

12A Aged care services — attachment

Definitions for the indicators and descriptors in this attachment are in section 12.7 of the chapter. Data in this Report are examined by the Aged Care Services Working Group, but have not been formally audited by the Secretariat. Unsourced information was obtained from the Australian, State and Territory governments.

This file is available in Adobe PDF format on the Review web page (www.pc.gov.au/gsp). Users without Internet access can contact the Secretariat to obtain these tables (see details on the inside front cover of the Report).

Attachment contents

Table 12A.1	Males and females aged 70 years or over, June 2005 (estimated)
Table 12A.2	Target population data, by location ('000)
Table 12A.3	Proportion of people aged 70 years and over by locality, June 2005
Table 12A.4	Ownership of aged care residential places, June 2005
Table 12A.5	Average annual Australian Government RCS subsidy per occupied place and the dependency level of aged care residents, June 2005
Table 12A.6	Size and distribution of all residential aged care services, June 2005
Table 12A.7	Size and distribution of residential aged care services with over 80 per cent high care residents, June 2005
Table 12A.8	Size and distribution of residential aged care services with over 80 per cent low care residents, June 2005
Table 12A.9	Size and distribution of mixed residential aged care services, June 2005
Table 12A.10	Operational number of aged care places per 1000 people aged 70 years or over
Table 12A.11	Operational number of aged care places per 1000 people aged 70 years or over plus Indigenous people aged 50–69 years
Table 12A.12	Aged care recipients per 1000 people aged 70 years or over plus Indigenous people aged 50-69 years
Table 12A.13	Aged care recipients per 1000 people aged 70 years or over plus Indigenous people aged 50–69 years by locality
Table 12A.14	Aged care recipients from a non-English speaking country
Table 12A.15	Aged care recipients from a non-English speaking country per 1000 people from a non-English speaking country aged 70 years and over by locality
Table 12A.16	Indigenous aged care recipients per 1000 Indigenous people aged 50 years or over and as a proportion of all recipients
Table 12A.17	Indigenous aged care recipients per 1000 Indigenous people aged 50 years or over by locality
Table 12A.18	Aged care recipients from special needs groups, (per cent) 30 June 2005
Table 12A.19	Proportion of new residents classified as concessional or assisted residents, 2004-05 (per cent)
Table 12A.20	HACC services received per 1000 people aged 70 years or over plus Indigenous people aged 50-69 years, 2004-05
Table 12A.21	HACC services received within major cities per 1000 people aged 70 years or over plus Indigenous people aged 50–69 years, 2004-05
Table 12A.22	HACC services received within inner regional areas per 1000 people aged 70 years or over plus Indigenous people aged 50–69 years, 2004-05
Table 12A.23	HACC services received within outer regional areas per 1000 people aged 70 years or over plus Indigenous people aged 50–69 years, 2004-05
Table 12A.24	HACC services received within remote areas per 1000 people aged 70 years or over plus Indigenous people aged 50–69 years, 2004-05
Table 12A.25	HACC services received within very remote areas per 1000 people aged 70 years or over plus Indigenous people aged 50–69 years, 2004-05
Table 12A.26	HACC services received per 1000 HACC target population, 2004-05

