

SUBMISSION TO EXECUTIVE REMUNERATION AUSTRALIA

To whom it may concern,

I am unable to attend a public hearing but am very keen to have my opinion considered.

As a shareholder in several companies, I am appalled that in documentation related to AGM's, shareholders are asked about increases in executive salaries. I am sure the majority disagree with this rise, but invariably the Board overrides and the raise is awarded. I feel this is a very dishonest and underhand activity.

No person is worth the enormous packages given and I hope this Commission can influence this decadence and greed.

Many thanks
