

**Table 2 Annual charges**

*(a) Charges that apply if you own water*

Charge	How much	Increased
1 Part C charges <b>Peak</b> for channel distribution service	Part C Peak quarterly nominal allocation water charges by system Abbotsford \$47.90/ML/year Gin Gin/Bingera \$27.70/ML/year Gooburrum \$20.20/ML/year Isis \$37.40/ML/year Woongarra \$24.70/ML/year	Inflation increases (CPI) annually with reviews at ten and fifteen years. May be adjusted to compensate for any Rural Pricing Review adjustment in Part B charges
2 Part C Charges <b>Off-Peak</b> for channel distribution service	Part C Off-Peak quarterly nominal allocation water charges by system Abbotsford \$35.40/ML/year Gin Gin/Bingera \$15.20/ML/year Gooburrum \$7.70/ML/year Isis \$24.90/ML/year Woongarra system \$12.20/ML/year	Inflation increases (CPI) annually with reviews at ten and fifteen years. May be adjusted to compensate for any Rural Pricing Review adjustment in Part B charges
3 River Part A	Will be announced in November Sales Documents	Inflation increases (CPI) annually with reviews at ten and fifteen years. After Year 10 the Part A will be adjusted for changes in operating costs of the Burnett River Dam. Changes in the lower bound costs of Burnett River Dam between 2006 and 2016 will be factored into the CPI adjusted water charges at year 10.
4 Part B river and distribution system	\$5.64 ML/year for river and \$17.03 ML/year for channel distribution (total of \$22.67) Charge applies only to the total volume used in a year regardless of whether high or low priority water and Peak or Off-Peak water	Same adjustments as existing water Part B including Rural Pricing Review
5 Government levy*	\$4.00 ML/year based on usage	Will be advised by Government

\*This is the charge advised by the State Government in the September 2005 release of the Queensland Water Plan. The annual lease of the distribution service is an option for the up-front purchasers of water allocations.

*(b) For water you have leased*

Charge	How much	Increased
1 Annual water lease charges	At the lease price you offered. For a lease/buy option the lease price will be 6% of the price at which you bought water	Increases by CPI for first ten years of lease and then review at ten and fifteen years
2 Annual lease of distribution system (DS) access charges	\$30 ML/year for high and medium priority water Peak supply \$15 ML/year for high and medium priority water Off-Peak supply both for the total volume leased. Note: For buy/lease customers the annual lease charges for Year 1-5 of lease will be discounted to \$12/ML for Peak and \$6/ML for Off-Peak	Increased by CPI annually for first ten years. Old and new water may be merged for charging purposes after ten years. See Section 3 for further details
