### **Productivity Commission Review of Remote Area Tax Concessions and Payments**

The Northern Territory Opposition welcomes the opportunity to participate in the inquiry into Remote Area Tax Concessions and Payments. The Remote Area Tax Concessions and Payments Review is of paramount importance to the Northern Territory.

On behalf of Territorians the Northern Territory Opposition believes that the current system of Remote Area Tax Concessions and Payments is working effectively and should be indexed and increased if there is to be any change. Those seeking to move away from the current model have yet to demonstrate clear evidence of a more certain, efficient, effective, or equitable model. For this reason, among others, we request that there be no change to the current framework.

The Territory Opposition will continue to push for greater incentives for people to live, work, and invest in the Territory.

Should you wish to discuss any of these matters further, please do not hesitate to contact my office. The Northern Territory Opposition thank you for the important work you are doing for Australia.

Yours sincerely

**Gary Higgins**
