# 11A Aged care services — attachment

Definitions for the descriptors and indicators in this attachment are in Section 11A.2. Unsourced information was obtained from State and Territory and Commonwealth governments.

Data in this report are examined by the Review's Aged Care Working Group, but have not been formally audited by the Secretariat.

The data contained in this attachment may be subject to revision. The web page version of the Report contains the most up-to-date data where changes have occurred. This attachment can be found at [www.pc.gov.au/service/gsp/2000/attach11A.pdf](http://www.pc.gov.au/service/gsp/2000/attach11A.pdf). Users without Internet access can contact the Secretariat (details inside front cover of the Report).

## 11A.1 All jurisdictions' data

### Descriptors

Table 11A.1 Males and females aged 70 years and over, June 1998

RCS 6	\$ 28	28	28	28	28	28	28	28	28
RCS 7	\$ 22	22	22	22	22	22	22	22	22
RCS 8	\$ 0	0	0	0	0	0	0	0	0

<sup>a</sup> Includes only funding on the Resident Classification Scale (RCS); the pensioner supplement and other supplements will add around \$3900 a year for high care residents and \$3500 a year for low care residents. On average, residents contribute \$10 000 a year to their care. <sup>b</sup> Differences in average annual subsidies reflect differences in subsidy rates as well as differences in dependency of residents. <sup>c</sup> RCS = Residential Classification Scale. <sup>d</sup> At 1 July 1999. <sup>e</sup> Subsidy rates from 1 July 1998 to 30 June 1999. .. Not applicable.

<sup>a</sup> Estimates based on the proportion of people aged 70 and over receiving HACC services in each jurisdiction.

<sup>b</sup> Data were taken from November 1994–98, except for Victoria (where 1998 data were from May), WA (November 1993 and 1998 data), the ACT (where 1994 data were from May 1995), and the NT (where 1995 data were from May 1996). <sup>c</sup> There is some overlap between jurisdictions in the definitions of home help, personal care, home nursing and paramedical services. <sup>d</sup> The Australian total excludes WA data and population for 1995–97. <sup>e</sup> HACC services have been distributed *pro rata* according to the following proportions, to reflect services provided to people aged 70 and over: 67.6 per cent (NSW), 71.9 per cent (Victoria), 72.2 per cent (Queensland), 70.7 per cent (WA), 69 per cent (SA), 65.7 per cent (Tasmania), 54.2 per cent (the ACT), 45.4 per cent (the NT) and 69.5 per cent (Australia). <sup>f</sup> Transport data were not collected in Victoria. **na** Not available.

Source: Department of Health and Aged Care.

1998	50	na	79	–	–	–	–	–	60

<sup>a</sup> Estimates based on the proportion of people aged 70 and over receiving HACC services in each jurisdiction.

<sup>b</sup> Data were taken from November 1994–98, except for Victoria (where 1998 data were from May), WA (November 1993 and 1998 data), the ACT (where 1994 data were from May 1995), and the NT (where 1995 data were from May 1996). <sup>c</sup> There is some overlap between jurisdictions in the definitions of home help, personal care, home nursing and paramedical services. <sup>d</sup> The Australian total excludes WA data and population for 1995–97. <sup>e</sup> HACC services have been distributed *pro rata* according to the following proportions, to reflect services provided to people aged 70 and over: 67.6 per cent (NSW), 71.9 per cent (Victoria), 72.2 per cent (Queensland), 70.7 per cent (WA), 69 per cent (SA), 65.7 per cent (Tasmania), 54.2 per cent (the ACT), 45.4 per cent (NT) and 69.5 per cent (Australia). <sup>f</sup> Transport data were not collected in Victoria. **na** Not available. – Nil or rounded to zero.

Source: Department of Health and Aged Care.

<sup>a</sup> Estimates based on the proportion of people aged 70 and over receiving HACC services in each jurisdiction.

<sup>b</sup> Data were taken from November 1994–98, except for Victoria (where 1998 data were from May), WA (November 1993 and 1998 data), the ACT (where 1994 data were from May 1995), and the NT (where 1995 data were from May 1996). <sup>c</sup> There is some overlap between jurisdictions in the definitions of home help, personal care, home nursing and paramedical services. <sup>d</sup> The Australian total excludes WA data and population for 1995–97. <sup>e</sup> Transport data were not collected in Victoria. **na** Not available.

Admissions	no.	8 681	5 088	3 302	1 555	2 206	629	199	36	21 696

**a** The maximum period is 365 days, the ACAT approval period. **b** Differences in the way aged care entry periods are calculated mean that comparisons over time are not valid for a number of reasons. First, as part of the aged care reforms in 1997, an ACAT approval for nursing home admission is valid for one year, bringing it in line with the hostel approval period, rather than the 90 days which used to apply. This takes pressure off people entering nursing homes and gives them more time to make decisions. This gives older people time to visit different facilities, consider their options, settle their affairs and make arrangements with the facility of their choice before they enter care. Some older people may obtain ACAT assessment but choose not to proceed with entry to residential care for some time, while others may prefer to wait for a place in a particular facility, for religious preferences for example. It is therefore misleading to refer to this as a 'waiting period'. Second, the change in nursing home ACAT approval to one year also means that ACATs do not have to postpone an approval until they are sure the resident could find a place, as was sometimes the case in the past. Third, the increasing use of ageing-in-place also affects entry periods because, in the past, if a person moved from a hostel to a nursing home this would have been counted as a new admission, with a very short waiting time. Up to 40 per of hostel discharges in the past were to nursing homes, which would have reduced the average waiting time substantially. Since the aged care reforms fewer people have had to move from a hostel to a nursing home because they can receive higher levels of care in the low care service. This has a statistical effect on how entry periods are calculated.

