Notes

Price comparison Reflects comparative price of Australian vs US price - e.g. .86 means that a book is 14% less expensive at ARP. 1.04 means that a book is 4% more expensive.

1 Of the 63 books with US and Australian editions, the closest equivalent edition shows that:

52 were less expensive in the Australian edition

4 were more than 20% more expensive in the Australian edition

5 were between 1% and 5% more expensive

2 were exactly the same price converted

2 Of the 72 books with UK and Australian editions, the closest equivalent editions shows that:

39 were less expensive in the Australian edition

21 were between 1 and 10% more expensive in the Australian edition

6 were between 11 and 20% more expensive in the Australian edition

6 were more than 20% more expensive in the Australian edition
