

## 12A Aged care services — attachment

Definitions for the indicators and descriptors in this attachment are in section 12.7 of the chapter. Data in this Report are examined by the Aged Care Services Working Group, but have not been formally audited by the Secretariat. Unsourced information was obtained from the Australian, State and Territory governments.

This file is available in Adobe PDF format on the Review web page ([www.pc.gov.au/gsp](http://www.pc.gov.au/gsp)). Users without Internet access can contact the Secretariat to obtain these tables (see details on the inside front cover of the Report).

(a) Geographical data are based on the ABS Australian Standard Geographic Classification of Remoteness Areas 2001. Data are classified according to an index of remoteness which rates each ABS Census District based on the number and size of towns, the distance to major towns and urban centres. For more information refer to the Australian Standard Geographic Classification (ABS Publication 1216.0).

(b) ABS Population Projections by SLA 2002–2022 (unpublished).

(c) Non-English speaking country estimates based on ratios from ABS, CDATEA 2001 Release 2 applied to ABS Population Projections by SLA 2002–2022 (unpublished).

(d) Indigenous estimates based on ratios from unpublished ABS data from the 2001 Census applied to ABS Population Projections by SLA 2002–2022 (unpublished).

RCS = Resident Classification Scale.

- (a) Includes only subsidies based on the RCS; the pensioner supplement and other supplements will add around \$3000 a year for residents.
- (b) Differences in average annual subsidies reflect differences in the dependency of residents.
- (c) Subsidy rates from 1 July 2005 to 30 June 2006.
- na Not available. – Nil or rounded to zero.

2006	103.8	106.2	104.7	104.7	112.3	108.5	95.9	238.9	105.8

(a) Places do not include those that have been approved but are not yet operational.

(b) This table differs from table 12A.12, which refers to residents.

**Table 12A.10 Operational number of aged care places per 1000 people aged 70 years or over, 30 June 2006 (a), (b), (c), (d), (e), (f)**

	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT</i>	<i>NT</i>	<i>Aust</i>
--	------------	------------	------------	-----------	-----------	------------	------------	-----------	-------------

(c) Includes multipurpose and flexible services.

(d) Government planning targets are based on providing 108 places per 1000 people aged 70 years and over. However, in recognition of poorer health among Indigenous communities, planning in some cases also takes account of the Indigenous population aged 50–69 years. This means that the provision ratio based on the population aged 70 years and over will appear high in areas with a high Indigenous population (such as the NT).

(e) For 2003 and earlier years, EACH packages were included in the figures for residential high care. From 2004 they are reported separately.

(f) Transition care is a new program and is being implemented at different rates across Australia. The NT is expected to provide transition care in 2006-07.

– Nil or rounded to zero.

(a) Data include high care residential, low care residential, EACH packages and CACPs.

(b) Reports only people who are recorded as Indigenous.

(c) Includes flexibly funded Aboriginal and Torres Strait Islander places funded under the Aged Care Act 1997 (744 places at 30 June 2006) and places provided under the National Aboriginal and Torres Strait Islander Aged Care Strategy, outside the Aged Care Act 1997 (580 places at 30 June 2006). Excludes Multi-purpose Services).

(d) Indigenous population estimates based on ratios from unpublished ABS data from the 2001 Census applied to ABS Population Projections by SLA 2002–2022 (unpublished). Excludes Multipurpose Services. Includes National Indigenous Aged Care Strategy places attributed as residents.

(e) For 2003 and earlier years, EACH packages were included in the figures for residential high care. From 2004 they are reported separately.

(f) The ACT has a very small Indigenous population aged over 50 years and a small number of CACP packages will result in a very high provision ratio.

– Nil or rounded to zero.

Source: DoHA (unpublished).

(a) Data include high care residential, low care residential, EACH packages and CACPs.

(b) Reports only people who are recorded as Indigenous.