Attachment contents

Table 12A.27	HACC services received by clients within major cities per 1000 of the HACC target population for major cities, 2004-05
Table 12A.28	HACC services received by clients within inner regional areas per 1000 HACC target population for inner regional areas, 2004-05
Table 12A.29	HACC services received by clients within outer regional areas per 1000 HACC target population for outer regional areas, 2004-05
Table 12A.30	HACC services received by clients within remote areas per 1000 HACC target population for remote areas, 2004-05
Table 12A.31	HACC services received by clients within very remote areas per 1000 HACC target population, 2004-05
Table 12A.32	HACC client characteristics, 2004-05
Table 12A.33	Distribution of HACC clients, by age and Indigenous status, 2004-05 (per cent)
Table 12A.34	Comparative characteristics of Indigenous HACC clients, 2004-05
Table 12A.35	Australian Government Activity Measures on Aged Community Care Programmes, 2004-05
Table 12A.36	Elapsed time between ACAT approval and entry into residential service or CACP service, 2004-05
Table 12A.37	Recommended longer term care arrangements of Aged Care Assessment Teams (ACAT) clients, 1999-2000 to 2003-04
Table 12A.38	Aged care assessments
Table 12A.39	Accreditation decisions on residential aged care services, 30 June 2005
Table 12A.40	Average number of residents per room
Table 12A.41	Aged Care Complaints Resolution Scheme complaints
Table 12A.42	Australian Government real expenditure on residential aged care, CACPs and EACH (2004-05 \$ million)
Table 12A.43	Real expenditure on HACC services (2004-05 \$ million)
Table 12A.44	Department of Veterans' Affairs residential expenditure and clients
Table 12A.45	Veterans' Home Care (VHC), 2004-05
Table 12A.46	Australian Government expenditure on Aged Community Care Programs, 2004-05 (\$ million)
Table 12A.47	Australian Government expenditure on Aged Community Care Programs per person aged 70 years or over plus Indigenous people aged 50-69, 2004-05
Table 12A.48	Australian Government (DHA only) real expenditure on residential aged care and CACPs, per person aged 70 years or over plus Indigenous people aged 50-69 years (2004-05 dollars)
Table 12A.49	Australian Government (DHA and DVA) real expenditure on residential services, per person aged 70 years or over plus Indigenous people aged 50-69 years (2004-05 dollars)
Table 12A.50	Australian, State and Territory government expenditure on HACC services per HACC target population
Table 12A.51	Australian, State and Territory government real expenditure on HACC services, per person aged 70 years or over plus Indigenous people aged 50-69 years (2004-05 dollars)

Attachment contents

Table 12A.52	Australian Government real expenditure on CACPs, per person aged 70 years or over plus Indigenous people aged 50–69 years (2004-05 dollars)
Table 12A.53	Ageing in place: residents changing from low care to high care in the same facility
Table 12A.54	Aged care assessment — activity and costs, 2003-04
Table 12A.55	Age standardisation data, June 2001
Table 12A.56	Access to Commonwealth Carelink Centres, 2004-05
Table 12A.57	Utilisation of residential aged care places, by remoteness category, 30 June 2005
Table 12A.58	Permanent aged care residents at 30 June 2004: age-sex specific usage rates per 1,000 persons by jurisdiction
Table 12A.59	CACP and EACH recipients at 30 June 2004: age-sex specific usage rates per 1,000 persons by jurisdiction
Table 12A.60	Permanent aged care residents, CACP and EACH recipients at 30 June 2004: age-sex specific usage rates per 1,000 persons by jurisdiction
Table 12A.61	Permanent aged care residents at 30 June 2004: age-sex specific usage rates per 1,000 persons by remoteness
Table 12A.62	CACP and EACH recipients at 30 June 2004: age- sex specific usage rates per 1,000 persons by remoteness
Table 12A.63	Permanent aged care residents, CACP and EACH recipients at 30 June 2004: age-sex specific usage rates per 1,000 persons by remoteness
Table 12A.64	Indigenous permanent residents classified as high or low care and Indigenous CACP at 30 June 2004: age-sex specific usage rates per 1,000 persons by remoteness

(a) The occupancy rate is defined as the number of residents in care as a proportion of available

(b) Services have been defined as high care, low care or mixed care based on the proportion of high care and low care residents in each service. Excludes Multi-Purpose Services and flexibly funded services.

(c) See footnotes to table 12A.2 for detail on regional data classification.

(d) This table shows occupancy rates of services that have been categorised on the basis of the proportions of high care or low care **residents**. Therefore this table cannot be used to draw valid conclusions relating to the occupancy of **places** of a particular care level.

.. Not applicable. – Nil or rounded to zero.

2005	101.2	101.8	100.8	101.7	108.7	106.4	93.7	232.0	102.4

(a) At 30 June; includes high care residential, low care residential, EACH packages and CACPs.

(b) Places do not include those that have been approved but are not yet operational.

(c) This table differs from table 12A.12, which refers to residents.

(d) Includes multipurpose and flexible services.

