

16A Housing — attachment

Definitions for the indicators and descriptors in this attachment are in section 16.6 of the chapter. Data in this Report are examined by the Housing and Homelessness Working Group, but have not been formally audited by the Secretariat. Unsourced information was obtained from Australian, State and Territory governments.

This file is available in Adobe PDF format on the Review web page (www.pc.gov.au/gsp/). Users without Internet access can contact the Secretariat to obtain these tables (see details on the inside front cover of the Report).

Data reported in the attachment tables are the most accurate available at the time of data collection. Historical data may have been updated since the last report.

(a) Data may not be comparable across jurisdictions and over time and comparisons could be misleading. Further information about the data in this table can be found at www.pc.gov.au/gsp/reports/rogs/2011.

(b) Due to rounding the national total may not equal the sum of jurisdictions' data items for (1) total dwellings in major cities, inner and outer regional, remote and very remote Australia and migratory areas and opening and closing rent debtors and (2) total rents charged and total market rent value of dwellings for which a rent was charged.

(c) Based on the Australian Standard Geographical Classification remoteness area structure.

.. Not applicable. – Nil or rounded to zero.

Table 16A.11

Public housing**Table 16A.11 Low income households in public housing, at 30 June (a), (b)**

	<i>Unit</i>	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT</i>	<i>NT</i>	<i>Aust</i>
Number of low income households in public housing										
2010	no.	102 268	61 039	49 115	29 802	38 150	10 589	10 668	4 791	306 422
Low income households as a proportion of all households in public housing										
2010	%	99.3	98.0	96.4	97.6	94.9	94.2	99.4	99.3	97.7

(a) Further information about the data in this table can be found at www.pc.gov.au/gsp/reports/rogs/2011.

(b) Low income households are those in the bottom 40 per cent of equivalised household disposable income.

Source: AIHW (2011) *Housing Assistance tables 2011*.

Table 16A.12

Public housing**Table 16A.12 Proportion of low income households in public housing spending more than 30 per cent of their income in rent, at 30 June (a), (b)**

	<i>Unit</i>	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT</i>	<i>NT</i>	<i>Aust</i>
2010	%	0.1	3.9	–	1.1	1.7	0.2	0.9	5.9	1.3

(a) Further information about the data in this table can be found at www.pc.gov.au/gsp/reports/rogs/2011.

(b) Low income households are those in the bottom 40 per cent of equivalised household disposable income.

– Nil or rounded to zero.

Source: AIHW (2011) *Housing Assistance tables 2011*.

Table 16A.13

Public housing**Table 16A.13 Proportion of overcrowded households at 30 June (per cent) (a), (b)**

	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i>	<i>SA</i>	<i>Tas</i>	<i>ACT</i>	<i>NT</i>	<i>Aust</i>
2006	1.5	1.4	2.1	2.4	1.2	1.3	1.0	2.1	1.6
2007	1.4	2.1	2.2	1.6	1.2	1.4	0.9	2.1	1.6
2008	1.3	2.2	2.3	1.8	1.3	1.5	0.9	2.3	1.7
2009	1.5	2.1	2.3	1.9	1.2	1.7	1.2	2.8	1.7
2010	3.2	5.2	4.8	4.1	2.5	4.1	4.0	5.7	3.9

(a) Data are not comparable over time. Data for 2010 are based on the Canadian National Occupancy Standard for overcrowding (where one or more bedrooms are required to meet the standard), while data prior to 2010 are based on a proxy standard (where two or more bedrooms are required to meet the standard). Overcrowding will be higher under the CNOS than for the proxy standard.

(b) Data may not be comparable across jurisdictions and comparisons could be misleading. Further information about the data in this table can be found at www.pc.gov.au/gsp/reports/rogs/2011.

2010	no.	4 122	..	3 147	2 088	1 753	341	11 451

(a) Data may not be comparable across jurisdictions and over time and comparisons could be misleading. Further information about the data in this table can be found at www.pc.gov.au/gsp/reports/rogs/2011.

(b) Due to rounding the national total for (1) total dwellings in major cities, inner and outer regional, remote and very remote Australia and migratory areas and opening and closing rent debtors and (2) total rents charged and total market rent value of dwellings for which a rent was charged, may not equal the sum of jurisdictions' data items.

(c) Victorian dwellings managed in the SOMIH program have been transferred to other programs as part of the transition to independence for Aboriginal Housing Victoria. There were no SOMIH dwellings in Victoria at 30 June 2010.

2007-08	9 280	7 607	4 905	5 200	6 304	12 616	8 202	na	7 392
2008-09	9 299	9 008	4 962	7 870	7 294	16 835	7 248	na	8 289

