Dear Mr. Hobbs,

I have been instructed by the Tara Bowling Club Management Committee to write to you expressing our concerns on a matter in relation to poker machines being requested by other venues in our town of Tara.

We feel as our town has a very small population and the majority of these are young families mostly unemployed, we feel the town could not cope with extra poker machines at this stage, we also feel strongly if more poker machines were introduced that this could cause more problems with families on a low income.

Thanking you for consideration.

Yours faithfully,
