(a) Totals may not add as a result of rounding.

(b) Includes 'Other Territories'.

(c) Table A.1 contains Estimated Resident Population (ERP) figures for Australia, States and Territories. These, and ERP figures in other tables, differ from corresponding population figures from the Census of Population and Housing conducted in August 2001. ERP figures are based on the Census, but have been adjusted for interstate and overseas visitors and undercount at the Census. They are then updated periodically with births, deaths and overseas migration figures and interstate migration estimates. Unless otherwise stated, the service areas covered by this report use population data from this table for descriptive and performance indicators.

(a) Data are reported for both financial and calendar years, and are based on the average of quarterly estimates. For financial year estimates the data represents the average of the four quarters ending on 30 June of the financial years. For calendar year estimates, the data represents the average of the four quarters ending on 31 December.

(b) Includes 'Other Territories'.

(c) Financial year data for 2002-03 is based on the average of quarterly population estimates for September 2002 to May 2003 and the population project for 30 June 2003.

(d) **5yr AAGR** = 5 year average annual growth rate. See section A.5 Statistical Concepts used in the Report for details on the estimation method.

– Nil or rounded to zero.

(a) Capital city areas were defined (DPIE and DSHS 1994) as State and Territory capital city statistical divisions. Other metropolitan areas were defined as other statistical subdivisions that included urban centres of population of 100 000 or more. Remote areas were defined in terms of low population density and long distances to associated large population centres. Rural areas included the remainder of non-metropolitan statistical local areas.

(b) Excludes 'Other Territories'.

– Nil or rounded to zero.

(a) Includes 'Other Territories'.

(b) Jurisdictions do not add to total because data for Australia include pensions paid to people living overseas. Aged pensioners are defined as people receiving full or part Age Pension, excluding associated wife's or carer's pension.

(c) Includes the number of recipients on Newstart Allowance and Youth Training Allowance from 1997 and Newstart Allowance and Youth Allowance (other) from July 1998.

(d) Includes people receiving a pension on the basis of an assessed physical, intellectual or psychiatric impairment and on their continuing inability to work or be retrained to work 30 hours or more per week within the next two years.

(e) Includes people receiving the 'parenting payment — single'. Prior to March 1998, this was known as the 'sole parent pension'.
