
Errata – Report on Government Services 2007

The following amendment was made to the 2007 Report since it was released in January 2007.

Attachment 14 — Children’s services

Data relating to the real average fees paid for child care services in 2004 for all jurisdictions have been corrected. The deflator calculation had been incorrectly applied to the data. The revisions affected the following attachment table:

- Table 14A.26 – The 2004 data relating to the real average fees charged by Australian Government funded long day care and family day care services.

The revised table is reproduced below.
