Date of transmission:

Monday 6th December 1999

Number of pages

including this cover page:

three

**Comments:**

Dear Delwyn,

The third page of today's three page fax presents the **ONE PAGE STATEMENT** that I would appreciate was read for me to Professor Snape & Mr Simson at the 6th December Sydney Hearings in my regretted absence. This One Page Statement will be included as part of my submission hearing completion addressing the Broadcasting Inquiry's Draft Report which presupposes that market-forces takes into consideration social conscience and national interest when this is a blatant lie that will force the national economy that is underpinned by the media telecommunications industry to do a trapeze act on a high wire without a safety net and turn the wealth gap into a grand canyon.

### Comments:

Dear Mary,

The **ONE PAGE STATEMENT** to the Broadcasting Inquiry on the third page of today's three page fax is also a statement that applies to the ABA cash for comment Inquiry. The other two pages of this three page fax are this cover-page for the ABA Inquiry and another cover-page for the Broadcasting Inquiry. Today's three pages will be included as part of the summing up of my ABA Inquiry submission and also my address of the Broadcasting Inquiry's Draft Report which I am doing together both at the one time and which should be completed by the end of the week. It would be nice to receive some response indicating with what regard the Inquiry values the evidence in my submission(s).

Regards, *Tony Paynter*

**BROADCASTING - PAGE TWO OF THREE  
INQUIRY 6/12/99.**

**BROADCASTING INQUIRY** **PAGE THREE** **6/12/99**  
**OF THREE**

**ONE PAGE STATEMENT**  
**FOR THE BROADCASTING INQUIRY'S**  
**DECEMBER 6TH SYDNEY HEARINGS**

Professor Snape & Mr Simson should note that my submission to the Broadcasting Inquiry is the 34th Inquiry I have made submission to and the 35th is my submission to ABA-Inquiry. The 36th is my submission to the PIC's Hearings related to the Roni Levi Bondi Beach shooting. There will be more to follow.

Somewhere along the line this evidence will come to public attention. If the ABA-Inquiry was to bring the evidence of my submissions to public attention then the Broadcasting Inquiry will be the last inquiry that had failed to do so and will have to take the brunt of the mulekick of public indignation for its cold hearted murder of the ethos of fair go underpinning the national character and ruthless betrayal of the Inquiry's own charter to nurture the competitive spirit in the openness of equal opportunity and instead not only making a joke of the nation but also of itself.

If the ABA-Inquiry also follows suit and doesn't feel the need to bring this evidence to public attention it could also end-up in the Last-Position. If other groups who are interestedly involved in both these Inquiries bring this evidence to public attention then both Inquiries will be in the most uneviable position imaginable - there could not be worse. It would mean facing the hundreds of thousands of Aussie battlers on the wrong side of the wealth gap who've been dragged over the coals and put through a living nightmare and had their dream kicked to death all for the glory of propping up a super rich elite who've trampled with careless disdainful abandon and without conscience over everything that it is to be Australian in the dinky di true blue sense.

*Tony Paynter*
