

**PRODUCTIVITY COMMISSION: BROADCASTING ISSUES PAPER  
SNAPE/SIMSON MEDIA RULES INQUIRY - MARCH 1999  
TONY PAYNTER SUBMISSION.....INTRODUCTION**

**Delwyn Rance - Administration officer  
Broadcasting Inquiry - Productivity Commission  
Locked Bag 2 Collins Street East Post Office  
Melbourne VICTORIA 8003.  
Tel: (03) 9653 2182 Fax:(03) 9653 2305**

**Friday 7th May 1999**

**Dear Delwyn,**

**Thank you for sending large envelope/mail containing the 32-page  
PRODUCTIVITY COMMISSION'S BROADCASTING ISSUES PAPER: MARCH  
1999 and the form to register intention to make a submission which I received on  
Tuesday 6th April.**

**Please note that I faxed the form registering my intention to make a submission the  
next day on Wednesday 7th April. My submission of SIXTY typed pages I will be  
submitting before 12th May 1999 - the due date for submissions for the May-June  
public hearings. The first sixteen-pages will also be faxed through.**

**I will be sending hard copy of these SIXTY typed pages along with the transmission  
report for today's 16-page fax containing the first sixteen pages of my submission  
and also 23-pages containing copy of a selection of reference letters that I've  
received from thirty-three previous inquiries over past 13-years. I will also be  
sending an ELECTRONIC COPY of my submission on a 3.5 inch diskette. These  
will be sent in TWO PARCELS same day at the one time - Registered & Express  
Post - with each parcel containing both the hard copy and a diskette to eliminate  
error in receipt. After that I may add additional material in similar method as above  
shortly after due date for submissions on 12th May as I have found the one-month  
given far too short. Please acknowledge receipt of this submission on fax number  
(02) 9692 9610 after receipt of two above parcels.**

**Yours sincerely,  
Tony Paynter c/- PO Glebe Sydney NSW 2037  
Signature - address - phone & fax number supplied**

**Deputy Chairman: Richard Snape - A/Commissioner Stuart Simson Broadcasting  
Inquiry - Productivity Commission Locked Bag 2 Collins Street East Post Office  
Melbourne VICTORIA 8003  
Tel: (03) 9653 2182 Fax: (03) 9653 2305**

**Friday 7th May 1999**

**Dear Mr Snape & Mr Simson,**

**The following view is based upon evidence I have submitted in 70-plus submissions to thirty-three Inquiries over past 13-years. This latest submission is my 34th. The evidence is briefly summarised in this 60-page submission bearing in mind it covers over 25,000 pages of evidence and only scratches the surface of it. Whilst it doesn't touch on everything it covers a good deal of it - enough to put you in the picture.**

**THE BIG QUESTION IS - IS THE PRODUCTIVITY COMMISSION'S ISSUES PAPER SNAPE/SIMSON BROADCASTING INQUIRY GOING TO RUBBER STAMP WHAT RUPERT MURDOCH & KERRY PACKER WANT BY GETTING RID OF THE RULES BASED ON THEIR ARGUMENTS?**

**If the Inquiry does grant the two media barons their wish now that they have openly aligned their views on cross media ownership and foreign ownership rules - basically that the rules be abolished to give them unrestricted freedom then the Inquiry will have cut the nation's throat beginning with the politicians of Australia both in Government and Opposition and Australia as a nation will become a sacrifice to satisfy the power lust of the nation's two major media barons.**

**It is almost that way now as they can get half-way around the rules anyway in expectant anticipation of the rules being removed - particularly Kerry Packer's stacking up of Fairfax with his own front-men which is plainly obvious but without breaking the cross-media ownership rules. Over past thirty years Murdoch & Packer have successfully tied up the majority of Australia's old media/information industry between them and from that base will successfully in the end tie up the majority of new media/information industry as well. And media assets or parts of media assets which they don't own - is owned by money that can be either traced back either indirectly to them or owned by others who play in with Murdoch & Packer's Big-Picture plans.**

**These two media barons aim to clean up through totally controlling both ends of old and new media as per their Greed Inc interests that completely laughs in the face of**

**national interest. If the rules are removed and Murdoch is allowed to buy Channel Seven and Packer allowed to buy Fairfax then they will have achieved their aim. By having not just the majority but the greater majority of old-media under their control they can then end up with the greater majority of new media under their control - too. From the Print-Media - newspaper point of view Murdoch already has the lion's share of newspaper ownership in Australia and should Packer acquire Fairfax this will make him the second biggest owner of newspapers in Australia.**

**From that prestigious vantage point they would have a strangle hold grip on old media/information industry which they could squeeze the life out of in synchronisation with the move across to new-media/information industry as the new media starts to kick in thereby controlling the technological changeover process pushing and shoving us more off old media onto new media - the entire nation playing right into their hands.**

**Even without the rules being removed - free to air tv will be monstrously downgraded and much of the popular programs will be shunted into Pay TV and later Web TV. This can be seen already through Channel Nine executives deploring Kerry Packer's move to suddenly axe programs that were the backbone of the network. They rightly claim Kerry Packer will be forcing the Nine network to cut its own throat - putting the station's corporate image at risk by axing programs that helped to build Nine's position as market leader in free to air tv. To help get around this Packer with Channel Nine and Murdoch with his underling Kerry Stokes with Channel Seven have suddenly pulled out of their bag of tricks - The "Million Dollar"**

**quiz shows as a big distraction and a sweetener to compensate for the ruthless and sudden removal of weekend sports programs by Packer's Nine which sounds the ominous start of more of the same for other programs that will lead the way for other commercial channels as well - including last on the list - the semi-commercial ABC.**

**Their aim is to dismember and castrate free to air tv and transplant the choicest parts into Pay TV as much as possible and like the banks with all their "funny charges" make a killing by lots of ingenious methods. The list of special events that attract a special fee for viewing will become a "long and winding road". Also reject/discard programs from Pay TV will be recycled on free to air classified as quality viewing.**

**The downgrade of free-to-air commercial channels will be quite like what has happened to the ABC - which has been castrated and dismembered by the Howard Government after the Mansfield Inquiry headed by none other than a Kerry Packer operative.**

**It was no surprise that this Inquiry ordained that the ABC had to move over to becoming a commercial free-to-air competitor and prescribed putting the shit-**

**tickets through the ABC as well as bashing our Aunty about - to ensure that its ability to compete was completely crippled - giving Packer and Murdoch much joy and amusement at the Big Joke played out on the national broadcaster at Australia's expense.**

**The big danger here in pleasing Packer & Murdoch - is that their total control of both ends of old and new media will mean that they can be better placed to alter the quality of news reports and current affairs - dilute information content and speed up the dumbing down process right across the board. It means they can also more easily eliminate anything anti-Murdoch & Packer and use their media-power more effectively in the creation of propaganda to promote their interests.**

**They've taken thirty-plus years to be very good at what they do - which is secretly ganging up to help each other get more media assets and help each other get what each other wants using whatever-it-takes underhanded methods to infiltrate - undermine and sabotage competitors whilst moving in their own front men to take up key positions in media assets they have targetted for buccaneer pirate raids. If the cross media rules are removed then they will not only be very good at this but will get their chance to perfect it up to a very high art-form - doing it more than double than before and twice as fast.**

**Through their secret alliance brought about by the realisation that it was impossible for one media owner on his own to get the lion's share of Australian media and that it would not only take two media owners but also two media owners secretly working in tandem with one another to get the lion's share - they've been able to creep-up over thirty-plus years into the position of achieving this feat. What slowed them down was that whilst they could play one major political party off against the other the party in Government could only do so much for them without it being obvious that Murdoch and Packer were really leading the Government and the Government was simply following them.**

**Both Murdoch and Packer knew that one major political party had to have either one of them on side - but could not afford to displease both of them as to do this meant political-suicide as with so much media placed in their hands and acting secretly together as a united front behind the nation's back - they had the power through the powerful weapon of the media to silently place the idea in every politicians mind to not even think of trying to be offside with both of them at the same time - that to even contemplate it for a brief second was an act of madness.**

**Recent developments have shown - now that Packer and Murdoch have aligned their views on cross-media and foreign ownership rules - that these two media barons have dropped the pretence of being diametrically opposed -competitors.**

**Whereas before they had to go through the pretence/charade - time was ripe for them to begin dropping it when they are as now - one step away from having the rules removed that will allow them to be bosom-buddy competitors out in the open whilst at times revert back to being opposed fierce competitors at those times they have only each other to compete against which was one of their big-tricks often used in the past as evidence to show there was no secretive-alliance between them.**

**This is why both Packer and Murdoch have been heavily promoting their popaganda claim that the blurring of the boundaries between old and new media due to new technologies will rapidly outdate the present ownership restrictions - simply lying through their teeth once again with this one being the Big-Lie they've been busting their guts to get into the position to tell.**

**This is similar to their other propaganda lie they began to promote around the time of the Packer Channel Nine - South Molle Island "Paxton-joke" on Australia when first Kerry Packer began to place his son James in pseudo-control of his empire as did Murdoch with son Lachlan shortly thereafter. Packer and Murdoch thus could use the lie that they were relinquishing control of their empires over to the their sons when in reality they were giving their sons pseudo control whilst retaining the real control more than ever before as they were handing the everyday running of their empires over to their sons allowing them to focus more on the real important business of implementing further Big-Picture plans.**

**The appearance to all intents and purposes of their two sons being in control and not them - allows the two media barons to hide behind the youthly innocence of their two sons which gives those two old-ogres a more pristine image and at same time whilst using their two clean-skin sons to do the PR-side of tying up a series of mutual deals between both media empires the two shifty wise-owls go through the motions to keep up the pretence that it was none of their doing - it was their two-sons who did it and not them.**

**Another Big-Lie Packer & Murdoch are promoting is that Australia has such a small market that it is only big enough for a couple of big major players and that they need to be very much bigger to be able to compete in the global market. Well - Murdoch's global-empire - the first to be achieved by a single individual had it's start from the Australian market beginning with one Adelaide newspaper which Rupert Murdoch got rid of ages ago. Murdoch buying more of Australian old-and-new media assets isn't going to make that much of a big difference to his global-empire particularly with Australia's very small market. Packer as well has lots of non-media assets which married to his media-empire make him a much more bigger player than if he only specialised in media assets. Which brings us to the question should Australia allow Packer to buy any more of Australian media new or old when he has been busily mixing casino ownership with**

**media ownership especially as he dropped his bid for Star City Casino when he could not avoid having to go through probity checks?**

**Both Murdoch and Packer know that retention of the cross-media and foreign ownership rules means they can't so easily tie up the lion's share of new media for themselves but their removal would mean they could not only tie-up the greater lion's share of old media but also the greater lion's share of new media as well allowing them to kill two birds with one stone and thereby clean-up big time.**

**If the rules are retained this will force Murdoch and Packer to allow other major players into the game. All that will mean is that more major players will have to make more alliances to combine into non-Packer/Murdoch groups big enough to compete in the global market - something that would make Packer and Murdoch upset as then more will be getting a share of the cake and as they would then have competitors to compete against.**

**This submission supports a recent Federal Parliamentary research study which has found that media ownership diversity would be halved and the influence of existing proprietors doubled based on the observation that new technologies such as the Internet and Pay TV have failed to diversify ownership in an industry which is already over highly-concentrated as the main players in new media are the same main players in old media and that this situation demands that the ownership rules be carved in stone and not shattered.**

**The Snape/Simson Committee Inquiry will find ample evidence presented in the rest of my submission after this statement addressing issues the Productivity Commission's Inquiry has raised - to prove beyond all doubt the existence of the rumoured Murdoch/Packer secret Master Gameplan upon which they have based their mutual secretive alliance and used as the source of inspiration and guiding blueprint to achieve their personal ambitions. The evidence also proves that these two media barons are the two most sinister evil persons in Australia today who also used the secret of their secret Master Gameplan to not only saturate Australia with the cancer of corruption but also infect the rest of the Western World with it - from their bases in America and England.**

**My submission therefore recommends not only the retention of the cross media and foreign ownership rules but also the introduction of the only one rule that can absolutely guarantee diversity of media ownership in Australia and promote genuine competition.**

**That one rule is - is that old and new media should not be considered any different and that no two media-owners with assets in both old and new media can own fifty-percent of either one nor can they own thirty per cent of both and vice versa. This will throw open the doors of competition and will restrict media owners like Packer and Murdoch from concentrating so much new and old media under their combined**

**control - both directly and hidden indirectly waiting on hold for their acquisition up ahead.**

**Recent words spoken by Bruce Baird and Paul Keating in response to a hell of a lot of media-heat are the first glimpse of the real-truth about Packer and Murdoch's sinister power that they wield behind the scenes.**

**Both Bruce Baird and Paul Keating let the cat out of the bag by a slip of the tongue in the heat of sizzling moments in the hot-seat under the glare of the media spotlight in Federal Liberal backbencher & former NSW Liberal Bruce Baird's case due to his SOCOG mates being dragged "over-the -Phil-Coles" for the port's scandal(s) and in former ALP Prime Minister Keating's case his dubious piggery deals.**

**Bruce Baird claimed in a six-minute speech in Federal Parliament that as the former NSW Minister in charge of Sydney's Olympic bid and as a member of the Sydney bid committee - at the time of the Sydney bid - " SOCOG had an agreement from Ken Cowley of News Ltd and from Kerry Packer and from John Alexander of the Sydney Morning Herald (who now heads Kerry Packer's magazine empire) that they knew we would be going into a high level of duchessing".**

**Bruce Baird's media cover-up claim in his six-minute speech at 7.30 pm on Wednesday night 17th February took 36 hours to be reported by the media coming out in the news on the Friday morning. The claim again in simple terms was that Packer - Murdoch and Fairfax executives agreed to keep anti-games stories out of the news in a mood where it was almost considered to be treasonous to do so and there were a number of stories that were either killed or spiked through being considered unfit to print - as the Sydney media were deliberately onside.**

**Former NSW Premier John Fahey and driving force behind Sydney's Olympic bid half an hour after Bruce Baird spoke in Parliament then dumped on the NSW Carr Government and its cronies but there was no coverage of it. Basically he said that there was an unholy alliance between the NSW Labor right-wing and AOC through Olympic's Minister Michael Knight and Packer's Graham Richardson Mayor of the Olympic Games Village. But there was no coverage of this.**

**After vehement denials from Kerry Packer and former News Ltd chief Ken Cowley and former Sydney Morning Herald editor in chief John Alexander - Bruce Baird immediately issued a statement clarifying his remarks stating there was no formalised agreement - rather a general indication of support. He had softened his claim made in Parliament that he had an agreement with major media companies not to run normal stories on unethical lavish treatment of IOC members.**

**The fact is that both Kerry Packer and Ken Cowley agreed to take seats on the Sydney Olympic's bid committee and later Fairfax was represented. It was to Packer Murdoch and Fairfax's advantage to give SOCOG the nudge nudge wink wink to go ahead with high level duchessing - because then the nation's Big-Three media empires could also tie up fantastic deals for themselves allowing them to not only provide immaculate coverage of the Olympic Games but also stitch up deals like Murdoch newspapers tying up the initial big-sale of Olympics tickets and using the Olympics to cross promote their media-empires to the absolute max all buried in there on behalf of the Big-Three media big-wigs who joined the committee who wouldn't report on themselves and could suppress those who opened their mouths.**

**Phil Coles is merely a scapegoat set up by the media barons and SOCOG using a Bondi-battler who got the big lift up to take the big fall - whilst the media barons and SOCOG could hide behind the smokescreen of having exposed the rotten apple in the bag - which is why the Phil Coles scandal has dragged on and on lurching from one crisis to another - with the media barons also cashing in on all the news created knowing that their massive "hidden-rorts" which will - unless a miracle occurs never see the public-light of day - would make Phil Coles look like an angel in comparison.**

**This would include the lists of dozens of Murdoch & Packer direct and indirect corporate mates who were awarded contracts related to all areas of the Olympic Games as reward for their support of Packer & Murdoch's secretive Big-Picture plans. Anyone whom Packer or Murdoch deemed to be not on-side wouldn't have got a look in. They operate on the principle of tying up everything for themselves and for those whom they need to help them achieve their aims who will play in with their game of anti-national interest Monopoly.**

**My submission therefore supports a wide-ranging royal commission into the Olympic rorts scandal and the media cover-up of all the bribe-shenanigans and all of the special deals Packer and Murdoch have with SOCOG in relation to the Olympics and spin-offs from the Games.**

