

Dear Commissioners,

I am writing to you about the mental health screening proposal coming up soon.

I whole heartedly believe that screening of 0-3 year olds for mental health issues is a completely violation of human rights. A child of that age wouldn't be able to grasp these concepts or adequately answer questions to ascertain whether or not there are issues to be medicated. I vehemently oppose this be added to screening as it is very unnecessary.

Thank you for your time.

Madeliene Jones.