(c) Includes flexibly funded Aboriginal and Torres Strait Islander places funded under the Aged Care Act 1997 (744 places at 30 June 2006) and places provided under the National Aboriginal and Torres Strait Islander Aged Care Strategy, outside the Aged Care Act 1997 (580 places at 30 June 2006). Excludes Multi-purpose Services.

(d) Indigenous estimates based on ratios from unpublished ABS data from the 2001 Census applied to ABS Population Projections by SLA 2002–2022 (unpublished).

(e) Geographical data are based on ratios from unpublished ABS Standard Geographic Classification Remoteness areas (see table 12A.2 note (a)).

(f) For 2003 and earlier years, EACH packages were included in the figures for residential high care. From 2004 they are reported separately.

**Table 12A.17 Indigenous aged care recipients per 1000 Indigenous people aged 50 years or over by locality, 30 June 2006 (a), (b), (c), (d), (e), (f)**

	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT (g)</i>	<i>NT</i>	<i>Aust</i>
--	------------	------------	------------	-----------	-----------	------------	----------------	-----------	-------------

(g) The ACT has a very small Indigenous population aged over 50 years and a small number of CACP packages will result in a very high provision ratio in 2002, 2003 and 2004.

.. Not applicable. – Nil or rounded to zero.

Table 12A.18

Table 12A.18 **Aged care recipients from special needs groups, June 2006 (per cent) (a), (b), (c), (d)**

	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT</i>	<i>NT</i>	<i>Aust</i>
Proportion of Indigenous people aged 50 years or over									
Benchmark (proportion of target population) (e)	2.4	0.7	4.0	4.6	1.6	4.0	1.6	60.7	2.7
Indigenous aged care residents (f), (g)	0.3	0.2	1.2	1.9	0.9	0.5	0.1	59.0	0.8
Indigenous CACP recipients (h),(g)	3.0	2.0	3.8	6.1	3.8	7.2	4.1	73.3	4.5
Indigenous HACC clients (i), (g)	1.8	0.7	1.5	2.5	1.0	1.2	0.7	27.8	1.5
Proportion of Residents born in a mainly non-English speaking country aged 70 years or over									
Benchmark (proportion of target population) (j)	23.6	29.3	16.7	24.4	22.4	14.4	26.9	13.7	23.5
Residents from a non-English speaking country (k)	14.4	18.6	8.0	16.1	13.9	5.9	19.2	15.3	14.3
CACP recipients from a non-English speaking country (l)	20.6	25.1	13.4	22.4	18.4	14.7	19.5	6.2	20.2
HACC recipients from a non-English speaking country (m)	11.3	14.5	6.0	13.0	12.5	6.0	15.6	7.2	11.3

(a) See table 12A.2 for notes and sources of population data.

(b) Reports provisional HACC data that has not been validated and may be subject to revision.

(c) The proportion of a HACC agencies that submitted data for the year varied between jurisdictions and actual service levels will be higher than stated.

(d) 'Nil' and 'Not Stated' responses from the HACC Minimum Data Set Collection are not included in calculations.

(e) Indigenous people aged 50 and over as a percentage of the total population aged 70 and over plus the number of Indigenous people aged 50 to 69 years old.

(f) Indigenous aged care residents as a percentage of all aged care residents.

(g) Includes only people who self identify as Indigenous. Unknown responses have been distributed *pro rata*.

(h) Indigenous CACP recipients as a percentage of CACP residents.

(i) Indigenous clients as a percentage of all HACC clients.

(j) People from non-English speaking country as a percentage of the total population aged 70 or over.

(k) Aged care residents from a non-English speaking country as a percentage of all aged care residents.

(l) CACP recipients from a non-English speaking country as a percentage of all CACP residents.

(m) HACC clients from a non-English speaking country as a percentage of all HACC clients.

