

3A Children's services — attachment

Definitions for the indicators and descriptors in this attachment are in section 3.6 of the chapter. Unsourced information was obtained from the Australian, State and Territory governments. Data in this Report are examined by the Children's Services Working Group, but have not been formally audited by the Secretariat.

This file is available in Adobe PDF format on the Review web page (www.pc.gov.au/gsp). Users without Internet access can contact the Secretariat to obtain these tables (see details on the inside front cover of the Report).

Attachment contents

All jurisdiction data

Table 3A.1	Estimated resident population, children aged 12 years and younger ('000)
Table 3A.2	Progress in the Quality Improvement and Accreditation System, Family Day Care Quality Assurance, and Outside School Hours Care Quality Assurance, Australia (number)
Table 3A.3	Australian Government real expenditure on children's services (2006-07 dollars) (\$'000)
Table 3A.4	Total government real expenditure on children's services (2006-07 dollars) (\$'000)
Table 3A.5	State and Territory Government real expenditure on child care and preschool services (2006-07 dollars) (\$'000)
Table 3A.6	Comparability of expenditure — items included, 2006-07
Table 3A.7	Treatment of assets by children's services agencies, 2006-07
Table 3A.8	Places provided by Australian Government approved child care services (number)
Table 3A.9	Children aged 0–12, average attendance at Australian Government approved child care services
Table 3A.10	Children aged 0–12 years using Australian Government approved child care services
Table 3A.11	Children aged 0–5 years using State and Territory Government funded and/or provided preschool services, by age
Table 3A.12	Staff employed by Australian Government approved child care services
Table 3A.13	Paid primary contact staff employed by Australian Government approved child care services, by qualification
Table 3A.14	Paid primary contact staff in Australian Government approved child care services who undertook relevant in-service training in previous 12 months
Table 3A.15	Children aged 0–11 years using services, by employment status of parents (per cent)
Table 3A.16	Service availability during non-standard hours for Australian Government approved child care services (per cent)
Table 3A.17	Utilisation rates, centre-based long day care and family day care, 2006 (per cent)
Table 3A.18	Out-of-pocket costs of child care for families with children in full time centre-based long day care, as a proportion of weekly disposable income, by gross annual family incomes, May 2006 (per cent)
Table 3A.19	Out-of-pocket costs of child care for families with children in full time family day care, as a proportion of weekly disposable income, by gross annual family incomes, May 2006 (per cent)
Table 3A.20	Representation of special needs groups in attendees at Australian Government approved child care services, children aged 0–12 (per cent)
Table 3A.21	Representation of special needs groups in attendees at Australian Government approved child care services (per cent), by age group, 2006
Table 3A.22	Australian Government expenditure on child care services per child aged 0–12 years (2006-07 dollars) (\$/child)
Table 3A.23	Total State/Territory government real expenditure on children's services per child aged 0–12 years (2006-07 dollars) (\$/child)

Attachment contents

Table 3A.24	Children aged 0–11 years by whether (additional) preschool or formal care was required in the previous four weeks, 2002, 2005
Table 3A.25	Children aged 0–11 years who required (additional) preschool or formal care by main reason required, 2002, 2005
Table 3A.26	Children aged 0–11 years by main reason (additional) preschool or formal care required in the previous four weeks, not used, 2002, 2005
Table 3A.27	Average fees charged by Australian Government approved services, 2004 and 2006 (\$/week) (2005-06 dollars)
Table 3A.28	Children who attended preschool, weekly cost per child (after subsidies), 2002, 2005
Table 3A.29	Hospital separations for external cause of injuries, persons aged 0–4 years, all hospitals, by place of occurrence
Table 3A.30	Health and safety quality: performance against NCAC principles, family day care schemes and long day care, 2006-07
Single jurisdiction data – NSW	
Table 3A.31	State Government real expenditure on child care and preschool services, New South Wales (2006-07 dollars) (\$'000)
Table 3A.32	Characteristics of child care and preschool services not included in the Australian Government Census of Child Care Services, New South Wales
Table 3A.33	Children aged 0–12 years using State Government funded and/or provided child care and preschool services, by age, New South Wales
Table 3A.34	Staff employed by State Government funded and/or managed child care and preschool service providers, New South Wales
Table 3A.35	Paid staff employed by State Government funded and/or managed child care and preschool service providers, by qualification and experience, New South Wales
Table 3A.36	Licensed and/or registered service providers, by management type, New South Wales
Table 3A.37	Service availability during non-standard hours and participation by target groups, New South Wales
Table 3A.38	Substantiated breaches arising from complaints about State Government registered or licensed service providers, New South Wales
Single jurisdiction data – Vic	
Table 3A.39	State Government real expenditure on child care and preschool services, Victoria (2006-07 dollars) (\$'000)

- (a) Data as at 30 June in each year. Figures may change daily and are updated every six weeks following a National Childcare Accreditation Council meeting.
- (b) The Council continues to work towards accreditation with these centres.
- (c) Family Day Care Quality Assurance (FDCQA).
- (d) Outside School Hours Care Quality Assurance (OSHCQA) for outside school hours care services commenced on 1 July 2003. The first services were accredited in January 2005. Data by state/territory is not available for 2005 due to the small numbers of services that have progressed through the system.
- (e) The increase in services 'Not accredited' under QIAS between 2006 and 2007 is a result of revised standards which came into effect in January 2005.
- (f) The increase in services 'Not accredited' under OSHCQA between 2006 and 2007 is a result of a large increase in the number of services assessed.
- Nil or rounded to zero.

Source: National Childcare Accreditation Council (unpublished).

(a) Real expenditure based on ABS gross domestic product (GDP) price deflator 2006-07 = 100 — see table AA.26 in the Statistical appendix (appendix A) attachment (Attach_stat_app.xls or Attach_stat_app.pdf).

(b) Data include families receiving Childcare Assistance and the Childcare Rebate for formal care and preschool services, but not for informal care services.

(c) The Australian total does not equal the sum of the individual State and Territory amounts because there is a component of expenditure that belongs to the Australian Government and cannot be disaggregated by State and Territory.

(d) Data include families receiving Child Care Benefit for formal care services.

(e) Data for administration expenditure include an estimate of 2006-07 FaCSIA departmental expenditure.

(f) Excludes miscellaneous payments because they represent ad hoc amounts paid to child care providers independent of the regular Child Care Benefit advance/acquit cycle that cannot be reported by service type or jurisdiction. In 2002-03, 2003-04 and 2004-05, represents the net amount paid to child care providers following variations due to over-advances of Child Care Benefit. Net amount does not include any adjustments due to recovery of debts.

