# Introduction

The *2012 Indigenous Expenditure Report* is prepared by the Steering Committee for the Review of Government Service Provision under the auspice of the Council of Australian Governments.

A printed report, available from the project website ([www.pc.gov.au/ier](http://www.pc.gov.au/ier)), provides an overview of expenditure on Aboriginal and Torres Strait Islander people across six expenditure areas that align to the National Indigenous Reform Agreement building blocks. This attachment presents the detail estimates that are summarised in the printed report.

The tables in this attachment provides estimates of Australian Government, and State and Territory Government direct Indigenous expenditure on services by driver of expenditure, for 2008-09 and 2010-11. Estimates are provided for expenditure arising from the level of service use and the cost of providing services for Indigenous Australians when compared to non-Indigenous Australians.

Information on the method, data sources and definitions used to compile these estimates is provided in the manuals that support the 2012 Report:

- *Expenditure Data Manual* — provides the definitions of expenditure and expenditure categories used for the estimates reported in the attachment
- *Service Use Measure Definitions Manual* — provides a description of the method for estimating the Indigenous component of expenditure, including the data sources and statements on the quality of those data.

While these estimates represent the best collective effort of the jurisdictions, identifying the Indigenous component of expenditure is difficult, and many data quality and methodological challenges are yet to be resolved. Interpreting these estimates requires an understanding of the strengths and limitations of the method and data, and the context within which Indigenous services are provided. A discussion of these interpretation issues is provided in chapters 2 and 3 of the printed report, respectively.

- Attachment W-W by type of program (\$/person)
- Attachment W-X by driver of expenditure (\$'000)
- Attachment W-Y by driver of expenditure (\$/person)

---

<sup>1</sup> Government expenditure comprises direct and indirect expenditure. Direct expenditure includes governments' outlays on services and programs (including income support) that are paid directly to individuals, non-government service providers, or local government. This represents the actual expenditure on services in the reference year. Indirect expenditure includes governments' payments 'to' and 'through' other governments. Indirect expenditure may be spent by the receiving government on services in the reference year, but can also be spent in future periods, or for other purposes if the expenditure is untied (for example, GST expenditure).

**Notes:**

- 1 A detailed description of the method and data sources underlying the Steering Committee estimates are available in the *Expenditure Data Manual* and the *Service Use Measure Definitions Manual* for the 2012 *Indigenous Expenditure Report*. These manuals are available for download from <http://www.pc.gov.au/ier>.
- 2 The estimates in this table are a summary of more detailed information provided in the state and territory specific tables available from the project website - NSW (attachment W-A); Victoria (attachment W-B); Queensland (attachment W-C); WA (attachment W-D); SA (attachment W-E); Tasmania (attachment W-F); ACT (attachment W-G); NT (attachment W-H); and Australia (attachment W-I).
- 3 'Intensity of service use' is the component of Indigenous expenditure estimated on the service use assuming that the cost of

providing services to Indigenous and non-Indigenous is equal. It comprises: 'Ser. Use' — Indigenous share of mainstream expenditure, and 'Sub.' — Substitute Indigenous specific expenditure.

- 4 'Cost of service provision' is the component of Indigenous expenditure estimated on the basis of the cost of providing services to Indigenous Australians compared to the cost of providing similar services to all Australians. This component can be negative if the cost of providing services to Indigenous Australians is less than for all Australians. It comprises: 'Cost Diff.' — the difference in the cost of providing mainstream services, and 'Comp.' — Complementary Indigenous specific services.

**Notes:**

- 1 A detailed description of the method and data sources underlying the Steering Committee estimates are available in the *Expenditure Data Manual* and the *Service Use Measure Definitions Manual* for the 2012 *Indigenous Expenditure Report*. These manuals are available for download from <http://www.pc.gov.au/ier>.
- 2 The estimates in this table are a summary of more detailed information provided in the state and territory specific tables available from the project website - NSW (attachment W-A); Victoria (attachment W-B); Queensland (attachment W-C); WA (attachment W-D); SA (attachment W-E); Tasmania (attachment W-F); ACT (attachment W-G); NT (attachment W-H); and Australia (attachment W-I).
- 3 'Intensity of service use' is the component of Indigenous expenditure estimated on the service use assuming that the cost of providing services to Indigenous and non-Indigenous is equal. It comprises: 'Ser. Use' — Indigenous share of mainstream expenditure, and 'Sub.' — Substitute Indigenous specific expenditure.
- 4 'Cost of service provision' is the component of Indigenous expenditure estimated on the basis of the cost of providing services to Indigenous Australians compared to the cost of providing similar services to all Australians. This component can be negative if the cost of providing services to Indigenous Australians is less than for all Australians. It comprises: 'Cost Diff.' — the difference in the cost of providing mainstream services, and 'Comp.' — Complementary Indigenous specific services.

