

To Mr. Van-Vugt, and to others he may forward this to:

I understand Anthony Van-Vugt is trying to operate a Ham radio link to the Internet in Australia. If so, I heartily support this. This link is a very great service to mobile amateur radio operators world wide, especially sailors on passage which I am.

If this submission request is to add my name to a petition, please do so. I am in Panama, heading west across the Pacific, and hope to one day be able to access email through a Ham operator in Australia.

My name is Lester Litton

My call sign is: KC8SED

My boat name is Surrender

My email addresses are: xxxxx@winlink.org

and: surrender42w@yahoo.com

I hope this helps.

Lester Litton