Table 12A.10 Operational number of aged care places per 1000 people aged 70 years or over (a), (b), (c), (d), (e), (f)

	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT</i>	<i>NT</i>	<i>Aust</i>
(e)	Government planning targets are based on providing 108 places per 1000 people aged 70 years and over. However, in recognition of poorer health among Indigenous communities, planning in some cases also takes account of the Indigenous population aged 50–69 years. This means that the provision ratio based on the population aged 70 years and over will appear high in areas with a high Indigenous population (such as the NT).								
(f)	For 2003 and earlier years, EACH packages were included in the figures for residential high care. From 2004 they are reported separately.

(a) Data are as at 30 June and include high care residential, low care residential, EACH packages and CACPs.

(b) Includes Multipurpose Services and National Indigenous Aged Care Strategy places attributed as aged care recipients.

(c) See table 12A.2 for notes and sources of population data.

(d) Ratios in remote areas can be affected by small movements in resident numbers.

(e) For 2003 and earlier years, EACH packages were included in the figures for residential high care. From 2004 they are reported separately.

.. Not applicable. – Nil or rounded to zero.

- (a) Data are as at 30 June and include high care residential, low care residential, EACH packages and CACPs.
- (b) Reports only people who are recorded as Indigenous.
- (c) Includes flexibly funded and pilot Aboriginal and Torres Strait Islander projects (356 places in 2000; 390 places in 2001; 411 places in 2002; 420 places in 2003; 579 places in 2004; 600 places in 2005).
- (d) Indigenous population estimates based on ratios from unpublished ABS data from the 2001 Census applied to ABS Population Projections by SLA 2002–2022 (unpublished). Excludes Multipurpose Services. Includes National Indigenous Aged Care Strategy places attributed as residents.
- (e) Geographical data are based on ratios from unpublished ABS Standard Geographic Classification of Remoteness areas (see table 12A.2 note (a)).
- (f) Excludes Multipurpose Services. Includes National Indigenous Aged Care Strategy places attributed as residents.
- (g) For 2003 and earlier years, EACH packages were included in the figures for residential high care. From 2004 they are reported separately.
- (h) The ACT has a very small Indigenous population aged over 50 years and a small number of CACP packages will result in a very high provision ratio.
– Nil or rounded to zero.

2005	25.5	..	37.5	51.0	163.6	442.6	..	97.4	72.1

(a) Data are as at 30 June and include high care residential, low care residential, EACH packages and CACPs.

(b) Reports only people who are recorded as Indigenous.

(c) Includes flexibly funded and pilot Aboriginal and Torres Strait Islander projects (356 places in 2000; 390 places in 2001; 411 places in 2002; 420 places in 2003; 579 places in 2004, 600 places in 2005).

(d) Indigenous estimates based on ratios from unpublished ABS data from the 2001 Census applied to ABS Population Projections by SLA 2002–2022 (unpublished).

(e) Geographical data are based on ratios from unpublished ABS Standard Geographic Classification Remoteness areas (see table 12A.2 note (a)).

(f) Excludes Multipurpose Services. Includes National Indigenous Aged Care Strategy places attributed as residents.

(g) For 2003 and earlier years, EACH packages were included in the figures for residential high care. From 2004 they are reported separately.

(h) The ACT has a very small Indigenous population aged over 50 years and a small number of CACP packages will result in a very high provision ratio.

.. Not applicable. – Nil or rounded to zero.

Source: DoHA (unpublished).

Table 12A.18

Table 12A.18 Aged care recipients from special needs groups, 30 June 2005 (per cent) (a), (b), (c)

