Dear Sir/Madam,

#### REGISTRATION OF ARCHITECTS

I am a registered architect in the State of Western Australia and consider the conditions of that registration of immense value to the effort Architects put into supporting the reputation and contribution of architecture in Australia. I believe registration of Architects goes a long way to securing the standard of design and construction in this country and the status of our industry internationally.

I support the view of the Architects Board of Western Australia in that it is paramount that registration of architects is retained and that the most appropriate model is a uniform act across Australia, administered by local, State or Territory Boards.

Yours faithfully,

(signature)
