The Ayr Surf Lifesaving Club was formed in 1926 and has been providing a vital life giving service to our community over that time. Our club strives hard to provide an environment which encourages the youth of our district to participate in an organisation that educates them in skills such as surf awareness, patient assessment, rescue procedures, resuscitation, first aid, stinger treatment and social responsibility. The Ayr Surf Life Savings' main aim is to ensure we provide young people within our community all of the advantages that the surf life saving movement promotes.

Equipment is very expensive, however through the valuable support we receive from the Ayr Anzac Memorial Club, being our major sponsor, we are able to purchase training and rescue equipment for our juniors and for the surveillance of our local beach during patrols.

The Ayr Anzac Memorial Club has been our major sponsor for two years. They are a club that advocates the importance of junior development in our community. It is for this reason they were approached for valuable support.

Funding is vital for non-profit organisations, it's the support of clubs, such as the Ayr Anzac Memorial Club that allows the Ayr Surf Lifesaving Club to provide the community with the safety to use our local beach.

Yours Truly

Terry Lund
Vice President
Ayr Surf Lifesaving Club