- (a) Data are presented in current prices based on the Australian Bureau of Statistics (ABS) Gross Domestic Product price deflator (index) (2008-09 = 100) table AA.26.
- (b) Data may not be comparable across jurisdictions or over time and comparisons could be misleading. Further information about the data in this table can be found at www.pc.gov.au/gsp/reports/rogs/2011.
- (c) The most recent year for which data are available for reporting is 2008-09, rather than 2009-10 as reported for all non-financial data. These data relate to a different number of community housing organisations and households than for the reported non-financial data.
- (d) Total net recurrent costs are divided into costs borne by (1) providers: community housing organisations responsible for the day-to-day management of community housing dwellings and tenancies; and (2) administrators: state and territory government bodies with the responsibility of administering community housing programs.
- (e) Coherence over time has been affected by an improved methodology that better reflects all jurisdiction costs associated with administering community housing. Provider net recurrent costs have been weighted up to reflect the total number of tenancy (rental) units. Unadjusted provider net recurrent costs of \$56 483 355 represented 8221 tenancy (rental) units at 30 June 2009.
- (f) Provider net recurrent costs have been weighted up to reflect the total number of tenancy (rental) units. Unadjusted provider net recurrent costs of \$22 822 806 represented 3089 tenancy (rental) units at 30 June 2009.
- (g) Coherence over time has been affected as previous years' costs have not included any jurisdiction costs associated with administering community housing. Net recurrent costs are sourced from jurisdiction administrative systems.
- (h) Provider net recurrent costs have been weighted up to reflect the total number of tenancy (rental) units. Some organisations under the Community Tenancy Program may have included staff costs which are otherwise offset by Grant funding, resulting in very high administrative costs overall. Costs for three organisations have been excluded due to erroneous information. The remaining unadjusted provider net recurrent costs of \$4 870 034 represented 367 tenancy (rental) units at 30 June 2009.
- (i) Provider net recurrent costs have been weighted up to reflect the total number of tenancy (rental) units. Grants and subsidies paid to community housing organisations for tenancy management, as part of jurisdiction administrative costs, may also be reported as community housing organisation expenditure. Administrator costs do not include property costs met by government for boarding houses and properties leased by government to the sector. Unadjusted provider net recurrent costs of \$2 672 408 represented 567 tenancy (rental) units at 30 June 2009.
- (j) Australian totals may not represent national totals because data are not available for all jurisdictions.

na Not available.

Table 16A.33

Community housing**Table 16A.33 Occupancy rates at 30 June (per cent) (a)**

	<i>NSW</i>	<i>Vic</i>	<i>Qld</i>	<i>WA</i> (b)	<i>SA</i> (c)	<i>Tas</i>	<i>ACT</i>	<i>NT</i> (d)	<i>Aust</i> (e)
2006	98.4	93.7	97.2	94.1	96.5	99.8	89.8	100.0	96.6
2007	97.2	96.6	96.6	96.1	96.8	98.5	90.4	100.0	96.7
2008	98.4	95.4	97.0	95.8	96.1	100.0	93.9	100.0	97.1
2009	98.2	95.0	99.3	88.7	96.8	99.0	95.7	100.0	96.9
2010	98.7	93.5	95.2	92.3	94.3	95.3	95.7	100.0	96.0

(a) Data may not be comparable across jurisdictions or over time and comparisons could be misleading. Further information about the data in this table can be found at www.pc.gov.au/gsp/reports/rogs/2011.

(b) Includes one occupied tenancy (rental) unit used to provide additional housing support. The number of households at 30 June may be overstated due to underlying data quality issues. This may also result in a higher rate of occupancy.

(c) The number of households at 30 June may be understated whilst the number of tenancy (rental) units may be overstated due to underlying data quality issues. This may also result in a lower rate of occupancy.

(d) It is assumed that all dwellings are occupied because many organisations are turning away people seeking accommodation.

(e) Australian totals may not represent national totals because complete data were not available for all jurisdictions.

2009	74.8	69.1	77.4	67.9	73.2	67.1	72.2	na	72.8
2010	74.8	77.8	77.1	68.2	75.0	74.2	73.2	na	75.0

(a) Data may not be comparable across jurisdictions or over time and comparisons could be misleading. Further information about the data in this table can be found at www.pc.gov.au/gsp/reports/rogs/2011.

(b) Generally, community housing organisations capture the full amount of CRA received by tenants as part of their rental payment. While the CRA amount should be excluded from rent charged and household income data, it is evident that some organisations may have included CRA as part of rent and income in their survey returns. Other out of scope charges such as those for utilities may have also been included in rent charged amounts. This may result in a higher proportion of households that appear to be paying more than 30 per cent of their income in rent.

(c) For Vic, WA, SA, Tas and ACT, households have been excluded from this indicator where rent charged or household assessable income are unknown or is equal to or less than zero.

(d) In Tasmania, relevant details are known for only 38 per cent of households in 2010.

(e) Australian totals may not represent national totals because data are not available for all jurisdictions.

na Not available.

2010	%	42.4	39.9	41.7	38.7	37.2	42.1	28.0	na	41.0

(a) Data may not be comparable across jurisdictions or over time and comparisons could be misleading. Further information about the data in this table can be found at www.pc.gov.au/gsp/reports/rogs/2011.

(b) Care should be taken in interpreting small differences in results as the data are subject to sampling error. The standard error is the measure of the expected variability of the value for the population being measured. Data are not comparable over time due to differences in survey sample design and the methodology used to collect the data.

(c) Australian data do not represent national data because data were not available for all jurisdictions. The NT did not participate in the survey because of its small community housing tenant population.

(d) Totals may not sum due to rounding.

(d) The sample sizes reflect the number of unweighted valid responses and are therefore different to those provided for the amenity/location indicator.

na Not available .. Not applicable.

