Dear Sir

I John Christopher Keen being a registered Architect, support the view of the Architects Board of Western Australia in that it is paramount that registration of Architects is retained and that the most appropriate model is a Uniform Act across Australia administered by local State of Territory boards.

There is a need for the registration of Architects to practice as "Architects" Having completed 7 years of training in order to obtain a level of competence, the public needs to know the difference between Architects and other members of the building industry who have had minimal training,

Yours faithfully
