Dear Sir

**Re: Broadcasting Inquiry**

After seeing an article regarding same in our local paper, I would like to submit the enclosed matters with regard to our western programmes in Queensland. Hoping that others may agree with my comments.

Also find, to listen to someone speaking after music, you have to turn the volume up.

Thanking you,

Yours faithfully

Mrs C. E. Dean

## **Wireless – Radio**

On this day – of what interests

Comedy on Radio – Pointless!

News – Are murders etc considered news even if it is overseas?

Most music – Too loud and not very enjoyable

Announcers – Speak too quickly and indistinctly

Too many talk back programmes.

## **T.V.**

Why so much Basketball and Soccer on Saturday and Sundays. Of little interest to most viewers.

Too many better programmes at 9.30 pm 10.30 pm. Other programmes at 7.30pm could be slotted at later times.
