

YOU can help shape how children and family services are funded in the Northern Territory

We are investigating funding arrangements for children and family services to help prevent harm to children in the NT.

Help us make recommendations on how governments can improve how services are funded.

We want to hear from **families, service providers** and **communities**

What types of services are available in your community and **who provides** these services?

Are these services **effective**? Do you know **how** to access them?

Are there services that are needed but are **not being provided**?

Who decides which services are provided in your community and do you have a say in this? **How could this be done better?**

How can we improve the way services are **funded**?

How should governments, service providers and communities **work together** and build on each other's strengths?

Visit our website to read the issues paper and make a submission or brief comment