(g) Includes Child Care Tax Rebate (CCTR) expenditure paid for 2006-07 to 28 October 2007. Previously CCTR was paid as a rebate through the tax system.

(a) Data relate to data from the Department of Communities. There is diversity in the way in which these items are treated by the agencies providing data for preschool services (for example, the Queensland Department of Education, Training and the Arts and the Creche and Kindergarten Association of Queensland and the WA Department of Education).

(b) Basis of estimate for umbrella department costs is derived by preschool student full time equivalents being apportioned over total school expenditure as per 2003-04 National Schools Statistics Collection accrual statements.

(c) Termination and long service leave expenses are estimated using actual expenses and percentage of salary expenses.

na Not available. .. Not applicable

(a) Recognition threshold for revaluation of assets is \$50 000 for assets with lives of three or more years.

(b) Reported results relate to the Department of Education and the Department for Community Development. Where differences arise between the departments, the treatment applied by the Department for Community Development is shown in brackets.

(c) Land and buildings are revalued every 3 years or when there is a material change in value.

(d) As at 1 July 2002.

(e) Services currently report under a cash-based accounting system.

(f) DRC is the depreciated replacement cost; market value is the current (net) value market selling price or exchange value; and deprival value may be either the DRC of an asset of a similar service potential or the stream of its future economic benefits.

(g) Estimated as (1/depreciation rate).

(h) Asset lives for some assets have been grouped with other classifications.

Year before full time school	%	64.6	96.8	103.1	101.5	93.1	100.4	83.3	77.9	87.2

(a) Differences in school starting age and years of schooling across jurisdictions may affect the proportion of children in preschool services.

(b) Data may not be strictly comparable over time or between jurisdictions. See source tables for footnotes.

(c) The denominator — the population of preschool aged children — is defined as persons aged 4 years in all states and territories. Data for estimated residential population are six months out of sequence with the data for children using State or Territory government funded and/or provided preschool services in year before full time school. Year before full time school includes a number of non-4 year olds.

(d) There is some double counting of children in NSW, Qld, WA and NT because some children moved in and out of the preschool system throughout the year and some children accessed more than one sessional program. As a result, the number of children reported in preschool exceeds the number of children in the target population. There is no double counting for Victoria, SA, Tasmania and the ACT because a snapshot is used for each year's data collection.

(e) NSW data for 2006-07 include preschools managed by the NSW Department of Education for the first time. NSW data do not include the non-government school sector in any of the years, and are not directly comparable with the other jurisdictions.

(f) Victorian data include some children attending funded preschool services conducted in centre-based long day care centres and independent schools.

(g) WA data for 2002-2003 exclude the non-government sector.

(h) Data for SA exclude children in non-government preschools.

(i) A proxy for younger children eligible to attend preschool.

(j) A proxy for children eligible to attend preschool in the year before full time school.

na Not available. .. Not applicable. – Nil or rounded to zero.

- (a) FTE = Full time equivalent of staff are defined as 38 hours a week. For family day care, full time equivalent staff are defined as 35 hours per week. It is not possible to determine whether a carer is an employee or a contractor: the situation differs within each State and Territory and between states and territories.
- (b) Data weighted from the Australian Government Census of Child Care Services (AGCCCS). In the 2008 Report, numbers are based on final data from the 2006 AGCCCS and differ from the preliminary numbers published in the 2007 Report.
- (c) There may be double counting of staff where staff work in more than one centre.
- (d) Excludes Aboriginal playgroups and enrichment programs, mobile and toy library services, for which data were not available.
- (e) Includes in-home care.
- (f) Excludes Aboriginal playgroups and enrichment programs for which data were not available.
- (g) The breakdown of contact and administration staff for 2006 is not comparable to previous years due to changes in definition.
- na** Not available.

(a) There may be double counting of staff where staff work in more than one centre.

(b) Data weighted from the Australian Government Census of Child Care Services (AGCCCS). In the 2008 Report, numbers are based on final data from the 2006 AGCCCS and differ from the preliminary numbers published in the 2007 Report.

(c) Excludes family day care, Aboriginal play groups and enrichment programs and occasional care neighbourhood model, for which data were not available.

(d) Includes the one-year basic child care certificate.

(e) Includes staff training for a qualification.

(f) Excludes family day care coordination unit staff, but includes family day care givers.

(g) Excludes Aboriginal play groups and enrichment programs and mobile and toy library services.

(h) Excludes in-home care.

(i) The breakdown of contact and administration staff for 2006 is not comparable to previous years due to changes in definition.

(j) Excludes Aboriginal playgroups and enrichment programs for which data were not available.

(a) In 2005, the ABS Child Care Survey collected data for children aged 0–12, and in 2002 for children aged 0–11. The data are presented for the 0–11 age group in both 2002 and 2005 to allow comparison between the two data sets.

(b) Data in italics have relative standard errors between 25 per cent and 50 per cent and need to be used with caution. Data with relative standard errors greater than 50 per cent are considered too unreliable for general use and are not published here.

np Not published. – Nil or rounded to zero.

- (a) Data weighted from the Australian Government Census of Child Care Services (AGCCCS). In the 2008 Report, numbers are based on final data from the 2006 AGCCCS and differ from the preliminary numbers published in the 2007 Report.
- (b) There may be double counting of children where a child attends more than one child care service.
- (c) Children from non-English speaking backgrounds' are defined in the AGCCCS as children who speak, or whose parent(s)/guardian(s) speak a language other than English at home. The 'representation in the community' data refer to the proportion of children who do not speak English as their main language at home.
- (d) Data exclude children from multifunctional aboriginal children's services, multifunctional children's services, Aboriginal playgroups and enrichment programs and mobile and toy library services.
- (e) Excludes Aboriginal playgroups and enrichment programs.
- (f) Data for representation in the community are estimated from the ABS 2006 Census of Population and Housing, except for 'children from low-income families' and 'children with a disability'.
- (g) 'Indigenous children' in the AGCCCS as children who child care services identify as being of Aboriginal or Torres Strait Islander origin. The 'representation in the community data' refer to children of an Indigenous descent who identify as being Indigenous.
- (h) Data relate to children aged 0-12 years from families with a gross annual parental income of less than \$33 361 (the cut-off point for receiving the maximum amount of child care benefits as at May 2006).
- (i) The data showing representation children from low income families in the community were obtained from the ABS 2005-06 Survey of Income and Housing Costs. Data in italics have relative standard errors above 25 per cent, and need to be used with caution.
- (j) 'Children with a disability' are defined in the AGCCCS as children who child care services identify as having a continuing disability including intellectual, sensory or physical impairment. The 'representation in the community' data refer to children with any limitation, restriction or impairment, which has lasted, or is likely to last, for at least six months and restricts everyday activities. These data were obtained from the ABS 2003 Survey of Disability, Ageing and Carers. Due to the small sample size, data for the NT are not published.

