclude non-State preschools. The State census of non-State schools does not obtain these details on a disaggregated basis. The total aggregated numbers of such students in the schools are available but not according to educational level.

**Table 14A.43 Access and equity indicators: Service availability during nonstandard hours and participation by target groups, Queensland (a), (b)**

	1997-98	1998-99	1999-2000	2000-01	2001-02
(g)	Child care data for 1997-98 represent the enrolments in a two-week vacation care period only. Underestimates the true figure because data were unavailable for other service types. Child care data for 1998-99 relate to occasional care services only and are based on averages calculated from 40 of 66 services. Data for 1999-2000 were based on averages calculated from returns received from 7 of 32 funded vacation programs and 41 of 59 funded occasional care (limited hours care) centres. Data for the 33 services funded under RAATSICC are incomplete.				
(h)	Data for 1999-2000 include non-State preschools. Data for 2001-2002 includes only community kindergartens and preschools associated with the Creche and Kindergarten Association.				
(i)	Data relate to children aged 0–14 years and were obtained from the ABS 1999 Child Care Australia survey.				
(j)	Data for 1997-98, 1998-99 and 2001-02 relate only to children attending community kindergartens and preschools associated with the Creche and Kindergarten Association.				
(k)	Data relate to children aged 0–14 years at June 1996 and were obtained from the ABS 1996 Census of Population and Housing.				
(l)	Data relate to children aged 0–14 years at June 1998 and were obtained from the ABS 1998 Survey of Disability, Ageing and Carers.				
(m)	Data for 2000-01 and 2001-02 State preschool students with disabilities are those students ascertained at levels 4, 5 and 6.				
(n)	The denominator used to estimate the proportion of children from this target group attending preschool in 2000-01 (51 771) excludes children attending non State preschools.

- (a) Historical data needs to be used with caution. Refer to previous reports.
- (b) Data include all complaints relating to legislative standards, because the data collection process does not allow differentiation between substantiated and unsubstantiated complaints.
- (c) Increases in numbers of substantiated complaints can be attributed to: (1) improved data management systems that record and track complaints on a monthly basis; (2) Increased use of services; and (3) Enhanced awareness in the community (including parents and students undertaking child care studies) about minimum child care standards and processes for making an investigating complaints.
- (d) Data for 2000-01 for complaints and injuries were collected between 1 June 2000 and 31 May 2001. Data for 2001-02 for complaints and injuries were collected between 1 June 2001 and 31 May 2002.
- (e) Outside school hour care and 'other' care services are not currently licensed.
- (f) Includes some complaints that were not substantiated, which may overstate the number of substantiated complaints.
- (g) It is departmental policy to respond to all complaints received relating to licensing standards, with the nature of the response depending on the seriousness of the complaint and relevant regional issues (such as location of the service).

(a) Real expenditure based on ABS gross domestic product (GDP) price deflator 2001-02 = 100 — see table A.19.

(b) All data have been calculated using information on the Financial System For Child Care Industry Support and Child Care Regulations Outputs.

(c) Administrative expenditure includes total costs — including superannuation, depreciation and leave accruals (all amounts are calculated on an accrual basis). Costs that have been attributed to these outputs through the financial system allocations module are shown as overheads. Overheads have been apportioned to salaries and non-salaries based on direct cost percentages.

(d) The allocation of overheads are determined by *Labour Time Allocation Surveys* conducted twice a year. The survey figures for 1999-2000 resulted in fewer overhead costs being attributed in that year.

(e) Service provision costs are calculated by subtracting Commonwealth funded Occasional care from direct Funding of Services obtained from the financial systems.

(f) Includes only Education Department of Western Australia funded preschools.

(g) The drop in WA expenditure for 2001-02 is because of the changes to the school entry age and the associated move to full time schooling for pre year one children.

.. Not applicable. — Nil or rounded to zero.