**Table 12A.19 Proportion of new residents classified as concessional or assisted residents, 2005-06 (per cent) (a)**

	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT</i>	<i>NT</i>	<i>Aust</i>
High care residents	28.4	29.7	33.8	41.1	33.3	32.5	31.3	50.0	31.3
Low care residents	24.9	24.9	30.1	34.7	32.6	28.4	21.3	60.4	27.6
All residents	26.9	27.1	32.0	37.5	33.0	30.8	26.2	54.1	29.5

(a) Concessional residents are those who receive an income support payment and have not owned a home for the last two or more years (or whose home is occupied by a 'protected' person, for example, the care recipient's spouse or long-term carer), and have assets of less than 2.5 times the annual single basic age pension. Assisted residents are those meeting the above criteria, but with assets between 2.5 and 4.0 times the annual single basic age pension.

(a) See table 12A.47 for information regarding the Community Care Programs above.

(b) 2004-05 data (latest available). Includes all completed and not completed assessments for all age groups. (Some assessments are not completed because, for example, the client's circumstances may change or the client may withdraw mid-way through the assessment process).

(c) May include re-assessments. The removal of the requirement for low to high assessments has resulted in a drop in assessment activity in residential care of 5657 assessments. Therefore the total number of other assessments has increased by 2111, which is approximately 1.2 per cent.

(d) Includes flexible places for Multi-purpose Services and services under the Aboriginal and Torres Strait Islander Aged Care Strategy.

**na** Not available. – Nil or rounded to zero.

(a) In May 2003 a new Minimum Data Set (MDSv2) was introduced for the Aged Care Assessment Program. With the exception of Queensland and about half of NSW, it had been adopted by states and territories when data shown in this table was collected. The data in this table has been selected to match MDSv1 and MDSv2 coding and to be comparable as closely as possible with previous reports containing MDSv1 data. This data refers to ACAT recommendations of longer term care arrangements, not approvals for admission to an Australian Government-funded aged care place. More than one recommendation is possible for each completed assessment.

(b) Includes independent living in retirement villages, supported community accommodation and boarding houses.

(c) Includes hospital, other institutional care and other.

**na** Not available. – Nil or rounded to zero.

- (a) 70+ population estimates from ABS Estimated Resident Population June 2003 provided to the Lincoln Centre for Ageing and Community Care Research. ABS data used with permission from the Australian Bureau of Statistics.
- (b) Indigenous population data from Australian Bureau of Statistics 2001 census of population and housing (Australian Bureau of Statistics, 2002).
- (c) In May 2003 a new Minimum Data Set (MDSv2) was introduced for the Aged Care Assessment Program. With the exception of Queensland and about half of NSW, it had been adopted by states and territories when data shown in this table was collected. The data in this table has been selected to match MDSv1 and MDSv2 coding and to be comparable as closely as possible with previous reports containing MDSv1 data. Includes only assessments (completed and not completed) for the stated client group (Some assessments are not completed because, for example, the client's circumstances may change or the client may withdraw mid-way through the assessment process. Separate counting of completed and not completed assessments has been introduced over time with the adoption of the MDSv2).
- (d) The number of Indigenous assessments is based on self-identification of Indigenous status.

(a) Veterans approved for VHC Services" and the "Average number of hours approved per year for non-transitional veterans" relates to services that were approved to occur in 2005-2006.

(b) The actual number of recipients and average hours provided will be lower than those approved.

(c) Individual service totals may not add to the 'all services' total because veterans can be approved for more than one service.

(d) Transitional veterans are those veterans who transferred to the VHC program from the Home and Community Care (HACC) Program, often with grandfathered service and/or fee levels and so may have been approved for higher hours of service than other VHC clients. Veterans who do not transfer from the HACC program are referred to as "non-transitionals".

(e) VHC Expense figures are as at 30 June 2006. Approval activity data is at 14 September 2006.

(a) The objective of Aged Care Assessment is to provide comprehensive multidisciplinary assessment of needs of frail older people, including delegated authority to approve people for Australian Government subsidised care through residential aged care, Community Aged Care Packages and flexible care. Funded through Australian Government grants to State and Territory Governments that operate 119 Aged Care Assessment Teams (ACATs) and Evaluation Units.

