

Airport Regulation Inquiry
Productivity Commission
Lock bag 2
Collins St. East Victoria 8003

Dear Sirs,

As a long-term resident home-owner of Hunters Hill I, and many others, have long tolerated the environmental pollution of aircraft noise directly over our homes for many years and for many hours of the day & night.

I am aware that the Productivity Commission has recently conducted a review of the Economic Regulation of Airports.

I am concerned that this may eventually result in an application to reduce the existing flight curfew and/or increase the number of aircraft movements.

We here in Hunters Hill have long had more than enough aircraft noise pollution to put up with.

No more please.

Sincerely,

Mrs Faye Maple
