Dear Commissioners Abramson and Lindwall

Thank you for the opportunity to provide a submission on the Productivity Commission's Right to Repair Inquiry.

Green Industries SA (GISA) is a statutory corporation in the South Australian Government. Our vision is to drive the world's most successful circular economy, building on South Australia's achievements in waste management and resources efficiency.

The principles of the circular economy are the guiding ethos of GISA through our establishing legislation (the *Green Industries SA Act 2004*). GISA's other principles are the waste management hierarchy, ecologically sustainable development, and that best practice methods and standards should be pursued in waste management and the efficient use of resources.

Further information on GISA can be found on our website here - www.greenindustries.sa.gov.au.

Please find enclosed GISA's submission to the inquiry. It provides an overview of the global, national and state policy context relating to waste and e-waste in particular, including *South Australia's Waste and environment protection legislation*, as well as case studies related to repair in *Strategy 2020-25* the state.

If you require any further detail or clarification on GISA's submission, please contact Ian Harvey, Director Strategy and Policy, or Sharon Ede, Senior Adviser, Strategy Policy and Programs.

Yours sincerely

Vaughan Levitzk PSM
Chief Executive
Green Industries SA

Date: 11.2.21