All children aged 0–12 years	no.	<b>341 884</b>	<b>342 278</b>	<b>342 193</b>	<b>341 224</b>	<b>346 837</b>
Proportion of 0–12 year olds residential population using State Government funded and/or provided child care						
0 to less than 6 years (5 year olds and younger)	%	na	na	na	na	na
6 to 12 years (6–12 year olds)	%	na	na	na	na	na
All children aged 0–12 years	%	na	na	na	na	na
Proportion of 5 year old residential population (for 1997-98 to 2000-01) using State Government funded and/or provided preschool services immediately before the commencement of compulsory full time schooling. For 2001-02 proportion is of four year old residential population.						
All children using preschool services (a)	%	80.9	79.5	77.1	77.7	69.8

(a) The number of younger children attending preschool in 2000-01 is roughly halved the number of 1999-2000 due to the change in the school entry age and the resulting half cohort. This half cohort will move progressively through the school system and the impact on the pre year one numbers can be seen in the 2001-02 results.

(a) Data provided by States and Territories complement the data collected by the Commonwealth Census of Child Care Services. The Commonwealth did not conduct a full Census of Child Care Services in 2000-01. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Commonwealth was also able to provide data. Items for which the States and Territories were not asked to provide data are marked **np**.

(b) FTE = full time equivalent.

(c) Data represent the total staffing for both kindergartens and preschools and assumes a 1:1 correspondence between staff and aides. Aides are classified as admin type people for the ABS *National Schools Statistics Collection*.

(d) For 2001-02 staff are not able to be separated between kindergarten and pre-primary and have been apportioned on the basis of student full time equivalent. The changes in the school entry age and the associated move to full time schooling for pre year one children has resulted in changes in the reporting of data.

(a) Data provided by States and Territories complement the data collected by the Commonwealth Census of Child Care Services. The Commonwealth did not conduct a full Census of Child Care Services in 2000-01. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Commonwealth was also able to provide data. Items for which the States and Territories were not asked to provide data are marked **np**.

(b) Preschools are encouraged to offer back-to-back preschool services to assist parents in country locations who would otherwise be unable to access preschool. The take-up rate is most significant in country locations where to limit access to one session per day over four days per week would make it impractical for children who travel long distances. In these situations children generally access their preschool entitlement of four sessions over two days as opposed to the usual four half days.

(c) The number of children in special needs categories are estimates only.

(d) Data relate to children aged 0–14 years and were obtained from the ABS 1999 Child Care Australia survey.

(e) Data relate to children aged 0–14 years at June 1996 and were obtained from the ABS 1996 Census of Population and Housing.

(f) Children with disabilities include children identified with a range of special needs, including emotional/behavioural needs, ADHD, developmental delay, and other health and/or medical conditions.

0 to less than 6 years (5 year olds and younger)	%	–	4.5	3.3	3.4	3.3
6 to 12 years (6–12 year olds)	%	–	–	–	0.3	0.2
<b>All children aged 0–12 years</b>	<b>%</b>	<b>7.5</b>	<b>2.0</b>	<b>1.5</b>	<b>1.7</b>	<b>1.5</b>
Proportion of 4 year old residential population using State Government funded and/or provided preschool services immediately before the commencement of compulsory full time schooling (g)						
All children using preschool services	%	88.0	85.5	97.7	100.9	106.3

(a) Data for 1997-98 and 1998-99 may include some Commonwealth funded services.

(b) Data for 1997-98 are based on responses by 75 per cent of services.

(c) Data for 1997-98 to 1999-2000 include some children attending vacation and occasional care services. Data for 1999-2000 exclude children in vacation care.

(d) Data for 2000-01 includes information from specific survey months on children in vacation care. One of the five Vacation Care services was closed for the 2000-01 survey period. Therefore the figures for six to 12 year olds would be higher if the statistics were taken at a different holiday period.

(e) For 2001-02, one of four Vacation Care services was closed during the period for data collection and therefore the data for 6-12 year olds are lower than if the data collection occurred during a different holiday period.

(f) Data for 1997-98 are at August 1997. Data for 1998-99 are at August 1998. Data for 1999-2000 are at August 1999 and include funded non-government preschool services. Data for 2000-01 are at August 2000.

(g) Percentages are distorted by the data for estimated residential population being six months out of sequence with the data for children using State Government funded and/or provided preschool services in year before full time school. Year before full time school includes a significant number of non-four year olds.

na Not available. .. Not applicable. – Nil or rounded to zero.

(a) Data provided by States and Territories complement the data collected by the Commonwealth Census of Child Care Services. The Commonwealth did not conduct a full Census of Child Care Services in 2000-01. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Commonwealth was also able to provide data. Items for which the States and Territories were not asked to provide data are marked **np**.

