Dear Sir/Madam

I refer to page 220 of your position paper and in particular to the paragraph commencing

“In conjunction with ... ”

Currently I am an active G.P aged 68. At no point have I been made aware of any incentives to keep older G.P's working. The simplest may be to reward them with a percentage (10% - 20%) on the Medicare rebate if they work beyond a certain age, eg. 60 years.

I would be happy to participate in a roundtable if desired.

Yours sincerely,

(Dr) David W. Glaspole  
F.R.A.C.G.P.