**This is supported by fact that when Olympic's Minister Michael Knight on behalf of the Carr Government set up an inquiry into the SOCOG's handling of the Sydney bid that had been in the hands of former Liberals Nick Greiner - John Fahey and Bruce Baird and which was to report just before the recent NSW "tablecloth" State Election - a lot of the important files had gone mysteriously missing.**

**This guaranteed that all the soft rorting and bribing was only going to surface and all the really hard-core stuff which would have incriminated Packer - Murdoch and**

**Fairfax - not only through the sheer size and scale of what went on that the media turned a blind-eye to - but also through what the big media-trio were able to reverse-duchess for themselves - that is what special-deals they could make that SOCOG in turn would turn a blind eye to in reciprocation.**

**This is further supported by fact Packer has already begun his moves to eject icon sports programs on his free-to-air Channel Nine network in preparation for the Olympics after which he will try to load up as much coverage of public events and sport on Pay TV and as little of it as he can on free-to-air as would Murdoch if he could get control of Channel Seven network. The major recommendation of my submission here is that the Federal Government Communication's legislation should prevent Packer and Murdoch from using the Olympics as a springboard to usher in an era which will amount to armed home-invasions by them like the highway robbery of the banks and also rape of the mind with tabloidish-crap - forerunner of which are million dollar quiz shows under the name of variety entertainment - especially when gambling has already gone haywire in Australia causing immense social ills.**

**Now to Packer Channel-Nine's Sixty Minutes coverage of Paul Keating's piggery deals gazing fairly acutely back to events of over five years ago. For a start Kerry Packer had a lot of Channel Nine personell and resources working on this special pro-Howard anti-Keating project for eight straight months. Besides the very special effort by Packer to get this dirt out on Keating whilst still allowing dear Paul to get out of the Packer-imposed headlock - it was also the first time that SIXTY MINTUES DEVOTED A FULL SIXTY MINUTES TO THE ONE STORY.**

**And even more than that it was the first time that a major story was not only not advertised but also that the advertised stories were pulled at the last second and the Keating piggery story suddenly replaced them without any warning whatsoever.**

**Like Bruce Baird's shock "media cover-up" claim - Paul Keating accused Kerry Packer and the Prime Minister of being involved in a conspiracy against him to denigrate his good name and character with a whole lot of smear which Packer used to relaunch The Bulletin magazine.**

**Paul Keating - that is PK said that Kerry Packer- that is KP - was someone not to be trusted through his claim that if Packer organisation had full control of Fairfax one would only be able to conduct their life and business in Australia - if they had Kerry Packer's indulgence - and that was no exaggeration.**

**My submission support's Keating's claim as it is extremely difficult for anyone to conduct their life and business very easily without Packer's indulgence as it is now without control of Fairfax and that if he also succeeded to gain control of Fairfax**

**- anyone offside with Packer would be permanently sidelined without hope of a comeback - their ship sunk.**

**The Sixty-Minutes story goes back even further to when Paul Keating was on the backbench in 1991 tying up his piggery-deal in partnership with the tall plump Greek businessman who had the looks of an innocent altar-boy during the time of the Committee hearings at the 1991 Federal Print Media Inquiry at which on national television Kerry Packer intimidated the Committee into terrified meek submission.**

**At that time he was supporting Packer's part in Tourang Consortium and with unequivocal adamancy repeatedly fired off the salvo - that there should be no media inquiry and no delving into Packer's private business interests - and that if he was Prime Minister that media inquiry would not have taken place. Packer the ALP kingmaker through Graham Richardson - Packer's puppet ensured Keating was elevated to Prime Minister which occurred when Conrad Black's bid won Fairfax at Xmas 1991.**

**During the run-up to the March 1996 Federal elections soon after Packer's major falling out with Paul Keating over the cable roll out and loss of support to help him acquire Fairfax - Kerry Packer and Rupert Murdoch swapped political parties. Packer dumped Labor telling Johnny Howard he'd make a good Prime Minister whilst Murdoch jumped into bed with Labor - especially after the NSW Right through Keating and Bob Carr helped Murdoch end up with the Sydney Showgrounds for Fox Studios.**

**The fact of the matter was that Packer had been with Labor for the entire thirteen years they had been in Government in Canberra but could not help him get past the hurdle of overcoming widespread vehement opposition to Packer's designs on Fairfax. The longer Packer had been with Labor the less that they could do for him because Packer and Labor had to conceal that Packer was the puppeteer and Labor just his lackey puppets and thus Labor couldn't give him what he wanted even if they wanted to.**

**By the same token Murdoch had been with the Coalition for the thirteen years they were in Opposition - and there was less and less they could do for him particularly if they were to suddenly win Government. This is why Packer and Murdoch suddenly swapped political sides in 1996 in the run-up to the March elections as then the two media barons had a fresh new start with each major party and whichever won the election could do more for their collective good than if they had not done the swap-over.**

**One tactic both Packer & Murdoch have repeatedly applied behind the scenes was to encourage - promote and highlight the politics of sledging and abusive personal attack which was an imitation of Packer's performance when he fronted the 1991 Federal Print Media Inquiry - that sidetracked both major parties from dealing with the real issues confronting Australia and demeaned the public-office of the nation's politicians and the dignity of the Federal Parliament.**

**Another tactic was to bring out dirt on either side at different times it suited them - when they wanted to reward one side by bringing dirt out on the other side or they wanted to put the squeeze on the Government to do their bidding backing off when they had had enough and could do without more.**

**These tactics also gave rise to the phenomenon of government by media-leak. With the Federal Parliament leaking like a sieve - Packer and Murdoch could pick and choose whatever dirt they wanted whenever they wanted. They also introduced government by broken promise after broken promise and about turns and backflips. It was both Packer and Murdoch secretly using their undue influence behind the scenes putting the politicians of Australia through the hoops through playing one side off against the other in a game of love you love you not.**

**The truth about Kerry Packer and his Channel Nine Sixty Minute's Keating piggery dubious deals story is that what Packer is saying about Keating is true and what Keating ended up saying about Packer is true - also. They're both right about each other. It's a case of the pot calling the kettle black as well as both calling a spade a spade.**

**Paul Keating claimed - Kerry Packer and John Howard were involved in a conspiracy to cook up scandalous accusations to pay him back for preventing Packer from acquiring Fairfax and for all the times he had taken the piss out of the little man now in Canberra who thinks he's become Prime Minister.**

**This submission thus supports the call by W A Liberal senator Sue Knowles for a sweeping royal commission into Paul Keating's piggery deals.**

**It supports examination of the purchase and conduct - sale and tax arrangements of companies in which Keating was involved including the Commonwealth Bank's part in generous loans associated with those deals - and other dubious deals involving Keating and Warren Anderson - particularly the deal to onsell the piggery to Indonesian interests and the Northern Territory Parliament House and State Square development projects which were attempts by Keating to enrich Anderson.**

**This submission also calls for a wide sweeping inquiry to examine Kerry Packer's Sixty Minutes attack on Paul Keating beginning with the eight months of effort and how it was aired on tv in the sudden way it was without prior notice and advertised**

stories suddenly pulled making way for it - the timing of it coinciding with the Productivity Commission's Broadcasting Inquiry into the need for changes to the cross media and foreign ownership rules that Packer and Murdoch are pushing for and the truth of Paul Keating's claim about Packer or rather - if Keating is what Packer claims he is - does it take one to know one and Packer also is what Keating claims he is.

Murdoch and Packer had also softened up the Howard Government after giving Howard time to settle in and get over his "mandate euphoria" and after Howard himself introduced a new Code of Conduct for Federal politicians which led to disgrace after disgrace of key government members. Packer and Murdoch had a field day punching-up little Johnny's born-to-rule conservatives. Howard by gaining an understanding they would let up and get off his back - was prepared to do anything for them if they did so.

(One must note here that whilst Packer is in bed with Howard - indirect links to Murdoch by the Government are still maintained and vice versa. And whilst Labor is in bed with Murdoch - indirect links to Packer are maintained by Labor. Also - all ties - direct and indirect by both major parties to these two media barons are open to constant variables depending on the circumstances and what's involved or at stake and at times the line can be held for quite a while without fluctuation).

And now that Packer has got stuck into Paul Keating - even though he is a former Prime Minister - it does Johnny Howard's heart good because not only is the Opposition being smeared but also whilst they are being dive-bomb attacked his side gets to have a well earned rest from that type of thing.

Packer tried to crash through the barrier put up by the cross media rules and strayed over the line of 15 per cent of Fairfax at one stage after having bought in stages through back-door methods until the waters of political friendship ran cold after this move re-identified ample dormant anti-Packer sentiment easily reawoken.

This pushed Packer to change his strategy over to making a tactical withdrawal whilst replacing himself with his own front men whom he helped to buy into Fairfax and with loads of indirect money in Fairfax linked back to him and his "new-found" mate Rupert blessed with a new China-doll and Lachlan's marriage made in heaven to Sarah.

Both Murdoch and Packer assisted each other in poaching key Fairfax executive staff and cream of the crop journalists setting up Fairfax to be ripe for the plucking. In effect Packer with Murdoch's help had one hand around Fairfax even with the cross media rules in place - in anticipation of them being obligingly removed by his new-found mate fond of preambles and opening the Olympic Games.

**The red-alert big warning my submission sends out to both the Prime Minister John Howard and the Opposition Leader Kim Beazley - that I strongly suggest the Lees-led Democrats sound out - is that it would be absolute madness to have this Productivity Commission Broadcasting Inquiry rubber stamp what Packer and Murdoch with Fairfax half in their pocket want - because once the cross media and foreign ownership rules are removed - there will be nothing left to give the two media barons as the obstacles preventing them from getting what they want will have been removed - and they'll end up with two media barons who will have everything and will no longer need the Government or the Opposition but without them the Government and the Opposition will be lost and at their complete mercy.**

**What the Government and Opposition must ask themselves is the question - "what do we give two media barons who've got everything? The answer to that is - there is only one thing left to give - and that one thing is their soul. And what they would be doing is handing their soul over to the Devil. And it will be the biggest con-job in the history of Australia - that will pay off for that pair of Devils. Make no mistake about it.**

**They will in reality really be in charge of the Government of Australia if they can control the lion's share of the nation's information industry in old and new media. They can control what comes out in the news how when where and why and what doesn't come out in the news at all - to a much greater degree more than twice as before. They can control the cash cows of old and new media from both ends in direct conflict with the national interest but in complete harmony with their own megalomaniacal Big-Picture plans. They can also complete the sell out of Australia to foreign interests which will guarantee them successful investments in those foreign countries they have helped to sell us out to.**

**They can artificially create more than twice as much divisive news than that artificially created in the past. They can listen in to the nation's conversations. They can put communication-related obstacles in the paths of those they want obstructed without anyone able to oppose their combined overpowering might. They will be a danger at every step and turn to the decent fair-go minded Australians and will more than double contribute to the wealth-gap than they did before.**

**The recommendation therefore offered by my submission to both the Prime Minister John Howard and Leader of the Opposition Kim Beazley is that they at least must take out some insurance on this one if the Productivity Commission is simply going to rubber stamp what the nation's two major media barons want.**

**They should support the introduction of a special clause which can make the legislation null and void if the predicted outcome does not eventuate. If greater**

**diversity and more competition do not occur as a result of removing the cross media and foreign ownership rules then this special clause can alter and reverse the legislation in accordance with the unintended outcome. This Truth-in-Legislation facility would thus enable the Government and Opposition to maintain control of the situation and at same time earn the confidence and respect of the national electorate.**

**Too many times - legislative changes have been made based on predicted outcome(s) and the opposite results have eventuated due to the changes implemented making the public entirely wary and mistrustful of the Government and Opposition with the suspicion of another con-job hanging over the Parliament. It stands to reason that if legislative changes are made based on a predicted outcome that if that does not eventuate and the outcome is either at some variance or completely the reverse of that predicted then there should be some inbuilt insurance-facility to make adjustments and completely reverse legislation so that honesty-of-intent comes with a written guarantee. If no safety-net is inbuilt into any deregulative changes to the cross media and foreign ownership rules then that won't be very clever. It would be Mr Magoo dumb no matter how much you put a Mr Sheen on it.**

**The following forty-six pages of evidence that briefly summarise over 70-plus submissions to 33-previous inquiries & royal commissions support the views of this submission. It is my sincere hope that the views and the evidence supporting those views come to public attention through the Productivity Commission's Inquiry noting also that I am eagerly awaiting the time when I can go head to head with Packer & Murdoch on the public stage. Beginning the next forty-six pages are two one page letters - one to Senator Vicki Bourne and one to Senator Natasha Stott Despoja.**

**Yours sincerely,**

**Tony Paynter c/- PO Glebe Sydney NSW 2037.**

**Signature - address - phone & fax number supplied**

**Senator Vicki Bourne - Australian Democrats 16 Phillip Street Sydney**

**GPO Box 36 Sydney NSW 2001 Tel: 9247 3377 Fax: 9247 9681.**

**Friday 7th May 1999**

**Dear Senator Bourne,**

**Please accept receipt of two copies of my submission to Productivity Commission's Broadcasting Inquiry - one for yourself and one on behalf of Senator Natasha Stott Despoja. They will be sent Registered & Express Post - including diskettes on**

**Monday 10th May. Senator Despoja has been my main supporter although be it at half-strength. She is familiar with the evidence presented in my 70-plus submissions to 33-Inquiries over past 13 years from the time she worked in Senator Coulter's office with Jennie Goldie. Her two replies are included in the 23-pages of reference letters out of 330-plus replies and she is mentioned in my submission in my letter to Mr Snape and Mr Simson - preceding this one.**

**Ever since Natasha has gone off onto the "media-celebrity" tangent I have found her to be too busy to be bothered keeping up with the progress of my submissions of evidence that contain evidence against Kerry Packer and Rupert Murdoch that these two media-barons would love to be kept suppressed. From my viewpoint it appears that as I have put all my eggs in the one basket with Natasha the media have honed in on her to woo her with media-celebrity away from her duties and responsibilities as a politician with the ulterior motive of backing her off from stepping over the line of attachment to the evidence I had sent her that she was initially so pleased to read.**

**This is why Natasha is leading the pack of politicians who've been dabbling in media celebrity-type exposure. She's left Cheryl Kernot for dead and she's rubbing it in and eclipsed Bronwyn Bishop. By taking the extraordinary step to whisk herself away to the Balkans-crisis when there is so much hanging in the balance - like the GST and the Productivity Commission's Broadcasting Inquiry and the Preamble debate and especially at a time Colston is still not out of it and the Australian Democrats have to wait until after June 30th this year before they get the balance of power in the Senate this has lead to the question why? As a result she has been detracting from her qualities of substance to my dismay.**

**Yours sincerely,**

**Tony Paynter c/- PO Glebe Sydney NSW 2037.**

**Signature - address - phone & fax number supplied**

**Senator Natasha Stott Despoja - Deputy Leader of Australian Democrats**

**The Senate - Parliament House Canberra ACT 2601.**

**Tel: 02 6277 3645**

**Fax: 02 6277 3235**

**Friday 7th May 1999**

**Dear Senator Despoja,**

**As you have been busy standing out from the crowd as a "celebrity -politician"**

**I haven't received a reply to 82-pages of faxes I had faxed to you between 4th and 24th December last year**

**Now that there is a Federal Government public inquiry into the question of alterations to the cross-media and foreign ownership rules as well as the important GST debate - I am hoping you will have peaked in your appetite for media celebrity status and instead level out more towards the young woman of substance you had shown potential to be drifting away from being another Poppy King - your fellow republican. There is also a huge focus on proposals to reform the Federal Upper House due to perceived obstruction frustrating the Howard Government's ability to get its legislation passed in the Senate exacerbated by the recent emergence of the NSW "tablecloth" Upper House that requires all of the Democrat's hands on deck.**

**Should you succeed to come a little more back to earth with a few healthy dashes of common touch - you may find the time to read my latest media-inquiry submission which is a read of sixty typed pages plus 23-pages of reference letters which are a selection out of 330-plus replies - two of which are your own.**

**I believe you will be pleasantly surprised as will Vicki Bourne - as well as all the Australian Democrats. The evidence if it was brought to public attention would dong on the head - for a start the GST and any notions about diluting the strength of the Senate and restrict Murdoch & Packer more not less than the present media rules. Just beware the media setting you up as one of their little darlings as you'll end up with an image that won't be under your own terms.**

**Yours sincerely,**

**Tony Paynter c/- PO Glebe Sydney NSW 2037**

**Signature - address - phone & fax number supplied**

**BRIEF SUMMARY OF 70-PLUS SUBMISSIONS**

**TO 34 INQUIRIES OVER PAST 13 YEARS**

**RESULTING IN 330-PLUS REPLIES.**

**It gives me great pleasure once again to make a submission to another media Inquiry. My first media-submission was to the 1991 Federal Parliamentary Print Media Inquiry. Since then I have also made submissions to several ABA - Pay TV Inquiries and to the 1993 Federal Parliamentary Print Media Inquiry.**

