

11 JAN 2020^C

TO THE PRODUCTIVITY COMMISSION:

DEAR SIR / MADAM.

I'M GREATLY CONCERNED AS A PARENT,
GRANDPARENT AND CITIZEN OF THIS COUNTRY
UPON FINDING OUT THE COMMISSION'S
INTENTION TO PROCEED WITH MENTAL
HEALTH SCREENING OF OUR YOUNGEST
GENERATION, NAMELY 0-3 YEAR OLDS.

WITHOUT ANY REQUIREMENT FOR MEDICAL
TESTING, AS IN BLOOD TESTS, URINE
TESTS, TOXICITY TESTING ETC. I KNOW FROM
PERSONAL EXPERIENCE HOW INVALUABLE
THEY ARE FOR PROPER DIAGNOSIS.
AND I'M VERY MUCH AWARE OF TOXIC

EFFECTS ON THE MENTAL HEALTH OF
ANYONE, CHILD + ADULT Alike. IN MY
TIME WORKING IN A SCHOOL ADMINISTRATION
ENVIRONMENT I REMEMBER THE CASE OF
A YOUNG CHILD WHO WAS VERY UNRULY WHO
WAS FOUND WITH CERTAIN DEFICIENCIES
IN HIS NUTRITION, AND ONCE THIS WAS
REMEDIED WENT BACK TO BATTERY AND
IS NOW A WELL BALANCED ADULT. WHAT
WOULD HAVE HAPPENED TO HIM IF GIVEN
ANTI PSYCHOTICS TO A STILL DEVELOPING
BRAIN?

THANK YOU FOR YOUR TIME AND CONSIDERING
MY FEEDBACK

RENATE BARTON
