(a) Excludes 'Other territories'.

(b) Capital city areas were defined (DPIE and DSHS 1994) as State and Territory capital city statistical divisions. Other metropolitan areas were defined as other statistical subdivisions that included urban centres of population of 100 000 or more. Remote areas were defined in terms of low population density and long distances to associated large population centres. Rural areas included the remainder of non-metropolitan statistical local areas.
