Subject: Television and Radio Broadcast

I realise writing this is a total waste of time as I've already contacted the Local Member, the television station and the T.A.B. and they all tell me to contact one of the others.. anyway and not withstanding

I live in the Julatten area which is 17 miles from Port Douglas and 5 miles from Mt Molloy.

1. We do not have any T.A.B. Radio coverage as is also the case for the rest of Far North Queensland from Cairns North.
2. About half the residents in the Julatten area and almost all in the Mt Molloy area have very limited TV coverage apart from the ABC.

I do not expect this to change after your inquiry as the majority of the \$120 million will go to admin costs and 5 star hotel rooms and air tickets.