Children aged 6–12 in the community	%	0.7	0.1	4.3	8.4	4.4	2.1	..	50.7	3.0

(a) Data for representation in child care services are estimated and weighted from the Australian Government Census of Child Care Services (AGCCCS).

(b) Data for representation in the community are estimated from the ABS 2006 *Census of Population and Housing*, except for 'children from low-income families' and 'children with a disability'.

(c) There may be double counting of children where a child attends more than one child care service.

(d) AGCCCS data exclude Aboriginal playgroups and enrichment programs.

(e) 'Children from non-English speaking backgrounds' are defined in the AGCCCS as children who speak, or whose parent(s)/guardian(s) speak a language other than English at home. The 'representation in the community' data refer to the proportion of children who do not speak English as their main language at home.

(f) 'Indigenous children' in the AGCCCS as children who child care services identify as being of Aboriginal or Torres Strait Islander origin. The 'representation in the community data' refer to children of an Indigenous descent who identify as being Indigenous.

(g) The ABS Census Post Enumeration Survey has estimated an undercount of Indigenous people in the 2006 Census, and the estimates of the proportional representation in the community of Indigenous children should be treated with caution.

(h) Data relate to children from families with a gross annual household income of less than \$33 361 (the cut-off point for receiving the maximum amount of child care benefits as at May 2006).

(i) Data on 'children from low-income families' in the community were obtained from the ABS 2005-06 Survey of Income and Housing Costs. Data in italics have relative standard errors above 25 per cent, and need to be used with caution.

- (a) Includes administration expenditure, other expenditure on service provision, financial support to families and net capital expenditure on child care and preschool services.
- (b) See source tables for other footnotes.
- (c) The apparent drop in Queensland expenditure per child between 2005-06 and 2006-07 is due to only six months' worth of expenditure data on State preschools being included in this year's Report. This is due to the cessation of State preschools in December 2006 and the introduction of the Preparatory Year from January 2007.
- (d) The drop in SA expenditure from 2004-05 is due to the exclusion of all Commonwealth contributions, which the State currently administers, from the total State/Territory real expenditure on children's services.

(a) In 2005, the ABS Child Care Survey collected data for children aged 0–12, and in 2002 for children aged 0–11. The data are presented for the 0–11 age group in both 2002 and 2005 to allow comparison between the two data sets.

(b) Data in italics have relative standard errors above 25 per cent, and need to be used with caution. Data with relative standard errors greater than 50 per cent are considered too unreliable for general use and are not published here.

(c) Includes both children who had not used preschool or formal care in the previous week for whom preschool or formal care was wanted, and children who had used preschool and formal care in the previous week for whom additional preschool and formal care was wanted.

Table 3A.26 **Children aged 0–11 years by main reason (additional) preschool or formal care required in the previous four weeks, not used, 2002, 2005 (a), (b), (c)**

2004 Real average fees (d)	212	196	187	209	202	218	236	197	201
2004 Nominal average fees	195	180	172	192	186	200	217	181	185
2006 Average fees	222	216	203	224	192	228	238	222	215

(a) Based on hours open or care provided during Census week.

(b) Average fees based on 50 hours of care in the Census collection week.

(c) Data weighted from the Australian Government Census of Child Care Services (AGCCCS). In the 2008 Report, numbers are based on final data from the 2006 AGCCCS and differ from the preliminary numbers published in the 2007 Report.

(d) Real expenditure based on ABS gross domestic product (GDP) price deflator 2005-06 = 100 — see table AA.26 in the Statistical appendix (appendix A) attachment (Attach_stat_app.xls or Attach_stat_app.pdf).

(e) Excludes in-home care.

(f) Family day care fee includes parent levy.

(g) Family day care fees are not comparable between 2004 and 2006, due to a change in the fee methodology.

(h) In-home care carers employed by family day care services have been excluded from the fees calculation.

Total children (f)	%	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0
Average cost (g)	\$	22.3	23.1	7.9	10.1	15.6	39.6	3.9	28.6
Median cost (g)	\$	16.0	3.0	2.0	5.0	1.0	5.0	5.0	17.0

(a) Net costs per child after subsidies have been paid.

(b) Data in italics have relative standard errors above 25 per cent, and need to be used with caution. Data with relative standard errors greater than 50 per cent are considered too unreliable for general use and are not published here.

(c) Data need to be interpreted with caution. There may be differences between jurisdictions in the number of hours and sessions attended by children each week. Preschool services are provided by a different mix of providers (community, private and government). Differences in charging practices, including fees, may be due to commercial or cost recovery decisions made by individual services. Fee variation can also occur as a result of charges for additional services such as meals and materials.

Table 3A.28

Table 3A.28 Children who attended preschool, weekly cost per child (after subsidies), 2002, 2005 (a), (b), (c), (d)

<i>Unit</i>	NSW (e)	Vic (e)	Qld	WA	SA	Tas	ACT	NT	Aust
-------------	---------	---------	-----	----	----	-----	-----	----	------

(d) The estimates are not based on standardised measures of child age, hours of service provided or preschool service delivery mechanisms.

(e) In Victoria and NSW, a fee subsidy is paid directly to services to reduce fees paid by eligible families such as those holding approved concession cards or meeting specified income thresholds.

(f) Includes weekly cost 'Not stated'.

(g) Median and mean costs were calculated for all those who used preschool, including those for whom the weekly cost was 'no cost'.

(h) 'Real' costs have been adjusted for inflation to calculate the 'real' value of service costs, by converting the 2002 costs into 2005 values. Real expenditure based on ABS gross domestic product (GDP) price deflator 2004-05 = 100 — see table AA.26 in the Statistical appendix (appendix A) attachment (Attach_stat_app.xls or Attach_stat_app.pdf).

— Nil or rounded to zero. **np** not published.

