(a) Includes other territories.

(b) Data are reported for both financial and calendar years, and are based on the average of quarterly estimates. For financial year estimates the data represent the average of the four quarters ending on 30 June of the financial years. For calendar year estimates, the data represent the average of the four quarters ending on 31 December.

(c) Financial year data for 2003-04 are based on the average quarterly population estimates for September 2003 to March 2004 and the series B (middle) population projections for 30 June 2004.

(d) AAGR = average annual growth rate over 5 years. See section A.5 Statistical Concepts used in the Report for details on the estimation method.

(a) Jurisdictions do not add to total because data for Australia include pensions paid to people living overseas and where valid geographic data were not available.

(b) Point in time data which will not match average of weekly data, which includes people who receive a nil rate of payment.

(c) Aged pensioners are defined as people receiving full or part age pension, excluding associated wife's or carer's pension.
