(a) At 30 June; includes high care residential, low care residential, EACH packages and CACPs.

(b) Places do not include those that have been approved but are not yet operational.

(c) This table differs from table 12A.12, which refers to residents.

(d) Multipurpose and flexible services included for 1999–2004.

(e) Government planning targets are based on providing 100 places per 1000 people aged 70 years and over. However, in recognition of poorer health among Indigenous communities, planning in some cases also takes account of the Indigenous population aged 50–69 years. This means that the provision ratio based on the population aged 70 years and over will appear high in areas with a high Indigenous population (such as the NT).

- (a) Not all HACC agencies were required to undergo external assessment and some are exempt, therefore the number of HACC agencies may be higher than those listed above.
- (b) Data in this table are preliminary and may be revised in the future.
- (c) HACC service standards appraisals operate on a three year cycle with the first cycle finishing in June 2004.
- (d) The number of WA agencies appraised is lower than expected because some agencies have been amalgamated.
- (e) SA has an additional 21 exempt agencies.
- (f) Two agencies were exempt from the appraisal process in Tasmania.

(a) DVA became responsible for the subsidy for most categories of veterans in residential aged care facilities, including Gold and White card holders, following the 1997 reforms of the Residential Aged Care Program. Prior to these reforms DVA held the appropriation for limited categories of veterans and war widows in nursing homes, but not in hostels.

(b) DVA incorporates NT information in SA figures and ACT in NSW figures.

(a) **Objective:** to provide comprehensive multidisciplinary assessment of needs of frail older people, including delegated authority to approve people for Australian Government subsidised care through residential aged care, Community Aged Care Packages and flexible care. Funded through Australian Government grants to State and Territory Governments that operate 129 Aged Care Assessment Teams (ACATs) and Evaluation Units.

(b) **Objective:** to support ACATs in rural areas to assess the special needs of people with dementia. Funding through Australian Government grants to State and Territory Governments.

(c) **Objective:** to provide high level care at home as an alternative to high level residential care. Australian Government only funded.

(d) **Objective:** to assist people with complex care needs who otherwise are eligible for low level residential care to remain in the community. Australian Government only funded.

(e) **Objective:** to provide one-off assistance in the form of a grant to help Care Package Providers establish the administrative infrastructure for package provision.

Table 12A.49

- (f) **Objective:** to evaluate the effectiveness of personal alert systems for frail older people living in the community. Currently a pilot program.
  - (g) **Objective:** to assist financially disadvantaged older people who are renting or who are homeless to access both community care and accommodation. Former pilot program.
  - (h) **Objective:** to provide support for carers of the frail aged and people with disabilities, through the provision of information, advice, coordination and delivery of respite care services.
  - (i) **Objective:** to assist older people to maintain or recover functional independence, through the provision of therapy services to allow them to remain in the community or in low level residential care. Funding is Commonwealth only.
  - (j) **Objective:** to raise the quality of care for residents with dementia and challenging behaviours, through expert assessment, diagnosis, advice and support services. Commonwealth grants to State/Territory Governments.
  - (k) **Objective:** to provide information and referral services for people with dementia and their carers. Includes a 24-hour National Dementia Hotline.
  - (l) **Objective:** to provide information and support for carers of frail aged and people with a disability to assist them in their caring role. Note the National Commonwealth Carer Resource Centre receives \$100 000, however it cannot be attributed to the States and Territories.
  - (m) **Objective:** to provide a single point of information about the range of community, aged and disability services. Includes 65 shopfronts and a national 1800 number.
  - (n) **Objective:** to prevent the development of continence problems through prevention and health promotion, to improve the treatment and management of incontinence in older people. Includes approximately 70 funded projects, including a National Continence Helpline.