**Notes:**

- 1 A detailed description of the method and data sources underlying the Steering Committee estimates are available in the *Expenditure Data Manual* and the *Service Use Measure Definitions Manual* for the 2012 *Indigenous Expenditure Report*. These manuals are available for download from <http://www.pc.gov.au/ier>.
- 2 The estimates in this table are a summary of more detailed information provided in the state and territory specific tables available from the project website - NSW (attachment W-A); Victoria (attachment W-B); Queensland (attachment W-C); WA (attachment W-D); SA (attachment W-E); Tasmania (attachment W-F); ACT (attachment W-G); NT (attachment W-H); and Australia (attachment W-I).
- 3 'Intensity of service use' is the component of Indigenous expenditure estimated on the service use assuming that the cost of providing services to Indigenous and non-Indigenous is equal. It comprises: 'Ser. Use' — Indigenous share of mainstream expenditure, and 'Sub.' — Substitute Indigenous specific expenditure.
- 4 'Cost of service provision' is the component of Indigenous expenditure estimated on the basis of the cost of providing services to Indigenous Australians compared to the cost of providing similar services to all Australians. This component can be negative if the cost of providing services to Indigenous Australians is less than for all Australians. It comprises: 'Cost Diff.' — the difference in the cost of providing mainstream services, and 'Comp.' — Complementary Indigenous specific services.

available for download from <http://www.pc.gov.au/ier>.

- 2 The estimates in this table are a summary of more detailed information provided in the state and territory specific tables available from the project website - NSW (attachment W-A); Victoria (attachment W-B); Queensland (attachment W-C); WA (attachment W-D); SA (attachment W-E); Tasmania (attachment W-F); ACT (attachment W-G); NT (attachment W-H); and Australia (attachment W-I).
- 3 'Intensity of service use' is the component of Indigenous expenditure estimated on the service use assuming that the cost of providing services to Indigenous and non-Indigenous is equal. It comprises: 'Ser. Use' — Indigenous share of mainstream expenditure, and 'Sub.' — Substitute Indigenous specific expenditure.
- 4 'Cost of service provision' is the component of Indigenous expenditure estimated on the basis of the cost of providing services to Indigenous Australians compared to the cost of providing similar services to all Australians. This component can be negative if the cost of providing services to Indigenous Australians is less than for all Australians. It comprises: 'Cost Diff.' — the difference in the cost of providing mainstream services, and 'Comp.' — Complementary Indigenous specific services.

**Notes:**

- 1 A detailed description of the method and data sources underlying the Steering Committee estimates are available in the *Expenditure Data Manual* and the *Service Use Measure Definitions Manual* for the 2012 *Indigenous Expenditure Report*. These manuals are available for download from <http://www.pc.gov.au/ier>.
  - 2 The estimates in this table are a summary of more detailed information provided in the state and territory specific tables available from the project website - NSW (attachment W-A); Victoria (attachment W-B); Queensland (attachment W-C); WA (attachment W-D); SA (attachment W-E); Tasmania (attachment W-F); ACT (attachment W-G); NT (attachment W-H); and Australia (attachment W-I).
  - 3 'Intensity of service use' is the component of Indigenous expenditure estimated on the service use assuming that the cost of providing services to Indigenous and non-Indigenous is equal. It comprises: 'Ser. Use' — Indigenous share of mainstream expenditure, and 'Sub.' — Substitute Indigenous specific expenditure.
  - 4 'Cost of service provision' is the component of Indigenous expenditure estimated on the basis of the cost of providing services to Indigenous Australians compared to the cost of providing similar services to all Australians. This component can be negative if the cost of providing services to Indigenous Australians is less than for all Australians. It comprises: 'Cost Diff.' — the difference in the cost of providing mainstream services, and 'Comp.' — Complementary Indigenous specific services.
- Source: Steering Committee for the Review of Government Service Provision estimates (Last updated on 03 August 2012).

