

Errata – Report on Government Services 2006

The following amendment was made to the 2006 Report.

Chapter 5 – Police services

The real recurrent expenditure per person on road safety and traffic management datum relating to NT for the years 2004-05 has been revised. The revision affects attachment table 5A.56 and figure 5.39 in the 2006 Report. The revised table and figure are reproduced below.

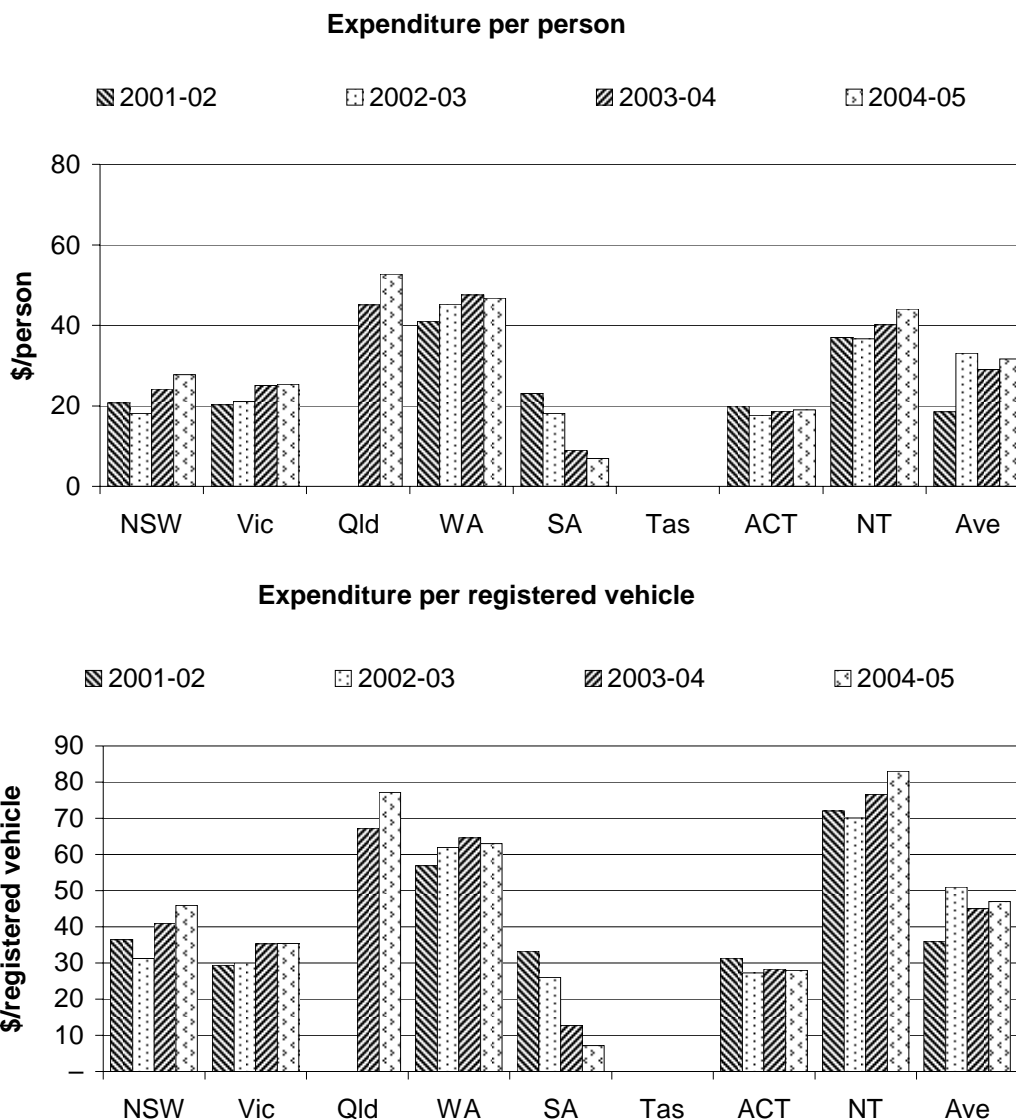

Table 5A.56 **Real recurrent expenditure (less revenue from own sources and payroll tax) per person on road safety and traffic management (2004-05 dollars) (a), (b), (c)**

	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA (d)</i>	<i>Tas</i>	<i>ACT</i>	<i>NT</i>	<i>Ave (e)</i>
Total net recurrent expenditure (excluding payroll tax) per person in the residential population									
2001-02	21	20	na	41	23	na	20	37	19
2002-03	18	21	44	45	18	na	18	37	33
2003-04	23	25	45	48	9	na	19	40	29
2004-05	28	25	53	47	7	na	19	44	32
Total net recurrent expenditure (excluding payroll tax) per registered vehicle									
2001-02	36	29	na	57	33	na	31	72	36
2002-03	31	30	67	62	26	na	27	70	51
2003-04	40	35	67	65	13	na	28	77	45
2004-05	46	35	77	63	10	na	28	83	47

