

# You can help shape the future of Aboriginal and Torres Strait Islander visual arts and crafts policy

The Productivity Commission has published its draft report on *Aboriginal and Torres Strait Islander visual arts and crafts*.  
**We want to hear from you on our draft recommendations**

## Tackling inauthentic visual arts and crafts

We recommend a **mandatory warning label on inauthentic products** to help consumers focus on authentic arts and crafts

- What products should be labelled?
- What would help to strengthen compliance with labelling requirements?

## Recognising Aboriginal and Torres Strait Islander cultural rights

We recommend a **new law that will give traditional owners greater control** over how cultural assets are used in visual arts and crafts

- What things should the law protect?
- Who should speak for communities looking to protect cultural assets?

## Improving government support for artists and art centres

We recommend an **evaluation of all support programs**, and an **increase in funding** to strengthen the **Indigenous Art Code**

- How can governments better support and work with the sector?
- How can training and career pathways for artists and art workers be improved?