**Notes:**

- 1 A detailed description of the method and data sources underlying the Steering Committee estimates are available in the *Expenditure Data Manual* and the *Service Use Measure Definitions Manual* for the 2012 *Indigenous Expenditure Report*. These manuals are available for download from <http://www.pc.gov.au/ier>.
  - 2 The estimates in this table are a summary of more detailed information provided in the state and territory specific tables available from the project website - NSW (attachment W-A); Victoria (attachment W-B); Queensland (attachment W-C); WA (attachment W-D); SA (attachment W-E); Tasmania (attachment W-F); ACT (attachment W-G); NT (attachment W-H); and Australia (attachment W-I).
  - 3 'Intensity of service use' is the component of Indigenous expenditure estimated on the service use assuming that the cost of providing services to Indigenous and non-Indigenous is equal. It comprises: 'Ser. Use' — Indigenous share of mainstream expenditure, and 'Sub.' — Substitute Indigenous specific expenditure.
  - 4 'Cost of service provision' is the component of Indigenous expenditure estimated on the basis of the cost of providing services to Indigenous Australians compared to the cost of providing similar services to all Australians. This component can be negative if the cost of providing services to Indigenous Australians is less than for all Australians. It comprises: 'Cost Diff.' — the difference in the cost of providing mainstream services, and 'Comp.' — Complementary Indigenous specific services.
- Source: Steering Committee for the Review of Government Service Provision estimates (Last updated on 03 August 2012).

**Notes:**

- 1 A detailed description of the method and data sources underlying the Steering Committee estimates are available in the *Expenditure Data Manual* and the *Service Use Measure Definitions Manual* for the 2012 *Indigenous Expenditure Report*. These manuals are available for download from <http://www.pc.gov.au/ier>.
- 2 The estimates in this table are a summary of more detailed information provided in the state and territory specific tables available from the project website - NSW (attachment W-A); Victoria (attachment W-B); Queensland (attachment W-C); WA (attachment W-D); SA (attachment W-E); Tasmania (attachment W-F); ACT (attachment W-G); NT (attachment W-H); and Australia (attachment W-I).
- 3 'Intensity of service use' is the component of Indigenous expenditure estimated on the service use assuming that the cost of providing services to Indigenous and non-Indigenous is equal. It comprises: 'Ser. Use' — Indigenous share of mainstream expenditure, and 'Sub.' — Substitute Indigenous specific expenditure.
- 4 'Cost of service provision' is the component of Indigenous expenditure estimated on the basis of the cost of providing services to Indigenous Australians compared to the cost of providing similar services to all Australians. This component can be negative if the cost of providing services to Indigenous Australians is less than for all Australians. It comprises: 'Cost Diff.' — the difference in the cost of providing mainstream services, and 'Comp.' — Complementary Indigenous specific services.

**Notes:**

- 1 A detailed description of the method and data sources underlying the Steering Committee estimates are available in the *Expenditure Data Manual* and the *Service Use Measure Definitions Manual* for the 2012 *Indigenous Expenditure Report*. These manuals are available for download from <http://www.pc.gov.au/ier>.
- 2 The estimates in this table are a summary of more detailed information provided in the state and territory specific tables available from the project website - NSW (attachment W-A); Victoria (attachment W-B); Queensland (attachment W-C); WA (attachment W-D); SA (attachment W-E); Tasmania (attachment W-F); ACT (attachment W-G); NT (attachment W-H); and Australia (attachment W-I).
- 3 'Intensity of service use' is the component of Indigenous expenditure estimated on the service use assuming that the cost of

providing services to Indigenous and non-Indigenous is equal. It comprises: 'Ser. Use' — Indigenous share of mainstream expenditure, and 'Sub.' — Substitute Indigenous specific expenditure.