- (a) Data have not been subject to extensive tests to determine comparability. Further, some differences in counting rules may exist across jurisdictions as a result of the differing mixes of activities undertaken within each of the common SDAs.
- (b) Totals may not add as a result of rounding.
- (c) Calculated by multiplying the proportion of expenditure on salaries and payments for each service delivery area by the total payroll tax expenditure.
- (d) For SA, total recurrent expenditure on road safety and traffic management increased slightly in 2003-04. However, the net recurrent expenditure has reduced as a result of \$14.9m, that was previously part of appropriation, now reflected as additional revenue from own sources (Community Road Safety Fund). This represents a change in funding arrangements. Total recurrent expenditure on road safety and traffic management also increased in 2004-05. However, net recurrent expenditure reduced as a result of additional revenue from own sources (\$4.6m) Community Road Safety Fund).
- (e) Represents the weighted average of those jurisdictions that provided data.
- na** Not available.

Errata – Report on Government Services 2006

The following amendment was made to the 2006 Report.

Attachment 9 — Public hospitals

Some historical ‘elective surgery waiting times by clinical urgency category’ data relating to Victoria for the years 1999-2000 and 2002-03 have been revised. The revisions affected attachment table 9A.21. The revised table is reproduced below.

Table 9A.21

Table 9A.21 Victorian elective surgery waiting times by clinical urgency category, public hospitals (per cent) (a), (b)

	1999-2000	2000-01	2001-02	2002-03	2003-04
Per cent of patients on waiting lists with extended waits (c)					
Category 1 (over 30 days)	–	0.1	–	–	0.1
Category 2 (over 90 days)	38.1	44.2	42.8	39.1	43.3
Category 3 (over 12 months)	37.3	30.0	29.6	27.1	24.8
All patients	37.0	34.5	33.8	31.1	31.8
Per cent of patients admitted from waiting lists with extended waits					
Category 1 (over 30 days)	0.0	0.1	–	–	–
Category 2 (over 90 days)	18.4	22.2	21.0	20.5	20.4
Category 3 (over 12 months)	9.4	9.8	9.7	8.8	7.5
All patients	12.1	13.9	12.9	12.4	11.9
Waiting time data coverage					
Per cent of acute admissions	73.2	72.1	72.4	73.5	79.8

(a) Waiting time counted as time waited in most recent urgency category plus time waited in more urgent categories. However, if a patient has increased then decreased in urgency twice (e.g. 3 to 2 to 3 to 2), only time from the most recent increase will be counted.

(b) There is no specified or agreed desirable wait for category 3 patients, so the term 'extended wait' is used for category 3 patients waiting longer than 12 months for elective surgery, as well as for category 1 and 2 patients waiting longer than the agreed desirable waits of 30 and 90 days respectively.

(c) Data show patients on the waiting list at 30 June 2000, 2001, 2002, 2003 and 2004.

– Nil or rounded to zero.

Errata – Report on Government Services 2006

The following amendment was made to the 2006 Report.

Attachment 15 – Protection and support services

Some historical population data relating to Victoria for the years 2000-01 to 2003-04 have been revised. The revisions affected the following attachment tables:

- Table 15A.25 – Target population data used for annual data, December ('000)
- Table 15A.47 – Children in notifications, investigations and substantiations and children on care and protection orders: Number and rate per 1000 children in the target populations by Indigenous status, Victoria

The revised tables are reproduced below.

--	---------	---------	---------	---------	---------

(a) Rates of children in notifications, investigations and substantiations were calculated as the number of children aged 0–16 years in each category (including those whose age was not stated) divided by the estimated population of children aged 0–16 years at 31 December, multiplied by 1000. For Indigenous children, the June projections for two years were averaged to obtain a population figure for December of the relevant year.

(b) Rates of children on care and protection orders were calculated as the number of children aged 0–17 years (including those whose age was not stated) who were on a care and protection order at 30 June, divided by the estimated population aged 0–17 at 31 March, multiplied by 1000.

(a) 4 March.

(b) Includes only income units paid CRA under the Social Security Act 1991 or with Family Tax Benefit in the proceeding fortnight who were still entitled to assistance at the end of that fortnight. Excludes a small number of income units paid where income details are incomplete.

(c) Income units classified as Indigenous if either partner self-identifies as an Aboriginal or Torres Islander.

(d) Income units are classified as receiving Disability Support Pension if either the recipient or partner receive DSP.

(e) Rest of State includes unidentified localities, Australia includes other territories and unknown addresses.

(f) See Glossary for explanation of how proportion of income spent on rent is calculated.
