

Amounts are NOT presented in current values by inflation indexation or exposure adjustment.

**QGIF claims data**

- paid and outstanding amounts are shown separately, and do not include Actuarial estimates for IBNR
- claims include declared disaster events, as well as other natural hazard claims which have not been coded as a declared disaster. These are shown separately in the Summary tabs as CatastrophicEvent=1 and 0.

**NDRRA data**

- only amounts which may have been claimed under QGIF policy (had recourse to NDRRA been unavailable) have been included.
- total amounts are shown (paid and outstanding amounts are not shown separately) , and do not include Actuarial estimates for IBNR
- amounts for more recent events (especially 2011) should be treated with caution, as a large proportion is based on estimates.