**The last media submission I made was to the Federal Government's 1996 Media Review. The Prime Minister's Office had replied noting my comments.**

**All the above submissions that I have made contain Federal and State Parliamentary evidence that presents damning evidence against the nation's two major media empire owners - Kerry Packer & Rupert Murdoch and which is evidence that has been so far suppressed.**

**The above evidence proves that these two goliaths have been acting collusively together in secret alliance for the past thirty-plus years to tie up the nation's media/information industry between them all in accord with a secret MASTER GAMEPLAN that came into their possession in the mid 1960s that was contained in the world's first computer programmable manuscript. Through a lot of research I also was able to crack the secret of their secret MASTER GAMEPLAN which had been often rumoured to be in existence as one of the biggest secrets in Australia that was uncrackable.**

**The secret of their secret MASTER GAMEPLAN was also inextricably tied to the secret behind the nation's Crime Mystery of the Century at Ayers Rock as both came together in the one package - that is they were both produced by and entwined in the world's first computer programmable manuscript.**

**The politician most up to date on the evidence which I have presented in numerous media submissions is Deputy Leader of the Australian Democrats - Senator Natasha Stott Despoja who has replied to me with supportive interest and to whom you may refer. She has been sent drafts of the world-first programmable manuscript and very well knows it contains the solution to both Australia's crime mystery of the century at Ayers Rock and solves the secret of Murdoch/Packer's secret MASTER GAMEPLAN. Senator Despoja knows that besides my numerous media Inquiry submissions - the evidence I have presented is based on numerous other submissions beginning with Royal Commission Into Chamberlain Convictions - Dawson Waldron-Fiona Crosbie 35.FJC 1949/86 and Royal Commission Into Aboriginal Deaths In Custody and Queensland's Fitzgerald Inquiry.**

**Besides these three Inquiries I also made numerous submissions to many other Inquiries including NSW ICAC and NSW Police Royal Commission. Also Federal Parliamentary Whistleblower's Inquiry and Portrayal of Violence in the Media Inquiry and the Northern Territory's third and final Coronial Inquiry into the Azaria Question in 1995.**

**All in all - I have made seventy-plus submissions to thirty-three Inquiries over the past thirteen years beginning in 1986 preceded by four years of research which have earned me 330 plus letters of reply - all of which are very encouraging and collectively should be ample to warrant the evidence coming to public attention in the national interest. As this evidence has not made it out onto the public stage as yet - it appears there is just that one letter missing that would do it for me. Hopefully that one letter of reply will come in response to this submission to the Productivity**

**Commission's Inquiry which will be the 34th Inquiry I will have made submission to.**

**THE EVIDENCE proves that Murdoch/Packer's secret MASTER GAMEPLAN was produced by a world-first computer programmable manuscript the discoverer of which is a very famous Australian with a household name and who was one of the key players in the Azaria-Conspiracy involving the Fundamentalist Christian world in Australia under the auspices of QLD's former peanut farmer Premier Joh Bjelke Petersen whose daughter in political terms is Pauline Hanson.**

**It was to be the biggie news sensation this century starting at the beginning of the greed 1980s designed to divide and distract Australians whilst corporate Australia wallowed in greed - which also allowed Murdoch/Packer to send in the corporate wreckers like Bond Connell and Skase to leave a trail of damage as well as corporate spivs/sharks feeding off a Bible-manual of scam/rorts to undermine the nation - whilst Murdoch and Packer went from strength to strength getting their octopus tentacles around lots of media/information industry assets and lots of non-media assets as well whilst the law courts justice system and the health and education systems were massively undermined ripping the nation's social fabric to shreds - pounded into the ground by the biggest growth industry - that being crime assisted by disarming the general population - weakening our military forces and ensuring that the nation's criminal underworld was well armed and could act with impunity against the police and the community who were not on-side with the blatant betrayal of the national interest.**

**The world-first computer programmable manuscript not only produced the Masterplan-Blueprint from broad outline to every tiny detail for the religio-politico Azaria Conspiracy at Ayers Rock but also produced a whole Bible of Crime Blueprints for dozens of major news sensation child crimes all of which fed off the Big-One - and for dozens of other major crimes including serial and mass murders - aimed against those who became victims through being in the road of Greed Incorporated Australia's progress.**

**At the present moment the Jaidyn Leskie child-crime whodunnit is Azaria revisited but in different form - quite a lot of it transposed. The Bega schoolgirls abduction rape and murder court trial aftermath and further developments in the Revelle Balmain and the Kerry Whelan mysterious disappearances - all of which have been prominent in the news recently are also part of the dark conspiracy operating in the shadows behind the nation's back and which are news sensations related to the Big-One.**

**The recent Silverwater Jail helicopter escape right at the time of the recent NSW State Election which had both major parties frothing at the mouth about Law and**

**Order was a rigged Hollywood-Movie type escapade news sensation making a joke out of the entire situation. The incredible amazing helicopter escape was not so incredible and not so amazing. It had the long arm of Murdoch and Packer in there with Lindy Chamberlain's agent Harry M Miller swooping in to sign up the helicopter-pilot.**

**The recent removal of an illegally parked caravan illegally drawing power and with a politician's election poster covering a window - which was being used in a Redfern lane as a drug dealing outlet not very far from police crime-investigation headquarters in Redfern was a news sensation hailed by the media as a masterpiece of investigative journalism that uncovered the "horrifying spectacle" under the nose of the police. This came at a time the Prime Minister had discussed at the Premier's Conference his new plan to combat crime allocating \$220 million to that endeavour allegedly focussed primarily on the scourge of heroin.**

**NSW Police's response to the news coverage on the caravan heroin dealing outlet was that police resources were fully tied up with other investigations indicating that the police have so much to investigate they can't investigate it all and also implying that there was an undercover investigation underway and that the news coverage had destroyed all the work done also to rebutt any thoughts in the community some police were still sleeping with the enemy.**

**The politician on the election poster was Vic Smith who during the election was assisted on election day by none other than Harry M Miller - Lindy Chamberlain's agent with an article and photo appearing about it in the newspapers on election day.**

**The media Barons got their big news sensation story portraying the media as the "undercover-agents" uncovering openly blatant crime and massive police incompetence inferring they were better than the police at police work and were the goodie-goodies out to stamp out evil everywhere when in reality it was the media using itself to create its own propaganda smokescreen to hide behind in evil-angel fashion which is something the media wolves have done on many occasions - dressing themselves up in contrived sheep's clothing.**

**The heroin dealers linked to the caravan were not charged with any charge and also have been issuing "Lakemba & David-Carty" type death threats to Redfern Police involved in the removal of the caravan and threatening the safety of the child of one of the officers after doing their own undercover work to uncover personal details about the Redfern police they were targetting.**

**At the same time there was an appeal by the killers of Walgett nurse Sandra Hoare against the severity of life sentences despite fact she had been dragged out of hospital whilst on duty and raped and had her throat cut by her killer(s) and almost**

decapitated. Sandra Hoare rape murder by two cousins was a 1990s version of the rape/murder of nurse Anita Cobby who also had her throat cut by her killer and three brothers involved in the crime - during the time of Royal Commission Into Chamberlain Convictions. At the same time NSW senior police announced that Operation Fenwick which was re-investigating the mysterious disappearance of six young women in the Newcastle/Hunter Valley area was being wound down with no new leads uncovered.

The re-investigation of the Newcastle Leigh Leigh rape murder case a few months earlier had also been wound down. This was the case turned into a movie called Blackrock which was released not that long ago here and in America. Newcastle's Seventh Day Adventist academic Professor Boettcher who supported the Chamberlain's Innocence was heavily involved in the Leigh Leigh case.

LATER ON I will present all the crime related events as reported in the news over the first four months of this year and show how they all tie in with the overall scheme of things in relation to the Chamberlain case. The big child abduction news sensation so far this year came with the abduction murder of toddler James Sette on February 7th three months ago. His body was also found in a dam similar to Jaidyn Leskie's body being found in a dam on New Year's day at the beginning of last year. His full name was "JAMES DEAN" SETTE.

The anniversary of Azaria's disappearance fell around the traditional time of the annual Federal budget - and it is around this time that a lot of child crimes have occurred. In the two weeks just prior the 1993 annual Budget which fell on August Seventeenth the same day as the 13th anniversary as Azaria's disappearance there were six child murders in Australia - most in NSW. Then - PM Paul Keating changed the annual budget to May.

The Samantha Knight abduction mysterious disappearance that occurred during the time of Royal Commission Into Chamberlain Convictions and Ebony Simpson abduction rape murder in 1993 - both occurred two days after Azaria's yearly anniversary. Samantha Knight abduction was the first of a long series of child abduction murders that formed a group that included the Helen Karpidis abduction.

Last year after Kerry Packer flew over to New York for his heart operation with the Thredbo Emergency Services hero Paul Featherstone by his side on his "flying-hospital" private plane just before the Sydney water crisis that "Sydney had to have" but which was a Clayton's water crisis and a big-boon for bottled-water companies - Lindy Chamberlain and new husband and her two teens arrived in Australia unannounced under cover of the water crisis sensation in early August a few weeks before Azaria's eighteenth anniversary to live in Australia permanently next to Michael Chamberlain and his new wife and their two year old baby

daughter named ZAHRA - quite like the name of Harold Holt's wife ZARA and quite like AZARIA.

This was the time of the mysterious disappearance of Granville schoolgirl Quanne Diec whilst the movie being made in Granville - Day of the Roses about Granville Train Disaster was being focussed on in the news. Like the previous year the Samantha Knight abduction came back into the news in a big way on her August 19th annual anniversary along with the Helen Karpidis abduction - both getting a big mention coinciding with Azaria's annual anniversary on August 17th - two days earlier at the time the search for Quanne Diec was in full swing.

Strathfield massacre occurred on the eleventh anniversary of Azaria's disappearance on August 17th 1991 - six weeks after Dr Chang's assassination in Mosman whilst driving on his way to work on American Independence Day - 4th July. Juanita Neilsen's mysterious disappearance three years before Azaria's disappearance was also on American Independence Day and was one of the major news sensation crimes that was part of the MASTER GAMEPLAN which occurred in the lead-up to Azaria.

Prior to Strathfield massacre - another massacre occurred in New Zealand coinciding with the visit of Mrs Chamberlain. In this massacre children were the main targets. A house was set on fire near a primary school at the end of the school day. Children who ran to watch the fire were shot. One of the excuses for this massacre was an argument over pet animals. On the other hand - in Strathfield massacre which occurred on Azaria's eleventh anniversary in reverse fashion - the gunman deliberately avoided shooting any children.

Dr Chang's murder and Strathfield massacre occurred at the start of the 1991 Federal Parliamentary Print Media Inquiry. Dr Chang had fought off intense pressure behind the scenes from Kerry Packer backed by Murdoch to push him into being part of the "Tourang-Consortium" bid so Packer could use Dr Chang's excellent good-name as a front to hide-behind for his "trust-me" campaign to get on board Fairfax to overcome intense opposition against him. Dr Chang was replaced by academic Sir Zelman Cowen former Sydney University Chancellor. The latest Packer/Murdoch academic stooge/plant in Fairfax is Professor Hilmer who was in charge of formulation of Australia's National competition policy and who is now offering views that are sweet music to Packer & Murdoch's ears as they will guarantee continued supremacy by the two media barons and cripple competition against them and as such are totally anti-competitive.

Packer had worked in close on Dr Chang through the Packer family's long close ties with St Vincent's Hospital and through the heart by-pass operation Dr Chang had

performed on him and the \$3million donation Packer had gifted to Dr Chang's cardiac research unit at St Vincents.

The criminal pressure on Dr Chang had started six years earlier at the time of large donations from an Asian businessman as in business-terms there was no such thing as charity as donations were rather investments and after the armed home invasion raid on the home of the high-profile Asian family - the Wongs who were part of Dr Chang's social circle. The Wongs were highly respected owners of a famous Chinatown restaurant and the famous racehorse Wong. Both Mr and Mrs Wong had their throats cut. Dr Chang miraculously saved Mrs Wong's life. After this the Chang's home was broken into many times forcing Dr Chang to turn his home into a fortress.

Quite a few years later Dr Chang's colleague at St Vincent's Hospital - Dr Chye was murdered shot in the head as was Dr Chang and later Dr Chye's sister who was the part-owner of a restaurant was murdered - stabbed to death over fifty-times.

Those involved in the crimes against the Wongs and Dr Chye and his sister and Dr Chang - were involved in the Asian restaurant industry - either as kitchen hands or waiters or restaurant managers. After the crimes against the Wongs and the Chyes - Dr Chang was murdered with Asian criminals contracted out the assassination disguised as attempted robbery but without any robbery occurring. The original idea of an armed home invasion and hanging one of the Chang children was cancelled. They were loser-gamblers just doing the dirty-work for bigger people with Big-Picture plans. The American Jarvik-heart invention costing \$50,000.00 earned a big reprieve when Dr Chang's better heart-invention costing \$4,000.00 bit the dust with Dr Chang's death as did the lucrative human spare parts trade.

If Kerry Packer had Dr Chang fronting for him at 1991 Federal Print Media Inquiry he would not have needed to use standover intimidation tactics on the Inquiry's Committee and on national television like he did. Even though Packer and Murdoch's media organisations had devoted a lot of publicity to Dr Chang's work and helped create Dr Chang's SAINTLY-IMAGE - Dr Chang wouldn't be in it - not even with criminal pressure being applied. Rupert Murdoch on the sidelines had been supporting Packer's bid for Fairfax through Tourang Consortium and was supporting Canadian Conrad Black even though Canada would not allow foreign ownership/control of any Canadian media.

**DR CHANG'S MURDER SENT MESSAGE OUT LOUD AND CLEAR THAT NO ONE IN AUSTRALIA WAS SAFE - NOT EVEN A PRIME MINISTER.**

Murdoch and Packer then were playing on each other's side and have had to change their tactics since then - now powerfully focussing on a strong close friendship between their two sons and their secret alliance between them coming more and

more out of the closet tying up four big shared deals between them in recent years and with more to come. In recent times - instead of trying to get around the rules they had to switch over to trying to get rid of "offending" media rules blocking their path.

At the end of 1991 at Xmas time - at the end of the Federal Print Media Inquiry when Conrad Black's "Tourang consortium minus Packer" won Fairfax and Paul Keating became Prime Minister - the Fairlie Arrow Hoax occurred on Queensland's Gold Coast in between a double murder and a murder suicide. The investigation into Fairlie Arrow's alleged abduction completely hampered the investigation into the Gold Coast Xmas-murders.

Fairlie Arrow was being set up to be the Lindy Chamberlain of the 1990s by Packer with Murdoch's assistance through cheque book journalism media deals. Nene King the Queen of Packer's magazines who had handled the Chamberlain glossy-coverage started grooming Fairlie Arrow for her new "Lindyish-role" as a woman with a wild story the public was finding difficult to believe. Alas all that had to be ditched when Fairlie Arrow came half unstuck. Fairlie Arrow's manager was none other than Jim Byrnes - Alan Bond's mate and "financial-saviour" and who married Fairlie Arrow's close friend Jackie Love. Like Lindy - Fairlie Arrow went to live in America to live her notoriety down.

A Gold Coast barmaid who had given evidence to NSW ICAC and her SP bookmaker boyfriend were executed in their unit in the same week at Xmas as the Fairlie Arrow hoax. At the same time there was also the murder of a model by her estranged defacto who killed himself a week later after travelling to Sydney to see his solicitor.

The Fairlie Arrow hoax syphoned off police resources that should have otherwise gone into the murder investigations. The barmaid and Sp bookmaker were both shot twice in the head - execution gangland style same as happened to Dr Chang - with the barmaid also having her throat cut.

(The criminals involved in their execution were also later the main suspects in the Arnotts poisoned biscuits extortion threat).

The beginning of Kerry Packer's play for Fairfax assisted by Rupert Murdoch was the infiltration and undermining of Fairfax from within by Packer-Murdoch operatives beginning from time of Royal Commission Into Chamberlain Convictions.

