Re: INQUIRY AUGUST FOUR

As requested existing use rights of extraction of gravel from creek bed.

I will be forwarding a submission on previous use of extraction downstream of my property at a later date.

I have high lighted the fact that the Bega Valley Shire Council recognises existing use rights to Betangabee Creek and its environs.

Yet confirmed in the [attached letter] as to me appears to cover all the mentioned portions of other extractions.

I will in my submission show wrong doing of extraction in the creek below my property and the damage the continuous use has done upstream on my property and its biodiversity and ecosystems.

Regards, Len Wheatley

Att: Correspondence from Bega Valley Shire Council re 'Existing Use Rights For Extraction of Gravel' (3 March 1992).
