

Re: DR Sub. 46 from Mobile Carriers Forum

The relevant Development Application, once authorised by Council as the land owner, was lodged on 9 February 2011. It was assessed by independent planning consultants, as Council had a property interest in the proposal.

Conditional consent for the project was issued on 6 June 2011 (120 days gross determination time) after Council considered the consultant's report.

The Application was subject of 13 public objections and a 377 signature petition opposing the development, although preliminary consultation undertaken by the proponents at Council's request had yielded no submissions.