They drove a wedge in the Fairfax family using stepmother Lady Mary Fairfax and stepson Warwick junior to form a faction against the Fairfax family proper. Warwick junior was really easy to manipulate as he was a Jesus Freak fundamentalist christian and a key Lindy Chamberlain supporter. He was supposed to be the good christian who was against greed avarice envy and all that but that

**being a front he took the bait thrown by Packer Murdoch's operative Mr Greed himself - Alan Bond's mate Laurie Connell who took a \$100 million dollar fee raising the massive loans with which Warwick junior and Lady Mary were to use to buy out the rest of the Fairfax family and seize control - under the guise of being forced to do it to save the Fairfax empire when that mad-move led to Warwick and Lady Mary losing the Fairfax empire in a very short space of time. Instead of saving it they doomed it - with Packer and Murdoch laughing themselves stupid.**

**These two media barons were the only real winners during the November 1987 stockmarket crash and four years later in 1991 Packer with Conrad Black and Murdoch's blessing was trying to get his hands on Fairfax which led to the 1991 Federal Print Media Inquiry to investigate the propriety of the Tourang bid and the need for a probity check on Packer due to the immense unease from many quarters about him and his desire for Fairfax and his amusement about the unease he aroused.**

**Going back to Juanita Neilsen three years before Azaria news sensation - she was the rich-girl with a very small inner city newspaper voicing her opposition to the destruction of heritage by developers in Kings Cross and leading the political activism against them. Well she didn't last very long and got rubbed out quick smart - mysteriously disappeared. She was standing in the way of a lot of people making a lot of money also at the expense of our heritage. And she was a private small tadpole annoying mosquito of a newspaper-person squashed by the tiniest tip of Packer & Murdoch's little finger.**

**Besides Juanita Neilsen - three other huge news sensation crime conspiracies in the lead-up to the Azaria Conspiracy were Whiskey Au Go Go nightclub mass murder which was Queensland's crime of the century behind which was fundamentalist christian Premier Joh Bjelke Petersen that he used to help keep him in power in Queensland almost two decades - NSW's crime of the century the Hilton Bombing and Prime Minister Harold Holt's mysterious disappearance whilst swimming in the sea.**

**Whiskey Au Go Go nightclub was in the centre of Brisbane's Bible Belt circled around Fortitude Valley - Brisbane's nightclub "Kings Cross" type district. Chamberlain's Betty Hocking Chamberlain Innocence Committee was based in Brisbane's Bible Belt which was the national headquarters of fundamentalist christianity in Australia. The Chamberlain's Innocence Committee had publicly thrown its weight behind establishing a Royal Commission Into Whiskey Au Go Go mass murder and had James Finch's wife under their wing to help retrap-Finch who after being freed and back in England admitted to being part of the arson team but also claimed he had been set-up as he had ben led to believe it was to be an ordinary**

**nightclub fire without loss of life involved. He was a patsy for big people with Big-Picture plans.**

**Whiskey Au Go Go was the crime of the century at State-level which built the platform for the crime of the century at national-level. Premier Joh used Whiskey Au Go Go as a standover of Queensland to rule with an iron fist and begin the sell-off of Australia to foreign interests giving them a big foothold from which to launch raids on the rest of Australia. It also helped to organise big-time crime north of the Tweed Heads border controlled from Sydney that was geared towards a betrayal of the national interest particularly assisting the infiltration of international criminal groups into Australia and setting-up a network of corrupt-police & career criminals who took up all the contracts from corrupt corporate Australia who funded criminal projects devised in the briefcase boardrooms across the nation to assist Greed Inc's Big-Picture plans.**

**The Chamberlains moved to Mt Isa Queensland a bit less than a year before their trip to Ayers Rock where a collection of cohorts in the conspiracy were waiting for the star-couple and their kids to arrive. All those in the conspiracy had been selected from all over Australia by the fundamentalist christian network in Australia with national headquarters in Brisbane's Bible Belt years before the crime and cover-up occurred at Ayers Rock. Several years before the Royal Commission into Chamberlain Convictions fundamentalist christian Joh Bjelke Petersen became Chamberlain's official political backer and soon after that Royal Commission began his Joh-for-PM campaign with rallies all over Australia on the same bandwagon as the Chamberlain Innocence Campaign bouyed by the pardon Chamberlain's received from the Royal Commission.**

**If there had not been one crucial mistake by the Azaria Conspiracy team and plan-A of the cover-up could have been implemented instead of having to resort to plan-B the Chamberlains would have earned exoneration and recommendation for compensation from the Northern Territory Govt. Instead they earned only the pardon without any recommendation for compensation which is why Chamberlains had to fight for many years for their compo payout and why the Northern Territory's third Coronial Inquiry into Azaria-Question during Xmas 1995 handed down an OPEN FINDING leaving the question of Chamberlain's guilt or innocence still open to conjecture.**

**This finding was only brought about by my submission(s) of evidence which forced the Northern Territory's Coroner to also say at the same time he handed down his OPEN FINDING - that the truth to the Azaria-Question should never be made public thereby admitting that the truth about Azaria was known but that that truth was too horrible for Australia to ever have to face - that it was too big for him to deal with.**

**AZARIA WAS LINKED TO JOH'S DREAM TO BECOME THE FIRST**

**GOD-FEARING FUNDAMENTALIST CHRISTIAN PRIME MINISTER OF AUSTRALIA ALSO ENSURING THE "CRUCIFIED" CHAMBERLAINS WOULD BECOME NATIONAL ICONS OF MORAL LEADERSHIP WITH A YEARLY PILGRIMAGE TO THEIR MUCH SOUGHT AFTER AYERS ROCK AZARIA-MEMORIAL BECOMING A NATIONAL OBSERVANCE DAY.**

**IF Joh had won the elections in the Northern Territory where he held the first electoral litmus test for his Joh-For-Pm campaign. THE-PLAN was to divide the Northern Territory up - giving each State a slice of the Northern Territory to kill two birds with one stone - then**

**(1) this would have solved the STATEHOOD problem for the Northern Territory  
(2) helped Joh bribe/buy his way to Canberra where Senator Flo was waiting for "His-Arrival" - also**

**(3) giving Murdoch & Packer the nation's first Reaganesque Presidential-style Prime Minister willing to do to Australia what was done to Azaria as a national sacrifice at Ayers Rock.**

**THUS - AZARIA WAS ALSO LINKED TO MURDOCH & PACKER'S PLANS TO DIVIDE AND DISTRACT THE NATION WITH A NEWS - SENSATION CHILD CRIME MYSTERY WHICH THEY COULD CASH IN ON AS THE-BIGGIE WHICH WOULD TAKE AUSTRALIA'S LOST-CHILD FACTOR INTO A WHOLE NEW ERA LEADING THE WAY FOR A WHOLE NEW SMORGASBOARD OF CRIME - INCLUDING SINISTER NEW VARIETIES TAKING A BIG STEP UP FROM THAT OF THE PAST - USING IT AS A CRIMINAL STANDOVER OF THE NATION WHILST THEY CORRUPTED THE NATION'S CORPORATE BOARDROOMS AND THE NATION'S POLITICAL AND JUDICIAL PROCESSES IN A BID TO REALISE THEIR DREAMS - IN MURDOCH'S CASE A WORLD NEWS EMPIRE AND IN PACKER'S CASE A DOUBLE "THREE-IN-ONE" THAT IS - A CASINO AND A TELEVISION STATION NETWORK AND A QUALITY NEWSPAPER IN AUSTRALIA'S TWO BIGGEST CITIES WITH BOTH MURDOCH AND PACKER HAVING A SHARE IN EACH OTHER AS A UNITED FRONT.**

**THE LOST CHILD FACTOR NOT ONLY INCLUDED THE ABDUCTION OF CHILDREN AND INFANTICIDE BUT ALSO NEGLECT & CHILD ABUSE AND ABORTION AND AN EMERGING REFUSAL BY ADULT AUSTRALIA TO BEAR CHILDREN AND ALSO INCLUDED GREATER INVOLVEMENT BY CHILDREN IN DRUGS AND CRIME INCLUDING THE ASSAULT AND MURDER OF CHILDREN AND ADULTS BY CHILDREN INSIDE & OUTSIDE HOME AND SCHOOL-YARD.**

**Two references about Australia's "LOST CHILD FACTOR" both of which appeared in the Sydney Morning Herald this month are:**

**(1) The Country of Lost Children - Peter Pierce: Spectrum features page five Sydney Morning Herald SATURDAY APRIL 10TH 1999 in which Azaria Chamberlain & Jaidyn Leskie & Ebony Simpson feature.**

**(2) The land That Eats Its Young - Andrew Riemer: Spectrum Books page nine Sydney Morning Herald SATURDAY APRIL 24TH 1999 which reviews Peter Pierce's book "The Country of Lost Children" - an Australian anxiety.**

**On Thursday 22nd April there was the assault & abduction of missing nine-year old girl Keyra Steinhardt near Rockhampton in Queensland. There have been besides Keyra Steinhardt's abduction also the abduction of four young women all of whom have mysteriously disappeared in the past seven months from September 2nd last year to the very present in Rockhampton raising the prospect of a serial killer on the loose especially since the abductions have occurred with increasing frequency.**

**Peter Pierce's book also mentions the Lost-Child factor includes a focus on the Aboriginal Stolen Generation as well as the Stolen British migrant children and the issue of reconciliation.**

**Azaria was The-Biggie because Azaria was to be the nation's sacrifice as a symbolic gesture of atonement for all the Aboriginal children who became the Stolen Generation which is why it was so important that a sinless white child with a weird Old Testament Biblical name had to mysteriously disappear creating the Azaria-Legend at Ayers Rock - the nation's foremost nation identity symbol/icon and Aboriginal Australia's Dreamtime Headquarters.**

**Ayers Rock owned the Dreamtime Legend of the Evil Dingo satan-spirit that roamed the Rock and stole children from camp at night taking them back to his lair deep under The-Rock to devour them for din-dins and which was only a scary lie-story used to make sure kids didn't stray away at night from camp as exposure to the natural elements in the wilderness would itself kill a child more assuredly than any dingo.**

**Turning attention now to the Hilton Bombing - Tim Anderson was the media officer for the Ananda Marga a little known sect. Michael Chamberlain also was a media man as he was a freelance photojournalist besides being a pastor and used his media skills to help promote the little-known Seventh Day Adventist sect to which Chamberlains belonged. Michael Chamberlain also used the fact that he had media skills to excuse himself from searching for Azaria's remains so that he could devote his time to linking up with the media to get the story out and taking photos and notes for a book on the tragedy to in his view - nobly help prevent a similar tragedy occurring to another couple.**

**It was also former NSW Premier Neville Wran who was part of the Packer & Black Tourang Consortium bid for Fairfax. Nifty Nev was in there batting away for Kerry Packer. Nifty Nev was also a champion supporter of the Chamberlains. He helped**

launch Lindy's autobiography. He also was the patron of the NSW Dingo-farm foundation but ran foul of the RSPCA over the treatment of two donkeys but in court being who he is got out of that one not all that long ago.

The mysterious disappearance of Prime Minister Harold Holt in the sea with no recovery of his missing body began the hunt for the answer to the question same as the question mark hanging over Azaria - was it death due to misadventure or to foul play? Thirty years after his death in line with the Official Secrets Act during early January last year - The Holt Files were released to the public. Many of the documents in the files were useless due to their inadequacy and bodginess and many key files were missing. It was around this time that a series of unusual deaths in the sea occurred in Australia. The foremost news sensation of this type was the mysterious disappearance of the American skin diving couple - The Lonergans off Cairns after the dive-boat returned without them on board and their absence going unnoticed for several days. The Lonergans were fundamentalist christian charity church workers.

A young Sydney Morning Herald photographer whose father was a journalist who had died young and his sister is a journalist also - all being part of the Minogue family - drowned whilst swimming with two friends off Bondi Beach after midnight at the time the Coronial Inquiry into the French photographer Roni Levi Bondi Beach police shooting was underway.

Two other skin-diving suspicious-deaths in the years prior the release of the Harold Holt files are related directly to Kerry Packer's magazine-queen Nene King which involved the death of her husband's skin diving buddy - Channel Seven executive Paul Cavanagh and the death of her husband journalist Pat Bowring who had also been present during Paul Cavanagh's suspicious death whilst skin diving. Both deaths occurred about two years apart off Long Reef - Cavanagh's off the Northern beaches and Bowring's off Bondi Beach.

Nene King went back to work a week and a half after Pat Bowring's death - his remains never recovered. The death of Nene King's autobiographer a Sydney Morning Herald journalist also occurred in a light plane crash in North Queensland. Nene King - the tattooed queen of gossip also is a well-spring of rumour and gossip herself - with three marriages - numerous job walk-outs and occult dabblings. She has recently resigned again to join the celebrity speech circuit and pursue product endorsements.

The assassination of Australia's third top policeman Colin Winchester in Canberra had a big Azaria-connection. Peter Macaulay the nation's top policeman had also been the Northern Territory Police Commissioner during the ten years of the Chamberlain-saga and it was due to his effort of bringing Professor Cameron into the picture that brought about the case against the Chamberlains. Without

**Professor Cameron's involvement no case against the Chamberlains could have been made. Peter Macaulay got all the credit for that.**

**The local Griffith-mafia were also incensed about the hounding of "Aussie Bob" into the ground. Also widow Joan Trimbole who was a noted fundamentalist christian and a champion of Lindy Chamberlain's innocence defended her husband's name claiming he was not associated with any crime-activities and the notion that he was crime-boss was a Big-Lie. Peter Macaulay who was Australia's top policeman couldn't be killed. There would have been too many questions asked. Nor could his second be killed - too close. They could only go as high as killing Australia's third top policeman throwing Peter Macaulay's Commissionership under a dark cloud and signalling a whole new phase in the menace posed by organised crime which in this case used a Lindy Chamberlain innocence operative with a gripe against Winchester related to his need to get his old public service job back. Mick Palmer who took over from Peter Macaulay as Police Commissioner of the AFP is also a former Northern Territory Police Commissioner.**

**Australia's highest profile criminal lawyer is a former Ananda Marga member same as Tim Anderson and is a Tim Anderson & Lindy Chamberlain Innocence supporter. She is famous for having affairs with many of her criminal clients including one of the Anita Cobby killers. Due to the recent "Red Light" case she is now not practicing law and instead is pursuing a career in movie making. She represented Ivan Milat's girlfriend who was also Registrar of the Human Rights and Equal Opportunity Commission which is quite odd when one considers Milat was the murderer of human rights and equal opportunity and his girlfriend wore clothes Milat took from victims. Tim Anderson at present is the president of NSW Council For Civil Liberties - which is a Tim Anderson & Lindy Chamberlain support group organisation.**

**The Harry Blackburn Fiasco also had a big Azaria-connection. This fiasco was a conspiratorial scheme to make a complete fool out of Former Fairfax Sun newspaper journalist Steve Brien who wrote the book - "Azaria: Trial of the Century" presenting the Crown's case against the Chamberlains and to set-up Blackburn with serial-rape charges with his complicity knowing that the charges would collapse soon after they were laid and that a Royal Commission a few months later would lead to a massive \$1million payment.**

**The Chamberlains also teamed up with Blackburn using the fact that his ordeal lasted only a few months and had been compensated \$1million after a short time to use this as pressure to help them get their compensation. Mrs Gundy and Darren Brennan who were victims of police shootings also teamed up with Blackburn and the Chamberlains to help speed-up their compensation payouts.**

**Blackburn's police colleagues and Blackburn helped create the bogus evidence. Steve Brien who was the police media liaison officer was instructed to media-walk Blackburn. Steve Brien who had nothing to do with the investigation or the laying of charges was made out to be the "big-idiot" in the affair. There was ample evidence to prove Blackburn was involved in a conspiracy with fellow police colleagues to create bogus charges against himself knowing that they would collapse in a heap straight away. He helped create a "hot air ballon with crap inside it" knowing he had the needle with which to prick it when it was sneakily placed in the hands of those the crap was meant to splatter with Blackburn knowing there was a big compensation payout in it and that it had political-judicial backing for bigger-picture reasons. It was also helping to make a joke out of the justice-system. Blackburn opened a private investigation agency on the Gold Coast with his \$1million compo-payout and was instrumental in helping to set up the Fairlie Arrow hoax in the same week as the Gold Coast Xmas murders.**

**A similar replay of the Harry Blackburn Fiasco has been blazing in the news over the past month through the Judge Philip Bell court trial. There were similarities in the flimsiness of the evidence - the way charges were laid and their names made public.**

**The Police Commissioner's Operation Cori on extremely flimsy evidence of a solitary "Franca Arena" witness brought charges against Judge Philip Bell whilst bypassing the office of the NSW Department of Public Prosecutions which collapsed very easily. The evidence was flimsy at best. Judge Philip Bell had the same name as recently convicted pedophile Philip Bell.**