Table 3A.29 Hospital separations for external cause of injuries, persons aged 0–4 years, all hospitals, by place of occurrence (a), (b), (c)

	<i>Unit</i>	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT</i>	<i>NT</i>	<i>Aust</i>
(a)	A hospital separation is an episode of care for a person admitted to a hospital. It can be a total hospital stay (from admission to discharge, transfer or death) or portions of hospital stays beginning or ending in a change of type of care (for example from acute to rehabilitation) that cease during a reference period.									
(b)	Separations without external cause and those for which care type was reported as Newborn with no qualified days, and records for Hospital boarder or Posthumous organ procurement have been excluded.									
(c)	External cause refers to the environmental event, circumstance or condition that causes the injury. Persons admitted to hospital as a result of a pre existing existing illness or condition, such as asthma are excluded.									
(d)	The definition of school will include a range of different formal children's services settings including kindergarten, preschool and child care services.									
(e)	As more than one external cause can be reported for each separation, the totals are not the sums of the rows of the table.									
(f)	For 2004-05, data are withheld for injuries in Tasmania and the ACT due to the small number of injuries reported. Data on the number of accidents occurring in children's services at a national level are also withheld, as a consequence.									
(g)	For 2005-06, data are withheld for injuries in the NT due to the small number of injuries reported. Data on the number of accidents occurring in children's services at a national level do not include NT data.									

na Not available. **np** Not published.

Younger children	hrs	na	na	na	na	na

(a) Data provided by States and Territories complement the data collected by the AGCCCS. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.

(b) This table counts the maximum licensed places per day (not week) for funded licensed child care services.

(c) Family day care is a licensed but not funded service.

(d) NSW registers but does not license out of school hours care services.

(e) This is a count of places in designated preschool services. It does not count other childcare services offering preschool programs. Data cannot be separated into children in the year immediately prior to the commencement of full time schooling and those who are younger. Places available to younger children are included in this count.

(f) The total preschool figure contains information from Department of Community Services and DET — DET preschools operate according to school years.

na Not available.

0 to 5 years	%	17.3	17.7	17.2	16.8	16.5
6 to 12 years (d)	%	3.1	3.0	3.1	2.9	3.2
All children aged 0–12 years	%	9.5	9.6	9.5	9.2	9.3
Proportion of 4 year old residential population using State Government funded and/or provided preschool services immediately before the commencement of compulsory full time schooling						
Year before full time school	%	60.4	59.6	58.1	59.8	64.6

(a) Data are not comparable with data for other States and Territories.

(b) Data include estimates based on the rate of survey return, from licensed funded services operating during survey week in each year 2002-03 to 2004-05.

(c) As NSW does not discriminate between child care and preschool services, all preschool services are included in the count for children aged 0 to 6 years. This count is therefore a total of licensed funded services in NSW.

(d) The 6 to 12 years category shows children using vacation care (data for 2006-07 shows 6 to 12 year olds using care during the December vacation period). Vacation care is not licensed but service providers complete a survey return.

(e) In 2006-07, data includes information from both DoCS and DET. DoCS count of children attending preschool the year prior to full time schooling is the count of children 4 to 5 years, 11 months, attending childcare services. Preschool programs are provided for children who are both in designated preschool services and other childcare services above the age of 4 years. DET counts all children in Preschools except younger children (< 5yrs old) in Wilcannia Centra, John Brothie and Moama PS.

(f) DoCS count of younger children is a count of younger children in designated preschool services. DET counts younger children (<5yrs old) in Wilcannia Central, John Brothie and Moama PS.

(g) A proxy for children eligible to attend preschool in the year before full time school.

- (a) Data provided by States and Territories complement the data collected by the AGCCCS. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.
- (b) FTE = full time equivalent. Part time positions are calculated based on a rate of 0.5 of an FTE position.
- (c) Primary contact staff include child care workers, early childhood teachers, teaching authorised supervisor and untrained child care workers. Other staff include child development officers, cleaner/maintenance, non-teaching authorised supervisors and cooks.
- (d) Data are adjusted for the survey nonresponse rate 2002-03 to 2004-05.
- (e) In 2006-07, data includes information from both DoCS and DET. DoCS Preschools are calculated for services which are designated preschools only. DET figures for FTE paid primary contact staff included teachers and teacher aids. DET figures are not included in the FTE paid employees involved in other tasks. The information on primary contact staff does not relate directly to the number of children receiving a preschool program.

- (a) Data provided by States and Territories complement the data collected by the AGCCCS. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.
- (b) Centre-based long day care services, family day care and other care services providing non-standard hours which involve service providers offering more than 10 hours on a selected day of the week.
- (c) For all years, a Wednesday was chosen as the reference period for determining non-standard hours.
- (d) Occasional care service providers offering non-standard hours which involve service provider offering more than 8 hours on a selected day of the week (Wednesday).
- (e) Preschool services include only designated preschool services providing non-standard hours which involve service providers offering more than 6 hours on a selected day of the week (Wednesday).
- (f) As NSW does not discriminate between child care and preschool services, special needs children counted in child care services includes the count of children accessing designated preschool services.
- (g) In 2006-07, data on special needs children in preschools include information from from DoCS and DET for the first time.

Table 3A.37 **Service availability during non-standard hours and participation by target groups, New South Wales**

	2002-03	2003-04	2004-05	2005-06	2006-07
(h)	<p>Data for representation of special needs groups in the general community relate to children aged 0 to 12 years. In 2006-07, all data except for 'children with a disability' are estimated from the ABS 2006 Census of Population and Housing. Data showing Indigenous and regional/remote representation in 2002-03 to 2003-04 were sourced from the ABS 2001 Census of Population and Housing and relate to 0 to 14 year olds. Data showing Indigenous and regional/remote representation in 2004-05 to 2005-06 were obtained from the ABS Estimated resident population. Data showing children with a disability between 2002-03 and 2006-07 were obtained from the ABS 2003 Survey of Disability, Ageing and Carers. Due to the various data sources used in different years, caution should be used when making comparisons across the years.</p> <p>na Not available. .. Financial support to families	4 175	4 618	4 425	4 623	4 807
Total recurrent expenditure	108 597	124 527	120 785	119 147	130 451
Net capital expenditure	7 053	1 142	6 988	13 222	5 394
Total expenditure	115 649	125 669	127 773	132 369	135 845

(a) Real expenditure based on ABS gross domestic product (GDP) price deflator 2006-07 = 100 — see table AA.26 in the Statistical appendix (appendix A) attachment (Attach_stat_app.xls or Attach_stat_app.pdf).

(b) Administrative expenditure cannot be split by service type because the children's services program is administered as an integrated program at both regional and central office level.