- 4 'Cost of service provision' is the component of Indigenous expenditure estimated on the basis of the cost of providing services to Indigenous Australians compared to the cost of providing similar services to all Australians. This component can be negative if the cost of providing services to Indigenous Australians is less than for all Australians. It comprises: 'Cost Diff.' — the difference in the cost of providing mainstream services, and 'Comp.' — Complementary Indigenous specific services.

**Notes:**

- 1 A detailed description of the method and data sources underlying the Steering Committee estimates are available in the *Expenditure Data Manual* and the *Service Use Measure Definitions Manual* for the 2012 *Indigenous Expenditure Report*. These manuals are available for download from <http://www.pc.gov.au/ier>.
- 2 The estimates in this table are a summary of more detailed information provided in the state and territory specific tables available from the project website - NSW (attachment W-A); Victoria (attachment W-B); Queensland (attachment W-C); WA (attachment W-D); SA (attachment W-E); Tasmania (attachment W-F); ACT (attachment W-G); NT (attachment W-H); and Australia (attachment W-I).
- 3 'Intensity of service use' is the component of Indigenous expenditure estimated on the service use assuming that the cost of providing services to Indigenous and non-Indigenous is equal. It comprises: 'Ser. Use' — Indigenous share of mainstream expenditure, and 'Sub.' — Substitute Indigenous specific expenditure.
- 4 'Cost of service provision' is the component of Indigenous expenditure estimated on the basis of the cost of providing services to Indigenous Australians compared to the cost of providing similar services to all Australians. This component can be negative if the cost of providing services to Indigenous Australians is less than for all Australians. It comprises: 'Cost Diff.' — the difference in the cost of providing mainstream services, and 'Comp.' — Complementary Indigenous specific services.

**Notes:**

- 1 A detailed description of the method and data sources underlying the Steering Committee estimates are available in the *Expenditure Data Manual* and the *Service Use Measure Definitions Manual* for the 2012 *Indigenous Expenditure Report*. These manuals are available for download from <http://www.pc.gov.au/ier>.
- 2 The estimates in this table are a summary of more detailed information provided in the state and territory specific tables available from the project website - NSW (attachment W-A); Victoria (attachment W-B); Queensland (attachment W-C); WA (attachment W-D); SA (attachment W-E); Tasmania (attachment W-F); ACT (attachment W-G); NT (attachment W-H); and Australia (attachment W-I).
- 3 'Intensity of service use' is the component of Indigenous expenditure estimated on the service use assuming that the cost of providing services to Indigenous and non-Indigenous is equal. It comprises: 'Ser. Use' — Indigenous share of mainstream expenditure, and 'Sub.' — Substitute Indigenous specific expenditure.
- 4 'Cost of service provision' is the component of Indigenous expenditure estimated on the basis of the cost of providing services to Indigenous Australians compared to the cost of providing similar services to all Australians. This component can be negative if the cost of providing services to Indigenous Australians is less than for all Australians. It comprises: 'Cost Diff.' — the difference in the cost of providing mainstream services, and 'Comp.' — Complementary Indigenous specific services.

available for download from <http://www.pc.gov.au/ier>.

- 2 The estimates in this table are a summary of more detailed information provided in the state and territory specific tables available from the project website - NSW (attachment W-A); Victoria (attachment W-B); Queensland (attachment W-C); WA (attachment W-D); SA (attachment W-E); Tasmania (attachment W-F); ACT (attachment W-G); NT (attachment W-H); and Australia (attachment W-I).
- 3 'Intensity of service use' is the component of Indigenous expenditure estimated on the service use assuming that the cost of providing services to Indigenous and non-Indigenous is equal. It comprises: 'Ser. Use' — Indigenous share of mainstream expenditure, and 'Sub.' — Substitute Indigenous specific expenditure.
- 4 'Cost of service provision' is the component of Indigenous expenditure estimated on the basis of the cost of providing services to Indigenous Australians compared to the cost of providing similar services to all Australians. This component can be negative if the cost of providing services to Indigenous Australians is less than for all Australians. It comprises: 'Cost Diff.' — the difference in the cost of providing mainstream services, and 'Comp.' — Complementary Indigenous specific services.

Source: Steering Committee for the Review of Government Service Provision estimates (Last updated on 03 August 2012).