**Judge Philip Bell's defender was none other than Ian Barker QC the Crown prosecutor at Lindy Chamberlain's 1982 court trial. He is also the current NSW Bar Association president. He is also defending Judge Kirkham against criticism levelled at him for aborting a trial against one of the Bega-killers before the Bega rape/murders occurred. Had Judge Kirkham not aborted that trial then in all likelihood the Bega murders would not have occurred. Judge Kirkham aborted the trial after NSW Police Minister Paul Whelan broadcast general comments which Judge Kirkham ruled would prejudice a fair trial for the accused who was in the dock for the repeated sexual abuse of an 11 year old girl.**

**This decision put the offender back into the community who went to climax his criminal career with his part in the murder of the two Bega schoolgirls. The two Bega killers had long criminal records of petty crime and had been treated very leniently by the justice system so lenient that they were primed by the justice system to go on to commit the Bega rape/murders. Tim Anderson as secretary of NSW Council for Civil Liberties is calling for an Inquiry into the charging of Judge Phillip Bell.**

**John Marsden who was a former-head of the NSW Council for Civil Liberties and has been recently in the news through his defamation case against Channel Seven and who in the past had to defend himself against similar allegations that Judge Philip Bell recently faced - was also Ivan Milat's solicitor until Milat swapped over to the Brisbane lawyer named Boe. He also successfully defended Milat in a court case years before the Belanglo Forest backpacker-murders getting him off abduction & rape charges involving two female hitchhikers. Because Milat wasn't stopped then the charmed life he lived protected by the justice system meant he could also have gotten away with the Belanglo backpacker murders - except for one crucial mistake which gave police no choice but to properly investigate.**

**He still maintains his innocence because he was so unlucky to have been caught and because the system was nurturing and priming him for the criminal climax of his career. Others with Big-Picture plans were using him to do what he did allowing him to bask in the knowledge that he was virtually untouchable.**

**The western world-wide/international sweep of Murdoch/Packer's secret MASTER GAMEPLAN surfaces once again with the recent Littleton Colorado high school massacre. Bega in NSW is also Littleton's SISTER-CITY.**

**Two weeks before the Colorado massacre Bega relived the horrific crimes to two of its teenage schoolgirls when a jury found the second killer guilty. He was the offender for whom Judge Kirkham aborted his child-sex crime trial due to Police Minister Paul Whelan's general comments. BEGA Council will erect a plaque in the town square named Littleton Gardens with the memorial bearing all the names of the Colorado massacre victims next to plaques dedicated to Lauren and Nichole the two Bega schoolgirl victims.**

**The Trench Coat Mafia wore black trenchcoats as did Keanu Reeves throughout movie Matrix and idolised the grunge band Maralyn Manson whose members all bear the names of infamous serial killers. The Colorado Massacre also has occurred just before our Anzac day which is quite close to when our own Port Arthur massacre occurred just after Anzac day three years ago and which holds the world record for its number of victims by a single assailant. Likewise Dunblane in Scotland and Port Arthur massacres were only a few months apart - and victims of both massacres formed a close association. These two massacres also occurred at the time when the decision was made to deport Australia's own "Charles Manson" who had been behind a series of bizarre murders in Sydney and who originally came from Dunblane in Scotland and who was looked after by the Australian media in a big way after his deportation to Dunblane. Recent news stories about Port Arthur massacre are in relation to compensation claims and remembrance of third anniversary.**

**Martin Bryant was the product of a tyrant father and a religious fundamentalist christian mother. He idolised Sylvester Stallone - Rambo and fed himself a daily diet of violent videos including the Chucky series. The massacre occurred some months before the opening of Planet Hollywood in Sydney at which Sylvester Stallone was in attendance. He also liked Babe the movie as he had a pet pig he slept with. For over three years Joh Bjelke Petersen based himself in Northern Tasmania prior to Port Arthur Massacre opening up a roadside cafe chain featuring Lady Flo's pumpkin scones - not dissimilar to Broad Arrow Cafe in which Martin Bryant began the massacre.**

**It was also Joh Bjelke Petersen's stronghold in Kingaroy-Gympie-Noosa Queensland that is national headquarters for gun-extremists in Australia. Martin Bryant was let out of the gun-extremist's closet to do a crap on Australia giving gun extremists the excuse to grip their guns tighter whilst the rest of the general population got disarmed. On Monday 3rd May this year - 23 year old Anthony Lauritsen pleaded guilty in Perth WA Supreme Court of killing his grandmother by hacking her to death on the anniversary of his father's suicide. He was obsessed with violent movies and had a list of people he planned to kill and he admired Port Arthur massacre killer - Martin Bryant who had also carried out his massacre a year after his father's suicide.**

**This was suspected to be another murder by Bryant who was also suspected of killing a neighbour and several backpacker girls in the warm-up for his big climax.**

**The Koresh Waco-Tragedy had a big tie to Australia. Koresh recruited the Australians who died in the fire and some who survived - from the Seventh Day Adventist church in Australia during visits in the 1970s. Koresh was a Branch Davidian Seventh Day Adventist. The Solar Temple sect bought properties on the Gold Coast. Their leader made a pilgrimage to Ayers Rock on Azaria Day August Seventeenth several years before the big-kill. The Japanese Aum Truth Sect had a farm in Western Australia where canisters of poison gas were stored.**

**The Offal Cult in South Australia has been in the news recently with the leaders maintaining they are a harmless christian group. This is one of dozens of cults in Australia like the Little Pebble fundamentalist Catholic-christian cult near Nowra and The Family sect mainly in Victoria and NSW. As well as christian-oriented cults there are dozens of New-Age cults that have sprouted everywhere thriving in a climate of social-dysfunctionalism in troubled times making matters worse by pouring accelerant on the fire of national discontent instead of pouring oil on troubled waters - like the sinister act by a strange person who had travelled from interstate for some weird reason to walk into a Cairns schoolyard and set young Tjandamura O'shane alight on basis it was by pure chance the victim happened to be a relative of Pat O'shane and had an Aboriginal name synonymous with "Warrior fighting spirit". This was occult and related to Azaria.**

**There is also a long list of news sensation fraud/hoaxes - such as literary fraud/hoaxes from the first in 1980 up to the most recent fraud of Helen Darville Demidenko with her book "The Hand That Signed The Paper" and the male author who published a book under an Aboriginal woman's name which also coincided with Elizabeth Durack's paintings under an Aboriginal man's name. Tied in with these is the Marree Man which became the other mystery/riddle in the desert.**

**There is also Harry M Miller's Mr Iceman Hoax involving a Qld Uni student whose father was a fundamentalist christian Professor at Qld Uni. This was the fraud of the young man's survival on three chocolate bars in a Himalayan ice cave for 43 days.**

**There is also the rigged-fight on Channel Nine's Ray Martin M idday Show between Normie Rowe and Ron Casey that occurred in the two weeks after Dr Chang's murder. The latest rigged fight is between Ray Martin versus Saffran and Shane Paxton. We can add rigged-furore's like the Elle Mcfeast Mark Chopper Read intro to the new outsourcing vogue which led to such ugliness attached to the ABC which in the past would have been unthinkable and totally un-ABC. The Channel Nine Paxton South Molle Island stunt was a Packer political joke on Australia.**

**Professor Hilton  
NSW Forensic Laboratories  
City Morgue - Arundel Street  
Glebe NSW 2037  
FAX: 9552 6394**

**Friday 12th March 1998**

**Dear Professor Hilton,**

**Yesterday I visited City Morgue to enquire at front desk about the death of my good friend Steven Nibblert in Newtown last weekend. The attendant named Darren gave me the general information from the computer about the autopsy but was not able to mention anything about the toxicology-report as it had not at that stage been finalised. Darren gave me the telephone number 9660 5977 Ext: 339 so that I could phone the forensic autopsy staff to enquire further.**

**Whilst I was a good friend of Steven's I do not know his next of kin although I know his girlfriend and many of his friends. What I do know is that Steven was an important cog in the wheel in a lot of what was going on with regards heaps of evidence I was submitting to many Federal and State Parliamentary Inquiries particularly Media and Whistleblowers and numerous Royal Commissions from Royal Commission Into Chamberlain Convictions - Aboriginal Deaths In Custody - Darren Brennan TRG-Inquiry and David Gundy Hearings and NSW ICAC to NSW Wood Royal Commission Into Police Corruption.**

**I do not believe that enemies Steven and I had in common -particularly a certain journalist/media-person who is an operative of Chamberlain's closest journalist - Sydney Morning Herald Chief Reporter Malcolm Brown got lucky by Steve dying through some freakish bad-luck.**

**From what I know from my end of things - Steven was getting more nervous each time I had seen him and at 11pm Thursday 25th February at which time I had last spoken to him outside Badde Manors Cafe in Glebe he was very troubled by something he didn't get to mention - as he didn't get around to visiting me as he had promised in our last conversation due to his unexpected death. Steven was also very well-liked and very well known within Glebe and Inner City Cafe society and Radio/Music circles and was a healthy-living person who smoked a bit from time to time but was not particularly a drug addict of any description.**

**It is difficult to conceive that he simply died from his own vomit without anything unnatural/suspicious to cause it. What is very likely here is that his guard was down and someone got under it with something sneaky - up close and personal. There is a long list of murders/attempted-murders/stabbings & bashings of many persons around me - some of whom were in Steven Niblett's circle which was part of the criminal vendetta campaign against my numerous evidence submissions and the political suppression of it behind which was the Rupert Murdoch/Kerry Packer dominated Australian Media/Information Cheque Book Journalism Industry.**

**Steven was a very dear friend whom I wanted to be around when my breakthrough came and the evidence in my numerous submissions came to public attention.**

**This evidence in short solves the Chamberlain Case proving the original Joy Kuhl forensic tests at NSW Forensic Laboratories/Glebe Coroner's Court were correct and that Azaria was the victim of a Fundamentalist Christian World Religio/Politico Conspiracy backed by Joh Bjelke Petersen and the Murdoch/Packer media empires through these two media baron's secret-alliance.**

**This super-duo backed the Azaria-Conspiracy as Michael Chamberlain had a rare expertise in the words/names area to world-first standing which allowed him to make a major breakthrough resulting in his discovery of the world's first computer programmable manuscript that not only contained all the jig-saw puzzle pieces for the nation's crime mystery of the century at Ayers Rock but also produced the blueprints for dozens of other child murder conspiracies from Samantha Knight to Jaidyn Leskie and a Bible of news-sensation crimes all of which were designed to shock the nation and were related to The-Biggie surprise news sensation at Ayers Rock - which allowed the nation's two major media-barons not only to create the news but also cash in on the news created whilst dividing and distracting Australians and standing over the nation whilst they gobbled up more ownership of Australia's Media/Information Industry assets forcing us to accept their corporate supremacy like the highway robbery of the banks and the disdain of the top end of town - newly emerging upper-class who could kick the hell out of the middle class whilst creating a new poor and an underclass marginalised by the wealth-gap whilst they could play one major political party off against the other and swap and change political sides whenever they deemed fit and push Australia towards a Republic to set up a new-era Australia that would effectively be the same Australia today only with the unmovable Senate removed/wiped out - opening up the way for political-dictatorship with Murdoch/Packer the prime movers and the real emperors behind the throne at the expense of privatising the national commonsense despite the recent John Elliott protestation(s) that we are a nation of stupid insular people despite fact he - Elliott got off a \$66million fraud due to a "flukish" technicality re an NCA investigation. All the evidence for the above is presented in a two-hundred page**

**brief summary which is a brief summary of over 25,000 pages of evidence. This submission presents a shorter version of that brief summary.**

**Although I am not Steven's next of kin I would very much like to have a copy of the full Autopsy Report for inclusion in my research material/submissions and would prefer to sidestep having to approach Steven's next of kin through his girlfriend for a copy of their copy. Short of this - at least a copy of brief summary of the Autopsy-Report would help.**

**Although there are no apparent external signs of anything suspicious in Steven's death and internal signs may or may not point to suspiciousness - one thing for sure is that Steven did not die of his own vomit out of natural causes as he would have had to have lost control of his faculties/bodily functions whilst vomiting to choke to death on his vomit.**

**PLEASE REFER SIX-PAGES ATTACHED TO THIS THREE PAGE LETTER AND COVER-PAGE TO DARREN AT FRONT COUNTER IN TODAY'S TEN-PAGE FAX WHICH ARE SIX REFERENCE LETTERS OUT OF 330-PLUS REPLIES IN RESPONSE TO OVER SEVENTY SUBMISSIONS TO 33-INQUIRIES OVER PAST 13-YEARS. Please also note that the person who informed me of Steven's death - Dennis Holliday almost ended up in the morgue after dying twice for two-minutes in Royal Prince Alfred Hospital mid last year and had to undergo an emergency major stomach operation after hospital error was made whilst trying to save his life. He had also been under severe criminal pressure and I had shortly before his near death experience won a case for him earning him a pardon from the Governor General.**

**Yours sincerely,  
Tony Paynter c/- PO Glebe NSW 2037.**

**Professor John Hilton: Director - NSW Institute of Forensic Medicine  
Coroner's Court Glebe NSW 2037 Fax: 9552 6394**

**Friday 7th May 1999**

**Dear Professor Hilton,**

**Thank you for your letter of 15th March and for passing on to the NSW State Coroner the first fax of ten pages concerning Steven Nibblet's death faxed on Friday 12th March which I had asked Darren at the front counter to pass on to staff handling Steven Nibblet's autopsy and as well to you.**

**Please note that there are others besides myself for whose welfare I am concerned and that I have devoted almost the latter half of my submission to the Productivity Commission's Media-Inquiry under the STEVEN NIBBLET section which begins with my reply to your letter in ten page fax as mentioned above.**

**A copy of my submission I will be sending to you and autopsy staff through Darren at front counter saving me mailing it which I hope you will copy and pass on that copy to Mr Derrick Hand - NSW State Coroner.**

**Whilst I know very little about forensic science my forte is criminal investigation particularly regarding the high degree of sophistication behind criminal intent and modus operandi and the growth industry of criminal-corruption bursting at the seams in the community and the maze of underground grapevine-networks that organise and co-ordinate it all - all of it coroporate sector driven and Federal State and Local Council bureaucracy enhanced.**

**In the case of Steven Nibblet's death - I have ample evidence pointing towards suspicious death being the natural New-Age therapy for his political incorrectness through being trapped in the middle of a nasty situation many times much more bigger than himself. It would have taken a huge-fluke of astronomical proportions for him to have died through non-suspicious causes under the circumstances and timing of his death in the bigger-game he was involved in - that I have presented. This raises the possibility of equal flukish odds of a cover-up in the Forensic laboratories at Glebe Institute for a variety of possible reasons - one for example being that NSW Police have more investigations than they can cope with and are stretched to the limit and that even if the suspiciousness of Steven's death was raised the likelihood of getting to the bottom of it was considered too remote and put in the too hard basket.**

**Another example could be that the sinister influence of Murdoch/Packer had reached into the Forensic Laboratories at Glebe Institute and a cover-up instigated not out of any malice or spite or unethical motive on the part of forensic staff - but simply because there are corrupt forces at work able to make them do what they normally wouldn't do - to save themselves or those close to them from a lot of grief misery and nasty detriments down the track. Any rewards that may have been used as a sweetener - in this case could be regarded as not being a desired reward but instead a symbolic token acceptance to allay the fears of the Invisible Almighty(s) of loose ends existing.**

**Then there is the other prospect of odious rampant small-time corruption uncovered by NSW ICAC not all that long ago at Glebe Forensic Institute in the Morgue section did not go far enough to uncover Autopsy cover-ups and instead turned a blind-eye to the major-stuff where the big pay-offs/rewards/sweeteners were leading NSW ICAC to exorcise the small time stuff ushering in a new era of higher level rampant corruption of the major league variety with NSW ICAC giving Glebe Forensic Institute a new squeaky clean start to operate behind. The possibility of an Autopsy cover-up is strengthened by fact there has been a media/political cover-up of my Parliamentary evidence.**

**Now as you were in charge of Glebe Forensic Institute at the time of the NSW ICAC Inquiry that uncovered the rampant corruption at Glebe Morgue namely the pilfering of valuables and cash from the the dead - and you were by all reports including your own - totally unaware of what was going on with regards this unsavoury behaviour because there was a network of corrupt morgue staff who were able to successfully standover other morgue staff who knew what was going on but were too intimidated to alert you as to what was going on - this does not instil any confidence in me regards yourself if you wanted me to forgo entertaining observance of all the possibilities surrounding Steven Nibblet's surprise unexpected death and any autopsy report finding nothing suspicious.**

**However to help arrive at the truth the evidence of my 70-plus submissions to 34-Inquiry's extends to Glebe Forensic Institute the protection of all my Parliamentary evidence if it was the case Steven Nibblet's Autopsy was corrupted and the Institute self-exposed it which at the same time brought my Parliamentary evidence to public attention - this will thus give the Institute a perfectly clean slate by checkmating the nation's two major media barons who had forced the Institute to "slap-itself-in-the-face-with-its-own-hand" and also by bringing to the nation's attention the solution to the Chamberlain case with Mrs Joy Kuhl's Glebe Forensic Institute tests as well of those of Professor Cameron also vindicated.**

**This offer only extends for as long as nothing untoward occurs to myself or the several tons of manuscripts/research material stored here near Glebe Post Office -**

half a mile from the Institute bearing in mind that the Institute has a Post Office box at Glebe Post Office and I have received and sent 99 per cent of my mail over past 20 years through Glebe Post Office.

