
A Detailed estimates of Australian Government budgetary assistance

Each year, the Commission calculates estimates of the Australian Government's budgetary assistance to industry and reports on the incidence of budgetary assistance. Prior to 2000, estimates had been reported only at the sectoral level — that is, for primary production, mining, manufacturing and services. To provide more detailed information on the incidence of this assistance, in 2000 the Commission disaggregated its estimates for the manufacturing and services sectors into 11 and 14 industry groupings, respectively. In 2002, further detail was provided by disaggregating the estimates for the primary production sector into 10 industry groupings. The Commission now reports estimates for 35 industry groupings (plus four 'unallocated' groupings).

The methodology used to allocate budgetary assistance to these industry groupings has been described in Methodological Annexes to previous editions of the *Trade & Assistance Review* (PC 2000a, PC 2002a and PC 2006a). For the estimates in this edition, the Commission has made new allocations for a number of new programs, for which expenditure first occurred in 2006-07. These allocations are listed in the Methodological Annex accompanying this edition of the *Review*.

The tables in this appendix contain detailed estimates of budgetary assistance to each industry grouping from 2001-02 to 2006-07. For each grouping, information is provided on:

- The programs classified as assisting the grouping and the extent of that assistance; and
- The activity that each program assists — such as exports and R&D.

The estimates are derived primarily from the Australian Government's budget papers, departmental annual reports and the Australian Treasury's Tax Expenditures Statements (TES). The estimates incorporate revisions to outlays and tax concessions for previous years.

Total Budgetary assistance	1015.6	1402.2	1358.7	1295.8	1451.4	1794.8

* Nil. Figures may not add to totals due to rounding. ^a The estimates are derived primarily from Australian Government budget papers, departmental annual reports and Treasury's Tax Expenditure Statements. The budget paper estimates are 'estimated actuals'. ^b The estimates reported in this section are net National Interest Business outlays. These payments are insurance pay-outs. Because any difference between the National Interest Business scheme's borrowing and lending rates is underwritten by the Australian Government, the scheme may provide assistance to agricultural exporters. However, net National Interest Business outlays provide only a weak indication of any assistance provided. ^c Excludes assistance derived from NSW statutory marketing arrangements for rice, which the Commission categorises as 'agricultural pricing and regulatory assistance' rather than budgetary assistance. The Commission estimates that assistance derived from the rice marketing arrangements totalled \$4 million in 2005-06. The arrangements ended on 1 July 2006. ^d Does not include funding provided under the Australian Government's Dairy Industry Adjustment Package, which has been included in the estimates of 'agricultural pricing and regulatory assistance' reported in recent *Reviews*. The Commission estimates that the package provided dairy farmers remaining in the industry with assistance totalling \$124 million in 2006-07. ^e Does not include funding of \$18 and \$9 million in 2002-03 and 2003-04, respectively, provided under the Australian Government's 2002 Sugar Industry Reform Program. This assistance has been included in the estimates of 'agricultural pricing and regulatory assistance'.

Sources: Commonwealth Budget and Budget related papers (various years); departmental annual reports (various years); Treasury 2008; Bishop 2007; departmental data; Commission estimates.

* Nil. Figures may not add to totals due to rounding. ^a The estimates are derived primarily from Australian Government budget papers, departmental annual reports and Treasury's Tax Expenditure Statements. The budget paper estimates are 'estimated actuals'. ^b Data provided by DITR indicates that, while most (>95%) assistance provided under the Automotive Competitiveness and Investment Scheme is received by businesses in the *Motor vehicles and parts* industry, there is also some assistance to businesses in other industry groupings.

Sources: Commonwealth Budget and Budget related papers (various years); departmental annual reports (various years); Treasury 2008; Bishop 2007; SELC 2005, p. 27; departmental data; Commission estimates.
