

My son will be transferring from an Individual Support Package to the NDIS in a few weeks. He is a quadriplegic and is confined to a wheelchair so has to use taxis to get around. Under the transport funding guidelines he will not be able to afford a taxi to take him to work and back or to socialise \$2,472 will last him for about 2 months so he will have to give up work and cut down on meeting friends. His life will not be enhanced it will be down graded.
