(b) Places do not include those that have been approved but are not yet operational.

(c) This table differs from table 12A.12, which refers to residents.

(d) Multipurpose and flexible services included for 1999–2002.

(e) Government planning targets are based on providing 100 places per 1000 people aged 70 years and over. However, in recognition of poorer health among Indigenous communities, planning in some cases also takes account of the Indigenous population aged 50–69 years. This means that the provision ratio based on the population aged 70 years and over will appear high in areas with a high Indigenous population (such as the NT).

(a) At 30 June.

(b) Reports only people who are recorded as Indigenous.

(c) Includes flexibly funded and pilot Aboriginal and Torres Strait Islander projects (314 places in 1999; 356 places in 2000; 390 places in 2001; 411 places in 2002).

(d) Indigenous population estimates based on ratios from unpublished ABS data from the 2001 Census applied to ABS Population Projections by SLA 1999-2019 (unpublished).

(e) The ACT has a very small Indigenous population aged over 50 years and a small number of CACP packages will result in a very high provision ratio.

- (a) Only new residents entering residential care post-October 1997 are eligible for either a concessional or assisted resident supplement.
- (b) Concessional residents are those who, on entry to care, were in receipt of an income support payment, who had not owned a home in the last two years, or whose home was occupied by a spouse or carer, and who had assets of less than \$26 500. For married residents, half the couple's combined assets are counted. Assets include interest-free loans. Assisted residents have asset levels between \$26 500 and \$42 000. The asset levels are at 30 June 2002.

(a) The number of services differs from that shown in other tables because the time period is different and in a number of cases the Aged Care Standards and Accreditation Agency (ACSAA) treated co-located services as a single entity.

(b) Note that 'accreditation status' shows the decision in effect at the 30 June 2003. The figures in this table will not necessarily agree with the accreditation decisions made in 2002-03, because those decisions may not yet have taken effect, or may have been superseded. For example, in the case of the three homes that received a decision to accredit for four years, only one home's decision was in effect as at 30 June 2003; of the two decisions not to accredit, one home closed and one was accredited after a further application for accreditation.

(a) DVA became responsible for the subsidy for most categories of veterans in residential aged care facilities, including Gold and White card holders, following the 1997 reforms of the Residential Aged Care Program. Prior to these reforms DVA held the appropriation for limited categories of veterans and war widows in nursing homes, but not in hostels.

(b) DVA incorporates NT information in SA figures and ACT in NSW figures.

- (a) One veteran can be approved for more than one service type, so the total is not the sum of each service type. The total counts each veteran only once.
- (b) Note that the Veterans approved for VHC Services and the Average number of hours approved per year for non-transitional veterans relates to services that were approved to occur in 2002-03. The number of recipients and average hours actually provided will be lower.
- (c) VHC recipients fall into two categories, those veterans who transferred to VHC from the HACC program (transitional veterans) and those that did not (non-transitional veterans).
- (d) VHC expenditure relates to payments made in 2002-03 and includes the cost of services provided in 2001-2002, but claimed during 2002-03 and does not include the cost of 2002-03 services not claimed by providers during 2002-03.
- (e) Expenditure data is current at 30 June 2003. All other data is current at 20 September 2003.

- (a) **Objective:** to provide comprehensive multidisciplinary assessment of needs of frail older people, including delegated authority to approve people for Australian Government subsidised care through residential aged care, Community Aged Care Packages and flexible care. Funded through Australian Government grants to State and Territory Governments that operate 129 Aged Care Assessment Teams (ACATs) and Evaluation Units.
- (b) **Objective:** to support ACATs in rural areas to assess the special needs of people with dementia. Funding through Australian Government grants to State and Territory Governments.
- (c) **Objective:** to provide high level care at home as an alternative to high level residential care. Australian Government only funded.
- (d) **Objective:** to assist people with complex care needs who otherwise are eligible for low level residential care to remain in the community. Australian Government only funded.
- (e) **Objective:** to provide one-off assistance in the form of a grant to help Care Package Providers establish the administrative infrastructure for package care.
- (f) **Objective:** to evaluate the effectiveness of personal alert systems for frail older people living in the community. Currently a pilot program.

Table 12A.49

- (g) **Objective:** to assist financially disadvantaged older people who are renting or who are homeless to access both community care and accommodation.
- (h) **Objective:** to provide support for carers of the frail aged and people with disabilities, through the provision of information, advice, coordination and delivery of respite care services.
- (i) **Objective:** to assist older people to maintain or recover functional independence, through the provision of therapy services to allow them to remain in the community or in low level residential care. Funding is Commonwealth only.
- (j) **Objective:** to raise the quality of care for residents with dementia and challenging behaviours, through expert assessment, diagnosis, advice and support services. Commonwealth grants to State/Territory Governments.
- (k) **Objective:** to provide information and referral services for people with dementia and their carers. Includes a 24-hour National Dementia Hotline.
- (l) **Objective:** to provide information and support for carers of frail aged and people with a disability to assist them in their caring role. Note the National Commonwealth Carer Resource Centre receives \$100 000, however it cannot be attributed to the States and Territories
- (m) **Objective:** to provide a single point of information about the range of community, aged and disability services. Includes 65 Centres.
- (n) **Objective:** to prevent the development of continence problems through prevention and health promotion, to improve the treatment and management of incontinence in older people. Includes approximately 70 funded projects, including a National Continence Helpline.

(a) The high cost for each assessment in the NT may be influenced by the remoteness of people requiring assessments, clients having English as a second or third language and a lack of supporting health and community services infrastructure to assist with assessments.

(b) Cost per assessment will include clients aged less than 70 years.
