Table 15A.1 State and Territory Government real recurrent expenditure on child protection and out-of-home care services (2005-06 dollars) (a), (b)

<i>Unit</i>	<i>2001-02</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>	<i>2005-06</i>
(a)	Refer to table 15A.4 for information on the comparability of expenditure data.				
(b)	Numbers may not calculate exactly due to rounding errors.				
(c)	Increased expenditure between 2002-03 and 2003-04 relates to: a redirection of caseworker time away from general family support services towards child protection (\$2.6 million), as demonstrated by the recent staff Labour Time Allocation Survey; new funding for services (\$3 million) mainly as a result of the Gordon Inquiry; first time inclusion of Non-Government funded child protection services (\$2.2 million) in non-salary expenditure.				
(d)	Increased expenditure from 2003-04 to 2004-05 relates to a shift in the latest time allocation survey to child protection from out-of-home care and additional funding for 50 new case workers received in 2004-05, and an increase in non-salary costs due to revised allocation percentages.				
(e)	An increase in salary expenses in 2005-06 is due to the latest time allocation survey, which showed staff are spending more time on this area in lieu of out-of-scope services.				
(f)	Increased expenditure between 2002-03 and 2003-04 relates to the commencement of a Centralised Child Protection Advice and Referral Service and an increase in demand.				
(g)	For 2005-06, award salary rates increased significantly and additional workers were employed.				
(h)	The decrease in expenditure on Child protection costs in 2005-06 can be attributed to the refinement of the methodology used to determine the costs to be included in this category.				
(i)	A simplified method of calculating salary expenses and umbrella and other department expenditure has been introduced which may account for variation in expenditure from 2004-05 to 2005-06.				
(j)	The change in split of cases between OoHC and CP from 2004-05 to 2005-06 may be attributed to cases previously being counted as OoHC even if CP activity is still occurring, growth in OoHC cases and expansion of care options for more difficult/complex children where costs are higher.				
(k)	The Australia figure for total real expenditure represents the sum of figures for those jurisdictions able to provide data. The Australia figure for real expenditure per child represents the sum of expenditure for those jurisdictions able to provide data divided by the sum of the residential population for the target groups (0–16 or 0–17 years) for those jurisdictions able to provide expenditure data.				
(l)	Victorian expenditure for 2004-05 includes additional funding for Aboriginal Family Decision Making, Adolescent Mediation and Diversion and Foster Care Initiatives and data revisions.				
(m)	In 2005-06, a reduction of \$0.8m due to services redevelopment.				
(n)	Increased expenditure between 2002-03 and 2003-04 relates to new funding for; carer subsidies (\$1.3 million), the costs of looking after children in care (\$6 million), homelessness taskforce - non-government leaving care services (\$1.3 million) and new staff as a result of the Gordon Inquiry (\$2 million).				
(o)	The latest time allocation survey for 2004-05 showed a shift away from out-of-home care services to child protection.				
(p)	A higher level of expenditure in 2005-06 has resulted from an increase in carer's subsidies and increased spending on client costs.				
(q)	Increased expenditure between 2002-03 and 2003-04 relates to increase in demand.				
(r)	In 2005-06, there was an increase in operational employee costs due to a large increase in staff numbers and an increase in the number of out-of-home care placements during the year.				
(s)	The decreased expenditure on out-of-home care costs compared to 2004-05 relates mostly to the exclusion of certain services costs not associated with the provision of out-of-home care. These costs have been included in previous years. The decrease can also be attributed to the efficiencies gained from new residential services contracts recently introduced.				

Table 15A.1

**State and Territory Government real recurrent expenditure
on child protection and out-of-home care services (2005-
06 dollars) (a), (b)**

	<i>Unit</i>	<i>2001-02</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>	<i>2005-06</i>
(t)	Increased expenditure from 2003-04 to 2004-05 predominately relates to additional funding received for 50 new case workers and carers' subsidies.					
(u)	Increases in expenditure from 2003-04 to 2004-05 are due to initiatives within the Caring for Our Children Reform Agenda, the Volatile Substance Abuse Legislation and associated programs, and increasing substitute care costs as a result of increasing numbers of children in care and costs of caring for children with high needs. Budget formula changes have led to decreased Departmental overhead costs.					
(v)	Queensland expenditure data have been revised for 2000-01 to 2002-03. The revised figures include resources identified by the creation of the Department of Child Safety in Queensland that were previously not classified as intensive family support services.					
(w)	2003-04 was the first year that overhead salary costs have been applied to family preservation services.					
(x)	Increased expenditure from 2003-04 to 2004-05 relates mainly to a new family preservation service beginning in 2004-05.					
(y)	Increase from 2003-04 to 2004-05 represents current cost of service provided by an NGO.					
(z)	For child protection services, expenditure per child relates to children aged 16 years and under in the residential population. For out-of-home care and total child protection and out-of-home care services, expenditure per child relates to children aged 17 years and under in the residential population.

NT	na	20 065	13 636	19 829	17 348

- (a) These data need to be interpreted with care. These data are based on total expenditure on child protection activities, they do not represent and cannot be interpreted as unit costs for notifications, investigations or substantiations. These data cannot be added together to determine overall cost of child protection services.
- (b) Refer to the notes to table 15A.1 and to table 15A.4 for information on the comparability of expenditure data.
- (c) NSW data from 2002-03 onwards are not comparable with data for previous years. NSW was able to provide limited data for 2003-04 due to the introduction of a new client information system.
- (d) Data on notifications, investigations and substantiations for 2003-04 should not be compared to previous years. This is because of a change in recording practices due to the centralisation of the intake service, known as the Child Protection Advice and Referral Service. Now every call about a child is recorded as a notification, whereas previously, workers made the decision locally about whether the call was in fact a notification based on the risk to the child.

(a) Refer to the notes to table 15A.1 and to table 15A.4 for information on the comparability of expenditure data.

(b) Numbers may not calculate exactly due to rounding errors.

(c) Expenditure per child age 17 years and under in the residential population.

(d) These data need to be interpreted with care because they do not represent and cannot be interpreted as unit cost measures. Expenditure per child in care at 30 June overstates the cost per child because significantly more children are in care during a year than at a point in time. In addition, these data do not reflect the length of time that a child spends in care.

na Not available.

Table 15A.8 Children in notifications, investigations and substantiations and children on care and protection orders: number and rate per 1000 children in the target populations by Indigenous status, 2005-06 (a)

	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT</i>	<i>NT</i>	<i>Aust</i>
--	------------	------------	------------	-----------	-----------	------------	------------	-----------	-------------

(b) Data on the number of notifications by Indigenous status should be interpreted with care. These data are collected very early in the child protection process and often before the agency has full knowledge of the child's family circumstances. As a result of this lack of full knowledge and the other inherent difficulties in identifying Indigenous status, these data are not considered to have a high level of reliability.

(a) In 2001-02, for a service to fit the scope of this collection, it had to provide at least 8-10 hours of service provision per week. In subsequent years, the service must average at least 4 hours of service provision per week for a specified short-term period (usually less than six months).

(b) The Australia figure for total real expenditure represents the sum of figures for those jurisdictions able to provide data. The Australia figure for real expenditure per child represents the sum of expenditure for those jurisdictions able to provide data divided by the sum of the residential population for the target group for those jurisdictions able to provide expenditure data.