(a) Footnotes to this table largely relate to data for year ending 30 June 2009, the most recent year for which data are available. Refer to previous Reports for specific caveats on previous years data. Data may not be comparable across jurisdictions and over time and comparisons could be misleading. Data within jurisdictions from 2007-08 and 2008 onwards may not be comparable to previous years due to a change in scope of the ICH collection in 2007-08, and variations in the ICHOs that respond to the survey, or for which jurisdictions can provide data. Data may not be comparable across jurisdictions because of considerable variation in the way ICH operates in each jurisdiction. Organisation and household information may vary considerably because of the policy and program environment and the nature of the sector.

Data in this table are incomplete and do not necessarily represent all ICH for each jurisdiction because data for some organisations/dwellings/households were not available.

(b) **NSW**

NSW data collection focuses on dwellings managed by actively registered organisations. Active registration with the Aboriginal Housing Office (AHO) does not guarantee funding and does not equate to funded ICHOs.

The number of permanent dwellings managed by actively and non-actively registered organisations is sourced from AHO's newly developed Aboriginal Community Housing Provider database.

Table 16A.42

Indigenous community housing**Table 16A.42 Descriptive data - Indigenous community housing (a)**

<i>Unit</i>	<i>NSW (b)</i>	<i>Vic</i>	<i>Qld (c)</i>	<i>WA (d)</i>	<i>SA (e)</i>	<i>Tas</i>	<i>ACT (f)</i>	<i>NT (g)</i>	<i>Aus Gov (h)</i>	<i>Aust (i)</i>
-------------	----------------	------------	----------------	---------------	---------------	------------	----------------	---------------	--------------------	-----------------

Number of improvised dwellings managed by ICHOs should be interpreted with caution, as there may be data quality concerns that result from non-clarity of what an improvised dwelling is on the part of ICHOs that completed Aboriginal Housing Office registration forms.

Numbers of permanent dwellings managed by funded and unfunded ICHOs not connected to water or electricity are consistent with data from the 2006 Community Housing and Infrastructure Needs Survey (CHINS). Number of permanent dwellings managed by funded and unfunded ICHOs not connected to sewerage is mostly consistent with the 2006 CHINS.

Total number of households living in permanent dwellings is for organisations that renewed registration with AHO, but may have quality issues. It is largely assumed that most dwellings consist of one household, except where there is obviously two couples. 48 occupied dwellings with unknown number of households were assumed to contain only one household.

Total rent collected by ICHOs amount refers to rent collected from the dwellings managed by ICHOs that are actively registered with AHO as at 30 June. It does not include the amount of rent collected by ICHOs that did not renew their registration with AHO.

As a result of data quality issues for the total rent charged and total rent collected by ICHOs, the data exclude information on dwellings managed by some actively registered organisations (128 dwellings for 2009).

Capital expenditure only includes the amount spent by AHO on the Aboriginal community housing sector. Capital expenditure by ICHOs is not available.

Total recurrent costs are those incurred by AHO through employee-related and other project expenses, such as Sector Support and Resourcing, Healthy Indigenous Housing Initiative, Tenants Initiative, Resourcing Community Organisations. ICHO recurrent expenses are not included.

Net recurrent expenses are those incurred by AHO on the Aboriginal community housing sector. Net recurrent expenses incurred by ICHOs are not included.

Total number of occupied permanent dwellings was derived by extrapolating proportionally for the whole ICHO sector, using the number of permanent dwellings managed by ICHOs that renewed registration with Aboriginal Housing Office and were occupied as at 30 June 2009. Caution should be applied in using this to derive occupancy rate as 52 of 74 unoccupied permanent dwellings managed by ICHOs that renewed their registration were not tenatable.

The total numbers of households with overcrowding, households requiring extra bedrooms and additional bedrooms required are approximate only and have been extrapolated for all ICH dwellings. Calculations for these data items are based on the proxy standard.

Total number of households for which household groups and dwelling details have been extrapolated for all ICH dwellings.

The total number of people living in permanent dwellings was sourced from AHO's newly developed Aboriginal Community Housing Providers database.

Number of currently funded/actively registered ICHOs as at June 2009. Twenty-two of the ICHOs did not manage properties as at June 2009.

Number of funded/actively registered and unfunded/non-actively registered ICHOs was sourced from AHO's newly developed Aboriginal Community Housing Providers database.

Indigenous community housing**Table 16A.42 Descriptive data - Indigenous community housing (a)**

<i>Unit</i>	<i>NSW (b)</i>	<i>Vic</i>	<i>Q/d (c)</i>	<i>WA (d)</i>	<i>SA (e)</i>	<i>Tas</i>	<i>ACT (f)</i>	<i>NT (g)</i>	<i>Aus Gov (h)</i>	<i>Aust (i)</i>
-------------	----------------	------------	----------------	---------------	---------------	------------	----------------	---------------	--------------------	-----------------

The reported data for the number of ICHOs with a housing management plan refer to ICHOs with housing management plans that include some or all of the specified components of the plan. These components are: objectives for delivering housing assistance, asset management plan, rent collection policies and financial practices and reporting systems that link resources to outcomes.

(c) Queensland

Data for the number of permanent dwellings managed by funded and unfunded organisations, capital expenditure, total number of bedrooms in permanent dwellings are sourced from departmental administrative data (SAP) at 30 June 2009.

Data for the number of permanent dwellings not connect to water, sewerage or electricity are sourced from the Property Condition and Tenants Survey 2006-07.

Data for rent collected, rent charged, and total number of occupied permanent dwellings are sourced from a combination of SAP at 30 June 2009 (5 of the 6 tenancy-managed communities) and Quarterly Performance Reports (remaining communities).