(c) Expenditure for 2002-03 includes two Government budget initiatives: (1) community maintenance and equipment grants for community based long day care and out of school hours care services and (2) capital grants to community based child care services. Expenditure for 2003-04 includes Children's First Capital Funding for new kindergartens and child care centres. Expenditure for 2004-05 and 2005-06 includes funding to build new child care centres. In 2005-06 A Fairer Victoria: Minor Capital Grants Budget Initiative of approximately \$5.9 million was distributed to community based not for profit childcare centres, kindergartens and out of school hours programs. Victoria contributes \$638,500 towards the Commonwealth funded 'Take A Break' Occasional Care Program.

(d) In 2002-03 the Victorian State Government provided \$736 000 for the period 1 January 2003 to 30 June 2003 for the Group employer initiative to assist in bringing kindergarten staff in stand alone kindergartens under a single employer. In 2003-04 the amount was \$1.8 million. In 2003-04 the State Government provided \$4.9 million for IT equipment and support to community based funded kindergarten programs.

Table 3A.39 **State Government real expenditure on child care and preschool services, Victoria (2006-07 dollars) (\$'000) (a)**

	2002-03	2003-04	2004-05	2005-06	2006-07
(e) Since 2004 the State Government provided annually more than \$3.7 million through the Preschool Field Officer Program (PSFO) to support access and participation of approximately 9 per cent of the eligible 4-year-old children, with additional needs and developmental delay in state funded kindergarten programs.					
(f) Includes recurrent payments to service providers, payments for kindergarten staff leave entitlements, State funding for the Australian Government Koorie Preschool Assistants Program and State-wide kindergarten support services.					
(g) The kindergarten fee subsidy which was increased on 1 January 2007 from \$320 to \$330 a year is provided to the holders of a Health Care Card or a Pensioner Concession Card, and parents of triplets and quadruplets.					
(h) Expenditure in 2004-05 and 2005-06 includes funding to build new kindergartens.					
(i) Other expenditure on service provision for 2006-07 includes \$3.455 million for the 'Best Start' program.

(a) Data provided by States and Territories complement the data collected by the AGCCCS. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.

(b) As at 30 June 2007 the State Government funded 208 effective full time (EFT) Adult and Community Further Education (ACFE) places. An EFT is equal to 1920 hours of care. Victoria does not report on 544 'Take A Break' EFTs as the Commonwealth contributes 70 per cent of the funding for these places.

(c) Data for 2002-03 included 8946 State Government funded kindergarten places for children attending a State funded kindergarten program in centre based long day care services. In 2003-04, there were 8946 places, in 2004-05, 8461 places, in 2005-06, 8418 places and in 2006-07, 8348 places.

(d) Victoria does not collect data on average attendance in kindergarten. Average attendance figures shown for 2005-06 were derived from a stand-alone research project on attendance conducted in April 2006.

Table 3A.43 **Paid staff employed by State Government funded and/or managed child care and preschool service providers, by qualification and experience, Victoria (a)**

	<i>Unit</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>	<i>2005-06</i>	<i>2006-07</i>
(a)	Data provided by States and Territories complement the data collected by the AGCCCS. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.					
(b)	No relevant formal qualification but with the equivalent of three years or more full time experience in a child care service.					
(c)	No relevant formal qualification and with fewer than three years full time experience in a child care service.					
(d)	Data do not distinguish on the basis of years of experience. Data include all staff without relevant formal qualifications. Data include staff delivering the State funded kindergarten program in centre-based long day care services.					
(e)	It is a State Government funding requirement that a person holding an approved early childhood teaching qualification must plan and deliver the funded kindergarten program. The percentage of qualified teachers is less than 50 per cent because a teacher may deliver a funded kindergarten program at more than one location. It is a legislative requirement that two staff must be present at all times when the kindergarten program operates.					
(f)	Victorian data shows that more kindergarten assistants work part-time, hence the reporting of a higher number of staff without a formal qualification compared to staff with a qualification.					
(g)	The Victorian Government assists in providing professional development opportunities for early childhood teachers. Data for 2002-03 are for the six months from 1 January to 30 June 2003 only.

- (a) Data provided by States and Territories complement the data collected by the AGCCCS. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.
- (b) Victoria does not collect data on non-standard hours of care.
- (c) Data refer to State funded ACFE services only, and are based on a low response rate of around 50 per cent. Victoria does not report on 542 TAB EFTS.
- (d) Data refer to the number of children attending State funded kindergarten services, including those operating in centre-based long day care services.
- (e) Data for representation of special needs groups in the general community relate to children aged 0 to 12 years. In 2006-07, all data except for "children with a disability" are estimated from the ABS 2006 Census of Population and Housing. Data showing Indigenous and regional/remote representation in 2002-03 to 2003-04 were sourced from the ABS 2001 Census of Population and Housing and relate to 0 to 14 year olds. Data showing Indigenous and regional/remote representation in 2004-05 to 2005-06 were obtained from the ABS Estimated resident population. Data showing children with a disability between 2002-03 and 2006-07 were obtained from the ABS 2003 Survey of Disability, Ageing and Carers. Due to the various data sources used in different years, caution should be used when making comparisons across the years.
- (f) Data for 2005-06 refer to children attending funded kindergarten who had a developmental delay or disability. The State Government supports access and participation of approximately 9 per cent of the eligible 4-year-old children, with additional needs and developmental delay in State funded kindergarten programs, through 5477 packages of service through the Preschool Field Officer Program. In addition, 574 packages will be provided to support children with a severe disability.
- (g) Data refers to children identified as having additional needs by the kindergarten staff. Data for 2007 does not include children supported by the Preschool Filed Officer Program or the Kindergarten Inclusion Support Service.
- na Not available... Not applicable.

- (a) In 2002-03 Victoria reported on substantiated breaches arising from complaints that occurred in State Government funded programs only. Since 2003-04 Victoria has reported on substantiated breaches arising from complaints that occur in all licensed children's services.
- (b) Victoria takes action against all substantiated breaches arising from notifications. In 2002-03 additional actions was taken in 20 cases, in 2003-04 in 155 cases, in 2004-05 in 186 cases, in 2005-06 in 123 cases. In 2006-07, additional action was taken against 146 licensed children services including the initiation of a prosecution against two services. Additional action includes either administrative and/or statutory action.
- (c) Victoria does not licence family day care or school age care.

Total expenditure	143 779	164 457	176 044	196 273	137 384

(a) Real expenditure based on ABS gross domestic product (GDP) price deflator 2006-07 = 100 — see table AA.26 in the Statistical appendix (appendix A) attachment (Attach_stat_app.xls or Attach_stat_app.pdf).