**THE CHAMBERLAIN CASE IS AN ENTIRELY DIFFERENT MATTER. HERE - THE EVIDENCE I PRESENTED FULLY SUPPORTED MRS JOY KUHLS FORENSIC TESTS ON CHAMBERLAIN'S CAR WHICH SHE DID AT GLEBE'S FORENSIC INSTITUTE.**

Mr Chamberlain's world-first computer programmable manuscript produced a novel presenting the script for the Azaria-Conspiracy. All the forensic-evidence of Mrs Chamberlain cutting Azaria's throat in the car provided by Mrs Joy Kuhl's forensic tests and Professor Cameron's tests on Azaria's jump-suit and Dr Brown The Adelaide Orthodontist's evidence - were fully supported by those sections of Mr Chamberlain's world-first novel/script which outlined and detailed Mrs Chamberlain's cut-throat crime in the car and the concealing of Azaria's corpse in the eski in car rear and stuffing of Mr Chamberlain's emptied camera case on the floor in front of his seat with the sheets and cloths used to wipe up any of the visible mess of blood on and around the front passenger seat Mrs Chamberlain sat in to commit the crime - at night in a car with black upholstery and with tinted windows and with direct access to the rear of the car from the inside as the car was a hatchback.

**MR CHAMBERLAIN'S WORLD-FIRST NOVEL/SCRIPT ALSO PRESENTED PLAN-A AND PLAN-B OF THE CONSPIRACY'S COVER-UP OF AZARIA'S MURDER.**

Plan-A applied if Chamberlains and co-conspirator cohorts at the crime-scene had succeeded to burn the tent and tent-contents at Ayers Rock - as this would have allowed them later to have the car burnt-out after returning to Mt Isa. Chamberlains claimed that they wanted to have their tent burnt so they would eliminate the painful reminder of what occurred to Azaria for the sake of their remaining two sons. Eliminating painful reminders to reduce the trauma of their two son's reaction to the fate of their little sister also meant getting rid of all painful reminders - not just getting rid of some. This plausible reason was the perfect excuse to get rid of all painful reminders - the tent and bloodied tent contents and later on through an indirect method ensuring the car ended-up burnt out with finger of blame pointed towards those who viewed Chamberlains as guilty and had a grudge against them tied up with historical discrimination against fervent fundamentalist christian believers like themselves. Plan-B had to be implemented as the Northern Territory police took Chamberlain's tent away just before they were going to have it burnt for them by the Alice Springs Seventh Day Adventist minister whom church leaders had sent with his wife to assist the Chamberlains in their hour of tragedy after news broke. The Conspiracy

was thus prevented from organising the burn-out of Chamberlain's car afterwards later on down the proverbial track. Instead the car was deliberately lost track of by Chamberlains after it had been sent for repairs after a small accident that occurred when Mr Chamberlain was driving it alone after he ran into the rear of a car ahead of him at slow speed.

Even Chamberlains didn't know where it was - forcing the Northern Territory Police to begin a much publicised national search for Chamberlain's car which took Northern Territory police six months to find it.

**MR CHAMBERLAIN'S WORLD-FIRST NOVEL/SCRIPT ALSO LISTED ALL THOSE THINGS THEY COULD CLAIM AT ANY COURT TRIAL THAT EVENTUATED TO GIVE NATURAL EXPLANATIONS FOR BLOOD TO BE IN THE CAR THOUGH NOT NEO-NATAL BLOOD AND OTHER THINGS THAT COULD HAVE BEEN CONFUSED WITH BLOOD. THOSE CLAIMS WERE AS FOLLOWS:**

Their two sons had had nose bleeds through bumping into the windscreen or dashboard when they were in the front passenger seat and they were driving on bumpy country roads or Mr Chamberlain had to suddenly apply the brakes.

Their car had regularly been used as a first aid station with a first-aid kit in the glovebox in the console near the passenger front seat and many cuts had been treated there.

A passenger's head-wound had dripped blood whilst he laid out on the back seat after being involved in an accident.

There was also red car rust in the car and red sound deadener spray forming an arterial spray pattern similar to that formed by human cut artery spray. There was also spilt coca cola and caramel milk shake inside the car.

**MR CHAMBERLAIN HAD THE REQUIRED RARE EXPERTISE TO DISCOVER THE WORLD-FIRST NOVEL/SCRIPT AND WHAT HE DISCOVERED PRODUCED A MANUSCRIPT CONTAINING THE CRIME BLUEPRINT FOR A WORLD-FIRST CHILD-CRIME THAT HAD TO OCCUR AT AYERS ROCK AND COULD NOT HAVE OCCURRED ANYWHERE ELSE ON EARTH EXCEPT AT AYERS ROCK.**

I do not have to prove Mr Chamberlain had the required rare expertise to discover what I claim he discovered because by his own admittance he admitted to having that rare expertise believing it to be almost negligible that anyone else could uncover his secret discovery. I also do not have to prove that my presentation of Mr Chamberlain's world-first novel/script was the source of inspiration for the crime-

**conspiracy because it is complete and self-sufficient and self revelatory upon the reader reading it and because it does not rely on individual interpretation as it is all in plain simple English that leaves no mistake about what it is.**

**The two-words of the name AYERS ROCK were the beginning of Mr Chamberlain's ten word key-card which was the secret of his world-first Ayers Rock computer programmable novel manuscript. The ten-word key-card he used was AYERS ROCK NORTHERN TERRITORY CENTRAL AUSTRALIA SOUTHERN HEMISPHERE WORLD UNIVERSE. Brief summary of the solution to the Azaria mystery is presented in a 30-page read which also briefly presents Mr Chamberlain's world first discovery which was a computer programmable manuscript that was produced literally speaking by Ayers Rock for Ayers Rock. Senator Natasha Stott Despoja knows all about it.**

**Yours sincerely,  
Tony Paynter c/- PO Glebe Sydney NSW 2037**

### **STEVEN NIBBLET**

**Steven Nibblet and I were friends for past seventeen years. There were quite a few photographs I had taken of him at his mother's Glebe Housing Commission home that included some profile art-shots. The central point in Glebe linking us was Badde Manors cafe. At one time he used to live above the cafe as does his long-time**

**girlfriend now at present. It was outside Badde Manors that I had a conversation with him shortly before his death.**

**We were close mates who in latter years became split-up whilst keeping contact - with Steven at intermittent times dropping in on me and giving me his latest contact address as well as kept informed by mutual friends all of whom had become gradually ostracised in varying degrees of the full ostracism I was lumped with in Glebe Cafe society circles.**

**Over past five years Steven began becoming a moving-target travelling around outside Sydney and sometimes interstate returning at times back to his stamping ground. This ostracism was enforced by criminal vendetta under the auspices of Lindy Chamberlain/Tim Anderson - Academics For Justice.**

**Two crimes that occurred to friends of mine and Steven Nibblet's were the iron bar bashing of a long time Badde Manors Cafe employee in the cafe itself by a Prisoner's Action Group crim operative and the baseball bat bashing of an artist and regular customer of the Cafe in broad daylight in Glebe Point Road outside Russell's Health Foods not far from the cafe. The Badde Manors Cafe regular customer and once-upon-a-time friend of Steven Nibblet who was applying all the sinister pressure up close and personal and had connections to Glebe Housing Estate Prisoner's Action Group and who was behind these two crimes was the operative of Chamberlain's closest journalist Sydney Morning Herald Chief-reporter and former army officer Malcolm Brown. This operative was a freelance journalist and long time Glebe local resident who has lived in Glebe Housing Estate for past twenty years. For years he used the female christian name GAIL and BRENNAN surname as his pseudonym.**

**He was very close to the crim who had stolen the police badge which was used to set-up the TRG-Police shooting of Darren Brennan and it was the Brennan's but not Darren who had baseball bat bashed the artist who once-upon-a-time had been a close friend of Gail Brennan's - real name John Clare. This bashing was widely reported in the news during Darren Brennan TRG Inquiry.**

**Dennis Holliday mentioned in first fax who nearly died twice in Royal Prince Alfred Hospital mid last year lived for ten years up until recently in same Housing Commission block and next door to Malcolm Brown's journalist-operative John Clare/Gail Brennan who now appears on Fox TV. Dennis who has lived in Glebe nearly all his life slid into a deep chasm after constant criminal pressure made him a virtual prisoner in his own bedsit and for several months was evicted by crim-operatives who forced him to live on the street. He had grown up with the Brennan's and other crim bad lads though he was not part of their circle. Steven Nibblet & Dennis Holliday were Glebites who had known**

**Glebite journo John Clare/Gail Brennan a long time. This journo became a thorn in all our sides with his sinister undertone directives mainly through Badde Manors cafe where he was a regular customer also - and criminally assisted outside pressure.**

**Darren Brennan was the one person in the Brennan Family I was most friendly with. His father Nookie Brennan was often in my face as well as a host of local crims who were applying the sinister pressure. Nookie even was reprieved by concocted unbelievable miraculous evidence in relation to the shooting of an UItimo newsagent and released from jail to re-take up his position in Glebe Housing Estate to continue the underhanded shenanigans of the vendetta campaign against my 33-Inquiry evidence submissions totalling seventy-plus over past 13-years preceded by a four year research run-up.**

**I was also conversant with Mrs Gundy's son as well as many local aboriginal youth most on the wrong side of the tracks. Mrs Gundy and parents of other aboriginal youth were also in the picture. Mrs Gundy was a student of Aboriginal Tranby College in Glebe when Tim Anderson was a lecturer there and had a Post Office box quite close to mine at Glebe Post Office.**

**The Darren Brennan TRG-Police shooting occurred in Glebe Housing Commission Estate opposite Glebe Police Station just down the road from Glebe Post Office out of which I have operated past twenty years. Steven Nibblet was a Glebe-boy who was a gentle person enmeshed in the Glebe Scene and knew the Brennans and other crim families tied in with the Brennans.**

**At that time up until about five years ago Prisoner's Action Group was situated on Glebe Point Road almost directly opposite Glebe Post Office and directly opposite the newsagency where I picked up four-newspapers daily on prepaid fortnightly account. A retired Darcy Dugan was the figurehead stationed there. Frank Packer had been Darcy Dugan's benefactor. He had introduced him to Shakespeare which equipped Dugan with the ability to quote Shakespeare.**

**The evidence I submitted to Darren Brennan TRG Inquiry and Gundy Hearing proved that both were victims of preplanned deliberate shootings and that Darren Brennan did just enough to save himself from attempted murder and David Gundy just failed to do enough to save himself. Both victims had reacted to avoid being killed having realised their deaths were imminent. If it wasn't for the door-frame Darren Brennan would have been dead with his head blown off and if the ONE-Pellet that hit David Gundy's heart had have missed - David Gundy would be alive today. In both cases - there were no visual witnesses to the respective shootings. It was the police's word against both victims. Brennan was on his own alone with his dog and Gundy was with others but they did not see what had occurred between the policeman with the shotgun and Gundy.**

What both victims had in common was that both were not the targets of the police raids and the targets were not present at the time of the raids. The targets were in Darren Brennan's case other members of the Brennan family particularly Nookie Brennan and in David Gundy's case - a crim named Porter who totally unlike David Gundy had dreadlocks and had a short time prior Gundy-shooting shot two police in Ultimo-Pyrmont. On his escape he had run up past Badde Manors Cafe and used a phone at Horse Stables situated almost next door to John Clare/Gail Brennan and Dennis Holliday's Housing Commission block not far from Badde Manors.

**DARREN BRENNAN COULD NOT HAVE GRABBED THE SHOTGUN AS POLICE ALLEGED AND BEEN SHOT IN THE FACE THROUGH THE DOOR AND DOOR FRAME. IT MEANT**

**(1) THE SPACE BETWEEN THE DOOR AND DOOR FRAME HAD TO HAVE BEEN VERY TINY - AND**

**(2) IF HE HAD GRABBED THE SHOTGUN HE HAD TO HAVE USED HIS RIGHT HAND TO GRAB IT PULLING IT TOWARDS HIMSELF WHILST AT SAME TIME WITH HIS LEFT ARM/HAND AND BODY PUSH THE DOOR TOWARDS THE DOOR FRAME IN THE DIRECTION OF THE POLICEMAN THEREBY CLOSING THE DOOR ON HIS ARM/HAND. HE HAD TO HAVE DONE THESE TWO OPPOSING THINGS AT THE ONE TIME. THE POLICEMAN HAD A BIG WEIGHT ADVANTAGE IN FULL BATTLE DRESS GEAR WHILST BRENNAN WAS UNDRESSED AND ON THE SLIM SIDE. WHILST DARREN BRENNAN COULD ONLY HAVE GRABBED THE SHOTGUN WITH ONE HAND - THE POLICEMAN HAD BOTH HANDS HOLDING THE SHOTGUN WHICH WAS THE SHORT-TYPE USED FOR TIGHT-SPACE WORK WHICH WOULD HAVE MADE IT VERY DIFFICULT FOR ANYONE TO GRAB IT - AND GAVE THE POLICEMAN GREATER CONTROL OVER THE WEAPON IF SOMEONE HAD GRABBED IT.**

If it had been the other way around - i.e. Brennan had both hands on the shotgun and the policeman only had one hand on it that being his trigger hand - then Brennan may very well have accidentally ended up being shot - but that would have meant that it would have been impossible for him to have been shot through the door and doorframe.

**AND DAVID GUNDY COULD NOT HAVE GRABBED THE SHOTGUN AND BEEN SHOT WITH A SHOT THAT HAD SPRAYED QUITE A LOT AS IT HAD DONE AND KILLED WITH ONE STRAY PELLET DISTANT FROM THE OTHER PELLETS WHICH COULD NOT HAVE KILLED HIM ON THEIR OWN.**

The facts of both cases made a mockery of the police defence which in both cases was that both Darren Brennan and David Gundy had effectively shot themselves

through grabbing the shotgun. This defence implied that both harboured a latent "SUICIDE-BY-COP" death-wish which was a complete nonsense.

Both victims had been set-up by those around them in league with corrupt police leading the raids as they were not particularly interested in accomodating criminal activity and thus secretly viewed to be traitors and because their intended murders would wash away a lot of the sins of those who were supposed to have been the real targets. In general terms - it supported the betrayal of the community interest and destruction of the social fabric. My submissions to Darren Brennan TRG-Inquiry and David Gundy Hearings towards end of Royal Commission Into Aboriginal Deaths In Custody under Commissioner Wootten earnt me TWENTY-TWO Letters of reply - 15 and 7 respectively.

Three months prior the Darren Brennan shooting - there was a lot of build-up of criminal activity against me and those around me on the part of Glebe Housing estate crims linked to the Brennans. An aged pensioner was severely bashed and a young man was severely stabbed during this period. Death trap set-ups of which there were dozens over the years were being primed for my shooting death. Steven Nibblet also knew both the persons who had been severely attacked.

Two police attached to Darren Brennan TRG Inquiry had visited me and tried to denigrate and goad me into giving them an excuse to arrest me in a struggle with quite possibly a shooting in mind. They had threatened me whilst ordering me to stop further submissions. They arrived with unreserved praise for my submissions to get invited into my flatette whereupon they did a sudden about face revealing themselves to be angels with evil intent playing a sick-joke on me. A combination of lucky factors saved me from accomodating them - allowing me to stand my ground and maintain self-control. There was a second attempt by two Flemington detectives who tried at office of Glebe Postmaster Andrea Seas.

