Inquiry into Australian Retail Industry

Dear Productivity Commissioner, Deregulating $\frac{1}{2}$ days.

It has come to my attention that the laws could be changing in Retail Industry due to the deregulation for trading.

I am a retail employee who works for a major retailer, it is imperative that us, as workers, receive our entitled days off so that we can share quality time with family & friends.

I as well as other retail staff do not wish to work all day, everyday, as I am sure this is what will happen when deregulation tries to come in.

Would you like to work on Public Holidays, Xmas and Easter as half of us have to now, would you like to work from midnight to dawn in Retail Stores which have to open to serve customers!! When are not in the stores that time of the night, would you like to work shorter hours & have wage cuts to suit! No, you would not & neither would I or any other retail worker.

This letter is to let you know we as Retail Staff are not happy with this suggestion to deregulate & hope this matter is not passed into law.

Thank you for taking the time to read this letter & giving me the chance to address this matter.