Maintenance expenditure is sourced from maintenance services provided by Qbuild.

Councils are currently unable to separate the recurrent costs associated with housing services from those associated with the other services they provide. The amount reported here is the cost of maintenance services provided by the Queensland Government, plus staff and related administrative costs associated with the Healthy Indigenous Housing Initiative. Includes Indigenous Govt Coordination contribution.

Proxy standard used to calculate the total number of households with overcrowding, the total number of households requiring additional bedrooms, and total number of additional bedrooms required. Data sourced from SAP at 30 June 2009 for 6 tenancy-managed communities. Remaining 28 communities data as reported by PCAT survey in 2005 and 2006.

Data for total number of people living in permanent dwellings sourced from SAP at 30 June 2009 for 6 tenancy-managed communities. Remaining 28 communities data as reported by PCAT survey in 2005 and 2006.

For the number of ICHOs and number of funded/actively registered ICHOs, local government reforms in March 2008 resulted in 2 councils being developed from the amalgamation of 5 and 15 councils respectively.

Data on the total numbers of ICHO employees, Indigenous ICHO employees, and Indigenous ICHO employees who had completed or were undertaking accredited training are sourced from a combination of self-reported data provided by 14 of the 16 Councils in 2007-08 of property and tenancy management employees as 2008-09 data not available, and a telephone survey of the 16 Councils conducted by the Department in May 2009 about the employees (including qualified trades employees) involved in housing related trades. Data also sourced from Qbuild's Human Resource Information System at 30 June 2009. This data may not be a true reflection of the actual number of Indigenous and non-Indigenous employees as it is not compulsory for staff to complete an Equality of Employment Opportunity census form or identify as either an Aboriginal or Torres Strait Islander person.

(d) Western Australia

REPORT ON
GOVERNMENT
SERVICES 2011

Indigenous community housing**Table 16A.42 Descriptive data - Indigenous community housing (a)**

<i>Unit</i>	<i>NSW (b)</i>	<i>Vic</i>	<i>Q/d (c)</i>	<i>WA (d)</i>	<i>SA (e)</i>	<i>Tas</i>	<i>ACT (f)</i>	<i>NT (g)</i>	<i>Aus Gov (h)</i>	<i>Aust (i)</i>
-------------	----------------	------------	----------------	---------------	---------------	------------	----------------	---------------	--------------------	-----------------

Data relate to funded ICHOs only except for the total number of permanent dwellings managed by funded and unfunded ICHOs. During 2008-09, 775 dwellings formerly managed by Indigenous Community Housing organisations were in the process of transitioning to direct management by the WA government.

WA number of permanent dwellings managed by ICHOs not connected to water, sewerage and electricity data are not available for every dwelling in the State. No dwellings managed by funded ICHOs are known to be lacking connections.

Household data are in the process of being entered into the Department of Housing and Works' Housing Management System for houses managed by funded ICHOs, but this was not complete by 30 June 2009.

Total recurrent cost is reported instead of net recurrent cost, as data on exclusions are not held, with the exception of grants and subsidies, which were the principal method of payment for maintenance services to housing.

Total number of permanent dwellings occupied is based on a representative sample of 702 dwellings (of which 693 were permanent) as complete household level data was not available.

Complete unit record data to calculate total households with overcrowding are not available. Complete data on total number of households requiring extra bedrooms are not available. Total number of additional bedrooms required may represent an undercount as complete household data were not available.

Total number of employees in ICHOs and number of Indigenous employees in ICHOs who had completed or were undertaking accredited training data are not available at this stage.

(e) South Australia

Data on the number of permanent dwellings managed by funded ICHOs, and the total number of permanent dwellings (i.e. managed by funded and unfunded ICHOs) are based on Tenancy / Asset audits captured in 2008 and 2009. Dwellings of unknown status (6 managed by funded ICHOs and 9 managed by unfunded ICHOs) were assumed to be permanent.

Data on improvised dwellings are not collected

Data on the number of permanent dwellings not connected to water, sewerage or electricity are based on Tenancy / Asset audits captured in 2008 and 2009. Dwelling without Metered Power with a condition rating of Not Applicable or Poor are counted as not being connected to electricity.

Data on the total number of households living in permanent dwellings is provided based on Tenancy / Asset audits captured in 2008 and 2009. 169 occupied permanent dwellings with unknown number of households were assumed to contain only 1 household per dwelling.

Rent collected and housing maintenance expenditure for 10 ICHOs is for the June to December 2008 portion of the financial period.

Capital expenditure includes emergency funds provided by the Office for Aboriginal Housing to communities that can not be directly apportioned to individual communities.

Indigenous community housing

Table 16A.42 **Descriptive data - Indigenous community housing (a)**

Unit	NSW (b)	Vic	Qld (c)	WA (d)	SA (e)	Tas	ACT (f)	NT (g)	Aus Gov (h)	Aust (i)
------	---------	-----	---------	--------	--------	-----	---------	--------	-------------	----------

Funding arrangements assumes that net and total recurrent expenses are equal. Recurrent expenses for 10 ICHOS is for the June to December 2008 portion of the financial period.

