These are some suggestions that we have come up with:

- Together we can deliver Australian more affordable and flexible and accessible child care system that supports high quality education and care
- If we support family day care services, we can have quality and affordable educator that can have small group in their home environment
- Family Day Care educator can charge the families less than \$ 20 of parent fee per day by using 50 hours care.
- Children's who is using home based childcare are more social and have more confident with Adults. The child can have individual attention 4 times more than other services
- Early Childhood Educator who is using their home environments are seriously committed to practice early Years Learning Framework.
- Australian family should be aware the sector of the early childhood education and care and how quality and affordable is Family Day Care Services