Table 15A.27 Child protection notifications, investigations and substantiations by Indigenous status, New South Wales (a), (b), (c), (d), (e), (f), (g)

	<i>Unit</i>	<i>2001-02</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>	<i>2005-06</i>
(a)	If a child was the subject of more than one notification, investigation or substantiations, then each one of these was counted. The definition of an investigation includes interviewing or sighting of the child where practicable.					
(b)	Investigations relate to notifications received during the financial year. If the investigation was completed by 31 August it is classified as finalised. If the investigation was not completed by 31 August it is classified as not finalised.					
(c)	Notifications 'dealt with by other means' includes the provision of advice, referral to support services or referral to the police.					
(d)	Carer/family issues' includes children where no actual harm is determined but carer/family issues were involved.					
(e)	Data from 2002-03 should not be compared previous years. NSW implemented a modification to the data system to support legislation and associated practice changes during 2002-03 which would make any comparison inaccurate.					
(f)	NSW was able to provide limited data for 2003-04 due to the introduction of a new client information system.					
(g)	'No investigation possible/no action' includes notifications where there were no grounds for an investigation or insufficient information was available to undertake an investigation. It also includes those cases that could not be undertaken, such as the family has relocated. It may also include some cases that were referred on or where advice was given which could not be disaggregated from cases with insufficient reason to investigate.					
	na Not available. .. Not applicable. – Nil or rounded to zero.

Table 15A.30 Children in notifications, investigations and substantiations and children on care and protection orders: Number and rate per 1000 children in the target populations by Indigenous status, New South Wales (a), (b), (c), (d)

	2001-02	2002-03	2003-04	2004-05	2005-06
(a) Rates of children in notifications, investigations and substantiations were calculated as the number of children aged 0–16 years in each category (including those whose age was not stated) divided by the estimated population of children aged 0–16 years at 31 December, multiplied by 1000. For Indigenous children, the June projections for two years were averaged to obtain a population figure for December of the relevant year.					
(b) Rates of children on care and protection orders were calculated as the number of children aged 0–17 years (including those whose age was not stated) who were on a care and protection order at 30 June, divided by the estimated population aged 0–17 at 31 March, multiplied by 1000.					
(c) Data from 2002-03 should not be compared previous years. NSW implemented a modification to the data system to support legislation and associated practice changes during 2002-03 which would make any comparison inaccurate.					
(d) NSW was able to provide limited data for 2003-04 due to the introduction of a new client information system.					
na Not available.					

Source: AIHW *Child Protection Notifications, Investigations and Substantiations Australia* data collection (unpublished); AIHW *Children on Care and Protection Orders, Australia* data collection (unpublished).

Table 15A.31 Children who were the subject of a decision not to substantiate during the year and who were also the subject of a subsequent substantiation within 3 and/or 12 months, New South Wales (a), (b)

	<i>Unit</i>	<i>2000-01</i>	<i>2001-02</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>

Independent living/unknown	no.	15	17	na	9	8
Total Indigenous children in care	no.	2 098	2 375	2 459	2 543	2 897
As a proportion of all Indigenous children in out-of-home care at 30 June						
Placed with Indigenous relative/kin or other Indigenous carer or Indigenous residential care						
Indigenous relative/kin	%	58.2	56.8	na	58.6	57.8
Non-Indigenous relative/kin	%	13.4	13.7	na	10.5	9.8
Total placed with relative/kin	%	71.6	70.5	na	69.1	67.5
Other Indigenous carer	%	16.3	15.7	na	17.5	17.7
Indigenous residential care	%	0.4	0.5	na	0.3	0.3
Total placed with other Indigenous carer or Indigenous residential care	%	16.7	16.2	na	17.8	18.0
Total children	%	88.3	86.7	na	86.9	85.6
Not placed with Indigenous relative/kin or other Indigenous carer or Indigenous residential care						
Other non-Indigenous carer	%	10.3	11.9	na	11.5	12.9
In non-Indigenous residential care	%	1.4	1.4	na	1.7	1.5
Total children	%	11.7	13.3	na	13.1	14.4
Total Indigenous children in care	%	100.0	100.0	na	100.0	100.0

(a) Prior to 2002 the percentage of Indigenous children placed with Indigenous relative/kin or other Indigenous carer or Indigenous residential care was calculated using the total number of Indigenous children in out of home care as the denominator. From 2002 the denominator excluded Indigenous children living independently and those whose living arrangements were unknown.

(b) NSW was able to provide limited data for 2003-04 due to the introduction of a new client information system.

Table 15A.44 Child protection notifications, investigations and substantiations by Indigenous status, Victoria (a), (b), (c), (d)

	<i>Unit</i>	<i>2001-02</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>	<i>2005-06</i>
(a)	If a child was the subject of more than one notification, investigation or substantiations, then each one of these were counted. The definition of an investigation includes interviewing or sighting of the child where practicable.					
(b)	Investigations relate to notifications received during the financial year. If the investigation was completed by 31 August it is classified as finalised. If the investigation was not completed by 31 August it is classified as not finalised. Notifications 'dealt with by other means' includes the provision of advice, referral to support services or referral to the police.					
(c)	In Victoria if a case is open following the first notification, no further notifications concerning the child are counted.					
(d)	'No investigation possible/no action' includes notifications where there were no grounds for an investigation or insufficient information was available to undertake an investigation. It also includes those cases that could not be undertaken, such as the family has relocated. It may also include some cases that were referred on or where advice was given which could not be disaggregated from cases with insufficient reason to investigate.					
	.. Not applicable. – Nil or rounded to zero.

Indigenous	40.5	42.0	44.7	52.8	56.4
Non-Indigenous	3.9	3.9	4.1	4.3	4.6
All children	4.3	4.3	4.5	4.9	5.1

Table 15A.47 Children in notifications, investigations and substantiations and children on care and protection orders: Number and rate per 1000 children in the target populations by Indigenous status, Victoria (a), (b)

	2001-02	2002-03	2003-04	2004-05	2005-06
--	---------	---------	---------	---------	---------

(a) Rates of children in notifications, investigations and substantiations were calculated as the number of children aged 0–16 years in each category (including those whose age was not stated) divided by the estimated population of children aged 0–16 years at 31 December, multiplied by 1000. For Indigenous children, the June projections for two years were averaged to obtain a population figure for December of the relevant year.

(b) Rates of children on care and protection orders were calculated as the number of children aged 0–17 years (including those whose age was not stated) who were on a care and protection order at 30 June, divided by the estimated population aged 0–17 at 31 March, multiplied by 1000.

Source: AIHW *Child Protection Notifications, Investigations and Substantiations Australia* data collection (unpublished); AIHW *Children on Care and Protection Orders, Australia* data collection (unpublished).

Table 15A.48 Children who were the subject of a decision not to substantiate during the year and who were also the subject of a subsequent substantiation within 3 and/or 12 months, Victoria (a)

	<i>Unit</i>	<i>2000-01</i>	<i>2001-02</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>
Subject of a substantiation within three months						
Number of children	no.	189	224	225	157	102
Proportion of children (b)	%	4.2	5.2	5.3	4.2	2.9
Subject of a substantiation within 12 months						
Number of children	no.	730	850	795	685	602
Proportion of children (b)	%	16.3	19.9	18.8	18.3	17.0

(a) The counting rule for this indicator has been changed for 2003-04 onwards, which may have resulted in a lowering of the rate for some jurisdictions in 2003-04 and 2004-05. Therefore care should be taken when comparing 2003-04 and 2004-05 with other years.

(b) As a proportion of all children who were the subject of a substantiation.