Data are based on Tenancy / Asset audits captured in 2008 and 2009 for the following: the total number of permanent occupied dwellings, households with overcrowding, households requiring additional bedrooms, additional bedrooms required, households for which household groups and dwelling details are known, bedrooms and people living in permanent dwellings

(f) Australian Capital Territory

Maintenance costs for dwellings under lease to Indigenous community housing in the ACT are met by government (18 dwellings). Maintenance costs for the remaining dwellings were met by the ICHO but were not available for reporting.

Data for the total numbers of households with overcrowding, households requiring additional bedrooms and additional bedrooms required are based on data for 22 of the 24 households.

(g) Northern Territory

During 2008-09, 4,096 dwellings, funded under the National Partnership Agreement for Remote Indigenous Housing were reclassified as Remote Public Housing and are no longer managed by Indigenous Community Housing organisations. Due to the unique management arrangements for these dwellings, they were not reported in either the 2008-09 Indigenous community housing or 2008-09 public rental collections. For 2009-10, where data are available, these dwellings will be separately identified and reported with the Indigenous community housing collection.

Rent collected from and rent charged to households is based on data provided by 22 of the 30 organisations.

Housing maintenance expenditure is based on data provided by 29 of the 30 organisations.

Number of funded ICHOs, and the number of total ICHOs includes Shire Councils, Outstation Resource Centres and housing organisations.

Data on the total number of ICHOs with a housing management plan are due to the commencement of the Shires data collected in 2008/09.

Total numbers of ICHO employees, Indigenous ICHO employees, and Indigenous ICHO employees who had completed or were undertaking accredited training are based on data provided by 19 of the 30 organisations.

(h) Australian Government

Australian Government contains data from Victoria, Queensland and Tasmania, and includes dwellings managed by funded and unfunded organisations responding to the FaHCSIA survey. Data are largely based on survey returns from 13 out of 22 Victorian ICHOs, 8 of 68 Queensland ICHOs, and 1 out of 3 Tasmanian ICHOs.

Table 16A.42

Indigenous community housing

Table 16A.42 Descriptive data - Indigenous community housing (a)

Unit	NSW (b)	Vic	Q/d (c)	WA (d)	SA (e)	Tas	ACT (f)	NT (g)	Aus Gov (h)	Aust (i)
------	---------	-----	---------	--------	--------	-----	---------	--------	-------------	----------

Data on the number of permanent dwellings managed by funded ICHOs, for non-responding funded ICHOs were sourced from the jurisdiction's historical records (Victoria: 9, Queensland: 5, Tasmania: 2). Dwellings of unknown dwelling status were assumed to be permanent (Queensland: 278; Tasmania: 19 dwellings).

Data on the total number of permanent dwellings managed by ICHOs, for non-responding ICHOs were sourced from the jurisdiction's historical records (Victoria: 9, Queensland: 60, Tasmania: 2). Dwellings of unknown dwelling status were assumed to be permanent (Queensland: 1834; Tasmania: 103 dwellings).

Victorian data on improvised dwellings for 9 non-responding ICHOs were sourced from the jurisdiction's historical records.

Current Tasmanian data on the number of permanent dwellings not connected to water, sewerage and electricity respectively were only available for 1 organisation. For 1 organisation, data were sourced from the jurisdiction's historical records.

For the total number of households living in permanent dwellings, dwellings with an unknown number of households were assumed to have one household per dwelling (Victoria: 65, Queensland: 109). For Tasmanian data, current dwelling counts were only available for 1 organisation. For 1 organisation, data were sourced from the jurisdiction's historical records. Tasmanian rent charged, rent collected, housing maintenance expenditure, net and total recurrent costs are for 1 ICHO only. For Tasmanian total number of permanent occupied dwellings, current dwelling counts were only available for 1 organisation. For 1 organisation, data were sourced from the jurisdiction's historical records.

The total number of households with overcrowding, households with requiring additional bedrooms, additional bedrooms required and total number of households for which household groups and dwelling details are known, should be interpreted with caution.

There may be data quality issues with the Victorian data, Queensland data is for 2 ICHOs only, and Tasmanian data is based on current data for 1 ICHO only. For 1 Tasmanian ICHO data were sourced from the jurisdiction's historical records. Tasmanian overcrowding data are estimates based on the ICHO's knowledge of the number of known occupants in the household.

For Tasmanian data, the total number of bedrooms and people in permanent dwellings are for 1 ICHO only.

Funding status of ICHOs who did not respond to the survey was based on jurisdictions' records (Victoria: 9 ICHOs, Queensland: 60 ICHOs, Tasmania: 2 ICHOs).

Tasmanian data on the total numbers of ICHO employees, Indigenous ICHO employees, and Indigenous ICHO employees who had completed or were undertaking accredited training are based on current data for 1 ICHO, and jurisdiction's historical records for 1 ICHO.

(i) Data for some Australian totals are not reported due to insufficient data for jurisdictions.

na Not available. .. Not applicable. – Nil or rounded to zero.

2007-08	-	-	-	-	0.4	..	-	4.6	0.1	1.6
2008-09	-	-	-	-	-	..	-	na	-	na

(a) Data may not be comparable across jurisdictions and over time and comparisons could be misleading. This is due to a change in scope of the ICH collection in 2007-08, variations in the ICHOs that respond to the survey, or for which jurisdictions can provide data, and variation in the way ICH operates in each jurisdiction. Organisation and household information may vary considerably because of the policy and program environment and the nature of the sector. Further information about the data in this table can be found at www.pc.gov.au/gsp/reports/rogs/2011.