(b) The objective of Extended Aged Care at Home is to provide high level care at home as an alternative to high level residential care. Australian Government only funded.

(c) The objective of Community Aged Care Packages are to assist people with complex care needs who otherwise are eligible for low level residential care to remain in the community. Australian Government only funded.

(d) The objective of Community Care Grants is to provide one-off assistance in the form of a grant to help Care Package Providers establish the administrative infrastructure for package provision.

(e) The objective of Safe at Home is to evaluate the effectiveness of personal alert systems for frail older people living in the community. Currently a pilot program.

Table 12A.46

Table 12A.46 Australian Government expenditure on Aged Community Care Programs, 2005-06 (\$ million)

	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT</i>	<i>NT</i>	<i>Other</i>	<i>Aust</i>
(f) The objective of Assistance with Care and Housing for the Aged is to assist financially disadvantaged older people who are renting or who are homeless to access both community care and accommodation. Formerly a pilot program.										
(g) The objective of National Respite for Carers is to provide support for carers of the frail aged and people with disabilities, through the provision of information, advice, coordination and delivery of respite care services.										
(h) The objective of Day Therapy Centres is to assist older people to maintain or recover functional independence, through the provision of therapy services to allow them to remain in the community or in low level residential care. Funding is Commonwealth only.										
(i) The objective of Carers Information and Support is to provide information and support for carers of frail aged and people with a disability to assist them in their caring role.										
(l) The objective of Commonwealth Carelink Centres are to provide a single point of information about the range of community, aged and disability services. Includes 65 shopfronts and a national 1800 number.										
(k) The objective of the National Continence Management Strategy is to prevent the development of continence problems through prevention and health promotion, to improve the treatment and management of incontinence in older people. Includes approximately 70 funded projects, including a National Continence Helpline.										
(l) Reports provisional data that has not been validated and may be subject to revision.

Table 12A.50

Table 12A.50 **Australian, State and Territory government expenditure on HACC services per HACC target population (nominal dollars) (a), (b), (c)**

	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT</i>	<i>NT</i>	<i>Aust</i>
<i>Dollars per HACC target population</i>									
2004-05	690	794	644	704	713	671	670	716	707
2005-06	809	820	697	779	758	727	776	787	777

(a) The HACC target population is estimated by applying the proportion of people in households with a moderate, severe, or profound disability as reported in the ABS 2003 Survey of Disability, Ageing and Carers to the ABS Population Projections by SLA 2002–2022. It involves estimation based on survey results against particular age cohorts.

(b) This table only represents expenditure under HACC Amending Agreements.

(c) Reports provisional data that has not been validated and may be subject to revision.

	<i>Unit</i>	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT</i>	<i>NT (b)</i>	<i>Aust</i>
Aged care assessment expenditure	\$m	18.0	12.2	8.8	5.1	5.0	1.3	0.5	0.8	51.7
Aged care assessments										
All people	no.	67 977	51 342	28 597	17 002	14 403	4 633	2 927	842	187 723
Aged care assessment teams	no.	48	18	15	16	15	3	1	3	119
Unit cost (c)										
Cost per assessment (all people )	\$/assessment	265	238	306	299	345	291	165	958	275

(a) Aged care assessment expenditure is Australian Government spending only.

(b) The high cost for each assessment in the NT may be influenced by the remoteness of people requiring assessments, clients having English as a second or third language and a lack of supporting health and community services infrastructure to assist with assessments.

(c) Cost per assessment will include clients aged less than 70 years.

(a) Not all HACC agencies were required to undergo external assessment, and some are exempt, so the number of HACC agencies may be higher than those listed.

(b) The results of the appraisals will, in addition, reflect different methodologies applied across each State and Territory.

(c) The average score for 2001-02 to 2003-04 is obtained by using a weighted average of the number of assessments in a year multiplied by the average score for that year. These multiplied scores are then added together for all three years and divided the total number of assessments over three years to obtain the average score.

**na** Not available .. Not applicable – Nil or rounded to zero.