Table 15A.61 Child protection notifications, investigations and substantiations by Indigenous status, Queensland (a), (b), (c)

	<i>Unit</i>	<i>2001-02</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>	<i>2005-06</i>
(a)	If a child was the subject of more than one notification, investigation or substantiation, then each one of these were counted. The definition of an investigation includes interviewing or sighting of the child where practicable.					
(b)	Investigations relate to notifications received during the financial year. If the investigation was completed by 31 August it is classified as finalised. If the investigation was not completed by 31 August it is classified as not finalised. Notifications 'dealt with by other means' includes the provision of advice, referral to support services or referral to the police.					
(c)	'No investigation possible/no action' includes notifications where there were no grounds for an investigation or insufficient information was available to undertake an investigation. It also includes those cases that could not be undertaken, such as the family has relocated. It may also include some cases that were referred on or where advice was given which could not be disaggregated from cases with insufficient reason to investigate.					
(d)	This figure excludes those finalised investigations with an assessment outcome of 'No investigation and Assessment Outcome'. In these cases there was insufficient information to enable an assessment outcome of substantiated or not substantiated to be determined. This may occur in circumstances where a family was unable to be identified, located or has moved interstate and the investigation is therefore finalised and closed. For this Report, these finalised investigations have been included in the category 'No investigation possible/ no action'.					
	.. Not applicable. – Nil or rounded to zero.

Table 15A.62

Table 15A.62 **Children admitted to and discharged from care and protection orders by Indigenous status, Queensland (number) (a), (b)**

	2001-02	2002-03	2003-04	2004-05	2005-06
Indigenous					
Children admitted to orders					
Admitted for the first time	187	231	307	431	474
Had prior admissions to orders	237	161	271	331	615
Total children admitted	424	392	578	762	1 089
Children discharged from orders	266	290	324	454	640
Non-Indigenous					
Children admitted to orders					
Admitted for the first time	806	1 056	1443	1 851	1 651
Had prior admissions to orders	872	633	917	1 092	1 332
Total children admitted	1 678	1 689	2 360	2 943	2 983
Children discharged from orders	964	1 085	1 288	1 664	1 863
All children					
Children admitted to orders					
Admitted for the first time	993	1 287	1 750	2 282	2 125
Had prior admissions to orders	1 109	794	1 188	1 423	1 947
Total children admitted	2 102	2 081	2 938	3 705	4 072
Children discharged from orders	1 230	1 375	1 612	2 118	2 503

(a) Previous admissions to care and protection orders in other jurisdictions could not be counted.

(b) The significant increase in the number of children who had prior admissions orders in 2001-02 is due to the use of short term (less than two years duration) orders. This practice resulted from the much wider range of orders and conditions made available in the *Child Protection Act 1999*.

Table 15A.64 Children in notifications, investigations and substantiations and children on care and protection orders: Number and rate per 1000 children in the target populations by Indigenous status, Queensland (a), (b)

	2001-02	2002-03	2003-04	2004-05	2005-06
--	---------	---------	---------	---------	---------

- (a) Rates of children in notifications, investigations and substantiations were calculated as the number of children aged 0–16 years in each category (including those whose age was not stated) divided by the estimated population of children aged 0–16 years at 31 December, multiplied by 1000. For Indigenous children, the June projections for two years were averaged to obtain a population figure for December of the relevant year.
- (b) Rates of children on care and protection orders were calculated as the number of children aged 0–17 years (including those whose age was not stated) who were on a care and protection order at 30 June, divided by the estimated population aged 0–17 at 31 March, multiplied by 1000.
- (c) This figure excludes those children with a finalised investigation with an assessment outcome of 'No Investigation and Assessment Outcome'. In these cases there was insufficient information to enable an assessment outcome of substantiated or not substantiated to be determined. This may occur in circumstances where a family was unable to be identified, located or has moved interstate and the investigation is therefore finalised and closed. For this Report, these finalised investigations have been included in the category 'No investigation possible/ no action' at table 15A.61.

Source: AIHW *Child Protection Notifications, Investigations and Substantiations Australia* data collection (unpublished); AIHW *Children on Care and Protection Orders, Australia* data collection (unpublished).

Table 15A.65 Children who were the subject of a decision not to substantiate during the year and who were also the subject of a subsequent substantiation within 3 and/or 12 months, Queensland (a), (b)

	<i>Unit</i>	<i>2000-01</i>	<i>2001-02</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>
Subject of a substantiation within three months						
Number of children	no.	167	186	182	263	233
Proportion of children (c)	%	4.7	4.6	3.8	4.9	4.2
Subject of a substantiation within 12 months						
Number of children	no.	462	604	714	811	618
Proportion of children (c)	%	12.9	14.9	15.0	15.1	11.2

(a) Data published in earlier Reports for 1999-2000 to 2002-03 differ due to revised data.

(b) The counting rule for this indicator has been changed for 2003-04 onwards, which may have resulted in a lowering of the rate for some jurisdictions in 2003-04 and 2004-05. Therefore care should be taken when comparing 2003-04 and 2004-05 with other years.

(c) As a proportion of all children who were the subject of a substantiation.

Source: AIHW *Child Protection Notification, Investigations and Substantiations, Australia* data collection (unpublished).

Table 15A.66 Children who were the subject of a substantiation during the year and who were also the subject of a subsequent substantiation within 3 and/or 12 months, Queensland (a)

	<i>Unit</i>	<i>2000-01</i>	<i>2001-02</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>
Subject of a resubstantiation within three months						
Number of children	no.	664	806	811	1 450	1 181
Proportion of children (b)	%	10.4	10.2	9.0	11.9	9.2
Subject of a resubstantiation within 12 months						
Number of children	no.	1 587	2 033	2 496	3 235	2 656
Proportion of children (b)	%	24.8	25.6	27.6	26.5	20.6

(a) The counting rule for this indicator has been changed for 2003-04 onwards. Data for 2003-04 are based on a different counting rule to previous years and data for 2004-05 are based on a further change in the counting rule. Therefore care should be taken when comparing 2003-04 and 2004-05 with other years.

(b) As a proportion of all children who were the subject of a substantiation.

Source: AIHW *Child Protection Notification, Investigations and Substantiations, Australia* data collection (unpublished).

Rate per 1000 children aged 0–17 years in population (a)					
Indigenous	12.0	13.6	15.8	20.8	24.0
Non-Indigenous	2.9	3.4	3.9	4.8	4.7
All children	3.5	4.0	4.6	5.8	6.0
Children aged 0–17 years in at least one out-of-home care placement during the year					
Number of children in care					
Indigenous	934	1 081	1 217	1 484	1 790
Non-Indigenous	3 363	4 029	4 483	5 248	5 417
All children	4 297	5 110	5 700	6 732	7 207
Rate per 1000 children aged 0–17 years in population (b)					
Indigenous	16.0	18.3	20.2	24.4	29.2
Non-Indigenous	3.8	4.5	5.0	5.8	5.9
All children	4.6	5.4	6.0	7.0	7.4

(a) Rates were calculated as the number of children aged 0–17 years (including those whose age was not stated) in out of home care at 30 June, divided by the estimated population aged 0–17 at 31 March, multiplied by 1000.

(b) Rates were calculated as the number of children aged 0–17 years (including those whose age was not stated) in at least one out of home care placement during the year, divided by the estimated population aged 0–17 at 31 December, multiplied by 1000. For Indigenous children, the June projections for two years were averaged to obtain a population figure for December of the relevant year.

(a) If a child was the subject of more than one notification, investigation or substantiation, then each one of these was counted. The definition of an investigation includes interviewing or sighting of the child where practicable. For WA, however, investigations may include some situations where the child was not sighted.