(b) Calculations only include those dwellings for which connection status was known.

(c) Data are consistent with data from the 2006 Community Housing and Infrastructure Needs Survey (CHINS).

(d) Data are sourced from the Property Condition and Tenants Survey 2006-07.

(e) Data are not available for every dwelling in the WA. No dwellings managed by funded ICHOs are known to be lacking connections.

(f) Data are based on Tenancy / Asset audits captured in 2008 and 2009.

(g) Data are based on survey returns from 13 out of 22 Victorian ICHOs, 8 out of 68 Queensland ICHOs, and 1 out of 3 Tasmanian ICHOs.

na Not available. .. Not applicable. - Nil or rounded to zero.

Table 16A.47

Indigenous community housing

Table 16A.47 Net recurrent cost per dwelling (2008-09 dollars) (a), (b), (c)

	NSW (d)	Vic	Qld (e)	WA (f)	SA (g)	Tas	ACT	NT	Aus Gov (h)	Aust (i)
2004-05	na	na	na	na	na	na	na	na	na	na
2005-06	8 014	..	na	na	7 397	..	25 766	652	7 916	na
2006-07	8 694	..	3 584	na	3 561	..	na	na	na	5 451
2007-08	6 919	3 164	7 161	13 831	2 708	..	7 169	na	8 299	7 841
2008-09	5 986	5 901	3 705	6 338	3 276	..	10 088	na	7 501	5 256

(a) Data are presented in current prices based on the Australian Bureau of Statistics (ABS) Gross Domestic Product price deflator (index) (2008-09 = 100) table AA.26.

(b) Data may not be comparable across jurisdictions and over time and comparisons could be misleading. This is due to a change in scope of the ICH collection in 2007-08, variations in the ICHOs that respond to the survey, or for which jurisdictions can provide data, and variation in the way ICH operates in each jurisdiction. Organisation and household information may vary considerably because of the policy and program environment and the nature of the sector. Further information about the data in this table can be found at www.pc.gov.au/gsp/reports/rogs/2011.

(c) Calculations only include those dwellings for which net recurrent costs were known.

(d) Net recurrent expenses are those incurred by AHO on the Aboriginal community housing sector. Net recurrent expenses incurred by ICHOs are not available.

(e) Councils are currently unable to separate the recurrent costs associated with housing services from those associated with the other services they provide. The amount reported here is the cost of maintenance services provided by the Queensland Government, plus staff and related administrative costs associated with the Healthy Indigenous Housing Initiative. Includes Indigenous Govt Coordination contribution.

(f) Total recurrent cost is reported instead of net recurrent cost, as data on exclusions are not held, with the exception of grants and subsidies, which were the principal method of payment for maintenance services to housing.

(g) Funding arrangements assumes that net and total recurrent expenses are equal.

(h) Data are based on survey returns from 13 out of 22 Victorian ICHOs, 8 out of 68 Queensland ICHOS, and 1 out of 3 Tasmanian ICHOS.

(i) Australian totals may not represent national totals because data were not available for all jurisdictions.

na Not available. .. Not applicable.

Table 16A.48

Indigenous community housing

Table 16A.48 Occupancy rates (per cent) (a), (b)

	NSW (c)	Vic	Qld (d)	WA (e)	SA (f)	Tas	ACT	NT	Aus Gov (g)	Aust (h)
2005	na	na	na	na	na	na	na	na	na	na
2006	96.6	..	95.7	77.9	88.3	..	95.7	87.0	94.1	89.6
2007	98.3	..	100.0	91.0	89.0	..	100.0	na	94.9	96.2
2008	96.0	99.1	98.1	na	93.3	..	100.0	100.0	96.6	98.3
2009	99.2	97.9	96.8	89.8	87.7	..	100.0	na	95.3	96.5

(a) Data may not be comparable across jurisdictions and over time and comparisons could be misleading. This is due to a change in scope of the ICH collection in 2007-08, variations in the ICHOs that respond to the survey, or for which jurisdictions can provide data, and variation in the way ICH operates in each jurisdiction. Organisation and household information may vary considerably because of the policy and program environment and the nature of the sector. Further information about the data in this table can be found at www.pc.gov.au/gsp/reports/rogs/2011.

(b) Calculations only include those dwellings for which occupancy status was known.

(c) Total number of occupied permanent dwellings was derived by extrapolating proportionally for the whole ICHO sector, using the number of permanent dwellings managed by ICHOs that renewed registration with Aboriginal Housing Office and were occupied as at 30 June 2009. Caution should be applied in using this to derive occupancy rate as 52 of 74 unoccupied permanent dwellings managed by ICHOs that renewed their registration were not tenable.

(d) Data are sourced from a combination of SAP at 30 June 2009 (5 of the 6 tenancy-managed communities) and Quarterly Performance Reports (remaining communities).

(e) Calculation is based on a representative sample of 702 dwellings (of which 693 were permanent) as complete household level data was not available.

(f) Data are based on Tenancy / Asset audits captured in 2008 and 2009.

(g) Data are based on survey returns from 13 out of 22 Victorian ICHOs, 8 out of 68 Queensland ICHOs, and 1 out of 3 Tasmanian ICHOs.

(h) Australian totals may not represent national totals because data were not available for all jurisdictions.