	NSW	Vic	Qld	WA	SA	Tas	ACT	NT	Aust
Proportion of Indigenous people aged 50 years or over									
Benchmark (proportion of target population) (d)	2.4	0.7	4.0	4.5	1.6	4.0	1.6	60.6	2.7
Indigenous aged care residents (e), (f)	0.3	0.1	0.9	1.7	0.3	0.2	0.1	35.3	0.6
Indigenous CACP recipients (g), (f)	2.8	1.3	3.7	6.8	2.3	2.5	4.7	62.7	3.9
Indigenous HACC clients (h), (f)	3.4	1.1	2.6	3.7	2.4	1.8	1.2	42.2	2.6
Proportion of Residents born in a mainly non-English speaking country aged 70 years or over									
Benchmark (proportion of target population) (i)	23.5	29.2	16.6	24.5	22.5	14.4	26.9	13.7	23.5
Residents from a non-English speaking country (j)	13.9	18.0	8.0	15.5	13.3	5.4	18.9	17.0	13.8
CACP recipients from a non-English speaking country (k)	20.0	24.3	12.2	22.5	18.3	15.2	23.6	7.1	19.7
HACC recipients from a non-English speaking country (l)	15.7	21.2	9.1	17.8	16.8	8.0	23.2	10.6	16.2

(a) See table 12A.2 for notes and sources of population data.

(b) The proportion of HACC funded agencies that submitted MDS data for 2004-05 differed across jurisdictions, and ranged from 65 per cent to 98 per cent. Consequently, actual service levels will be higher than those reported here.

(c) 'Nil' and 'Not Stated' responses from the HACC Minimum Data Set Collection are not included in calculations.

(d) Indigenous people aged 50 and over as a percentage of the total population aged 70 and over plus the number of Indigenous people aged 50 to 69 years old.

(e) Indigenous aged care residents as a percentage of all aged care residents.

(f) Includes only people who self identify as Indigenous. Unknown responses have been distributed *pro rata*.

(g) Indigenous CACP recipients as a percentage of CACP residents.

(h) Indigenous clients as a percentage of all HACC clients.

(i) People from non-English speaking country as a percentage of the total population aged 70 or over.

(j) Aged care residents from a non-English speaking country as a percentage of all aged care residents.

(k) CACP recipients from a non-English speaking country as a percentage of all CACP residents.

(l) HACC clients from a non-English speaking country as a percentage of all HACC clients.

Source: DoHA (unpublished).

Table 12A.19

Table 12A.19 Proportion of new residents classified as concessional or assisted residents, 2004-05 (per cent) (a), (b)

	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT</i>	<i>NT</i>	<i>Aust</i>
High care residents	41.3	43.4	46.8	46.2	42.6	49.6	47.0	63.5	43.6
Low care residents	31.9	32.5	37.9	38.0	36.8	35.1	25.3	78.8	34.3
All residents	37.1	37.6	42.5	41.4	40.1	43.5	35.7	68.8	39.1

(a) Only new residents entering residential care post-October 1997 are eligible for either a concessional or assisted resident supplement.

(b) Concessional residents are those who receive an income support payment and have not owned a home for the last two or more years (or whose home is occupied by a 'protected' person, for example, the care recipient's spouse or long-term carer), and have assets of less than 2.5 times the annual single basic age pension. Assisted residents are those meeting the above criteria, but with assets between 2.5 and 4.0 times the annual single basic age pension.

**Table 12A.26 HACC services received per 1000 HACC target population, 2004-05
(a), (b)**

	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT</i>	<i>NT</i>	<i>Aust (c)</i>
(a)	The proportion of HACC funded agencies that submitted MDS data for 2004-05 differed across jurisdictions, and ranged from 65 per cent to 98 per cent. Consequently, actual service levels will be higher than those reported here.								
(b)	HACC Target Population source: HACC Target Population is estimated by applying the proportion of people in households with a moderate, severe, or profound disability as reported in the ABS 2003 Survey of Disability, Ageing and Carers to the ABS Population Projections by SLA 2002–2022. See footnotes to table 12A.2 for detail on regional data classification.								
(c)	Includes HACC service data for clients whose address was not stated.								
(d)	Includes Allied Health Care at home and at a centre.								
(e)	Includes Case Management and Case Planning.								
(f)	Includes Nursing Care at home and at a centre.								

– Nil or rounded to zero.

(a) 'Nil' and 'Not Stated' responses from the HACC Minimum Data Set Collection are not included in calculations.

(b) Carer status data for NSW and NT not available due to data quality issues.

(c) The proportion of HACC funded agencies that submitted MDS data for 2004-05 differed across jurisdictions, and ranged from 65 per cent to 98 per cent. Consequently, actual service levels will be higher than those reported here.