(b) Tasmania has only validated the data for 2000-01 and 2001-02.

(c) No relevant formal qualification but with the equivalent of three years or more full time experience in a child care service.

(d) No relevant formal qualification and with fewer than three years full time experience in a child care service.

(e) No relevant formal qualification but with the equivalent of three years or more full time experience in a preschool service.

(f) No relevant formal qualification and with fewer than three years full time experience in a preschool service.

**na** Not available. – Nil or rounded to zero. **np** Not published.

(a) Data provided by States and Territories complement the data collected by the Commonwealth Census of Child Care Services. The Commonwealth did not conduct a full Census of Child Care Services in 2000-01. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Commonwealth was also able to provide data. Items for which the States and Territories were not asked to provide data are marked **np**.

(b) Tasmania has only validated the data for 2000-01 and 2001-02.

(c) Relates to child care and preschool service providers not included in the Commonwealth Census of Child Care Services.

(d) Data were not available for special needs groups in 'vacation care services' for 2000-01. The figures for child care services are therefore slightly lower than would be expected.

(e) Preschool data for 1997-98 are at August 1997. Data for 1998-99 are at August 1998. Data for 1999-2000 are at August 1999. Data for 2000-01 are at August 2000.

(f) Data relate to children aged 0-14 years and were obtained from the ABS 1999 Child Care Australia survey.

(g) Data for 2000-01 relate to Indigenous students in government preschools only.

(h) Data relate to children aged 0-14 years at June 1996 and were obtained from the ABS 1996 Census of Population and Housing.

Table 14A.70 **Access and equity indicators: service availability during nonstandard hours and participation by target groups, Tasmania (a), (b)**

- (a) Real expenditure based on ABS gross domestic product (GDP) price deflator 2001-02 = 100 — see table A.19.
- (b) Data for 1999-2000 and 2000-01 include direct and indirect administrative expenditure associated with the administration of children's services. Indirect costs are costs which have been apportioned based on the Department's activity based costing model. The percentages apportioned vary and are based on generally accepted cost allocation principles.
- (c) Data for 1999-2000 and 2000-01 include full salary and non-salary expenditure. Non-salary expenditure includes depreciation, capital charge, repairs and maintenance. Full salary expenditure includes on-costs such as superannuation, workers' compensation, termination costs, leave entitlements and FBT. Data for 1997-98 and 1998-99 exclude salary on-costs and non-salary expenditure. Inclusion of non-salary costs may account for approximately \$981 000 of the increase between 1998-99 and 1999-2000. Inclusion of expenditure on salary on-costs may account for approximately \$269 000 of the increase between 1998-99 and 1999-2000.
- (d) The amount recorded under other expenditure on service provision has been amended because an amount of \$17 500 was transferred to Government expenditure on preschool services, other expenditure on service provision.
- (e) Data for 1999-2000 and 2000-01 include full-salary and non-salary expenditure associated with administration of preschool services. Non-salary expenditure includes depreciation, capital charge, repairs and maintenance. Full salary expenditure includes on-costs such as superannuation, workers' compensation, termination costs, leave entitlements and FBT. Data for 1997-98 and 1998-99 exclude salary on-costs and non-salary expenditure. Inclusion of non-salary costs may account for approximately \$2.7 million of the increase between 1998-99 and 1999-2000. Inclusion of expenditure on salary on-costs may account for approximately \$1.9 million of the increase between 1998-99 and 1999-2000.

(a) Data provided by States and Territories complement the data collected by the Commonwealth Census of Child Care Services. The Commonwealth did not conduct a full Census of Child Care Services in 2000-01. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Commonwealth was also able to provide data. Items for which the States and Territories were not asked to provide data are marked **np**.

(b) No sample week data are available for 1997-98 and 1998-99. For child care services, data represent best information based on the number of places and the number of hours available for each service type. For preschool services, data represent best information based on the number of places and the number of hours available for kindergartens three year olds.

(c) Data provided in 1997-98 were before cessation of block Commonwealth funding to the NT for vacation care.

(d) Data for 1997-98 at August 1997.

(e) Estimate based on the average sessional hours provided and the total number of children attending.

**na** Not available. – Nil or rounded to zero. **np** Not published.