Table 15A.78 Child protection notifications, investigations and substantiations by Indigenous status, Western Australia (a), (b), (c), (d)

	<i>Unit</i>	<i>2001-02</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>	<i>2005-06</i>
(b)	Investigations relate to notifications received during the financial year. If the investigation was completed by 31 August it is classified as finalised. If the investigation was not completed by 31 August it is classified as not finalised.					
(c)	Notifications 'dealt with by other means' includes the provision of advice, referral to support services or referral to the police.					
(d)	'No investigation possible/no action' includes notifications where there were no grounds for an investigation or insufficient information was available to undertake an investigation. It also includes those cases that could not be undertaken, such as the family has relocated. It may also include some cases that were referred on or where advice was given which could not be disaggregated from cases with insufficient reason to investigate.					
	.. Not applicable. – Nil or rounded to zero.

Table 15A.81 Children in notifications, investigations and substantiations and children on care and protection orders: Number and rate per 1000 children in the target populations by Indigenous status, Western Australia (a), (b)

	2001-02	2002-03	2003-04	2004-05	2005-06
(a) Rates of children in notifications, investigations and substantiations were calculated as the number of children aged 0–16 years in each category (including those whose age was not stated) divided by the estimated population of children aged 0–16 years at 31 December, multiplied by 1000. For Indigenous children, the June projections for two years were averaged to obtain a population figure for December of the relevant year.					
(b) Rates of children on care and protection orders were calculated as the number of children aged 0–17 years (including those whose age was not stated) who were on a care and protection order at 30 June, divided by the estimated population aged 0–17 at 31 March, multiplied by 1000.					
(c) Implementation of the Children and Community Services Act 2004 in March 2006 required the legal status of children in care to be reviewed and Protection Orders were sought for a number of children already in care but not under care and protection orders.

Independent living/unknown	no.	5	6	7	9	10
Total Indigenous children in care	no.	511	570	587	692	766
As a proportion of all Indigenous children in out-of-home care at 30 June						
Placed with Indigenous relative/kin or other Indigenous carer or Indigenous residential care						
Indigenous relative/kin	%	48.6	50.7	48.6	50.5	52.1
Non-Indigenous relative/kin	%	6.7	6.6	5.7	8.1	8.5
Total placed with relative/kin	%	55.3	57.3	54.3	58.6	60.6
Other Indigenous carer	%	17.2	20.2	21.9	20.9	18.9
Indigenous residential care	%	7.5	4.6	4.8	3.7	2.4
Total placed with other Indigenous carer or Indigenous residential care	%	24.7	24.8	26.7	24.6	21.3
Total children	%	80.0	82.1	81.0	83.2	81.9
Not placed with Indigenous relative/kin or other Indigenous carer or Indigenous residential care						
Other non-Indigenous carer	%	14.8	13.8	14.0	11.3	12.2
In non-Indigenous residential care	%	5.1	4.1	5.0	5.6	6.0
Total children	%	20.0	17.9	19.0	16.8	18.1
Total Indigenous children in care	%	100.0	100.0	100.0	100.0	100.0

(a) Prior to 2002 the percentage of Indigenous children placed with Indigenous relative/kin or other Indigenous carer or Indigenous residential care was calculated using the total number of Indigenous children in out of home care as the denominator. From 2002 the denominator excluded Indigenous children living independently and those whose living arrangements were unknown.

(b) Children in residential care with Indigenous caregivers were included in the category 'other Indigenous carer'.

(a)	If a child was the subject of more than one notification, investigation or substantiation, then each one of these were counted.					
(b)	Notifier concern reports' are excluded from the count of total notifications because concern reports are not reported.					
(c)	Notifications 'dealt with by other means' includes the provision of advice, referral to support services or referral to the police.					
(d)	'No investigation possible/no action' includes notifications where there were no grounds for an investigation or insufficient information was available to undertake an investigation. It also includes those cases that could not be undertaken, such as the family has relocated. It may also include some cases that were referred on or where advice was given which could not be disaggregated from cases with insufficient reason to investigate.					
(e)	Investigations relate to notifications received during the financial year. If the investigation was completed by 31 August it is classified as finalised. If the investigation was not completed by 31 August it is classified as not finalised. The definition of an investigation includes interviewing or sighting of the child where practicable.					

.. Not applicable. – Nil or rounded to zero.

Table 15A.98 Children in notifications, investigations and substantiations and children on care and protection orders: Number and rate per 1000 children in the target populations by Indigenous status, South Australia (a), (b), (c)

	2001-02	2002-03	2003-04	2004-05	2005-06
(a) Rates of children in notifications, investigations and substantiations were calculated as the number of children aged 0–16 years in each category (including those whose age was not stated) divided by the estimated population of children aged 0–16 years at 31 December, multiplied by 1000. For Indigenous children, the June projections for two years were averaged to obtain a population figure for December of the relevant year.					
(b) Rates of children on care and protection orders were calculated as the number of children aged 0–17 years (including those whose age was not stated) who were on a care and protection order at 30 June, divided by the estimated population aged 0–17 at 31 March, multiplied by 1000.					
(c) SA includes in 'notifications' only those reports which have met the criteria for a reasonable suspicion of child abuse or neglect.

Table 15A.112 Child protection notifications, investigations and substantiations by Indigenous status, Tasmania (a), (b), (c), (d), (e), (f)

<i>Unit</i>	<i>2001-02</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>	<i>2005-06</i>
(a)	Data on notifications for 2003-04 should not be compared to previous years. This is because of a change in recording practices due to the centralisation of the intake service, known as the Child Protection Advice and Referral Service. Now every call about a child is recorded as a notification, whereas previously, workers made the decision locally about whether the call was in fact a notification based on the risk to the child.				
(b)	If a child was the subject of more than one notification, investigation or substantiation, then each one of these were counted.				
(c)	Investigations relate to notifications received during the financial year. If the investigation was completed by 31 August it is classified as finalised. If the investigation was not completed by 31 August it is classified as not finalised. The definition of an investigation includes interviewing or sighting of the child where practicable.				
(d)	Notifications 'dealt with by other means' includes the provision of advice, referral to support services or referral to the police.				
(e)	The 'carer/family issues' category has not been used in Tasmania since 2001-02. Figures from 2002-03 to 2004-05 inclusive have been amended from previous Reports from 0 to '..'.				
(f)	'No investigation possible/no action' includes notifications where there were no grounds for an investigation or insufficient information was available to undertake an investigation. It also includes those cases that could not be undertaken, such as the family has relocated. It may also include some cases that were referred on or where advice was given which could not be disaggregated from cases with insufficient reason to investigate.				
(g)	Due to the high number of children with unknown Indigenous status at notification, and the inclusion of these in the non-Indigenous category, this data is likely to be considerably under-reported for 2005-06.				
(h)	Due to the high number of children with unknown Indigenous status at notification, and the inclusion of these in the non-Indigenous category, this data is considered unreliable for 2005-06.				
	.. Not applicable. – Nil or rounded to zero.

Table 15A.115 Children in notifications, investigations and substantiations and children on care and protection orders: Number and rate per 1000 children in the target populations by Indigenous status, Tasmania (a), (b), (c), (d)

	2001-02	2002-03	2003-04	2004-05	2005-06
(a)	Data on notifications for 2003-04 should not be compared to previous years. This is because of a change in recording practices due to the centralisation of the intake service, known as the Child Protection Advice and Referral Service. Now every call about a child is recorded as a notification, whereas previously, workers made the decision locally about whether the call was in fact a notification based on the risk to the child.				
(b)	Rates of children in notifications, investigations and substantiations were calculated as the number of children aged 0–16 years in each category (including those whose age was not stated) divided by the estimated population of children aged 0–16 years at 31 December, multiplied by 1000. For Indigenous children, the June projections for two years were averaged to obtain a population figure for December of the relevant year.				
(c)	Rates of children on care and protection orders were calculated as the number of children aged 0–17 years (including those whose age was not stated) who were on a care and protection order at 30 June, divided by the estimated population aged 0–17 at 31 March, multiplied by 1000.				
(d)	Care should be taken in interpreting the rates for Indigenous children due to the relatively small size of the Indigenous population.				