(a) Data are not comparable over time, due to a change in methodology for 2009-10. Data for 2009-10 are for low income households in public housing paying gross income on rent, while data for 2008-09 and preceding years are rebated households in public housing paying assessable income on rent. Further information about the data in this table can be found at www.pc.gov.au/gsp/reports/rogs/2011.

(b) Amounts of up to but excluding 0.5 per cent above the cut-off for a category are included in that category. For example, if rent charged/income $\times 100 = 20.4$, then it is counted in the 'paying 20 per cent or less' category.

(c) Data for total rebated households paying 20 per cent or less, more than 20 per cent but not more than 25 per cent, more than 25 per cent but not more than 30 per cent and more than 30 per cent of assessable income in rent exclude households where either assessable income or rent charged is zero.

(d) No household is charged more than 30 per cent of income for rent. Households in these categories are the result of rent and/or income details not having been updated.

(e) No household is charged more than 25 per cent of assessable income for rent. Households in these categories are the result of rent and/or income details having not been updated or minor policy variations.

Descriptive Information**Table 16A.93 Proportion of household income spent on rent — public housing (per cent) (a), (b), (c)**

	<i>NSW</i> (d)	<i>Vic</i> (e)	<i>Qld</i> (e)	<i>WA</i> (f)	<i>SA</i> (e)	<i>Tas</i> (g)	<i>ACT</i> (e)	<i>NT</i> (e)	<i>Aust</i>
(f) Total rebated households paying 20 per cent or less, more than 20 per cent but not more than 25 per cent, more than 25 per cent but not more than 30 per cent and more than 30 per cent of assessable income in rent are based upon gross income (not assessable income).									
(g) Generally households are charged less than 30 per cent of their assessable income as rent. However, combinations of different income sources and relationships within a household may result in some households paying slightly more.									
– Nil or rounded to zero.

- (a) Data are not comparable over time, due to a change in methodology for 2009-10. Data for 2009-10 are for low income households in SOMIH paying gross income on rent, while data for 2008-09 and preceding years are rebated households in SOMIH paying assessable income on rent. Further information about the data in this table can be found at www.pc.gov.au/gsp/reports/rogs/2011.
- (b) The ACT does not have a separately identified or funded Indigenous housing program. People of Indigenous descent are housed as part of the public rental housing program.
- (c) Most Indigenous-specific housing programs in the NT are currently community managed and administered. The NT is moving to a Public Housing management framework across all regions.
- (d) Amounts of up to but excluding 0.5 per cent above the cut-off for a category are to be included in that category. For example, if rent charged/income x 100 = 20.4, then it is counted in the 'paying 20 per cent or less' category.
- (e) Data for total rebated households paying 20 per cent or less, more than 20 per cent but not more than 25 per cent, more than 25 per cent but not more than 30 per cent and more than 30 per cent of assessable income in rent exclude households where either assessable income or rent charged is zero.

Descriptive Information**Table 16A.94 Proportion of household income spent on rent — state owned and managed Indigenous housing (per cent) (a), (b), (c), (d), (e)**

	<i>NSW</i> (f), (g)	<i>Vic</i> (h)	<i>Qld</i> (h)	<i>WA</i> (i)	<i>SA</i> (h)	<i>Tas</i>	<i>Aust</i>
(f)	Since 2005-06 and with the introduction of the Reshaping Public Housing policy, moderate income renters are charged 25–30 per cent of their income as rent. Some SOMIH tenants are eligible to receive CRA and the CRA component of their income is assessed at 100 per cent for rent.						
(g)	No household is charged more than 30 per cent of income for rent. Households in these categories are the result of rent and/or income details not having been updated.						
(h)	No household is charged more than 25 per cent of assessable income for rent. Households in these categories are the result of rent and/or income details having not been updated or minor policy variations.						
(i)	Total rebated households paying 20 per cent or less, more than 20 per cent but not more than 25 per cent, more than 25 per cent but not more than 30 per cent and more than 30 per cent of assessable income in rent are based upon gross income (not assessable income).

	<i>Unit</i>				<i>Further information</i>
	2005-06	2006-07	2007-08	2008-09	
NSW (a)					NSW Community Housing Data Collection. Number of organisations exempt as outside the survey scope for 2004-05 is not available. Items from 2006-07 are adjusted for non response in data collection and therefore not comparable with previous years. The NSW Community Housing Data Collection was extended to include all long term community housing managed by a community housing provider including those directly funded by HNSW and those funded by other sources. Items reported for 2008-09 are adjusted to cover only those funded by Housing NSW based on the extended profile of community housing from the data collection and are not fully comparable to data for previous years.
Providers (less exemptions)	no. 177	192	196	179	
Respondents	no. 125	138	164	142	
Response rate	% 71	72	84	79	
Property coverage	% 90	92	86	97	
Victoria					Victoria's collection is based primarily on survey information provided by community housing agencies. Data in 2004-05 exclude the Common Equity Rental Cooperative program (32 per cent of community housing tenancies) due to incomplete data collection for this program. In 2005-06 and 2006-07 responses from two providers were not included due to incomplete information. In 2007-08 and 2008-09 the survey included providers managing joint venture arrangements.
Providers (less exemptions)	no. 177	175	182	108	
Respondents (providers)	no. 169	171	145	61	
Response rate	% 96	98	80	56	
Property coverage	% na	na	80	93	
Queensland					Queensland data for 2004-05 and 2005-06 are for organisations providing services funded under the Community Rent Scheme, Boarding House Program, Long Term Community Housing Program and the Same House Different Landlord Program. Organisations were given separate surveys for each type of funding, so some organisations completed more than one survey. In 2005-06 non-responding organisations manage a smaller number of dwellings than organisations that responded to the survey.
Providers (less exemptions)	no. 332	197	na	281	
Respondents	no. 252	118	na	171	
Response rate	% 76	60	57	61	
Property coverage	% 91	86	84	83	In 2006-07 data are for Long Term Community Housing (LTCH), Community Rent Scheme (CRS), Boarding House Program (BHP) and the Brisbane Housing Company (BHC). The CSHA survey used in previous years was replaced in 2006-07 by administrative data (for BHC, BHP and CRS) and a tenant unit record data collection (for LTCH). Coverage was: LTCH, 56 per cent of providers (152 out of 273), managing 75 per cent of dwellings; CRS, 100 per cent of providers (32) and dwellings; BHP, 80 per cent of providers (12 out of 15) managing 83 per cent of dwellings; BHC, 100 per cent of dwellings.