**Notes:**

- 1 A detailed description of the method and data sources underlying the Steering Committee estimates are available in the *Expenditure Data Manual* and the *Service Use Measure Definitions Manual* for the 2012 *Indigenous Expenditure Report*. These manuals are available for download from <http://www.pc.gov.au/ier>.
  - 2 The estimates in this table are a summary of more detailed information provided in the state and territory specific tables available from the project website - NSW (attachment W-A); Victoria (attachment W-B); Queensland (attachment W-C); WA (attachment W-D); SA (attachment W-E); Tasmania (attachment W-F); ACT (attachment W-G); NT (attachment W-H); and Australia (attachment W-I).
  - 3 'Intensity of service use' is the component of Indigenous expenditure estimated on the service use assuming that the cost of providing services to Indigenous and non-Indigenous is equal. It comprises: 'Ser. Use' — Indigenous share of mainstream expenditure, and 'Sub.' — Substitute Indigenous specific expenditure.
  - 4 'Cost of service provision' is the component of Indigenous expenditure estimated on the basis of the cost of providing services to Indigenous Australians compared to the cost of providing similar services to all Australians. This component can be negative if the cost of providing services to Indigenous Australians is less than for all Australians. It comprises: 'Cost Diff.' — the difference in the cost of providing mainstream services, and 'Comp.' — Complementary Indigenous specific services.
- Source: Steering Committee for the Review of Government Service Provision estimates (Last updated on 03 August 2012).

**Notes:**

- 1 A detailed description of the method and data sources underlying the Steering Committee estimates are available in the *Expenditure Data Manual* and the *Service Use Measure Definitions Manual* for the 2012 *Indigenous Expenditure Report*. These manuals are available for download from <http://www.pc.gov.au/ier>.
  - 2 The estimates in this table are a summary of more detailed information provided in the state and territory specific tables available from the project website - NSW (attachment W-A); Victoria (attachment W-B); Queensland (attachment W-C); WA (attachment W-D); SA (attachment W-E); Tasmania (attachment W-F); ACT (attachment W-G); NT (attachment W-H); and Australia (attachment W-I).
  - 3 'Intensity of service use' is the component of Indigenous expenditure estimated on the service use assuming that the cost of providing services to Indigenous and non-Indigenous is equal. It comprises: 'Ser. Use' — Indigenous share of mainstream expenditure, and 'Sub.' — Substitute Indigenous specific expenditure.
  - 4 'Cost of service provision' is the component of Indigenous expenditure estimated on the basis of the cost of providing services to Indigenous Australians compared to the cost of providing similar services to all Australians. This component can be negative if the cost of providing services to Indigenous Australians is less than for all Australians. It comprises: 'Cost Diff.' — the difference in the cost of providing mainstream services, and 'Comp.' — Complementary Indigenous specific services.
- Source: Steering Committee for the Review of Government Service Provision estimates (Last updated on 03 August 2012).

**Notes:**

- 1 A detailed description of the method and data sources underlying the Steering Committee estimates are available in the *Expenditure Data Manual* and the *Service Use Measure Definitions Manual* for the 2012 *Indigenous Expenditure Report*. These manuals are available for download from <http://www.pc.gov.au/ier>.
- 2 The estimates in this table are a summary of more detailed information provided in the state and territory specific tables available from the project website - NSW (attachment W-A); Victoria (attachment W-B); Queensland (attachment W-C); WA (attachment W-D); SA (attachment W-E); Tasmania (attachment W-F); ACT (attachment W-G); NT (attachment W-H); and Australia (attachment W-I).
- 3 'Intensity of service use' is the component of Indigenous expenditure estimated on the service use assuming that the cost of providing services to Indigenous and non-Indigenous is equal. It comprises: 'Ser. Use' — Indigenous share of mainstream expenditure, and 'Sub.' — Substitute Indigenous specific expenditure.
- 4 'Cost of service provision' is the component of Indigenous expenditure estimated on the basis of the cost of providing services to Indigenous Australians compared to the cost of providing similar services to all Australians. This component can be negative if the cost of providing services to Indigenous Australians is less than for all Australians. It comprises: 'Cost Diff.' — the difference in the cost of providing mainstream services, and 'Comp.' — Complementary Indigenous specific services.