Source: AIHW *Child Protection Notifications, Investigations and Substantiations Australia* data collection (unpublished); AIHW *Children on Care and Protection Orders, Australia* data collection (unpublished).

Table 15A.116 Children who were the subject of a decision not to substantiate during the year and who were also the subject of a subsequent substantiation within 3 and/or 12 months, Tasmania (a)

	<i>Unit</i>	<i>2000-01</i>	<i>2001-02</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>
Subject of a substantiation within three months						
Number of children	no.	4	1	3	1	26
Proportion of children (b)	%	3.2	0.5	1.3	0.3	5.4
Subject of a substantiation within 12 months						
Number of children	no.	22	15	21	27	53
Proportion of children (b)	%	17.5	6.8	9.3	7.2	11.0

(a) The counting rule for this indicator has been changed for 2003-04 onwards, which may have resulted in a lowering of the rate for some jurisdictions in 2003-04 and 2004-05. Therefore care should be taken when comparing 2003-04 and 2004-05 with other years.

(b) As a proportion of all children who were the subject of a substantiation.

Non-Indigenous	6.3	6.2	5.4	5.4	7.8
All children	6.1	6.4	5.7	5.6	8.4

- (a) The number of children in out of home care in Tasmania from 2003 should not be compared with previous years, as a group of children who did not meet the definition of out of home care were excluded from this year's collection. These children are not the subject of a care and protection order and out of home care services did not arrange their placement with relatives.
- (b) Rates were calculated as the number of children aged 0–17 years (including those whose age was not stated) in out of home care at 30 June, divided by the estimated population aged 0–17 at 31 March, multiplied by 1000.
- (c) Rates were calculated as the number of children aged 0–17 years (including those whose age was not stated) in at least one out of home care placement during the year, divided by the estimated population aged 0–17 at 31 December, multiplied by 1000. For Indigenous children, the June projections for two years were averaged to obtain a population figure for December of the relevant year.

Substantiated	%	27.5	14.6	11.8	16.7	15.8
Carer/family issues	%
Not substantiated	%	37.7	22.8	14.5	18.1	15.1
Total finalised	%	65.2	37.4	26.3	34.8	31.0
Investigations not finalised	%	16.0	21.3	18.4	6.7	9.9
Total investigations	%	81.1	58.7	44.7	41.5	40.8
Notifications dealt with by other means (e)	%	2.2	2.3	1.4	2.8	37.0
No investigation possible / no action (e)	%	16.6	39.0	53.9	55.7	22.2
Total notifications	%	100.0	100.0	100.0	100.0	100.0

Table 15A.129 Child protection notifications, investigations and substantiations by Indigenous status, Australian Capital Territory (a), (b), (c), (d)

	<i>Unit</i>	<i>2001-02</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>	<i>2005-06</i>
(a)	If a child was the subject of more than one notification, investigation or substantiations, then each one of these were counted. The definition of an investigation includes interviewing or sighting of the child where practicable.					
(b)	Investigations relate to notifications received during the financial year. If the investigation was completed by 31 August it is classified as finalised. If the investigation was not completed by 31 August it is classified as not finalised. Notifications 'dealt with by other means' includes 'non-abuse' notifications relating to serious incompatibility or self damaging behaviour where advice and/or referrals were followed up.					
(c)	In 2002-03, the ACT changed the arrangements for recording reports of concerns about children and young people. This and stricter mandatory reporting guidelines has led to an increase in the number of notifications.					
(d)	'No investigation possible/no action' includes notifications where there were no grounds for an investigation or insufficient information was available to undertake an investigation. It also includes those cases that could not be undertaken, such as the family has relocated. It may also include some cases that were referred on or where advice was given which could not be disaggregated from cases with insufficient reason to investigate.					
(e)	Fluctuations in numbers and proportions from 2004-05 to 2005-06 are due to changes in coding to distinguish between notifications not investigated and notifications dealt with by other means.					
	.. Not applicable. – Nil or rounded to zero.

Table 15A.132 Children in notifications, investigations and substantiations and children on care and protection orders: Number and rate per 1000 children in the target populations by Indigenous status, Australian Capital Territory (a), (b)

	2001-02	2002-03	2003-04	2004-05	2005-06
--	---------	---------	---------	---------	---------

(a) Rates of children in notifications, investigations and substantiations were calculated as the number of children aged 0–16 years in each category (including those whose age was not stated) divided by the estimated population of children aged 0–16 years at 31 December, multiplied by 1000. For Indigenous children, the June projections for two years were averaged to obtain a population figure for December of the relevant year.

(b) Rates of children on care and protection orders were calculated as the number of children aged 0–17 years (including those whose age was not stated) who were on a care and protection order at 30 June, divided by the estimated population aged 0–17 at 31 March, multiplied by 1000.

Source: AIHW *Child Protection Notifications, Investigations and Substantiations Australia* data collection (unpublished); AIHW *Children on Care and Protection Orders, Australia* data collection (unpublished).

Table 15A.133 Children who were the subject of a decision not to substantiate during the year and who were also the subject of a subsequent substantiation within 3 and/or 12 months, Australian Capital Territory (a)

	<i>Unit</i>	<i>2000-01</i>	<i>2001-02</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>
Subject of a substantiation within three months						
Number of children	no.	4	4	14	36	73

Table 15A.136 Children in out-of-home care at 30 June: number and rate per 1000 children aged 0–17 years, by Indigenous status, Australian Capital Territory (a), (b)

	2002	2003	2004	2005	2006
Children in out-of-home care at 30 June					
Number of children in care					
Indigenous	27	48	58	60	82
Non-Indigenous	197	229	240	282	306
All children	224	277	298	342	388
Rate per 1000 children aged 0–17 years in population (c)					
Indigenous	15.2	26.5	31.4	32.0	43.7
Non-Indigenous	2.5	3.0	3.2	3.8	4.1
All children	2.8	3.6	3.9	4.5	5.1
Children aged 0–17 years in at least one out-of-home care placement during the year					
Number of children in care					
Indigenous	48	66	81	101	115
Non-Indigenous	445	471	520	534	528
All children	493	537	601	635	643
Rate per 1000 children aged 0–17 years in population (d)					
Indigenous	27.3	36.8	44.3	54.3	62.6
Non-Indigenous	5.8	6.2	6.9	7.2	7.1
All children	6.2	6.9	7.8	8.3	8.5

- (a) A child is only counted once, regardless of the number of placements during the year.
- (b) SAAP placements were counted as out-of-home care placements where Family Services made a financial payment.
- (c) Rates were calculated as the number of children aged 0–17 years (including those whose age was not stated) in out of home care at 30 June, divided by the estimated population aged 0–17 at 31 March, multiplied by 1000.
- (d) Rates were calculated as the number of children aged 0–17 years (including those whose age was not stated) in at least one out of home care placement during the year, divided by the estimated population aged 0–17 at 31 December, multiplied by 1000. For Indigenous children, the June projections for two years were averaged to obtain a population figure for December of the relevant year.