#### **Kiah Jeanes Glebe Baby Murder Conspiracy**

The Kiah Jeanes mysterious/bizarre homebirth baby-death which occurred in Mosman and for which a NSW State Coronial Inquiry was held delivering an OPEN FINDING was directly linked to Glebe Cafe Society. This was an Azaria-related baby murder which was used to help galvanise the Chamberlain Innocence campaign against me here at my end in Glebe. This baby-murder featured quite a lot on Channel Nine's - A Current Affair and a Sydney Morning Herald - Good Weekend magazine as well as receiving a lot of news coverage. Her father was a long time employee of Forest Lodge Cafe and he and his wife were students at the School of Natural Therapies very close to Badde Manors Cafe. Quite a few in their group did adverts for tv and a penthouse pet was nearly always there as well as musos and artists and uni-students all of whom were part of the Glebe Cafe Society clique under the umbrella of Academics for Justice -

**Lindy & Tim Anderson Innocence campaigners. Journalist John Clare was also a central figure. The operative who ran a computer/fax centre for many years now works for the Glebe Chamber of Commerce.**

**Steven Nibblet was a key-witness caught in the middle of all this - too. The murder of Kiah Jeanes was based on a photographic trick - as the evidence against the parents was self provided due to a home-made video of the "homebirth-gone-wrong" all in the name of New-Age Mystique. As I was slap bang in the middle of it encircled by those involved in the baby murder conspiracy a lot of pressure was brought to bear on me under the Lindy Innocence campaign banner which had criminal back-up through Glebe Prisoner's Action Group especially before and after the "Evil-Angels" movie and Chamberlain's compensation payout and Mrs Chamberlain's autobiography and the third and last Coronial Inquiry In the Northern Territory.**

#### **BEFORE ROYAL COMMISSION INTO CHAMBERLAIN CONVICTIONS**

**I had completed four years of research and had received six letters of reply from Professor Cameron - one letter from David Yallop author of "In God's Name" and another letter from him later on as well - and four letters from the Northern Territory Police. After an article about me by Chamberlain's closest journalist Malcolm Brown fed by local journalist John Clare and a threatening letter from Malcolm Brown signed in red-ink ordering me to stop working on my research the first murder attempt death trap set-ups began to occur.**

**This forced me to move into a small bedsit at 2/10 Short Street very near to Glebe Forensic Laboratories where Chamberlain car tests were done giving me the psychological-advantage.**

#### **DURING CHAMBERLAIN'S ROYAL COMMISSION INTO THEIR**

**CONVICTIONS Ray Martin and Michael Willesee began becoming regular patrons of a well-known Pier One restaurant and started to promote it. Neddy Smith who was a regular patron with many of his cronies including his lawyer Val Bellamy and who had close ties with the restaurant management was used to apply criminal standover pressure. Neddy Smith also had links with Glebe Prisoner's Action group and many crim-families - housed in Glebe Housing Estate.**

**On Monday 3rd May this year - Neddy Smith had to face Glebe Coroner's Court accused of being hired by his lawyer Val Bellamy to carry out a contract killing in his home on a drug dealer/model Mark Johnston on 1st September 1986 - for whom Bellamy was holding \$60,000.00 in trust and which he used to pay Smith. It was alleged that Smith kicked his victim into submission then garrotted him and disposed of the body as yet never found.**

**At the time of this murder Smith and Bellamy were very regular patrons of the**

**Harbour Watch Pier One restaurant where I worked as a waiter to fund my research and submissions to Royal Commission Into Chamberlain Convictions. After being repeatedly death-threatened - I was sacked with my name denigrated through a rigged-matter. After being out of work for over a year I was brought back for a short time through heavy criminal pressure to work for the restaurant manager who opened a restaurant at Pier One directly below the one above - where we originally were. And of course Neddy Smith wanted his revenge. They had a kitchen hand artist with kids there they were threatening to kill if I didn't comply. There was also a "planted-waitress" who became my team-mate whose boyfriend was a bikie - both directly connected to those involved in the Milperra Massacre. I had backed them off killing the kitchenhand putting myself on the line. Murdoch/Packer had bigger plans.**

**The second chef was murdered instead. His death became a world exclusive news story that hung on in the news for over six months. His hand had been cut off with his chef's knife on his day off whilst at home with the knife embedded in his heart. It was promoted as an occult self-inflicted death. There's a whole lot of story that goes with this that is mind-boggling. Before this murder the restaurant had a New Year's Eve television link-up with England and hosted a big night for film stars at which there was the super-vicious bashing of a woman in a discreet stairwell who was lucky to be alive.**

**By this sinister method of proving by management that Neddy Smith had the impunity and immunity to make whatever nasty shit he wanted to happen happen in conjunction with another extremely nasty sacking I was finally evicted not just from the restaurant but also from the entire restaurant-industry with the backing of Kerry Packer's Ray Martin/Mike Willesee who were involved in the Chamberlain tv-interview media deals.**

**I was soon after this evicted along with all other tenants except one - the lesbian bus driver - from my Short Street bedsit near Glebe Forensic Laboratory. The Forest Lodge Cafe where the father of Kiah Jeanes worked was also close. The biggest owner of ethnic newspapers in Australia named Skalkos was based in Glebe in Glebe Point Road opposite Sydney University very close to Badde Manors Cafe. He was very close to the Greek owner and management of the Pier One restaurants where I used to work and he was a very regular patron.**

**With his mate Katsikaros at Hookers Real Estate agency and a clique of Greek businessmen in Glebe including the Louie & Theo Morris family who had close links with Joh Bjelke Petersen he established the direct link between myself and Kerry Packer & Murdoch behind the scenes. This clique of Glebe Greek businessmen also had close links with Kings Cross crim Greek businessmen who were often in the news in relation to NSW ICAC and NSW Police Royal Commission investigations.**

One of the big things they were using against me was the fact that though I was of Greek extraction I was absurdly using an Anglo/Aussie pseudonym. This was due to fact my mother was born here. I was born here. My father had served in New Guinea and I had served in Vietnam. Assisting in this endeavour were the other Real Estate Agencies particularly Raine and Horne. The agency in Broadway I had been renting from had closed down and left Glebe. Through a cold-shoulder from Real Estate agencies regarded as the "ogre-against Lindy" I was shunted into the arms of Raine and Horne who in turn shunted me into one of ten cheap one bedroom flattetes in a Bridge Road terrace where I had a welcoming committee of recently released Long Bay crims connected to Glebe Prisoner's Action Group and its resident figurehead Darcy Dugan. I was placed right next to a fundamentalist christian Uni student. Half the residents were crim operatives on friendly terms with the fundamentalist christian.

The other residents were two war veterans - a middle aged pensioner woman - a young woman - and myself. The young woman was scared off forced to live elsewhere hardly ever living in her room too frightened to be a witness. The rest of the residents were repeatedly bashed and robbed. One of the war veterans was permanently hospitalised. I had to put up with violent confrontations and from being death trapped in the house with the crims living there having outside back-up. Raine and Horne covered-up all the goings on treating the residents as senile and myself as an idiot/twit and defending the crims as really "good-guys" who deserved a break.

The one controlling them all was an ex-crim who had a job but who knew all the crims personally was organising all the sinister action in league with the fundamentalist christian. When a young girl servicing the crims was taken out in a body bag through being slipped a cocktail of drugs they had proved that whilst they hadn't gotten me they could still prove that they could "do it!" and get away with it.

Raine and Horne sold the house to an English feminist who slowly noisily converted the place into a Backpacker's hostel over several years by which time I ended up being the last local to still be living there. She had tried to force me to move into the tiniest room in which one could hardly fit a bed and to store my manuscripts in her storeroom. As it was a Backpacker's Hostel she only had to give me 24 hour's notice. She was trying to standover me to do it whilst at same time the Real Estate agents of Glebe weren't interested in renting me anything except for two places both of which had previous tenants who had died in those flattetes both of whom had died from natural causes and both of whom I knew.

To save myself and a ton of submissions/research material from skid-row I moved into a house very close to Glebe Police Station very close to where Darren Brennan was shot. It came to be through good luck or bad fortune depending on how you look at it to end up being a guest of someone whom I met in the TAB - who

had the lease to a Housing Commission THREE-BEDROOM terrace living there on his own and had just had a kidney transplant. It later transpired that his wife and kids had raced off to a women's refuge and that she was a Seventh Day Adventist who knew other Seventh Day Adventists in Glebe Housing Commission Estate. My move to this address meant that I lost my place on the Waiting List as I could not give the Housing Department the address as I was unofficially living here. I have been here now seven years.

Two sons of one of the Glebe Greek businessmen with whom I've been close for many years - were the main victims of the Glebe High School bashings which received a lot of news attention for a very long time and was the incident that led to big-moves by NSW Govt to try to put a stop to that sort of thing.

Other Glebe persons whom I knew became victims of other crimes that also featured in many news stories as well. The house became a violent battleground in which a long line of third persons especially those with criminal records who became guests of the leaseholder became volatile assisted with outside criminal help running campaigns against me from inside and outside the house. During the time when I was submitting to the Northern Territory's Third Coronial Inquiry into the Azaria Question I had to move several tons of manuscripts/research material elsewhere so I could remove the offender who had become violently offensive with outside crim help and had beaten up the leaseholder.

Around that time the arson murder of a Greek woman and two of her children in Glebe Housing Commission Estate whom I knew occurred at the end of a long line of similar murders in Housing Commission Estates throughout Western Sydney. This led to the March 1996 Housing Commission Amnesty at which time the leaseholder officially listed me with the Housing Department as living here. A year ago the last of the series of nasty third persons left. The NSW Housing Minister whom I wrote to at that time reinstated me on the Waiting List backdated to when I first applied in November 1987.

After being on welfare for past twelve years operating below the poverty-line starting off with unemployment benefits then placed on disability support pension and for past three years on War Veteran's pension due to "personality disorder" I have had to run the tortoise's race against the hare.

Social worker Michelle Gravolin at Glebe Community Care Centre - phone number 85 85 5000 is fully informed of my public housing situation and knows the hugely insecure position I am in and has recently helped sort out a temporary solution for me with NSW Housing Department which should give me some respite once a letter arrives that Housing Dept had agreed to send.

NSW Housing Department had me tied-up in a catch-22 situation. If I stayed where I was as a guest of leaseholder I was regarded as having non-urgent housing status.

**If I was to apply for my own accommodation I would then be regarded as having emergency housing status at which time I would have to accept a one bedroom bedsit out of Glebe with no room for my several tons of manuscripts/research material nor a yard for my dog as well as losing the security I had built up for myself in Glebe. If I stayed where I was as a guest of leaseholder then as I had been on Waiting List eleven years - I would lose my place on the Waiting List if I didn't apply for my own accommodation.**

**I have also asked Michelle Gravolin to be present at an interview I have with Consultant Psychiatrist Dr Anthony Dinnen in Bondi Junction - phone number (02) 9387 6161 at 11.30am Thursday 17th June related to my appeal against a Veterans' Affairs decision. The assessment is that I have a Paranoid Personality Disorder. Through my appeal I am contesting Dr Dinnen's assessment. My assessment is that my Personality Disorder is unusual behaviour in response to abnormal pressures and that if I didn't respond in the unorthodox way that I am then I wouldn't be normal. If the abnormal pressures were removed then I could return to orthodox behaviour. Michelle has since informed me that she is not able to be at my interview with Dr Dinnen.**

**Henry Wittenberg who is self-employed running his own advertising agency Ad-land Marketing has volunteered to accompany me to and from the interview and be present with me at the interview with Dr Dinnen. My own assessment is that I am not Paranoid and instead suffer from anxiety that is highly-justifiable through being in a nasty catch 22-trap - all of which has been presented to Dr Dinnen and Veterans' Affairs in a 100-page document which I was going to give to Michelle Gravolin to read for the interview with Dr Dinnen - 36-pages of which she has already read. A few more pages are being added to this document.**

**The murder of Glebe Policeman Peter Forsyth in Ultimo a year ago was related to the murder of two-police in Pyrmont/Ultimo by Porter. It achieved two things for those behind them. It made two big saves.**

- (1) It saved the two Bondi Police at the RONI-LEVI Derrick Hand NSW Coronial Inquiry especially when Mrs Forsyth gave her support to them.**
- (2) It saved Glebe Housing Estate Boxing Gym from closure. Just before the murder NSW Housing Minister Craig Knowles had decided to close the gym which has close links to Prisoner's Action Group also in Glebe Housing Commission Estate. Peter Forsyth had been playing touch football in Wentworth Park near Glebe Estate Boxing Gym shortly before his murder. John McColl who runs the gym had sent local youths who trained there to**

help look for the killer who may have been hiding in Glebe's vast Housing Commission Estate as a show of community goodwill. Almost as soon as Peter Forsyth's murder occurred Craig Knowles reversed his decision to close the gym.

It is also important to note that -

- (1) Lachlan Murdoch had been training at Glebe Housing Estate Boxing Gym in the time prior the murder. One would have thought Murdoch's money could easily have prevented Glebe Estate Boxing Gym from being threatened with closure.
- (2) the killer made sure he was captured whilst he was on the phone talking to a Daily Telegraph journalist to make sure he wasn't set up to be shot during arrest.

The perfect timing was too perfect. His murder made two big saves AT THE ONE TIME. The Roni-Levi cops had gotten off and Glebe Estate Boxing Gym was saved from closure.

If evidence which was withheld from the Coronial Inquiry by Internal Affairs Police investigators concerning the two police who fired the shots that killed Roni Levi had been provided to the NSW Coronial Inquiry - then the outcome of the Roni Levi Coronial Inquiry may well have been different.

My evidence submission on Frenchman Roni Levi Bondi-Beach police shooting was submitted to Senator Natasha Stott Despoja and later NSW ICAC. This evidence proved Roni Levi was criminally pressured into a media organised police-publicity stunt in which he was assured the police would fire into the sand in front of him and over his head - but Roni Levi did not trust the arrangement through being criminally pressured into compromising his principles and this sort of thing being against his gentle nature and out of character for him placing him in a dilemma with no one to turn to. Roni Levi did the barest-minimum of what was prearranged that he do - doing just enough to comply whilst also doing not enough of what he was supposed to do in a bid to keep the police honest - to force them to do what was agreed they would do all arranged through intermediaries in the conspiracy surrounding a media/police rigged stunt.

## **TWELVE IMPORTANT FACTS OF THE RONI LEVI CASE**

Twelve facts of the Roni Levi case all of which point to a corrupt senior media-police conspiracy - adding up to evidence proving this was the case - are as follows.

