

Submission of Patricia Gaggin, NSW

Productivity Commission Inquiry into the increased application of competition, contestability and informed user choice to human services

The Community Sector is not for sale.

We obtain great outcomes due to commitment of wonderful passionate workers who genially care about people.

It's not motivated by profits or driven by profit margins it's driven by caring empathetic workers.

It's people like our CEO Narelle Clay who fights for injustice and inequality not for the bottom line to feed the wealthy it's for the disadvantaged and people who are struggling with every day lives.

So keep your hands off the Community Sector