(b) Historical data need to be used with caution. Refer to previous reports.

(c) Data are based on accrual accounting, utilising an activity based costing method, whereas previously these were based on cash accounting.

(d) Data include administration expenditure involved in licensing kindergartens and administering the Young People's Activities Program (for 13–15 year olds).

(e) Includes capital funding to non-government agencies.

(f) Includes expenditure on non-fixed assets.

(g) Funding of approx. \$2.228 million was deferred from 2003-04 to 2004-05 for child care capital grants.

(h) In 2004-05, the Queensland Department of Communities established new reporting processes to specifically capture information relating to a newly developed output of Child Care Policy and Services. This output captures previously unreported information including indirect costs and head office overheads as well as expenditure on policy advice and development. The information is based on the Audited Financial Statements, and is calculated using an activity based costing methodology which is updated annually. Due to the change in the calculation of these figures, comparative information is not available and therefore these figures should not be compared with previous financial years.

Table 3A.47 State Government real expenditure on child care and preschool services, Queensland (2006-07 dollars) (\$'000) (a), (b)

	2002-03	2003-04	2004-05	2005-06	2006-07
(i)	Data include some expenditure on administering the Outside School Hours Activities for Young People Program, which targets 13 to 15 year olds and some expenditure on licensing kindergartens. Also includes expenses involved in administering funding of the young peoples program. Data exclude grants for a young peoples program for 13 to 15 year olds.				
(j)	Preschool in Queensland was only available for the first 6 months of the financial year. From 2007, Prep replaced preschool and the figures will be captured as part of the Primary school figures.				
(k)	Data for 2004-05, exclude expenditure by State and Non-state preschools, but include Creche and Kindergarten Association (C&K) preschool expenditure. These data include a component of Department of Education Community Kindergarten Assistance Scheme (DECKAS) capital funding contribution reported by the C&K for major and minor capital works for community preschools and kindergartens.				
(l)	Salaries and on costs of teachers delivering preschool programs through the Department of Education and the Arts account for a large component of the expenditure (\$89.5 million in 2004-05).				
(m)	In 2004-05, data included depreciation on buildings in preschool programs of \$3.9 million, but exclude borrowings expense of \$0.2 million.				
(n)	In 2004-05, grant allocations of \$7.0 million (\$6.2 million in 2003-04) were made to Non-state schools in respect to preschool enrolments. These figures are not included in the figures presented in this table.				

na Not available.

(a) Data provided by States and Territories complement the data collected by the AGCCCS. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.

(b) Historical data need to be used with caution. Refer to previous reports.

(c) Data relate to licenced capacity of funded services.

(d) Data for all years are underestimated because the number of non-State preschool places is not available.

(e) Data from non-State preschools include the total number of preschool enrolments in non-State schools as defined in the Queensland non-State school February census. The data underestimate the number of children being serviced and convey no concept of places used.

(f) Excludes a small number of licensed kindergartens that are not affiliated or in contact with the Creche and Kindergarten Association and do not receive Queensland Department of Education and the Arts funding.

(g) Includes a proportion of children attending Creche and Kindergarten Association services in mixed age group sessions (3–5 year olds).

Table 3A.48 Characteristics of child care and preschool services not included in the Australian Government Census of Child Care Services, Queensland (a), (b)

	<i>Unit</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>	<i>2005-06</i>	<i>2006-07</i>
(h)	Data relate to children attending community kindergartens and preschools associated with the Creche and Kindergarten Association other than those in (g).					
(i)	Child care data are based on an annual census, and response rates are variable by service type and over time. Data for 2006-07 are based on response rates as follows: occasional care 92.0 per cent, vacation care 38.9 per cent and other 18.9 per cent. See previous reports for response rates in other years. Vacation care data are characteristically subject to error due to low response rates. 'Other' care refers to RAATSICC and are included since 2002-03. When low response rates compromise data quality, these data cannot be reported, and are indicated 'na'.					
(j)	Data were based on the average hours for which the service operated rather than the actual hours used in the sample week.					
(k)	Includes community kindergartens affiliated with Creche and Kindergarten Association only, based on the average hours for which the service operated rather than the actual hours used in the sample week.					
	na Not available. .. Not applicable.

(a) Data provided by States and Territories complement the data collected by the AGCCCS. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.

(b) Historical data need to be used with caution. Refer to past Reports.

(c) Child Care data are based on an annual census, and response rates are variable by service type and over time. Data for 2006-07 are based on response rates as follows: occasional care 92.0 per cent, vacation care 38.9 per cent and other 18.9 per cent. See previous reports for response rates in other years. When low response rates compromise data quality, these data cannot be reported, and are indicated 'na'.

(d) Included in non-State school figures is information based on actual enrolments of preschool students in non-State schools (average over two years) and annual notional allocation of grants in respect of preschool enrolments as reported by the Office of Non-State Schools. Data for 2002-03 non-State schools are averaged over two consecutive years of the enrolment data from State census collections undertaken on the last Friday of each year. The State census defines a preschooler as a child who is four years of age and attending a preschool program (pre-year 1) for a minimum of 25 hours a fortnight. A number of schools have children attending for less than 25 hours a fortnight and these children are not recorded on the State census.

Table 3A.49 Children aged 0–12 years using State Government funded and/or provided child care and preschool services, by age, Queensland (a), (b)

	<i>Unit</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>	<i>2005-06</i>	<i>2006-07</i>
(e)	Data for State preschools are for students enrolled in sessional Queensland State preschools. For the Creche and Kindergarten Association, some children attend mixed age group sessions (3–5+ year age groups as distinct from specific 3–4 and 4–5+ year age groups). A portion of those in mixed age groups — that is all 5-year-olds and 50 per cent of 4-year-olds — are included in the numbers for the year before full time school.					
(f)	Relates to children attending community kindergartens and preschools associated with the Creche and Kindergarten Association other than those referred to in (c).					
(g)	A proxy for children eligible to attend preschool in the year before full time school. – Nil or rounded to zero.