- (1) **Roni Levi was a media-person freelance magazine/newspaper photographer who had a spectacular portfolio of high quality work in France and England where he met his Australian Melbourne wife.**
- (2) **In the six years he had been living in Australia his career as a freelance magazine/newspaper photographer was going nowhere. He was under enormous criminal pressure which was connected to a court case in Melbourne involving counterfeit T-shirts sold at the Australian Grand Prix. A shady Sydney crim-heavy who supplied the counterfeit T-shirts was standing over him over the matter.**
- (3) **He was friends with many Bondi journalists and TV film & movie script writers of TV police dramas many of which were filmed at Bondi beach and which involved scenes like the one Roni Levi was in when he was shot. IN FACT MANY WITNESSES THOUGHT UP UNTIL THE TIME HE WAS SHOT THAT THE DRAMA WAS ONLY A REHEARSAL FOR A TV-FILM SHOOT.**  
**He also lived in a Bondi flat just around the corner from Bondi Police Station. The two police who shot him also socialised a lot in Bondi.**
- (4) **The Sun Herald journalist jogger who happened to be jogging past at the time also was able to write an exclusive front page story on the Roni Levi police shooting in time for the Sunday paper the next day.**
- (5) **The freelance commercial photographer who took the now famous snapshot of Roni Levi a second before he was shot happened to be a Frenchman just like Roni Levi. The photographer was not interviewed by police and instead he "forced" police to interview him on the tip of the tail-end of the witnesses. This had allowed him to run off paparazzi-like to cut a deal with the media over his amazing exclusive snapshots. A key witness was also French like Roni Levi.**
- (6) **The brother of one of the two police who shot Roni Levi was a media agent and thus managed the two police's dealings with the media. All three had also been long time friends.**

**Note: it was through their media agent that the two police were lined-up for their roles in the Roni Levi corrupt senior media/police rigged world-exclusive news sensation stunt. The story told to Roni Levi through media-industry intermediaries was that his career would take a skyrocket to stardom by playing a role in a drama on Australia's world-famous Bondi Beach which would be a world-wide exclusive news story. He was to play the gifted freelance photographer wanting to harm others and kill himself as he feared his big-break would never come.**

**The police's super-quick response time and shooting into the sand in front of him and over his head would sensationalise the drama whilst showing a forceful police with a kind heart saving a dangerous fool from himself. This was supposed to counteract NSW Police's poor response time record and bad publicity from a**

**number of police-shootings of deranged persons with mental illness armed with knives which the public viewed as unnecessarily going too far on the part of the police in the time before Roni Levi shooting.**

**The problem was that Roni Levi couldn't trust the arrangement fearing that everyone else's career would skyrocket except his and that there was a good chance he could get killed.**

**(7) The two police who shot Roni Levi were very close mates with a drug-dealer who was the security manager of a Bondi Nite-Spot that was the haunt of media personalities & celebrities. The two police ignored warnings from senior police to stay away from this celebrity Nite-Spot which was under police surveillance in the months before Roni Levi shooting. The drug-dealer security manager shortly after Roni Levi shooting had also discussed the Roni Levi shooting with one of the policemen who had shot Roni Levi.**

**(8) The two police who shot Roni Levi were cocaine users and an Internal Affairs investigation uncovered the close drug-link between one of the police who shot Roni Levi and the security/manager of the Nite Spot.**

**(9) Roni Levi gave all indication that he was not trying to hurt anyone else except attract attention to himself by making it seem he was thinking about harming himself.**

**When he came out of the ocean without his glasses on he was also nearly blind without them. He also had on a heavy waterlogged coat that had slipped over his shoulders half-way down his back and around his arms at the elbows. This restricted him from properly lunging forward with the Wiltshire staysharp breadknife. All he did was wave the knife from side to side a little bit outstretched in front of himself. The two police who shot Roni Levi with guns drawn were in the middle of two other police - one holding a baton forming a semi-circle in front of Roni Levi. A car could have safely been driven between Roni Levi and the four police. Two more police were a distance away observing. The two police who shot him fired two shots in rapid succession. And not just one shot on the part of one of them nor just one shot each - then stopping to observe the effect on Roni Levi. No. IT WAS FOUR SHOTS IN A SECOND OR TWO - execution style. As well even with four shots in him Roni Levi was belted with the baton as he lay fairly motionless on the sand.**

**(10) Roni Levi had initially run into the surf holding the knife when the four police first confronted him. If he had wanted to kill himself all he had to do was slide under the water and drown. He didn't need a knife to do it.**

**(Note: A well-known young newspaper cameraman drowned in the surf at Bondi at the time the Roni Levi Coronial Inquiry was under way. He had drowned in a "midnight-swim" with friends. His father who had also been a journalist had died young in the early 1980s. His sister is also a well-known journalist).**

**(11) Roni Levi frustrated the police by staying in the water a good fifteen**

minutes. (Note: this was longer than pre-arranged. This was giving a chance for more onlookers to gather in a bid to keep the police honest/cover himself). Roni Levi also did not back the four police up against the promenade wall which the police tried to lie about by claiming through the media that their backs were against the wall.

- (12) A key-pointer to fact the Sun Herald journalist and the French commercial photographer who took the now famous snapshot(s) and the six-police and also RONI LEVI were all involved in a corrupt senior media/police rigged -stunt conspiracy which went wrong due to Roni Levi stuffing up the stunt as insurance to ensure it all didn't backfire on him was - that AT ALL TIMES - when Roni Levi came out of the surf - the four police allowed Roni Levi to call all the shots - i.e. giving him the freedom to go where he wanted and simply following his lead. Also not once did the any of the four police and two policemen watching from a distance ever try to go behind Roni Levi - to confront him front and back.

(note: this was because the police knew all along that Roni Levi was going to be shot execution-style and that if they had done so - the two specially-chosen police who shot him could not have shot him - but would have been forced to shoot into the sand in front of him or over his head and not at him so as not to hit the policeman or policemen behind him).

The shooting of Roni Levi was always on the cards from the word go and all concerned knew it - except Roni Levi who feared the worst. Under the circumstances created by a non-co-operative Roni Levi - the two police who shot him should have aborted the execution and waited for the special police-team that arrived on the scene shortly after Roni Levi was shot. Instead the two police shot him - exasperated and angered by his antics. They couldn't help themselves. Emotion got the better of them when they knew they should have called the shooting off.

Senior Internal Affairs police withheld crucial evidence from the Coronial Inquiry concerning the two police who shot Roni Levi and who had been friends from schooldays. This crucial evidence was briefly presented in FACTS (7) and (8) - above. This was the result of an Internal Affairs undercover operation run on the two police. This evidence would have had a big bearing on outcome of the Inquiry.

Please note: the five pages of Roni Levi evidence presented in this fax is a brief summary of 100-plus pages of highly condensed & detailed evidence presented since Roni Levi shooting occurred - first 44-pages in the three weeks after it.

Another major murder in Glebe related to Murdoch/Packer's secret masterplan was the unsolved murder of Don Scott. He was Australia's most famous gambler who had written several books and lectured at Sydney University on the subject.

**He was murdered in his flat at the time soon after the huge news sensation coverage of the trial/Inquiry that saw the Waterhouse brothers in contest.**

**Don Scott had supported David against his brother Robbie and was at that stage writing a book exposing the truth behind the Fine Cotton Affair. Don Scott was not allowed to finish his book - his threatened expose halted in its tracks.**

**Another was the murder reported as a suicide of a doctor from Glebe Community Care Centre who allegedly jumped from the top of a block of Housing Commission units opposite the deserted Camperdown Children's Hospital.**

**The good doctor was doing his rounds delivering medications including methadone. His death was the second alleged suicide by a visitor to that block of units. Quite a few years earlier a policeman met the same fate.**

**(At different times they had both visited the same building and decided to jump off it - what kind of crap is that? Something about the building and who was in it with a connection to both victims - points to the right track.)**

**Several backpacker murders in Glebe and the attempted stabbing murder of another were also part of the scheme of things. I was friendly with a small handful of backpackers. It so happened that this small handful were close friends of each of the three victims.**

**One of the murders was related to displeasure of Glebe Prisoner's Action group for losing the local community struggle over development of the Wigram Road/Glebe Point Road vacant lot that has become the new Glebe Library. Political activist groups had other ideas. They wanted presence again on Glebe Point Road after losing their immaculate position on Glebe Point Road opposite Glebe Post Office. This battle raged for quite a long time and some months after it was over the murder of a backpacker occurred quite close by with the backpacker set up to intervene in an argument. One of the backpacker victims of another attack was the grandson of a former Australian Prime Minister.**

**The murder of two rugby league football players who were shot dead outside a Five Dock hotel and had been drinking with footballer Jacyn Sinclair was also tied in with the scheme of things. The assailants are linked to the Lakemba Police Station shooting and the Danny Karam since deceased Kings Cross group of Middle Eastern thugs. Jacyn Sinclair is an ex-Glebe boy whom I knew and who was a close mate of Darren Brennan. I knew all of them. There are numerous other murders I could mention. The Mr Goodbar Oxford Street shooting of a greek teenager is another. He was the son of one of the Glebe Greek businessman's son's bouzouki teacher.**

**The Toula Soravia murder is another. The Summer Hill bank outside of which she was shot featured in a section of my Federal Parliamentary Martin Banking Inquiry submission. It was at this bank - a Lebanese taxi -driver friend of mine was set up by bank staff and police who were married to and friends of the bank staff - to be shot by the police soon after the Darren Brennan shooting. That section of my submission included court-trial transcript and proved the police and six bank staff were all lying and that they were all involved in a conspiracy to set up the death of Omar Fahda who had been a long-term customer of the bank. The allegation was that he had a gun and was threatening to shoot bank staff. He had gone to the bank in response to the bank sending him a letter requesting his attendance to collect documents. He went with his wife and children. He was set-up/ baited.**

**There was bullet proof glass between himself and bank staff - he made no threats and he had no gun. Bank staff failed to ring through 000 and instead the wife of one of the policemen rang her husband who happened to be at the time at the local Police Station. Police arrived with guns drawn expecting to find a deranged madman with a gun threatening to shoot. It was after Toula Soravia's murder that the Summer Hill bank was closed down.**

#### **PETER RYAN - THE NEW BRITISH NSW POLICE COMMISSIONER**

**The first major news sensation murder occurred just off Bondi's Campbell Parade soon after the new British NSW Police Commissioner - Peter Ryan started in his new job. This was the murder of British postman - Brian Hagland who was a gentle giant walking his girlfriend home after getting off a bus.**

**Just a week before this murder the Packer family had won Waverley Council approval for building developments in Bondi after battling for many years against local -resident opposition led by many media/tv-personalities concerned about destruction of local heritage. The murder also occurred a week before work was to begin on the upgrade/renovation of Campbell Parade.**

**This murder was linked to the shunting of King's Cross crime over onto Bondi to give the Carr Govt - NSW Police Royal Commission reason to claim they had cleaned up the Cross and to help repel "cheap-skate" backpacker tourists and instead attract tourists with money and to help move out poorer locals. This message through Brian Hagland's murder came at a time a lot of money was going to be sunk into developing Bondi and those sinking the money in wanting to ensure money was attracted into the area and commercial/residential rents went right up. The offender charged with Brian Hagland's murder was rushed to Bondi Police Station several days after the murder in the cuddling arms of high profile criminal lawyer Leigh Johnson. Despite fact he had a long violent criminal record history**

she defended the offender as a sweet boy who was angry and intoxicated at the time who didn't mean to cause the death of the victim.

A few weeks before this murder - Michael Chamberlain was one of the contingent of media photographers who photographed Peter Ryan opening his first police station at Gosford. A photograph of Michael Chamberlain photographing Peter Ryan accompanied by an article appeared in the newspapers at the time. The murder of the British postman tourist was the first big-test for Peter Ryan - the British cop. It was also the case that Peter Ryan and his wife had also suffered a baby-tragedy some years back when his wife miscarried.

It was also the involvement of British Forensic expert Professor James Cameron from London University who showed delighted personal interest in my research that so angered the Chamberlains - as without his involvement there could not have been a case against them.

It was also the bizarre death of a fundamentalist christian British tourist who fell mysteriously to his death off Ayers Rock that turned the case around in Chamberlain's favour as it was through a search caused by the stench of the British tourist's rotting corpse that led to the bizarre miraculous discovery of Azaria's matinee jacket.

Coming back to the very present - on Thursday 6th May the remains of Keyra Steinhardt were found on a vacant lot in North Rockhampton. The day after on Friday 7th May - Michael Horsey a 23 year old Melbourne man was sentenced to minimum of five years jail for beating to death Dylen Butler - the baby son of his defacto partner in December 1997. On the same day the killer of Lithgow uni student beauty queen and pianist Alison Lewis was sentenced to 16 years jail for the March 2 1997 murder in which he stabbed her in the neck and strangled her and partially buried her body in a long jump sandpit.

The Police Commissioner Peter Ryan had to apologise to the dead girl's parents as there had been a huge delay by the police to respond when her two teenage friends raised the alarm after they hailed a taxi claiming they had been assaulted and their friend was missing. The NSW Ombudsman had strongly criticised police over the time it took for police to act resulting in a big shake-up right to the top of bureaucracy. Four months later the Bondi Beach Police shooting of Roni Levi occurred. The police in this instance responded with the speed of lightning and shot him knowing that police specialists were on the way to take over and when it was not a life-threatening situation. The only person's life under threat at the time was Roni Levi's.

**The Ivan Milat Belanglo Backpacker murder was linked to the long line of Backpacker/tourist murders in Australia going back to and earlier than the murder of the British tourist at Ayers Rock which was disguised as a suicide. This also includes the Kings Cross Downunder Backpacker Hostel fire mass murder. Some of Milat's victims were British backpackers.**

**As with all major crimes - in my numerous submissions I have presented the dozens of parallel factors between those crimes and the Azaria saga. Milat's Backpacker serial murders and Strathfield Massacre - Port Arthur Massacre have all been fully covered.**

**THE BIZARRE MURDER OF MY BROTHER IN BRISBANE IN 1992 AT THE TIME OF THE TWEFTH ANNIVERSARY OF AZARIA'S DISAPPEARANCE DISGUISED AS A SUICIDE JUMP OFF BRISBANE'S STOREY BRIDGE WAS USED TO HELP PUT DEATH PRESSURES ON MYSELF AND OTHERS INCLUDING DENNIS HOLLIDAY AND STEVEN NIBBLET - HERE IN GLEBE.**

**The assassination of John Newman in the company of his fiancée Lucy Wang at his Cabramatta home has featured often in my submissions. Justice Wood who headed the NSW Police Royal Commission will preside over the several trials related to the John Newman murder. The defendants have asked for and been granted separate trials. The person whom John Newman named as his big threat before his murder now awaits trial for organising his murder. This person who was Newman's local political opponent and had part ownership in the local Vietnamese ethnic newspaper and was highly connected in both the Labor and Liberal Parties at Federal and State level - only hours before John Newman's murder had lunch with the Labor Party's heavy bovver-boys from Sussex Street headquarters - including Della Bosca - now Bob Carr's right hand man in the NSW Parliament. Labor got rid of John Newman as high as Paul Keating.**

**PM Paul Keating phoned from Hong Kong to Fairfield/Cabramatta Police station to enquire about John Newman after he was shot. The irony of this was that John Newman who lived in Fairfield/Cabramatta could not pick up the phone and call his local police station for assistance as he was off-side and on bad terms with the local police. It would have been a waste of time on his part to phone if he needed them. Whereas the Prime Minister could phone up from Hong Kong to enquire about the shooting of John Newman. The present NSW Liberal MP Tony Stewart whose electoral office is in Lakemba is having the same problem with his local police station as John Newman had.**

The suicide death of pedophile judge Justice Yeldham for whose death the media blame Franca Arena - died a week before the screening of the telemovie Whipping Boy. The scriptwriter was Justice Yeldham's brother. The movie replicated Justice Yeldham's life to a very remarkable degree. It was about a pedophile judge who looked like Justice Yeldham who was part of a pedophile ring that haunted Kings Cross/Darlinghurst area which was part of Justice Yeldham's stamping ground-patch. Justice Yeldham also died in the same way pedophiles in the pedophile ring died in his brother's telemovie. His brother's pedophile movie in conjunction with Franca Arena's claims in Parliament were used to push Justice Yeldham to kill himself to keep the lid on a can of worms that if opened would have implicated a hell of a lot of people from the top end of town as exactly Franca Arena was claiming. Around the time Franca Arena made her claims in Parliament shortly before Justice Yeldham's death - the series of bombings of CBD railway station toilets which Justice Yeldham frequented was also related to the setting up of the judge's death to protect a host of others like him in high office.

John Newman was also a consultant on a Chris Master's telemovie mini-series paralleling John Newman's life. The mini-series had a reverse ending to that which occurred in real life. In the TV-version John Newman's asian fiancee was killed and John Newman survived. Whilst his asian fiancee lived with him she was writing her own book about John Newman which revealed that she knew stuff-all about the man John Newman and his anti-crime crusade. Her contest of his will and duel with John Newman's parents revealed John Newman had serious reservations about Lucy Wang.

There is also the Gap murder of model Caroline Byrne. She was the girlfriend of Rene Rivkin's chauffeur for whom Rivkin and Graham Richardson couldn't provide a serious alibi. The Caroline Byrne murder comes under the umbrella of a series of Sydney models and fashion industry related murder victims such as Revelle Balmain and the cousin of David Bowie's wife who was found in a Waterloo waste disposal bin and New Zealand hairdresser Paula Brown abducted from Oxford Street and the bashing murder of a Black & White magazine photojournalist in Newtown on her way to visit the lead singer of the band The Whitlam's. There is also a series of street prostitute murders. Three recently murdered Kings Cross teenage street prostitutes had all gotten away from the Cross but had returned. Their murders were punishment for trying to run away and as a standover of others who might try to do the same.

The Alpine Printing Press fire payout to Rene Rivkin soon after buying it from Kerry Packer which occurred at time of "Sydney Ringed By Fire" phenomom with the payout to Rivkin being more than all the payouts to all the thousands of fire victims and the cause of the fire put down to nothing suspicious is fully examined in my submissions.

**Michael Hutchence's death also comes into it. The Ritz Carlton Hotel was the Hotel from which model/escort girl Revelle Balmain frequented as it was a sex workers paradise as a lot of erotic sex parties were held there. Hotel management at present moment has a battle on its hands with neighbours who have been literally showered with unused condoms. Hutchences death also occurred at time of the Star City Casino Opening. There were so many who had much to gain from his death particularly his business manager who had easily gotten under Hutchence's guard to sign away control of his fortune to him under the guise of a tax minimisation scheme. Kym Wilson had also recently recovered to pose nude in Playboy. Paula Yates didn't take long to get her rocks off with someone else.**

**NOTE: TO BE CONTINUED - WITH MUCH MUCH MORE YET TO COME.**