NCMS grants	na	na	na	na	na	na	na	na	na
Meals (Centre) (d) (e)	20 707	3 772	11 110	6 908	5 333	1 155	152	415	49 552

(a) See table 12A.47 for information regarding the Community Care Programs above.

(b) See table 12A.38 for 2003-04 aged care assessment activity data.

(c) May include re-assessments. The removal of the requirement for low to high assessments has resulted in a drop in assessment activity in residential care of 5657 assessments. Therefore the total number of other assessments has increased by 2111, which is approximately 1.2 per cent.

(d) The proportion of HACCC funded agencies that submitted MDS data for 2004-05 differed across jurisdictions, and ranged from 65 per cent to 98 per cent. Consequently, actual service levels will be higher than those reported here.

(e) Meals (Centre) refers to people assisted.

na Not available. .. Not applicable. — Nil or rounded to zero.

(a) In May 2003 a new Minimum Data Set (MDSv2) was introduced for the Aged Care Assessment Program. With the exception of Queensland and about half the teams in NSW it has been adopted by states and territories. The data in this table has been selected to match MDSv1 and MDSv2 coding and to be comparable as closely as possible with previous reports containing MDSv1 data.

(b) Includes independent living in retirement villages, supported community accommodation and boarding houses.

(c) Includes hospital, other institutional care and other.

— Nil or rounded to zero.

Source: Lincoln Centre for Ageing and Community Care Research (unpublished).

3 years (includes 4 years)	%	93.9	93.1	86.0	93.4	93.3	94.6	95.7	93.3	92.3
Total	%	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0

(a) The number of services differs from that shown in other tables because the time period is different and in a number of cases the Aged Care Standards and Accreditation Agency (ACSAA) treated co-located services as a single entity.

(b) Note that 'accreditation period' shows the decision in effect at the 30 June 2005. The figures in this table will not necessarily agree with the accreditation decisions made in 2004-05, because those decisions may not yet have taken effect, or may have been superceded.

– Nil or rounded to zero.

(a) The 'Veterans approved for VHC Services' and the 'Average number of hours approved per year for non-transitional veterans' relates to services that were approved to occur in 2004-05.

(b) 'Veterans approved for VHC services' relates to all VHC clients who were approved to receive VHC services.

(c) Individual services may not add to the total because veterans can be approved for more than one service.

(d) Transitional veterans are those veterans who transferred to the VHC program from the Home and Community Care (HACC) Program, often with grandfathered service and/or fee levels and so may have been approved for higher hours of service than other VHC clients. Veterans who do not transfer from the HACC program are referred to as "non-transitionals".

(e) VHC expense figures are at 30 June 2005. Approval activity data is at 20 September 2005.

(a) The objective of Aged Care Assessment is to provide comprehensive multidisciplinary assessment of needs of frail older people, including delegated authority to approve people for Australian Government subsidised care through residential aged care, Community Aged Care Packages and flexible care. Funded through Australian Government grants to State and Territory Governments that operate 119 Aged Care Assessment Teams (ACATs) and Evaluation Units.

(b) The objective of Dementia Support for Assessment is to support ACATs in rural areas to assess the special needs of people with dementia. Funding through Australian Government grants to State and Territory Governments.

(c) The objective of Extended Aged Care at Home is to provide high level care at home as an alternative to high level residential care. Australian Government only funded.

(d) The objective of Community Aged Care Packages are to assist people with complex care needs who otherwise are eligible for low level residential care to remain in the community. Australian Government only funded.

