

To whom it may concern,

RE: Productivity Commission 'Future foundations for giving' draft report

I have read the draft report with interest. Whilst there are some good findings and recommendations, I am concerned about the recommendations for deductible gift recipient (DGR) status to be scrapped for non-government primary, secondary, childcare, aged care, and other religious organisations.

This is of great concern to me as my children attend an independent school that benefits from DGR status. In a time where we are experiencing cost of living pressure never felt before, I fear that school fees would only be driven up further to make up the lost income from reduced giving, driven by the lack of tax benefit for businesses or individuals able to donate to the school.

I'm very worried that if the Government adopt this recommendation, we will be forced to send our children to our already overcrowded local public school which will have a great impact on their learning experience and stifle their academic potential.

Thank you for reading my letter and please consider my concerns, I am sure our family won't be the only one impacted.

Yours sincerely,

Harvey Edmonds