- (a) Historical data needs to be used with caution. Refer to previous reports.
- (b) In 2002-03, it is not possible to distinguish between community managed and government managed services.
- (c) Prior to 1 September 2003, school age care services operating in Queensland were not required to be licensed and therefore data was not previously provided. Data for 2003-04 and 2004-05 include a small number of school age care services operating under new licensing arrangements. In 2005-06, the majority of School Age Care Services have been licensed under the Child Care Act 2002, however some pre-existing services continue to operate under the transitional provisions of the legislative framework.
- (d) Other' care includes services funded under the RAATSICC program. Only licensed funded are included. Data for 2005-06 exclude Child Care Hubs.
- (e) Includes non-State preschools. The data for non-State 'preschools' is equivalent to preschool providers, which include primary schools which accommodate small numbers of preschool children within Year 1 classes. There is no specific information available on the number of dedicated preschool centres or early education classes in these schools.
- (f) Preschools aligned with State and non-State schools are not licensed or registered.

na Not available. .. Not applicable. – Nil or rounded to zero.

The general community (f)	31 142	4.5	31 142	4.5	30 770	4.4

(a) Services not included in the AGCCCS.

(b) Historical data need to be used with caution. See previous reports for response rates in other years.

(c) Data provided by States and Territories complement the data collected by the AGCCCS. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.

(d) Child Care data are based on an annual census, and response rates are variable by service type and over time. Data for 2006-07 are based on response rates as follows: occasional care 92.0 per cent, vacation care 38.9 per cent and other 18.9 per cent. See previous reports for response rates in other years.

(e) Excludes State preschools.

(f) Data for representation of special needs groups in the general community relate to children aged 0 to 12 years. In 2006-07, all data except for "children with a disability" are estimated from the ABS 2006 Census of Population and Housing. Data showing Indigenous and regional/remote representation in 2002-03 to 2003-04 were sourced from the ABS 2001 Census of Population and Housing and relate to 0 to 14 year olds. Data showing Indigenous and regional/remote representation in 2004-05 to 2005-06 were obtained from the ABS Estimated resident population. Data showing children with a disability between 2002-03 and 2006-07 were obtained from the ABS 2003 Survey of Disability, Ageing and Carers. Due to the various data sources used in different years, caution should be used when making comparisons across the years.

(g) State preschool students with disabilities are those students ascertained at levels 4, 5 and 6 (that is, only the highest level of disability).

Net capital expenditure	11 262	2 163	2 432	2 071	1 405
Total expenditure	77 045	67 182	60 976	64 699	64 174

- (a) Real expenditure based on ABS gross domestic product (GDP) price deflator 2006-07 = 100 — see table AA.26 in the Statistical appendix (appendix A) attachment (Attach_stat_app.xls or Attach_stat_app.pdf).
- (b) Administrative expenditure includes total costs — including superannuation, depreciation and leave accruals (all amounts are calculated on an accrual basis). Costs that have been attributed to these outputs through the financial system allocations module are shown as overheads. Overheads have been apportioned to salaries and non salaries based on direct cost percentages.
- (c) The allocation of overheads are determined by *Labour Time Allocation Surveys*.
- (d) Service provision costs are calculated by subtracting Australian Government funded occasional care from direct funding of services obtained from the financial systems.
- (e) The increase in administrative expenditure in 2004-05 is due to increased spending on employee expenses for the Out of School Hours Care program.
- (f) During 2003-04, most of the child care centre capital projects were in their planning stage, so spending was reduced.
- (g) Expenditure in 2005-2006 increased due to additional funding for the Child Care Licensing and Standards Unit and increased expenditure projects relating to new Child Care regulations.
- (h) Does not include the non-government sector and independent preschools.
- (i) Data for 2002-03 includes only Department of Education and Training government funded schools with kindergarten students and excludes the non-government sector. Data from 2003-04 includes non-government students, but excludes non-government kindergarten students.

(a) Data provided by States and Territories complement the data collected by the Australian Government Census of Child Care Services. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.

(b) Funded places in WA equate to hours of available child-care per week, therefore more than one child may occupy a place.

(c) Data for 2002-03 exclude the non-government sector. Data from 2003-04 include the non-government sector.

(d) From 2002-03 onwards, pre Year 1 students in non-compulsory schooling are not included. Data from 2003-04 includes the non-government sector.

(e) Data are collected for students attending preschools for 11 hours/week in the government and this same engagement is applied in the non-government sector.

na Not available. – Nil or rounded to zero.

- (a) Data for child care service providers for WA for 2003-04 are estimates, calculated manually and based on currently available data from the old Child Care Licensing System (CCLS) was decommissioned in September 2004. Licensing efficiencies developed for the new CCLS have enabled more accurate counting of actual services in WA for 2004-05.
- (b) Separate figures are not provided for family day care in 2003-04. Data on family day care for 2003-04 reflect more accurately the position of all family day care in WA as private for profit businesses requiring to be licensed. This figure represents all family day care services in WA for 2003-04. Of the 893 services 630 are supported by the family day care scheme and 263 stand alone.
- (c) Outside school hours care: All data prior to 2004-05 are estimates and reflected what was known about the outside school hours services, and were extracted manually from the old spreadsheet system. As services became licensed under the *Community Services Outside School Hours Care Regulations 2002*, data were recorded into the new system. In WA data, for OSHCS are available only as totals for 2004-05, and more accurately reflect numbers of total services. There is no breakdown into vacation, before and after school hours care services, as most licensed services provide more than one type of OSHCS.
- (d) These figures are estimates only, extracted manually from, and based on, currently available information about occasional care from the data system which is being decommissioned. This may account for the discrepancy between the numbers for this year compared to previous years.
- (e) Data were provided by the WA Department of Education and Training. Data do not include non-government kindergarten facilities.

Preschool services (e)	2 488	989	9.8
The general community (b)	29 714	8.7	29 373

(a) Data provided by States and Territories complement the data collected by the AGCCCS. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.

(b) Data for representation of special needs groups in the general community relate to children aged 0 to 12 years. In 2006-07, all data except for 'children with a disability' are estimated from the ABS 2006 Census of Population and Housing. Data showing Indigenous and regional/remote representation in 2002-03 to 2003-04 were sourced from the ABS 2001 Census of Population and Housing and relate to 0 to 14 year olds. Data showing Indigenous and regional/remote representation in 2004-05 to 2005-06 were obtained from the ABS Estimated resident population. Data showing children with a disability between 2002-03 and 2006-07 were obtained from the ABS 2003 Survey of Disability, Ageing and Carers. Due to the various data sources used in different years, caution should be used when making comparisons across the years.

(c) Data from 2003-04 includes the non-government sector.

(d) Assumes the same ratio of disabled students and Indigenous students in the non govt system as in the government system.

(e) Government and non-government schools with kindergarten students as at August 2004.

