ARCHITECTS INQUIRY

This submission is made in relation to the Architects Inquiry.

As a registered Architect and a member of the Royal Australian Institute of Architects, support the view of the Architects Board of Western Australia in that it is paramount that registration of Architects is retained and that the most appropriate model is a Uniform Act across Australia administered by local State or Territory Boards.

I also support the Board in its view that it would strongly consider a Uniform Act administered by the Architects Accreditation Council of Australia as a central administrative body as an alternative.

As the practice of design of building is already open to anyone, and not restricted to Architects, it is important that consumers are able to identify potential service providers with accredited levels of skills.

For your consideration please.
