

To whom it may concern,

Please find attached a coversheet for my submission in response to the Productivity Commission report. My submission is as follows:

No Diplomas required for children under 3 years old - disagree

As a qualified professional myself, I understand and appreciate the higher level of expertise that comes with educators who have achieved in their field. I am not confident that a Certificate III is acceptable at the highest required qualification for facilitating toddlers in a professional capacity. I would be dis-satisfied to leave my child in this reduced-care setting.

Regards, Krissy O'Reilly
