Hi

My wife and I sail a 34 foot yacht from Geelong. We have cruised extensively in Bass Strait and intend to explore the East Coast of Australia and perhaps the South Pacific. We would welcome the opportunity to use Winlink 2000 and would appreciate it if you could consider this in your review.

I'm not sure whether your review covers monitoring of UHF and HF frequencies by the five coast stations around Australia, but we would feel much less safe if Melbourne Radio were to disappear.

Many thanks  
Phil and Marg Armitage