Table 15A.142

Table 15A.142 **Indigenous children in out-of-home care at 30 June by Indigenous status and relationship of caregiver, Australian Capital Territory (a)**

	<i>Unit</i>	<i>2002</i>	<i>2003</i>	<i>2004</i>	<i>2005</i>	<i>2006</i>
Number of Indigenous children at 30 June						
Placed with Indigenous relative/kin or other Indigenous carer or Indigenous residential care						
Indigenous relative/kin	no.	5	19	26	19	28
Non-Indigenous relative/kin	no.	2	3	3	3	11
Total placed with relative/kin	no.	7	22	29	22	39
Other Indigenous carer	no.	12	5	5	14	17
Indigenous residential care	no.	1	–	1	2	1
Total placed with other Indigenous carer or Indigenous residential care	no.	13	5	6	16	18
Total children	no.	20	27	35	38	57
Not placed with Indigenous relative/kin or other Indigenous carer or Indigenous residential care						
Other non-Indigenous carer	no.	7	14	18	14	18
In non-Indigenous residential care	no.	–	7	5	6	6
Total children	no.	7	21	23	20	24
Independent living/unknown	no.	–	–	–	2	1
Total Indigenous children in care	no.	27	48	58	60	82
As a proportion of all Indigenous children in out-of-home care at 30 June						
Placed with Indigenous relative/kin or other Indigenous carer or Indigenous residential care						
Indigenous relative/kin	%	18.5	39.6	44.8	32.8	34.6
Non-Indigenous relative/kin	%	7.4	6.3	5.2	5.2	13.6
Total placed with relative/kin	%	25.9	45.8	50.0	37.9	48.1
Other Indigenous carer	%	44.4	10.4	8.6	24.1	21.0
Indigenous residential care	%	3.7	–	1.7	3.4	1.2
Total placed with other Indigenous carer or Indigenous residential care	%	48.1	10.4	10.3	27.6	22.2
Total children	%	74.1	56.3	60.3	65.5	70.4
Not placed with Indigenous relative/kin or other Indigenous carer or Indigenous residential care						
Other non-Indigenous carer	%	25.9	29.2	31.0	24.1	22.2
In non-Indigenous residential care	%	–	14.6	8.6	10.3	7.4
Total children	%	25.9	43.8	39.7	34.5	29.6
Total Indigenous children in care	%	100.0	100.0	100.0	100.0	100.0

(a) Prior to 2002 the percentage of Indigenous children placed with Indigenous relative/kin or other Indigenous carer or Indigenous residential care was calculated using the total number of Indigenous children in out of home care as the denominator. From 2002 the denominator excluded Indigenous children living independently and those whose living arrangements were unknown.

– Nil or rounded to zero.

(a) The NT includes child concern reports in child protection notifications.

Table 15A.146 Child protection notifications, investigations and substantiations by Indigenous status, Northern Territory (a), (b), (c), (d), (e)

	<i>Unit</i>	<i>2001-02</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>	<i>2005-06</i>
(b)	If a child was the subject of more than one notification, investigation or substantiations, then each one of these were counted. The definition of an investigation includes interviewing or sighting of the child where practicable.					
(c)	Investigations relate to notifications received during the financial year. If the investigation was completed by 31 August it is classified as finalised. If the investigation was not completed by 31 August it is classified as not finalised. Notifications 'dealt with by other means' includes the provision of advice, referral to support services or referral to the police.					
(d)	The NT cannot reliably count notifications dealt with by other means and such matters are included under 'notifications not investigated/dealt with by other means'.					
(e)	'No investigation possible/no action' includes notifications where there were no grounds for an investigation or insufficient information was available to undertake an investigation. It also includes those cases that could not be undertaken, such as the family has relocated. It may also include some cases that were referred on or where advice was given which could not be disaggregated from cases with insufficient reason to investigate.					
	.. Not applicable. – Nil or rounded to zero

All children	3.2	4.6	5.8	7.0	7.3

Table 15A.149 Children in notifications, investigations and substantiations and children on care and protection orders: Number and rate per 1000 children in the target populations by Indigenous status, Northern Territory (a), (b), (c)

	2001-02	2002-03	2003-04	2004-05	2005-06
(a) Rates of children in notifications, investigations and substantiations were calculated as the number of children aged 0–16 years in each category (including those whose age was not stated) divided by the estimated population of children aged 0–16 years at 31 December, multiplied by 1000. For Indigenous children, the June projections for two years were averaged to obtain a population figure for December of the relevant year.					
(b) Rates of children on care and protection orders were calculated as the number of children aged 0–17 years (including those whose age was not stated) who were on a care and protection order at 30 June, divided by the estimated population aged 0–17 at 31 March, multiplied by 1000.					
(c) The NT include child concern reports in child protection notifications.					

Source: AIHW *Child Protection Notifications, Investigations and Substantiations Australia* data collection (unpublished); AIHW *Children on Care and Protection Orders, Australia* data collection (unpublished).

Table 15A.150 Children who were the subject of a decision not to substantiate during the year and who were also the subject of a subsequent substantiation within 3 and/or 12 months, Northern Territory (a)

	<i>Unit</i>	<i>2000-01</i>	<i>2001-02</i>	<i>2002-03</i>	<i>2003-04</i>	<i>2004-05</i>
Subject of a substantiation within three months						
Number of children	no.	10	6	7	14	8
Proportion of children (b)	%	3.0	1.4	2.0	3.2	1.5
Subject of a substantiation within 12 months						
Number of children	no.	25	22	30	53	22
Proportion of children (b)	%	7.4	5.0	8.4	12.0	4.1

(a) The counting rule for this indicator has been changed for 2003-04 onwards, which may have resulted in a lowering of the rate for some jurisdictions in 2003-04 and 2004-05. Therefore care should be taken when comparing 2003-04 and 2004-05 with other years.

(b) As a proportion of all children who were the subject of a substantiation.

Source: AIHW *Child Protection Notification, Investigations and Substantiations, Australia* data collection (unpublished).

Table 15A.153 Children in out-of-home care at 30 June: number and rate per 1000 children aged 0–17 years, by Indigenous status, Northern Territory (a)

	2002	2003	2004	2005	2006
Children in out-of-home care at 30 June					
Number of children in care					
Indigenous	105	142	175	218	247
Non-Indigenous	58	81	83	106	105
All children	163	223	258	324	352
Rate per 1000 children aged 0–17 years in population (b)					
Indigenous	4.4	5.9	7.2	8.9	10.0
Non-Indigenous	1.6	2.3	2.4	3.1	3.0
All children	2.7	3.8	4.3	5.5	5.9
Children aged 0–17 years in at least one out-of-home care placement during the year					
Number of children in care					
Indigenous	199	258	338	346	371
Non-Indigenous	125	140	150	175	170
All children	324	398	488	521	541
Rate per 1000 children aged 0–17 years in population (c)					
Indigenous	8.3	10.7	13.9	14.1	15.1
Non-Indigenous	3.5	4.3	4.3	5.0	4.8
All children	5.4	7.0	8.2	8.8	9.1

- (a) The data does not include children placed with parents or relatives who were not reimbursed.
- (b) Rates were calculated as the number of children aged 0–17 years (including those whose age was not stated) in out of home care at 30 June, divided by the estimated population aged 0–17 at 31 March, multiplied by 1000.
- (c) Rates were calculated as the number of children aged 0–17 years (including those whose age was not stated) in at least one out of home care placement during the year, divided by the estimated population aged 0–17 at 31 December, multiplied by 1000. For Indigenous children, the June projections for two years were averaged to obtain a population figure for December of the relevant year.

Source: AIHW *Children in Out-of-Home Care, Australia* data collection (unpublished).

