

Dear Commissioners,

I am a sailor, and an amateur radio operator with a U.S. general operators license. The Winlink 2000 e-mail network is very helpful to me in keeping in touch with family and friends. It's also helps in the safety arena with the very useful position reports.

I highly endorse this network. It works, it's run by amateur operators, and it is free to the user.

Thanks for your attention.