(a) Data for child care service providers for WA for 2003-04 were estimates, calculated manually and based on available data from the old Child Care Licensing System (CCLS), which was decommissioned in September 2004. All complaints are investigated and, if substantiated, action is taken. In WA the focus is on breaches related to specific regulations.

(b) The WA Department for Communities calculates substantiated regulation breaches arising from allegations per licensed childcare service. In 2004-05, there were 101 substantiated breaches for 1442 services, making a rate of 0.070.

(c) In WA, services are licensed as outside school hours care.

(d) Complaints are not classified at student level.

(e) Includes the non-government sector from 2003-04.

The general community (d)	11 178	4.6	11 178	4.6	10 548	4.4

(a) Data provided by States and Territories complement the data collected by the AGCCCS. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.

(b) Preschools are encouraged to offer back-to-back preschool services to assist parents in country locations who would otherwise be unable to access preschool. The take-up rate is most significant in country locations where to limit access to one session per day over four days per week would make it impractical for children who travel long distances. In these situations children generally access their preschool entitlement of four sessions over two days as opposed to the usual four half days.

(c) The number of children in special needs categories are estimates only.

(d) Data for representation of special needs groups in the general community relate to children aged 0 to 12 years. In 2006-07, all data except for 'children with a disability' are estimated from the ABS 2006 Census of Population and Housing. Data showing Indigenous and regional/remote representation in 2002-03 to 2003-04 were sourced from the ABS 2001 Census of Population and Housing and relate to 0 to 14 year olds. Data showing Indigenous and regional/remote representation in 2004-05 to 2005-06 were obtained from the ABS Estimated resident population. Data showing children with a disability between 2002-03 and 2006-07 were obtained from the ABS 2003 Survey of Disability, Ageing and Carers. Due to the various data sources used in different years, caution should be used when making comparisons across the years.

Year before full time school (e)	%	90.7	99.1	101.8	101.4	100.4

(a) Data for 2003-04 include some children in vacation care.

(b) Data include information from specific survey months on children in vacation care. Some Vacation Care services were closed in the survey periods. Therefore the figures for 6 to 12 year olds would be higher if the statistics were taken at a different holiday period.

(c) Data are at August and include funded non-government preschools services.

(d) A proxy for children eligible to attend preschool in the year before full time school.

(e) Percentages are distorted by the data for estimated residential population being six months out of sequence with the data for children using State Government funded and/or provided preschool services in year before full time school. Year before full time school includes a significant number of non-4-year-olds.

(a) Data provided by States and Territories complement the data collected by the AGCCCS. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.

(b) Data is for government preschools only.

(c) Data for representation of special needs groups in the general community relate to children aged 0 to 12 years. In 2006-07, all data except for 'children with a disability' are estimated from the ABS 2006 Census of Population and Housing. Data showing Indigenous and regional/remote representation in 2002-03 to 2003-04 were sourced from the ABS 2001 Census of Population and Housing and relate to 0 to 14 year olds. Data showing Indigenous and regional/remote representation in 2004-05 to 2005-06 were obtained from the ABS Estimated resident population. Data showing children with a disability between 2002-03 and 2006-07 were obtained from the ABS 2003 Survey of Disability, Ageing and Carers. Due to the various data sources used in different years, caution should be used when making comparisons across the years.

Total expenditure	20 507	24 975	22 499	24 431	24 615

(a) Real expenditure based on ABS gross domestic product (GDP) price deflator 2006-07 = 100 — see table AA.26 in the Statistical appendix (appendix A) attachment (Attach_stat_app.xls or Attach_stat_app.pdf).

(b) The increase in administration expenditure in 2003-04 is a result of the introduction of a new attribution model within the ACT Department of Education and Training.

(c) The decrease in net capital expenditure in 2006-07 is due to the reconstruction of Weston Child care centre being completed during 2005-06.

(a) Data provided by States and Territories complement the data collected by the AGCCCS. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.

(b) FTE =Full time equivalent: defined as 38 hours per week for child care services and 36.45 hours per week for preschool services.

(c) During 2003, services funded to provide casual, permanent part time and emergency early childhood places were approved for child care benefit and will therefore be reported as a part of the Australian Government data.

(d) The increase in preschool staff in 2005-06 is due to the increase in number of preschool hours provided (from 10.5 to 12 hours per week).

na Not available. – Nil or rounded to zero. .. Not applicable.

(a) Data provided by States and Territories complement the data collected by the AGCCCS. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.

(b) During 2003, services funded to provide casual, permanent part time and emergency early childhood places were approved for child care benefit and will therefore be reported as a part of the Australian Government data.

(c) Data for representation of special needs groups in the general community relate to children aged 0 to 12 years. In 2006-07, all data except for 'children with a disability' are estimated from the ABS 2006 Census of Population and Housing. Data showing Indigenous and regional/remote representation in 2002-03 to 2003-04 were sourced from the ABS 2001 Census of Population and Housing and relate to 0 to 14 year olds. Data showing Indigenous and regional/remote representation in 2004-05 to 2005-06 were obtained from the ABS Estimated resident population. Data showing children with a disability between 2002-03 and 2006-07 were obtained from the ABS 2003 Survey of Disability, Ageing and Carers. Due to the various data sources used in different years, caution should be used when making comparisons across the years.

(d) In the ACT there are no regions classified as remote.

(a) Data provided by States and Territories complement the data collected by the AGCCCS. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.

(b) Refers to preschool services only because there were no FTE employees in the NT Government supported child care services.

(c) FTE = full time equivalent.

(d) Assistant Teachers (designation AT) have been excluded from these figures. In 2006-07, these total 23.8 FTE.

(a) Data provided by States and Territories complement the data collected by the AGCCCS. To avoid misrepresenting child care services, jurisdictions were asked to report on only those data items where the Australian Government was also able to provide data. Items for which the States and Territories were not asked to provide data are marked np.

(b) Data for representation of special needs groups in the general community relate to children aged 0 to 12 years. In 2006-07, all data except for 'children with a disability' are estimated from the ABS 2006 Census of Population and Housing. Data showing Indigenous and regional/remote representation in 2002-03 to 2003-04 were sourced from the ABS 2001 Census of Population and Housing and relate to 0 to 14 year olds. Data showing Indigenous and regional/remote representation in 2004-05 to 2005-06 were obtained from the ABS Estimated resident population. Data showing children with a disability between 2002-03 and 2006-07 were obtained from the ABS 2003 Survey of Disability, Ageing and Carers. Due to the small sample size of this survey in the NT, results were withheld. Due to the various data sources used in different years, caution should be used when making comparisons across the years.