In 2007-08 data are for the LTCH, the CRS the BHC and the Community-Managed Housing — Studio Units (CHSU). Coverage was: LTCH, 54 per cent of providers, managing 67 per cent of dwellings; CRS, 100 per cent of providers and dwellings; CHSU, 100 per cent of providers and dwellings; BHC, 100 per cent of dwellings.

Descriptive Information**Table 16A.103 Community housing survey response rates and associated information**

	<i>Unit 2005-06 2006-07 2007-08 2008-09</i>				<i>Further information</i>
	In 2008-09 data are for the LTCH, the CRS the BHC and the CHSU. Coverage was: LTCH, 55 per cent of providers (131 of 237), managing 63 per cent of rental units; CRS, 100 per cent of providers (24) and rental units (1817); CHSU, 79 per cent of providers (15 of 19) and rental units (896 of 1150); BHC, 100 per cent of providers (1 provider) and rental units (742). Data combine administrative data, a limited unit record collection for each dwelling, and collections of summary data depending on the capacity of each housing program. Figures for tenancies have not been scaled upwards to reflect any non-response to data collections. Figures for property counts and financial data have been scaled upwards to account for non-response.

Rebated rent setting								
Rent-to-income ratio (%)	25–30	25	25	23 or 25	25	23–25	25	14–23

(a) At 30 June.

(b) Interest accrued from cash assets is assessed as income less the first \$5000 of each person's savings. Applicants under the age of 18 years must demonstrate living skills to be eligible for housing. Tenants housed prior to 1 July 2005 were generally provided with a continuous lease. New tenants housed since 1 July 2005 are generally provided with a fixed term lease. New tenancies from 1 July 2005 to 22 October 2006 were signed to 18 month interim tenancies. Tenants on an 18 month fixed term lease are reviewed prior to the end of lease, and if eligible, are offered a 2, 5 or 10 year lease. If ineligible, they are offered a 12 month fixed term lease. From 23 October 2006 the Department began to offer 2, 5 or 10 year leases to new tenants and ceased to offer the 18 month interim leases.

From 5 December 2005 new thresholds and rules determine whether a tenant is eligible for a rent subsidy and the percentage of income they will pay as rent. Their household's gross assessable income, household size and age of household members are used when assessing the household's eligibility for a rent subsidy. For rebated rents, varied concessional rates are applicable to certain age groups and some pensioners. For households receiving Family Tax Benefits Part A and Part B paid by Centrelink, these payments are assessed at 15 per cent.

(c) Public housing tenancies in Victoria are ongoing tenancies that are subject to review after 5 years for tenancies which commenced after November 1997 (exemption for 65 years plus). For households that require major disability modifications, discretion may be applied to extend the asset limit to \$60 000. Rent to income ratios are: 22.7 per cent of general pension income, 25 per cent of other general income and 14 per cent of Centrelink family payments.

Descriptive Information**Table 16A.104 Public housing policy context, 2010 (a)**

	NSW (b)	Vic (c)	Qld	WA (d)	SA (e)	Tas (f)	ACT (g)	NT (h)
(d)	Income limit for those in north west remote areas is \$610 per week. Those aged over 60 years are subject to a cash asset limit of \$80 000. A rent to income ratio of 23 per cent can apply for groups such as seniors, people with disabilities and people living in remote locations.							
(e)	The same definition as the Centrelink asset test threshold for a single person who does not own their own home is used. Most households pay a rent to income ratio of 25 per cent of assessable income in rent, except aged residents in cottage flat and bedsetter flat accommodation (for whom the ratio is 19 per cent and 17 per cent respectively) and households receiving less than the single Newstart Allowance (for whom the ratio is 19.5 per cent).							
(f)	The rent-to-income ratio is indicative only. The majority of households pay amounts within this range, but some pay lesser or higher amounts, depending on household composition and the relationship of household members to the tenant, for example, boarder, parent, independent child.							
(g)	The revised Public Housing Program provides for a review where a tenant's income exceeds \$80 000 for three consecutive years.							
(h)	There is discretion to accept applications for people under 16 years.							
(i)	Limits are for a single person. Other limits apply for different household types.							
(j)	Two segment lists generally consist of 'priority' and 'wait turn'.