Total children	no.	76	94	120	150	157
Not placed with Indigenous relative/kin or other Indigenous carer or Indigenous residential care						
Other non-Indigenous carer	no.	21	39	55	68	87
In non-Indigenous residential care	no.	6	8	–	–	–
Total children	no.	27	47	55	68	87
Independent living/unknown	no.	2	1	–	–	3
Total Indigenous children in care	no.	105	142	175	218	247
As a proportion of all Indigenous children in out-of-home care at 30 June						
Placed with Indigenous relative/kin or other Indigenous carer or Indigenous residential care						
Indigenous relative/kin	%	21.4	36.2	38.3	36.2	36.9
Non-Indigenous relative/kin	%	na	na	na	na	na
Total placed with relative/kin	%	21.4	36.2	38.3	36.2	36.9
Other Indigenous carer	%	52.4	30.5	30.3	32.6	27.5
Indigenous residential care	%	–	–	–	–	–
Total placed with other Indigenous carer or Indigenous residential care	%	52.4	30.5	30.3	32.6	27.5
Total children	%	73.8	66.7	68.6	68.8	64.3
Not placed with Indigenous relative/kin or other Indigenous carer or Indigenous residential care						
Other non-Indigenous carer	%	20.4	27.7	31.4	31.2	35.7
In non-Indigenous residential care	%	5.8	5.7	–	–	–
Total children	%	26.2	33.3	31.4	31.2	35.7
Total Indigenous children in care	%	100.0	100.0	100.0	100.0	100.0

- (a) Prior to 2002 the percentage of Indigenous children placed with Indigenous relative/kin or other Indigenous carer or Indigenous residential care was calculated using the total number of Indigenous children in out of home care as the denominator. From 2002 the denominator excluded Indigenous children living independently and those whose living arrangements were unknown.
- (b) The definition of 'relative/kin' used in this table is broader than the definition used in other tables because it includes kin relationships based on customary law.
- (c) Data on the relationship of the caregiver to children placed with non-Indigenous carers could not be provided and these children were included in the category 'other non-Indigenous carer'.
- (d) For 2001-02 the number of Indigenous children placed with Indigenous relative/kin may be under-enumerated due to data entry error.

Turn-away rate	%	55.1	59.4	52.7	49.1	47.1	56.5	70.7	35.5	53.7

(a) Only data from agencies that participated in both the Client Collection and the Demand for Accommodation Collection are included. Consequently, the figures understate the level of activity in SAAP agencies. Some cases were excluded due to missing data from the two collections. Adjustments have been made for the missing data.

(b) For the Client Collection, the accommodation status of a client on a particular day is based on the reported periods of accommodation within a support period. Clients may start and end accommodation on the same date. If a client starts and ends accommodation on the same day, these periods are considered to be a single period. It can reasonably be assumed that a client will not start more than one period of accommodation on the same day. It can also be reasonably be assumed that an accompanying child has been accommodated when their parent/guardian has been accommodated, and that they will not start more than one period of accommodation on the same day.

(c) For the Demand for Accommodation Collection, data includes only people with valid unmet requests for immediate accommodation. 'Valid unmet requests' excludes those made at an agency of an inappropriate target group, where the person or group is determined to be inappropriate for the agency, where there is no fee-free accommodation available, or where proffered assistance is refused.

Table 15A.169

(d)	A two-week Demand for Accommodation Collection is conducted annually to gather information about homeless people whose requests for accommodation were unable to be met by SAAP agencies. The collection for each financial year is held in December and May.										
(e)	Comparisons between years should be treated with caution, due to variation in participation rates, differing imputation methods and because the collections were held on different dates each year.										
(f)	Figures are unweighted. 363 records in the Collection are excluded due to errors and omissions.										
(g)	Includes existing and newly accommodated clients.										
(h)	Figures are unweighted. 324 records in the Collection are excluded due to errors and omissions.										
(i)	Figures are unweighted. 363 records in the Collection are excluded due to errors and omissions.

Representation among people unable to be provided with SAAP accommodation										
2004-05 (f)	%	20.2	6.8	24.7	44.0	17.5	7.7	4.8	59.1	20.1
2005-06 (g)	%	19.5	7.5	22.8	49.4	25.3	6.9	16.1	64.7	21.4

- (a) Client figures have been weighted to adjust for agency non-participation and client non-consent; figures on number of requests have been rounded by 10 and based on valid requests only.
- (b) Unmet requests exclude those where the person refused an offer of assistance; those where a similar request was made at a SAAP funded agency within the collection period (to limit double counting); and those where the reason their request was not met was either that the request was inappropriate (wrong target group) or that the service requested was not provided by the agency.
- (c) Data on unmet requests should be interpreted with caution for several reasons. First, a person can make request on more than one occasion and to more than one SAAP agency. While double counting has been limited through the exclusion of those requests where the person had made a similar request to a SAAP agency within the collection period, this information may not have been available to record. Therefore, the total numbers do not represent actual people. Second, a number of people may receive the ongoing support or accommodation from a SAAP agency at a later time, quite possibly soon after their initial request. As a result, this estimate may overstate the actual level of unmet demand. Third, a number of potential clients have their needs met by other means and do not return to a SAAP agency. Finally, there are shortfalls in pro-rating from a two week collection period to the full year. It was not possible to identify a two week period which is 'typical' for all SAAP agencies.
- (d) Figures for SAAP clients exclude accompanying children, while figures for people with unmet requests include accompanying children. The client collection data is not comparable with the unmet demand data.
- (e) In earlier Reports, this measure compared the proportion of people from these two groups who could not be accommodated with their representation among all SAAP clients (including accommodated and not accommodated). Data from 2004-05 onwards provide a direct comparison focusing on accommodation, therefore are not comparable to those in the previous years.
- (f) 2004-05 client data exclude 1583 records due to errors and omissions.
- (g) 2005-06 client data exclude 2298 records due to errors and omissions.

For other special needs	%	0.9	1.1	
Total	%	1.9	1.0	1.0	1.2	1.3	
Other	%	7.0	8.3	9.7	10.1	9.0	
Total	%	100.0	100.0	100.0	100.0	100.0	
Total	no.	5 040	6 687	6 292	5 646	6 133	

(a) Totals may not add up to 100 per cent as a result of rounding.

(b) A two-week Demand for Accommodation Collection is conducted annually to gather information about homeless people whose requests for accommodation were unable to be met by SAAP agencies. In 2005-06, the collection was held between 7-14 December 2005 and 17-23 May 2006.

(c) In this table, unmet requests exclude those where the persons refused an offer of assistance; those where a similar request was made at a SAAP funded agency at the same day within the collection period (to limit double counting); and those where the reason their request was not met was either inappropriate referral (wrong target group) or where the service requested was not provided by the agency.

Table 15A.178 **Potential clients unable to be supported, main reason for support not provided, Australia (a), (b), (c), (d), (e)**

Main reason support not provided	Proportion of potential clients				
	Unit	Aug 2001 & May 2002	Dec 2002 & May 2003	Dec 2003 & May 2004	Dec 2004 & May 2005

(d) Caution should be applied when interpreting numbers of unmet requests, for several reasons. Firstly, person(s) can make requests on more than one occasion and to more than one SAAP agency. While double counting has been limited through the exclusion of those requests where the person(s) had made a similar request to a SAAP agency at the same day within the collection period, this information may not have been available to record. Thus, the total number does not represent actual number of forms with valid request. Secondly, a number of the people may receive the ongoing support or accommodation from a SAAP agency at a later time, quite possibly soon after their initial request. As a result, this estimate may overstate the actual level of unmet demand. Thirdly, a number of people have their needs met by other means and do not return to a SAAP agency. And finally, there are shortfalls in pro-rating from a two-week collection period to the full year. Many factors influence the capacity of individual SAAP agencies to meet day-to-day demand for their services — it is not possible to identify a two-week period, which is 'typical' for all SAAP agencies.

(e) Comparisons between years should be treated with caution, due to variation in participation rates, differing imputation methods and because the collections were held on different dates each year.

.. Not applicable.