Table 12A.46 Australian Government expenditure on Aged Community Care Programs, 2004-05 (\$ million)

	NSW	Vic	Qld	WA	SA	Tas	ACT	NT	Other	Aust
(e)	The objective of Community Care Grants is to provide one-off assistance in the form of a grant to help Care Package Providers establish the administrative infrastructure for package provision.									
(f)	The objective of Safe at Home is to evaluate the effectiveness of personal alert systems for frail older people living in the community. Currently a pilot program.									
(g)	The objective of Assistance with Care and Housing for the Aged is to assist financially disadvantaged older people who are renting or who are homeless to access both community care and accommodation. Formerly a pilot program.									
(h)	The objective of National Respite for Carers is to provide support for carers of the frail aged and people with disabilities, through the provision of information, advice, coordination and delivery of respite care services.									
(i)	The objective of Day Therapy Centres is to assist older people to maintain or recover functional independence, through the provision of therapy services to allow them to remain in the community or in low level residential care. Funding is Commonwealth only.									
(j)	The objective of Psycho-Geriatric Units is to raise the quality of care for residents with dementia and challenging behaviours, through expert assessment, diagnosis, advice and support services. Commonwealth grants to State/Territory Governments.									
(k)	The objective of Dementia Education and Support is to provide information and referral services for people with dementia and their carers. Includes a 24-hour National Dementia Hotline.									
(l)	The objective of Carers Information and Support is to provide information and support for carers of frail aged and people with a disability to assist them in their caring role. Note that the National Commonwealth Carer Resource Centre receives \$100 000, however it cannot be attributed to the States and Territories.									
(m)	The objective of Commonwealth Carelink Centres are to provide a single point of information about the range of community, aged and disability services. Includes 65 shopfronts and a national 1800 number.									
(n)	The objective of the National Continence Management Strategy is to prevent the development of continence problems through prevention and health promotion, to improve the treatment and management of incontinence in older people. Includes approximately 70 funded projects, including a National Continence Helpline.

Table 12A.50

Table 12A.50 Australian, State and Territory government expenditure on HACC services per HACC target population (nominal dollars) (a), (b)

	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT</i>	<i>NT</i>	<i>Aust</i>
<i>Dollars per HACC target population</i>									
2003-04	642	771	617	676	672	625	640	659	672
2004-05	690	794	644	704	713	671	670	716	707

(a) The HACC target population is estimated by applying the proportion of people in households with a moderate, severe, or profound disability as reported in the ABS 2003 Survey of Disability, Ageing and Carers to the ABS Population Projections by SLA 2002–2022. It involves estimation based on survey results against particular age cohorts.

(b) This table only represents expenditure under HACC Amending Agreements.

Unit cost (c)										
Cost per assessment (all people)	\$/assessment	238	223	261	256	300	272	217	1 064	248

(a) Aged care assessment expenditure is Australian Government spending only.

(b) The high cost for each assessment in the NT may be influenced by the remoteness of people requiring assessments, clients having English as a second or third language and a lack of supporting health and community services infrastructure to assist with assessments.

(c) Cost per assessment will include clients aged less than 70 years.

- (a) The 2004 Australian Standard Geographical Classification (ASGC) population figures were derived at the AIHW from the 2003 ASGC population figures and the ABS estimated resident population figures for States and Territories at 30 June 2004. released in December 2004 .
- (b) These figures exclude places and packages funded by Multi-purpose services and those provided by flexible funding under the Aboriginal and Torres Strait Islander Aged Care Strategy.
- (c) Residents without a recorded RCS were omitted.
- (d) Data based on AIHW analysis of the DoHA Australian Community Care Management Information System (ACCMIS) database and ABS population data.

- (a) The Australian Standard Geographical Classification (ASGC) population figures for the Indigenous population at 30 June 2004 were derived at the AIHW from the 2001 Census ASGC data and the experimental estimates and projections of the Indigenous population which included age and sex breakdown by States and Territories.
- (b) Residents without a recorded RCS were omitted.
- (c) Data based on AIHW analysis of the DoHA Australian Community Care Management Information System (ACCMIS) database and ABS population data.

- (a) Not all HACC agencies were required to undergo external assessment, and some are exempt, so the number of HACC agencies may be higher than those listed.
- (b) The results of the appraisals will, in addition, reflect different methodologies applied across each State and Territory.
- (c) The average score for 2001-02 to 2003-04 is obtained by using a weighted average of the number of assessments in a year multiplied by the average score for that year. These multiplied scores are then added together for all three years and divided the total number of assessments over three years to obtain the average score.

na Not available .. Not applicable – Nil or rounded to zero.
