Gaming Machines

Gambling on Poker Machines is a legal and popular recreation enjoyed by millions of ordinary Australians. In 2004 the Independent Pricing and Regulatory Tribunal (IPART) published the results of a 2003 inquiry into gambling titled "Gambling: Promoting a Culture of Responsibility."

Stated in its finding were:

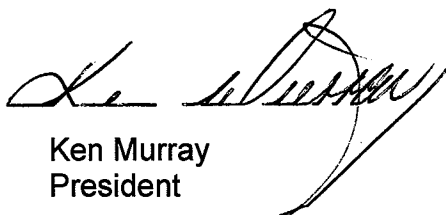

"Many People in NSW regard gambling as an enjoyable activity, for example they may see it as:

- A way to pass the time in a pleasant social environment
- A form of entertainment or an escape from reality
- A hobby or way to relax
- A chance of achieving the dream of financial security
- A medium to help them meet other people

Conclusion

Randwick Labor Club relies on gaming revenue to provide employment plus the reasonable cost of food and beverages for members and to continue to fund its program of support for local community organizations. It should be noted that due largely to the smoking legislation poker machine revenue at Randwick Labor Club reduced by \$534,568 in the years 2007 to 2008. Reductions in gaming revenue over the past twelve months have been widespread within the club industry with many clubs now in financial difficulty.

Yours Sincerely