- (a) Clients whose support period was ongoing on 30 June were included.
- (b) Only agency level recurrent allocations were included in this analysis.
- (c) There was a small number of SAAP agencies that received recurrent funding but did not send in any client forms. These agencies were included in the analysis.
- (d) There was a small number of participating SAAP agencies that did not receive recurrent funding. These agencies were included in the analysis.
- (e) Figures for number of support days have been weighted to adjust for agency non-participation.
- (f) For 2004-05 and 2005-06 data, supported period excludes any dates outside the reference period. For instance, if a support period started in December 2004 and ended in September 2005, only the support dates between July and September 2005 were included in 2004-05.

2005-06	14.6	20.2	13.6	11.6	31.3	31.4	13.4	11.8	17.2

- (a) The accommodation load of agencies was calculated by dividing the number of accommodation days by the number of days the agency was operational during the reporting period, where the number of accommodation days equals the sum of accommodation days for all clients of an agency who were supported during the reporting period. The average accommodation load was the mean value of all agencies accommodation loads. Support periods without valid accommodation dates were assigned the inter-quartile modal duration of accommodation for agencies of the same service delivery model in the same jurisdiction.
- (b) The caseload of agencies was calculated by dividing the number of support days by the number of days the agency was operational during the reporting period, where the number of support days equals the sum of support days for all clients of the agency who were supported during the reporting period. The average caseload was the mean value of all agencies caseloads. Support periods without valid support dates were assigned the inter-quartile modal duration of support for agencies of the same service delivery model in the same jurisdiction.
- (c) Figures were unweighted and have not been adjusted for agency non-participation and client non-consent.

(a) Totals may not add up to 100 per cent as a result of rounding.

(b) Data prior to 2004-05 exclude high volume agencies (those accommodating 50 or more clients per night, telephone referral agencies, day centres, and information and referral centres) because these data items were often not collected by these agencies.

(c) 'Other' independent housing may include living rent free in a house or flat.

(d) 'Other' non-independent housing may include SAAP funded accommodation at hostels, hotels or community placements; non-SAAP emergency accommodation; a car, a tent or squat, or an institutional setting. Refer to the SAAP NDCA annual reports for further explanation of the counting rules.

(e) Figures have been weighted to adjust for agency non-participation and client non-consent.

(f) Data exclude 41 515 clients (weighted) due to errors and omissions.

(g) Data exclude 44 932 clients (weighted) due to errors and omissions.

(h) Data for 2005-06 is based on the housing outcomes for only closed support periods for those SAAP clients who needed assistance with maintaining or obtaining independent housing or accommodation. Earlier years' data are in relation to all support periods. In addition, 2005-06 data have different categories to previous years. Therefore data for 2005-06 are not comparable with previous years.

(i) Data exclude 658 clients (weighted) due to errors and omissions.

(j) Data exclude 1218 clients (weighted) due to errors and omissions.

(a) Totals may not add up to 100 per cent as a result of rounding.

(b) Data prior to 2004-05 exclude high volume agencies (those accommodating 50 or more clients per night, telephone referral agencies, day centres, and information and referral centres) because these data items were often not collected by these agencies.

(c) 'Other' independent housing may include living rent free in a house or flat.

(d) 'Other' non-independent housing may include SAAP funded accommodation at hostels, hotels or community placements; non-SAAP emergency accommodation; a car, a tent or squat, or an institutional setting. Refer to the SAAP NDCA annual reports for further explanation of the counting rules.

(e) Figures have been weighted to adjust for agency non participation and client non consent.

(f) Data exclude 7259 clients (weighted) due to errors and omissions.

(g) Data exclude 7724 clients (weighted) due to errors and omissions.

(h) Data for 2005-06 is based on the housing outcomes for only closed support periods for those SAAP clients who needed assistance with maintaining or obtaining independent housing or accommodation. Earlier years' data are in relation to all support periods. In addition, 2005-06 data have different categories to previous years. Therefore data for 2005-06 are not comparable with previous years.

(i) Data exclude 79 clients (weighted) due to errors and omissions.

(j) Data exclude 142 clients (weighted) due to errors and omissions.

na Not available. – Nil or rounded to zero.

Total	no.	400	200	200	100	100	–	–	100	1 100

- (a) Totals may not add up to 100 per cent as a result of rounding. A client may have support periods in more than one state or territory, state and territory figures do not sum to the national figure.
- (b) Data prior to 2005-06 are for support periods for people who were unemployed when entering SAAP services.
- (c) Data prior to 2004-05 exclude high volume agencies (those accommodating 50 or more clients per night, telephone referral agencies, day centres, and information and referral centres) because these data items were often not collected by these agencies.
- (d) Figures have been weighted to adjust for agency non-participation and client non-consent.
- (e) Data exclude 4026 clients (weighted) due to errors and omissions.
- (f) Data exclude 3212 clients (weighted) due to errors and omissions.
- (g) Data for 2005-06 reflects the employment status before and after SAAP support for all clients with closed support periods who needed assistance with employment or training. In addition, data for 2005-06 have some different categories to previous years. Therefore data for 2005-06 are not comparable to previous years.
- (h) Data exclude 21 clients (weighted) due to errors and omissions.
- (i) Data exclude 40 clients (weighted) due to errors and omissions.

na Not available. – Nil or rounded to zero.

(a) Totals may not add up to 100 per cent as a result of rounding. A client may have support periods in more than one state or territory, state and territory figures do not sum to the national figure.

(b) Client figures have been weighted to adjust for agency non-participation and client non-consent.

(c) Caution should be taken when comparing 2001-02 data with other years as 2001-02 figures are based on estimated support periods for each client rather than observed support periods for each client.

na Not available. – Nil or rounded to zero.

2002-03	%	45.4	44.0	43.8	42.3	42.9	50.0	40.0	44.4	44.2
2003-04	%	35.7	39.8	44.2	52.0	47.2	43.5	40.0	47.4	41.2
2004-05	%	40.5	49.4	41.1	48.1	35.4	54.5	44.4	57.9	45.4
2005-06	%	na	na	na	na	na	na	na	na	na

(a) Figures have been weighted to adjust for agency non-participation and client non-consent.

(b) The definition of 'exiting to independent housing' includes 'not returning to SAAP within six months'.

(c) Data exclude high volume records as not all items are included on high volume forms.

(d) Caution should be applied when interpreting these figures. Consent and valid alpha codes are required for each support period for the clients; after support information is not commonly completed; and particular client groups (for example, women escaping domestic violence) may be under represented in this calculation because of a higher incidence of non-consent.

(e) A client may receive two or more periods of support in the year. To minimise double counting of individual clients, only one record per client which has exit information has been included in the analysis.

Table 15A.190 Indicative estimates of clients exiting to independent housing and not returning within six months (a), (b), (c), (d), (e), (f), (g)

	<i>Unit</i>	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT</i>	<i>NT</i>	<i>Aust</i>
(f)	SAAP agencies that had no completed support periods leaving to independent housing were included in the analysis.									
(g)	For 2004-05 data, State client numbers refer to the State in which they were first supported, as some clients were supported in more than one State. Ongoing clients at 1 July 2004 are included in the client data.									
(h)	For 2004-05 data, the reference period is 18 months because the six months to 30 June 2005 is not relevant to clients whose first support period ends on or after 1 July 2005. Therefore, in order to analyse a full year's data, calendar year 2004 becomes the reference period in which the client's initial support period ends and 2004-05 becomes the reference period for clients returning to SAAP services.									
(i)	In 2004-05, clients whose support period ends on or after 1 January 2004 and before 1 January 2005 were included in the analysis; 29 520 records were excluded due to errors and omissions.
