Dear Sirs/Madams.

### **REGISTRATION OF ARCHITECTS**

It is without doubt a fact that the general public and all other parties involved in the Building Industry have a right to know who they are dealing with when involved in a building project. The registration of architects ensures that a high minimum standard of training, education and a code of ethics is maintained by all those who call themselves 'Architect'.

I support the view of the Architects Board of Western Australia in that it is paramount that registration of Architects is retained and that the most appropriate model is a Uniform Act across Australia administered by local State or Territory boards.

Yours sincerely