<sup>a</sup> Expenditure was combined Commonwealth/State expenditure, except Commonwealth National Respite for Carers (NRCP), which is Commonwealth Government expenditure only. Community respite was HACC respite and centre day care, and NRCP. Handicapped persons data were estimated from the ABS Survey of Disability, Ageing and Carers (1998). HACC services have been distributed *pro rata* according to the following proportions, to reflect services provided to people aged 70 and over: 67.6 per cent (NSW), 71.9 per cent (Victoria), 72.2 per cent (Queensland), 70.7 per cent (WA), 69 per cent (SA), 65.7 per cent (Tasmania), 54.2 per cent (the ACT), 45.4 per cent (the NT) and 69.5 per cent (Australia). **na** Not available.

<sup>a</sup> RCS = Resident Classification Scale. <sup>b</sup> Includes only funding on the RCS; the pensioner supplement and other supplements will add around \$3900 a year for high care residents and \$3500 a year for low care residents. On average, residents contribute \$10 000 a year to their care. <sup>c</sup> Differences in average annual subsidies reflect differences in subsidy rates as well as differences in the dependency of residents.

Other assets	2 000	5 000	na	5 000	na	10 000	5 000	5 000	..

<sup>a</sup> Recognition threshold for revaluation of Queensland assets is \$30 000 for assets with lives of three years or more. <sup>b</sup> WA employs declining balance depreciation in contrast to the straight line method of other jurisdictions. <sup>c</sup> Land and buildings above the \$1 million are revalued every year, otherwise they are revalued every five years. <sup>d</sup> NT services currently report under a cash based accounting. <sup>e</sup> DRC is the depreciated replacement cost; market value is the current (net) value market selling price or exchange value; and deprival value may be either the DRC of an asset of a similar service potential or the stream of its future economic benefits. <sup>f</sup> Estimated as (1/depreciation rate). <sup>g</sup> Asset lives for some assets have been grouped with other classifications. <sup>h</sup> For some jurisdictions, office equipment includes furniture and fittings, and plant and equipment includes IT equipment. **na** Not available. **..** Not applicable.

## 11A.2 Definitions

Table 11A.41 **Terms**

<i>Term</i>	<i>Definition</i>
Centre day care	Respite care provided from a facility such as a day care or health centre. Respite care was usually combined with social support services to maintain the functional capabilities of the person receiving care.
Community Options Projects	Case management for people with complex care needs — for example, managing or purchasing a package of care services
Complaint	A query or grievance that any member of the public made to the Commonwealth Department of Health and Aged Care about any services provided by a Commonwealth funded nursing home and/or hostel
Handicap	A limitation in performing certain tasks associated with daily living. The limitation has to result from a disability and affect one or more of the following areas: self care; mobility; verbal communication; schooling; or employment
Home help	Assistance to undertake household tasks (for example, washing clothes)
Home maintenance/modification	Assistance in undertaking home maintenance tasks which a person was unable to undertake themselves, or modification of the home for care purposes (for example, installing hand rails)
Home meals/centre meals	Meals provided to persons either in their own home or at a separate facility. Includes 'meals on wheels'.
Home nursing	Nursing care provided in a person's home (for example, assistance with taking medication)
Home respite	A short term substitute for usual care. In-home respite could be provided in either the home of the person requiring or providing care, and could be for up to a day, overnight or for longer periods
Hostel	Residential facilities for older people which provide accommodation, personal care and occasional or limited nursing services
Nursing home	Residential facilities for frail older people which provide accommodation, 24-hour nursing care and personal care
Paramedical services	Services to help people maintain their independence and mobility — for example, physiotherapy, podiatry, speech therapy and occupational therapy
People from non-English speaking backgrounds	People whose first spoken language was not English
People with a moderate handicap	Those people with a disability who did not require help or supervision with tasks relevant to self care, mobility and verbal communication but who had difficulty performing one or more of these tasks
People with a profound handicap	Those people with a disability who always required help or supervision in one or more of self care, mobility and verbal communication
People with a severe handicap	Those people with a disability who sometimes required help or supervision with tasks relevant to self care, mobility and verbal communication
Personal care	Assistance to undertake personal tasks (for example, bathing)
Real expenditure	Actual expenditure adjusted for changes in prices, using the GDP(E) price deflator, and expressed in terms of final year prices

(Continued on next page)

**Table 11A.41 (Continued)**

---

<i>Term</i>	<i>Definition</i>
Respite care	Alternative care arrangements for dependent people living in the community, with the primary purpose of giving their carer a short term break from their usual caring commitments
Veterans	Veterans and war widow(er)s who were entitled to treatment through the Department of Veterans' Affairs under the provisions of the <i>Veterans' Entitlement Act 1986</i>
Waiting time	The length of time a person waits between a being assessed as requiring a service and receiving that service
